Reviews by: Kirkus Reviews When letters on pages flip around faster than her tumbling routines, a young girl tries to perfect a tricky skill in this verse novel. Claire excels at gymnastics and plans to compete at the state championship soon. But she struggles with reading and writing skills and feels that a fifth grader like her should be able to do what her 5-year-old cousins easily can. She gets by with a stellar memory, her best friend, Emma Lea, writing out her homework, and good improvisation skills. Still, Claire's teacher chastises her for both her schoolwork and her frustrated outbursts in class. Her divorced parents can't help much, what with her dad living across the country and her mom refusing to believe Claire could have a learning disability. Thankfully, a supportive vice principal, Emma Lea, her team, and Claire's older sister all make an effort to help Claire push through her learning disability, which she desperately wants. The resolution feels a tad rushed, but it's an uplifting one nevertheless. Designed with accessibility in mind (the typeface is meant to be easily decoded), the text stresses that learning disabilities are in no way a bad thing. Fullerton offers readers a glimpse into what it's like to try to read with difficulties. Based on the occasional illustrations, Claire and her family are light-skinned, while Emma Lea is dark-skinned. A positive representation of perseverance. (Fiction. 8-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Fullerton (No More Plastic) authentically and compassionately portrays cued-white fifth grader Claire's experience with dyslexia in this easily digestible verse novel. Claire excels at gymnastics and can pick up a routine faster than anyone in her gym. But at school, her difficulty reading ("Letters/ float, blur/ backward/ forward/ upside down/ all mixed up"), coupled with her classmates' jeers, causes self-doubt. When vice principal Mr. McKay suggests she may have a learning disability, Claire is eager to undergo evaluation; her mother, however, who believes Claire just isn't trying hard enough, refuses to get her tested. With help from her gymnastics teammates, older sister, best friend, and Mr. McKay, Claire is empowered to advocate for herself and what she needs to succeed. Printed in a typeface formatted for those with reading challenges, Fullerton's flowing verse adeptly captures what dyslexia is like for Claire alongside her frustration around convincing her mother that she's trying hard but needs assistance. This insightful story carries a strong message for teachers, caregivers, and children alike, and Mensinga's emotive illustrations provide depth throughout. Ages 8: 12. Agent: Deborah Warren, East West Literary Agency. (July)

Reviews by: School Library Journal Gr 3–7—Fifth grader Claire is a successful competitive gymnast, but she is unable to find the same success in school. She compensates for her inability to read by getting her best friend Emma Lea to do her homework and by listening to audiobooks to complete book reports. Her embarrassment in class leads to conflict with her teacher, and classmates begin to bully Claire. The vice principal, Mr. McCay, suspects Claire has a learning disability, but Claire's mother refuses to let the school test her. Fortunately, Claire receives support from her older sister, her best friend, and her gymnastics teammates. The book, based on the author's personal experience growing up with dyslexia, offers an authentic portrayal of children with learning disabilities. Readers will empathize with Claire as she struggles with feeling "stupid" and will support her journey. The quick-moving plot comes with a satisfying ending, and the free-verse narrative provides plenty of helpful white space for reluctant readers. Claire appears white, and her friend Emma Lea appears Black in the black-and-white illustrations. VERDICT Recommended for students seeking realistic fiction about characters with learning disabilities similar to Alyson Gerber's *Focused*, and for those who enjoy reading books written in free verse.—Maile Steimer

#2267359 Boy Who Met a Whale (Hardcover (Trade))
written by Nizrana Farook

Razi, a local fisherboy, is watching turtle eggs hatch when he sees a boat bobbing into view. With a chill, he notices a small, still hand hanging over the side. Inside is Zheng, who's escaped a shipwreck and is full of tales of sea monsters and missing treasure. But the villains who are after Zheng are soon after Razi and his sister, Shifa, too. And so begins an exhilarating escapade in the shadow of the biggest sea monster of them all.

1	\$16.99

Reviews by: Booklist Grades 4-7 After his father's death at sea, former fisher boy Razi wants nothing more to do with the ocean. He prefers

peaceful mornings on land, observing sea turtles on a deserted Sri Lankan beach. When a seemingly empty vessel drifts into view, Razi is shocked to spot an unconscious passenger. He rescues a bedraggled Zheng, fresh off a shipwreck and clinging to life. As Razi and his twin sister help Zheng regain his strength, they are taken with his outlandish seafaring stories, but it becomes apparent that there are dangerous people in search of Zheng and his mysterious treasure map. With a priceless cultural artifact at stake, the skeptical trio must learn to trust one another, and Razi must find the courage to trust the sea. It's a thrilling, old-fashioned treasure hunt, and the Sri Lankan setting makes familiar arcs feel fresh. Short, action-packed chapters keep things moving at a fast clip, while lush descriptions and flashes of beauty (including an astonishing encounter with the titular whale) will keep readers absorbed. A proper adventure story with a tender heart. COPYRIGHT(2021) Booklist, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews Two siblings become embroiled in a dangerous adventure after meeting a mysterious young boy. In her sophomore novel, Farook returns to Serendib, her fictionalized version of Sri Lanka. When readers first meet Razi, he's watching baby turtles as they venture out to sea. Moments later, a foreign rowboat appears with a sunburned, barely conscious, and desperately hungry boy named Zheng inside. A former deckhand, polyglot Zheng just narrowly escaped an attempted poisoning and shipwreck through sheer good luck. It becomes apparent that he's keeping a dangerous secret and that it's related to a package he's hiding. Razi and his sister, Shifa, will need to help him if he is going to survive. However, Razi and Shifa are dealing with grief, and Razi, despite being a member of a tightknit fishing community, has avoided the water since a recent family tragedy. But when he realizes that reacquainting himself with the ocean is necessary in order to save Zheng, he and Shifa set sail. Zheng's secret alludes to the harm of colonization in a way that middle-grade readers will understand. Additionally, the scenes where the trio is dodging danger are just the right amount of scary. Razi's love and connection with animals lead him to meet the whale of the title, who serves as a wonderful protector that readers will be drawn to. An exciting and appealing page-turner. (map) (Adventure. 8-12) COPYRIGHT(2021) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly In Farook's (The Girl Who Stole an Elephant) second outing set on the beautiful, Sri Lanka-inspired island of Serendib, the lives of grieving fisher boy Razi and his sister Shifa are further upended by the arrival of Zheng, a loquacious seafaring child who claims to be on the run from two villainous thieves after escaping a shipwreck. The siblings are skeptical of Zheng's tales but soon find themselves on a maritime adventure featuring an ancient dagger, a sea vessel chase, and an encounter with the titular whale. Farook draws from Sri Lankan geography, ecology, and culture, punctuating the text with vivid descriptions of Indian Ocean port city Galle, marine life, Razi's fishing village, and delicious Sri Lankan foods. Razi's wonder at the natural beauty and fauna of the island never fails "to amaze him and lift his spirits," brightening this treasure hunt tale, which offers a fantastical, fresh take on familiar tropes. Ages 8: 12. Agent: Joanna Moul, Skylark Literary. (Feb.)

Reviews by: School Library Journal Gr 3-5—When Razi slips down to the beach early one morning to watch the hatchling sea turtles scurry to the safety of the sea, he finds a boat drifting near shore. In the boat, he discovers a boy, unconscious, parched, and covered with salt. Just as Razi pulls Zheng to safety and places him in the shade of the coconut trees, he encounters two nefarious-looking men searching for the boy, whom Razi quickly misdirects. When the beguiling Zheng regains consciousness, he quickly charms Razi into the adventure of his life. The two 12-year-old boys, along with Razi's twin sister, Shifa, set off to recover buried treasure ahead of the pair of villainous crew members from Zheng's storm-sunk ship. The story unfolds like a luminous fairy tale, enhanced by the ebullient Zheng, whose stories the twins find almost too outlandish to believe. Farook invokes the beauty of her native Sri Lanka with sparkling descriptions of island and sea. The intrepid trio manage to outwit their enemies with some quick thinking and a few assists from sea creatures, including the titular whale. Along the way, the three find more than the jeweled Dagger of Serendib; they find themselves. Each youngster ends up a wiser, better person: orphan Zheng finds a family, Razi rediscovers his love of the sea, and Shifa learns to trust. Like the sea turtles Razi loves, each child experiences growth on the sea, but also a pull back to the island. VERDICT This lyrical story, reminiscent of Salman Rushdie's Haroun and the Sea of Stories will be appreciated by all lovers of adventurous fairy tales.—Nancy Nadig, Penn Manor S. D., Lancaster, PA

#2284346 For the Record (Hardcover (Trade))
written by Monique Polak

Twelve-year-old Justine's parents are recently divorced. She and her little sister, Bea, go back and forth between their parents' homes in Montreal. Their mother, whose anxiety manifests as the need to control, believes that their father and beloved half-sister are a bad influence on Justine and Bea. So, she enlists Justine in collecting evidence that would lead to getting sole custody. But when Justine crafts an outright lie for her mother's court case, she starts to question her mother's behavior, and her own.

978-1-77147-437-5 Owlkids Books ©2022 5 x 7-3/4 256 pgs.
 Grades 3 - 6 Dewey# Fic Lexile 620

Reviews by: Booklist Grades 4-6 A desperate 12-year-old takes sides in her parents' messy divorce in this complicated and emotionally informative middle-grade novel. Shuttled between two homes, Justine keeps a secret notebook in which she tracks "all the stuff Dad does wrong--or when he's negligent," ammunition for her bitter mother's custody battle. Justine, fearing the return of her mom's gripping anxiety, lies about a harrowing incident at her dad's, which accelerates a court date. As Justine's pride about her notebook of transgressions morphs into keen

discomfort, a lawyer and a judge help Justine see her mother's manipulation for the cruelty it is. No stranger to tackling tough topics, Polak (Planet Grief, 2018) spells out Justine's emotional journey, which will also resonate with readers sensitive to the weighty subject of parental alienation, expounded on in an author's note and resources. Short chapters and a contemplative first-person narration drive the story's pacing, and a supportive network of friends and relatives offers constant reassurances. A solid addition to upper-elementary collections and an especially good selection for children navigating family dissolutions. COPYRIGHT(2022) Booklist, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews A distraught 12-year-old makes iffy choices in the midst of an ugly custody battle. Justine's emotional turmoil is understandable as she and her little sister, Bea, shuttle between their fun-loving but careless, twice-divorced dad and hyperanxious, controlling, neat freak mom. It's the latter's continual codependent demands that lead Justine to think that she has to choose between the two. She makes lists of her dad's supposed parenting failures in a notebook to pass on to her mother--and finally, when he barely prevents Bea from running out into traffic by grabbing her hard enough to leave bruises, lies about the circumstances, dubbing it a violent incident. That earns a date in family court, which leads to a confession and, if not a tidy resolution, at least a reasonable compromise. Polak offers carefully nonjudgmental portraits of both parents as flawed in different ways (and profoundly incompatible) but loving; neither is the unalloyed bad or good guy. That leaves room to focus on Justine's emotional landscape, and it's charting her dawning realization that it's not her job to be the grown-up that will give this particular value for readers caught in similar breakups. The author includes a perspicacious child lawyer and equally canny judge (both of whom understand exactly what's going on and properly prioritize the needs of the children) in her evidently all-White cast. She also closes with resources for both children and adults about parental alienation syndrome. Sad--but frank, supportive, and properly free of easy answers. (Fiction. 9-13) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 5-7—Family dynamics are central to the story of 12-year-old Justine and her four-year-old sister Bea as they go back and forth between the homes of their divorced parents in Montreal. At their mother's condo, things are strict and controlled because of mom's anxiety. At their dad's house the rules are more relaxed, but Justine's mom thinks her dad and older half-sister Mariella are a bad influence on the girls. Justine begins gathering evidence about her dad's neglect so that her mom can get sole custody, thinking it will help her mother feel better, and stop her migraines and all of the yelling directed at her. Her detailed notes go from things like her dad not sticking to the strict bedtime and serving sandwiches on white bread, to crafting a lie about physical abuse to help her mother's court case. As lawyers get involved and the case moves forward, Justine begins to question her mom's behavior and whether she should be helping her. Characters are cued as white; Justine's father is of French descent and there are a few words regional to Canadian dialect that might be unclear for American readers. The author thoughtfully and honestly explores the realities of divorce, anxiety, and how kids are impacted by parental behavior. Justine's voice will grab readers as she navigates changing family situations and the importance of sharing the truth. VERDICT Purchase for collections where family stories are popular. Children with divorced parents will see themselves reflected in Justine's nuanced story.—Sarah Polace

#2299186 Dan Auta: An African Tale (Hardcover (Trade))

written by Jose Ortega Gasset

When Sarra's parents die, they leave her with an important warning: never let Dan Auta, her little brother, cry. But Dan Auta loves to make trouble. He hitches a ride on the back of a bird, pokes the eye of the king's son, and even pees on the king's head. Making sure he doesn't cry is much harder than Sarra thought! But Dan Auta's unbridled curiosity and determination may be exactly what everyone needs: a terrible monster called the Dodo is attacking the city... and Dan Auta is the only one with the courage to take him on.

Grades 3 - 6 Dewey# Fic Lexile 600

Quantity	Unit Price
1	\$18.95

Reviews by: Booklist In this hilarious and subversive translation of a Hausa folktale, a mischievous child sows chaos but, rather than suffer for his transgressions, comes out on top in the end. Charged by her dying parents to never let her little brother, Dan Auta, cry, Sarra comes back from an errand to see that in a fit of boredom he's burned all their food. Rather than punish him, she takes him to a city where he manages to poke out the eye of the king's son, pee on the king, and enrage and then slay a monster called the Dodo. Grobler dresses his small, brown-skinned, comically animated figures in at least an approximation of traditional West African styles and scatters them over the pages among narrative passages, snatches of dialogue, and explanatory labels, mostly for Hausa terms. Wide-eyed readers may have trouble deciding whether to cheer or boo the cheeky troublemaker, but they will definitely feel for his long-suffering sister. A source note at the end retraces the course of this particular version through multiple translations.

#2299220 Berani (Hardcover (Trade))

written by Michelle Kadarusman

Malia has had a privileged upbringing in Indonesia, but since her Indonesian father died, her Canadian mother wants to return to her own family on the other side of the world. Besides, if she leaves, how can she continue to fight for her country's precious rainforests? Ari knows he is lucky to be going to school and competing on the chess team, even if it means an endless round of chores at his uncle's restaurant. Back in his home village, he and his cousin Suni dreamed about getting a chance like this. But now he is here without her, and the guilt is crushing him. As if that weren't enough, he's horribly worried about Ginger Juice, his uncle's orangutan. The too-small cage where she lives is clearly hurting her body and her mind, but where else can she go? The rainforest where she was born is a palm oil plantation now.

978-1-77278-260-8 *Pajama Press* ©2022 5-1/2 x 8 224 pgs.

Grades 4 - 7 Dewey# Fic AR Lvl 5.0 AR Pts 5.0 Lexile 760

Reviews by: Booklist Grades 4-7 Seventh-graders Malia and Ari seem unlikely to cross paths. Malia has had a privileged upbringing at one of Indonesia's best schools, and Ari is grateful to be attending a less prestigious academy in a neighboring town. But one subject binds them together: orangutans. Malia is an outspoken critic of palm oil plantations that decimate the apes' rain forest home, while Ari has a deep affinity for his uncle's caged pet orangutan, Ginger Juice, along with guilt about her captivity. When the kids' lives finally overlap, a series of events changes their lives--and Ginger Juice's fate--in ways they never could've imagined. The expansive story, nimbly told from both human and orangutan viewpoints, gives glimpses into different class, race, and even species experiences while introducing readers to life in Indonesia and the plight of the orangutans. Ari and Malia are warm and well-intentioned guides, and it's impossible to resist Ginger Juice's gentle charms. A compelling call to action and a crucial reminder that, while doing what is right is not always easy, it is always worthwhile. COPYRIGHT(2022) Booklist, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews Inspired to help orangutans facing habitat destruction for palm oil agriculture, Malia disregards her teacher's warning and circulates a petition through her private school in Surabaya, Indonesia. The seventh grader garners peer support, but the petition falls afoul of the government's pro-palm oil stance, resulting in both Malia's and her teacher's suspensions. Meanwhile, Ari has moved to the city to work in his uncle's restaurant and attend middle school. Ari feels guilty for his good luck and even more guilty as he looks after Ginger Juice, the sad-eyed orangutan trapped in a too-small cage at the restaurant. Ari feels helpless until he learns about Malia's petition, which offers information about rescuing captive orangutans. All the while, Ginger Juice dreams of the jungle and her lost mother. Told through alternating viewpoints, Malia's and Ari's chapters detail the corruption, inequities, and prejudices that are obstacles to activism as well as the differences between Ari's village life and Malia's privileges. Ginger Juice's sections, written in stilted language, do communicate the awful nature of her plight but also tend toward depicting orangutans as less-intelligent humans as opposed to fully competent beings who are intelligent in their own ways. By contrast, the portrayal of Malia's experiences as the biracial daughter of an Indonesian father who has passed away and a White mother from Toronto is nuanced and well integrated into the larger plot. A stirring introduction to the plight faced by orangutans. (map, glossary, orangutan information and resources, author's note) (Fiction. 8-13) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Grades 4 - 6 Dewey# Fic Lexile 630

Quantity	Unit Price
1	\$16.95

Reviews by: Booklist Grades 6-9 While the nine stories in this appealing book are varied in many ways, all feature likable main characters facing realistic dilemmas, nearly all are told from a boy's point of view, and most are written in the first person. In *The Pledge*, two terrified 12-year-old boys set out to atone for a boneheaded prank they carried out three years earlier and end up solving a recent mystery. *The Journey to Ompah* concerns a father-son road trip that takes an unexpected turn, showing the boy that a little firsthand knowledge can provide a great deal of useful insight into his family. And in *The Brotherhood of Interstellar Dirt*, a birthday sleepover during a meteor shower turns into a sleepless night outdoors with unexpected drama and a satisfying conclusion. Readers familiar with Wynne-Jones' previous short-story collections, such as *Some of the Kinder Planets* (1995) and *Lord of the Fries and Other Stories* (1999), will come to this one expecting originality, wit, and humanity. They'll find all that and more in these often surprising, always rewarding stories. (Reprinted with permission of Booklist, copyright 2020, American Library Association.)

Reviews by: Horn Book Guide Most of the protagonists in these nine short stories are twelve years old and bumping into the realities of human nature -- their own personalities and those of the people around them. In the title story, set in 1964, Rex (from Wynne-Jones's *Rex Zero* novels) is on a family vacation when he tangles with bullying older teen Skip at the motel pool. Compassion dawns as Rex catches on to the teen's fear: the United States is newly at war with Vietnam, and Skip has just registered for the draft. The next hero, Ant, can't resist telling people about the names of creatures he sees hidden in their names (for instance, classmate Vera Best has the letters of the word beaver in hers) and is mystified by how something so interesting might offend them. All nine stories are told in first person, so the situations the narrators find themselves in (such as dealing with an elderly adult with dementia, or a father who has changed personality) are vividly conveyed, as the reader always understands the protagonist's perspective. The settings -- or landscapes, as Wynne-Jones calls them in his lengthy afterword -- are another strength. Varied, funny, and often very touching, this is a fine collection, perfect for reading aloud. (Copyright 2020 by The Horn Book, Incorporated, Boston. All rights reserved.)

The Horn Book, Inc., a wholly owned subsidiary of Media Source, Inc.

Reviews by: Kirkus Reviews Nine short realistic stories make up this collection set (mostly) in various Canadian locales. Though all but the first seem to be contemporary, many of the issues their protagonists struggle with are timeless. The titular, Vermont-set "War at the Snow White Motel" features Rex from Wynne-Jones' *Rex Zero* trilogy in a nuanced tale filled with dry humor that paints a smaller portrait of the very real everyday fears experienced by a brainy, anxious kid against a backdrop of the 1964 Gulf of Tonkin incident. Others reference specific modern experiences, like the thought-provoking "Ant and the Praying Mantis," which involves characters interested in Greta Thunberg's #FridaysForFuture movement or in "Jack," in which a boy who is tormented at school describes anti-bullying campaigns like those common in many schools today. Collectively, these stories poignantly explore the navigation of the complicated territory of peer dynamics and changing families through the lens of main characters who are smart misfits, almost all of whom are younger teen boys who seem to default to white. Clever dialogue and genuine, messy relationships among kids and their parents and friends as well as with older relatives who are dealing with dementia will ring true for readers who share these experiences. Author's notes on each story are included in the afterword. An intelligent, emotionally resonant collection. (Short stories. 10-14) COPYRIGHT(2020) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Each thought-provoking short story in this collection by Wynne-Jones (*The Starlight Claim*) features a different boy navigating a decisive situation with grace and resolve. Most of the tales are contemporary and set in Canada, but the titular one highlights Rex (from the author's *Rex Zero* trilogy), whose family travels to Vermont in 1964, where, while staying in a fairy tale: themed motel, Rex encounters a young man who registered for the draft just as America is entering into Vietnam. "Ant and the Praying Mantis" proves particularly topical when the main character, Anthony, learns about Greta Thunberg, climate change, and FridaysForFuture while trying to befriend a new girl at school. The powerful "Journey to Ompah" sets Michel and his father on a trek to find a rare bird and unearths a secret about his father's past that shines light on his dad's upbringing and character. And in "Jack," the protagonist experiences bullying and develops unexpected empathy for his attacker. An interesting author's afterword offers insight into the creation of each narrative. With a nostalgic, wholesome feel, these stories offer tales of quiet courage. Ages 9: 12. (May)

1	\$18.95

Reviews by: Publishers Weekly Gracefully translated by Epstein, this illustrated biography of Swedish painter Berta Hansson (1910: 1994) traces a rural childhood that twines tragedy with the burning desire to create art. Berta loves to draw, but she lives on a farm, where art is a luxury not to be thought of; especially since her mother is bedridden with tuberculosis. The family doctor recognizes Berta's talent, but her father dismisses it. She considers her future with only scraps of inspiration; a Sistine Chapel picture from her uncle, paintings glimpsed through a window. In verse and dozens of poignant, intimate gouaches, Lundberg shows Berta's family at their tasks, the countryside around their farm, and images of Berta drawing and molding clay, forming small bird shapes that symbolize her readiness to take flight. Lundberg's handsome biography of self-discovery remembers an artist who came to know without a doubt who she was meant to be. Ages 9: 12. (May)

Reviews by: School Library Journal Gr 2–6—This fictionalized biography depicts Swedish artist Berta Hansson's childhood. Told in verse, the text chronicles the events leading up to Hansson's departure from her village as a young woman in 1927. Hansson wanted to continue her education and pursue her interest in art; she was expected to stay and help with the family farm until she got married. Her passion for art, however, couldn't be suppressed. Hansson's uncle, who was a painter himself, inspired his niece. The family doctor, who noted and nurtured Hansson's talents, also supported her. Ultimately, her father gave her permission to leave the farm and embark on an art career. The illustrations, done in gouache, collage and watercolor, add context and detail to the story, allowing for the passage of time and change of place without explicitly naming these transitions. The power of Hansson's story comes through the matter-of-fact first-person narration (informed by her diaries) and is enhanced by Lundberg's illustrations, which echo Hansson's art. A lengthy afterword continues and completes the details of Hansson's journey to becoming a prominent expressionist; photographs and original artwork are included. **VERDICT** Anyone who has cultivated a dream that defies societal demands and cultural expectations will appreciate this affecting story of a young girl's struggle to achieve her creative aspirations. Recommended for larger collections to supplement artist biographies.—Lynn Van Auken, Oak Bluffs Sch., MA

#2256642 Burying the Moon (Hardcover (Trade))

written by Andree Poulin

In Latika's village in rural India, there are no toilets. No toilets mean that the women have to wait until night to do their business in a field. There are scorpions and snakes in the field, and germs that make people sick. For the girls in the village, no toilets mean leaving school when they reach puberty.

1	\$19.99

Reviews by: Horn Book Magazine In this powerful verse novel, Latika loves school, but she knows that when she turns twelve she will be forced to quit. The reason? Toilets. In her rural Indian village there are no toilets; women and girls must relieve themselves in fields after dark to avoid "shame." As she approaches puberty, she wants to "stop time / to stay a little girl" so she can continue her education without the complication of menstruation. When an engineer from the city installs a water pump for the village, Latika breaks the taboo and tells him about how the issue affects women's health and girls' access to education. Latika gives voice to something unspeakable and risks censure, but her bravery forces change and lasting improvement. She no longer wishes to "bury the moon" for the light it shines onto a supposedly shameful act but learns instead to view

its light as friendly and useful. Emotive illustrations throughout employ deep, rich black and blue hues with bold accents in pinks and purples, accentuating the moonlight. Short poems allow for a powerful exploration of a variety of social issues, all linked to access to toilets and yoking together contradictory elements (fragile but strong; fearful but brave). An appended author's note explains that toilet access is a global problem affecting over four billion people. Julie Hakim Azzam November/December 2021 p.113(c) Copyright 2021. #2348399 Game Face (Hardcover (Trade))

written by Shari Green

What-ifs rattle around his brain at the worst times, like when he's in the middle of a playoff game. What if he lets his teammates down? What if he can't make it pro? And the biggest what-if of all, the one he keeps to himself - what if he's like his dad, whose life is controlled by anxiety that has only gotten worse since Jonah's mom died in a car crash?

Reviews by: Kirkus Reviews An eighth grade goalie plagued by anxiety both on and off the ice finds help and coping strategies. Casting his record of miseries into accessible free verse poems and haiku, with occasional ventures into rhyme, Jonah Vanderbeek tracks his increasing tendency in the years since his mother's sudden death to respond to stress by going stubbornly silent or exploding in rage. Jonah, who is cued as being of Dutch descent, also chronicles inner struggles with fear of failure so intense that at one point he throws up during an ice hockey game--then later comes close to quitting the sport out of guilt when his best friend collapses and is forced to give up his NHL dreams due to a heart condition. The discovery that his distant, repressive dad is actually struggling with an anxiety disorder so severe that he can't work in an office or come to any of Jonah's games is just one more dismal development. Timely if predictable help comes in the form of Rosamie Garcia, an improbably sensitive and tolerant Filipino classmate; a wise school counselor evocatively named Ms. Rogers; and Jonah's own Oma--who steer him toward the realization that there are always helpers. By the climactic championship face-off, he's found ways to keep "the alien / in my brain" at bay, so that win or lose "I'll be okay. // I'll be okay." An unvarnished problem-focused novel with occasional doses of quick ice hockey action. (Verse fiction. 10-13) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

#2159521 Crossing the Farak River (Hardcover (Trade))

written by Michelle Aung Thin

For Hasina and her younger brother Araf, the constant threat of Sit Tat, the Myanmar Army, is a way of life in Rakhine province--just uttering the name is enough to send chills down their spines. As Rohingyas, they know that when they hear the wop wop wop of their helicopters there is one thing to do--run, and don't stop. So when soldiers invade their village one night, and Hasina awakes to her aunt's fearful voice, followed by smoke, and then a scream, run is what they do.

Quantity	Unit Price
1	\$18.95

Reviews by: Booklist Grades 6-8 Fourteen-year-old Hasina likes playing soccer, studying geometry, and being with her family in their multiethnic town of Teknadaung in the state of Rakhine on the coast of Myanmar. But all of this falls apart when a military occupation targeting the Muslim Rohingya population sets the neighborhood on fire, separating the family. Suddenly, Hasina is responsible for keeping her younger brother and cousin safe, even as she worries about the rest of her family. The author, aware that ethnic and religious divisions are easily sown by the media, ignorance, and fear, packs a great deal of information into this compelling story that will educate readers on a real, ongoing situation while also building empathy. A variety of characters embodies the array of attitudes towards the Rohingya in an all-too-familiar tale of communities torn apart by political interests. Hasina is a brave and resourceful protagonist, and her brother, Araf, adds a touch of levity to this otherwise heavy story of loss, displacement, and war.(Reprinted with permission of Booklist, copyright 2020, American Library Association.)

Reviews by: Kirkus Reviews When helicopters of the Sit Tat, Myanmar's army, arrive in their northern Rakhine province town, 14-year-old Hasina fears for her family and their Rohingya Muslim community. State broadcasts depict the Rohingya as "Chittagonian Bengali Muslims," foreign terrorists, and attempt to pit Buddhist and Muslim neighbors against one another. When the Arakan Rohingya Salvation Army clashes with the Sit Tat, the latter immediately retaliates with violence, burning Rohingya homes. Hasina, her 6-year-old brother, and her 13-year-old cousin, flee into the forest, her father charging Hasina to keep them all safe and promising to come for them. But after days in the forest avoiding soldiers,

the children make their way back only to find the adults gone, possibly rounded up. As Hasina desperately seeks to learn where the adults have been taken or if they are even alive, she must also figure out how the children can survive and stay safe even as people try to exploit them--or worse. In this novel, Burmese Australian author Aung Thin introduces young readers to the plight of the Rohingya, alluding to the horrors and violence of targeted persecution while also addressing how decades of authoritarian and military rule have affected the entirety of the country. An abrupt ending jars readers but emphasizes that for children in conflict zones, safety is elusive. Characters are Rohingya, Mro, and Burmese; Islamic terms are localized to both Rohingya language and context. An urgent, timely narrative. (author's note, timeline, glossary, resources) (Fiction. 11-15) COPYRIGHT(2020) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 6 Up—Drawing upon historical research and personal family history, Thin crafts a compelling story of life in the Rakhine province. Myanmar is a country in crisis, and 14-year-old Hasina's life is forever changed the day the helicopters arrive. It starts with a sinking feeling in her stomach, and shortly after the soldiers take over her entire village, rounding up all who identify as Rohingyas. As her community burns, Hasina escapes with her brother and cousin to the nearby forest. Motivated by her father's last words to keep the family together, Hasina wonders: Will their parents find them? Where will they go? How will they survive? Readers will find themselves gripped by the novel's rapidly changing events. While the plot touches upon difficult topics like human trafficking, violence, and death, they are referenced at a level appropriate and accessible for middle grades. Thin includes a time line, geographical resources, and a glossary to help readers better understand the ongoing conflict among the Arakan Army, Muslims, Buddhists, Burmese, and Rohingyas. VERDICT This title offers high readability and lends itself to nonfiction pairings exploring the cultural history and governance of Myanmar. A must-purchase for all middle grade libraries focused on building a diverse collection featuring complex world issues and #OwnVoices authors.—Monica Cabarcas, Albemarle High School, Charlottesville, VA

 <p>#2322298 Breath of Mischief (Hardcover (Trade)) <i>written by MarcyKate Connolly</i> Aria is raised by the Wind. She grew up in a castle, floating among the clouds with creatures of the air, and spends her days racing and soaring through the sky with her best friend, Gwyn, a young gryphling. At night, she falls asleep to the music of the Wind. But one morning the chimes are silent, there is not a breath of breeze, and their castle has settled on the ground. The Wind has vanished. 978-1-7282-5686-3 Sourcebooks, Incorporated ©2023 5-1/2 x 8 224 pgs. Grades 4 - 7 Dewey# Fic</p>	1	\$16.99

Reviews by: Booklist In this world, there are humans who live ordinary human lives, and there is a world of fantastical creatures that exist just in stories. Aria is a windling, a child of the wind. As a windling, she lives in a castle that floats high up in the clouds, and hangs out with all manner of flying creatures. But one day she awakes to find that the wind is gone, she can no longer float, and her castle is literally grounded. In her epic search for her parent, she meets some good and bad humans and the other otherlings, whose parents are the water, fire, and earth. Many stories about fantastical beings focus on saving the world while being unseen by humans, but until the elements were abducted, the otherlings simply moved and acted within their own realms, taking care of the creatures in their own domain and learning from their parents. This hero's-journey-style story, written in the first person, is a total page-turner and a fresh perspective in the world of fantasy.

Reviews by: Publishers Weekly Narrator Aria, who is pale with blue-tinged skin and hair, has long lived with the Wind, which claims her as their daughter. It's a life the young windling loves; dwelling in a floating cloud castle and traversing the world with young gryphling companion Gwyn; until Aria awakens one morning to air unmoved by the slightest breeze. The castle is grounded, its aviary chimes have gone missing, and the Wind cannot be summoned. Heading west to seek the element, Aria and Gwyn find the Wind trapped within a vast, overgrown estate in a machine of

glass and metal. The creation's inventor, Worton, claims to be bringing harmony to the world, and offers a bargain: if Aria retrieves three fabled treasures before the moon wanes, Worton will free the Wind. Deprived of their customary ease of travel, Aria and Gwyn undergo terrifying challenges, encounter youths connected with the other elements; Fire, Earth, and Water; and together fight against a hidden agenda that's poised to doom the land. For fans of Hayao Miyazaki, this straightforwardly plotted, elementally anchored adventure quest from Connolly (the Hollow Dolls duology) couples cloud turrets and terrestrial wonder with a memorable tone and an ecologically aware narrative. Final art not seen by PW. Ages 8-13. Author's agent: Suzie Townsend, New Leaf Literary. (Apr.)

#2348837 It Found Us (Hardcover (Trade))

written by Lindsay Currie

Twelve-year-old Hazel Woods has always had an unusual knack for sleuthing. Some may call it snooping, but all she really wants is to solve mysteries around town. So, when she not-so-accidentally overhears her brother Den planning to sneak into the cemetery at night for an epic game of hide-and-seek, she decides to secretly tag along. This seems like the perfect opportunity to investigate the claims that the cemetery is haunted. But the moment the game ends, Hazel realizes something is very, very wrong. From her hiding spot in the bushes, she overhears that her brother's best friend, Everett, is missing. Everyone else was found by the seeker but there's no sign of Everett anywhere. It's as if he just vanished.

978-1-7282-5949-9 Sourcebooks, Incorporated ©2023 5-1/2 x 8-1/4 288 pgs.

Grades 6 - 8 Dewey# Fic

Quantity	Unit Price
1	\$16.99

Reviews by: Booklist In the suburb of Forest Park, Illinois, Hazel is known as something of a snoop, to her family's chagrin. Overhearing that her brother, Den, and his friends will be playing hide-and-seek in Woodlawn Cemetery, Hazel decides to sneak along and expose the secrets of the spooky graveyard, proving her skills as a detective (and for other personal motives). During the game, everyone is found except for Den's annoying best friend, Everett. A panic-stricken town commences to search for the missing child. As Hazel; her best friend, Maggie; and Den seek to uncover the missing boy, they also expose the truth about an ominously smiling ghost haunting Woodlawn. *Scratch Scratch* (2020) and *What Lives in the Woods* (2021) author Currie delivers another frightful tale centered around the Chicagoland area. Currie builds suspense through paranormal activities that will leave readers jumping. Middle-graders will admire Hazel's gumption and her journey to becoming an altruistic detective. A solid chiller for fans of Louise Fitzhugh's *Harriet the Spy*.

Reviews by: Kirkus Reviews A 12-year-old girl pits her detective skills against a ghost to find a missing boy. Despite her parents' warnings against getting involved in the neighbors' business and refusal to let her start a mystery-themed podcast, Hazel, who is cued white, can't quell her passion for sleuthing. When Dennison, her older brother, sneaks out to play hide-and-seek in the cemetery, Hazel secretly follows. There, she hears chilling screams and howling--and is horrified when Den's friend Everett disappears. The police are called, volunteers form a search party, and Hazel begins to investigate herself, leading her and Den to encounter a terrifying ghost with its mouth sewn shut. Who this ghost is and what drives its actions become the focus of Hazel's investigation. An occasionally flippant tone undercuts genuinely creepy moments, while the mystery elements inconsistently mesh with the paranormal aspects to produce unfounded assumptions about the haunting. Excessive repetition comes across as not trusting readers' abilities and insights. Hazel's superior sleuthing abilities feel unsubstantiated when internet searches that should have occurred earlier in the story immediately yield vital clues late in the novel, and another character presents facts about the cemetery that most people in the community would know. The author's note describes the real historical events behind the haunting. A muddled mystery combined with horror elements. (Paranormal. 9-13) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Twelve-year-old Hazel Woods, a would-be sleuth, can't resist the temptation to eavesdrop on her older brother Den's phone conversation, during which he makes plans to meet his best friend Everett after dark at Woodland Cemetery. Though Hazel believes that a graveyard in Forest Park, Ill., is "not the kind of place you want to hang out in the dark. Or in the light. Or anytime, really," Hazel trails Den, eager to investigate rumors of hauntings. Accompanied by her best friend Maggie, Hazel follows the boys to the cemetery, where a game of hide and seek results in Everett's disappearance. Den, Hazel, and Maggie resolve to find him, but as their frantic search unfolds, disturbing messages reading "found u" and creepily scrawled smiley faces begin appearing on random objects. This relentlessly eerie ghost story by Currie (*The Girl in White*); based on the 1918 Hagenbeck-Wallace train disaster, per an author's note; sometimes struggles to maintain a steady gait. Still, malevolent atmosphere permeates this terrifying telling, and Hazel's energetic first-person voice, combined with her organic relationship with Den, will invest readers from the jump. Protagonists cue as white. Ages 8: 13. Agent: Shannon Hassan, Marsal Lyon Literacy. (Sept.)

Reviews by: School Library Journal Gr 4-8--Twelve-year-old Hazel considers herself an amateur detective of sorts, and is planning to start a podcast about mysteries she solves around her town. The cemetery is rumored to be haunted, so when she hears her brother Den and his friends talking about a sneaky game of nighttime hide-and-seek there, she follows him. But when Den's friend Everett doesn't get found by the seeker, and doesn't turn up hours later, Hazel realizes she has a real high-stakes mystery on her hands. As she tries to follow the clues to find Everett, strange and creepy things start to happen. Hazel smells smoke where there isn't any, and they encounter a terrifying presence with red and white clothes

and a stitched-up mouth. As Hazel digs into the cemetery's past looking for clues, she uncovers a connection with a horrific accident from many years ago. Can she learn enough to put the ghost to rest and save Everett? Once again, Currie has taken a real-life historical tragedy and created an engaging supernatural tale around those events. Students will be fascinated by the true story outlined in the epilogue. Perfect for young horror fans, there are just enough scares to satisfy without being terrifying. VERDICT Well-written scary novels are few and far between for this age group. All libraries serving middle grades should have this on the shelf.--Mandy Laferriere Copyright 2023 School Library Journal, LLC Used with permission.

#2378389 Mystery of Locked Rooms (Hardcover (Trade))
written by Lindsay Currie

Sarah Greene wants nothing more from her seventh-grade year than to beat the hardest escape room left in her town with her best friends, West, and Hannah. Sarah feels helpless until the day Hannah mentions a treasure rumored to be hidden in the walls of an abandoned funhouse.

978-1-7282-5953-6 Sourcebooks, Incorporated ©2024 5-1/2 x 8-1/4 256 pgs.
 Grades 3 - 6 Dewey# Fic

Quantity 1
Unit Price \$16.99

Reviews by: Booklist Grades 4-6 Twelve-year-old Sarah never really fit in. That is, until she met West and Hannah, the other members of her best-friend group known as the Deltas. Their love of math and escape rooms drew them together, and when Sarah finds out her home is being foreclosed on and she'll have to move away from the only people who've ever understood her, she hopes their shared skills can bail her family out. How? There's a local legend of a treasure hidden in an abandoned funhouse, and Sarah sees that treasure as the answer to all her family's problems. Currie has a light touch with heavy issues, such as coping with a parent who has a chronic illness and financial instability, while also exploring problems such as personal insecurity and the strength needed to be honest and vulnerable with the people you care about. This page-turner with touching character moments makes a fun read for anyone who enjoys puzzle solving, escape rooms, and books centered around the power of friendship. COPYRIGHT(2024) Booklist, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews "Like three sides of the same triangle, none of us can imagine what life would be like if we weren't together." Sarah, West, and Hannah have been an intrepid trio since they first met. They bring their passion for math and numbers and their perfectly aligned strengths to solving escape rooms. With a foreclosure looming on Sarah's family home--which would mean moving to live with her grandparents in Michigan--the only solution is to seek out the rumored Triplet Treasure belonging to Hans, Stefan, and Karl Stein. The treasure is supposedly hidden in a long-abandoned fun house they built in the 1950s. To outmaneuver the triplets' ingenious riddles and tricks, the friends will need to overcome personal obstacles and unlock the doors within themselves. While the stakes are high, it's reassuring for readers to know that Sarah's family has a place to go, even if it's far away from her friends. Early chapters detail the health challenges faced by Sarah's father; his chronic illness has placed a strain on the family's finances. Currie sets up a moving metaphor: Sarah's enthusiasm for escape rooms becomes a means of tackling the unsolvable puzzle that has left her parent confined to his own inescapable room. This topic is treated with a gentle touch, but Sarah's emotional depths could have been explored more deeply; West's and Hannah's emotional arcs are fulfilling, however. Main characters read white. A riddling, sporting adventure and a story of true friendship. (Mystery. 8-12) COPYRIGHT(2024) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Seventh grader Sarah and her two best friends West and Hannah call themselves the Deltas for their love of puzzles. Their unique and perfectly balanced individual skills aid in their team efforts to solve even the hardest of escape room riddles. Because of their friendship, Sarah; who arrived in Park Glen three years ago; finally feels like she belongs. But when her father is diagnosed with chronic fatigue syndrome and her mother, who is working two jobs, can't make ends meet, Sarah's family faces possible foreclosure on their home, meaning they might have to move if they can't get the money they need, and fast. To help, West and Hannah propose hunting for an alleged treasure left in an abandoned 1950s funhouse built on the outskirts of town by triplets who vacated the lot after one of them died young. In this page-turning thriller, Currie (It Found Us) builds suspense via high-stakes brain teasers in dark rooms and periods of isolation as the Deltas endeavor to solve the biggest, most dangerous series of escape rooms they've ever faced. Sarah reads as white; supporting characters are racially diverse. Ages 8: 12. Agent: Shannon Hassan, Marsal Lyon Literary. (Apr.)

Reviews by: School Library Journal Gr 4-8—Locked rooms filled with secret passages, puzzles, and codes create challenges for friends West, Hannah, and Sarah, or as they call themselves, the Deltas. As the story opens, they have just become the first team of mystery solvers to beat the escape room at Lasers and Lava in record time. While riding high on that victory, they begin discussing a long-since abandoned fun house built by a set of triplets many decades ago. Legend has it that treasure awaits the person who manages to escape from it. Treasure is just what Sarah needs now. Since her dad isn't able to work anymore, and her mom can't work enough, their house is being foreclosed on and they will probably have to move. With that motivation, the Deltas decide that they could take on the challenge of the fun house and find the treasure that will keep them together. Upon arriving at the house, Sarah finds the first clue and their way inside. Once in, they must solve puzzles, decipher codes, and escape from one room after another. But the challenges start, becoming more personal and sinister, leaving the Deltas to wonder who planned these, and how to break free. These twists and turns will keep readers rapidly turning the pages to find out if the trio successfully escapes. VERDICT With highly likable characters, authentic dialogue, and tension-building action, this exciting and engaging story will grab the attention of many readers

#2328770 Mystery of the Radcliffe Riddle (Hardcover (Trade))

written by Taryn Souders

When Grady and his dad learn that the town oddball, Eudora "Kooky" Klinch left something for them in her will, they can only imagine what it might be. When it turns out it's an old scrap of 300-year-old tapestry, they are bitterly disappointed. But the cloth comes with a note saying, "This is no ordinary piece of needlework. It's a treasure map. Riddles and Clues. To the victor go the riches." Grady's dad dismisses it, but Grady thinks this could be the chance of a lifetime. With the help of his friends Thad, Clemmie, and the town dog Ophelia, Grady is determined to crack the clues and find the treasure.

\$15.99

Reviews by: Booklist The possibility that oblique clues on an eighteenth-century sampler might lead to buried treasure and save Grady from losing his and his widower father's home spurs him and his contentious, inseparable friends Clemmie and Thad into a hunt. Keeping the quest secret proves not only challenging in tiny Gifton, Georgia, ("Population: Small enough to mind both our business and yours!") but dangerous, too, as a mysterious someone is also on the hunt—leaving a local antique shop in a shambles and accidental corpses in their wake. That shadowy rival adds suspense, but readers will also be drawn in by watching the three sleuths learn to interpret the sampler's message bit by bit, which leads them at last to an awesome, bona fide treasure. It's not one, alas, that will solve Grady's problem, but in service to a properly satisfying ending, the author slips in an unexpected reprieve for him and his father plus, as a bit of historical "gold" for her audience, a closing account of the little-known War of Jenkins' Ear.

Reviews by: Kirkus Reviews A boy inherits a needlework sampler that is also a treasure map, leading to opportunity--and danger. Grady, a White middle schooler, is grieving the tragic loss of his mother and struggling to connect with his father. To make matters worse, his family's trailer in fictional Gifton, Georgia, is facing foreclosure. When eccentric local Eudora "Kooky" Klinch passes away, it is revealed that Grady is her next of kin. He inherits from her a cross-stitch sampler and a note suggesting that it leads to fortune (her house and the rest of her possessions are, frustratingly for Grady, left to a cat rescue organization). Motivated by his stressful financial situation, Grady works with best friends Thad (a White redhead who uses the names of architects as swear words) and Clemmie (a confident Black girl who is an emotionally intelligent leader) to solve the puzzle. The subsequent events are well paced and cleverly delineated--especially when it comes to exploring multilayered linguistic clues. The characterization and setting, however, are less successful. The small-town drama and antics of the large cast are humorous but verge on caricature, and the fictionalized setting muddies attempted investigation into Georgia's complex history. The dialogue--especially between the kids--is lighthearted and feels genuine but unfortunately includes frequent usage of terms like dumb and stupid. Themes of family and hope are directly and carefully addressed in this gripping narrative. An entertaining, riddle-focused mystery. (historical note, further reading) (Mystery. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Elderly Eudora Klinch is known as "Kooky Klinch" by everyone in Gifton, Ga., for the way she "dug more holes around town than a gopher on caffeine." But when she dies after decades of fruitlessly seeking her family's long-lost treasure, 13-year-old Grady Judd is inexplicably bequeathed her antique embroidered sampler, which contains clues to the fabled fortune. Ever since Mama's death, Grady and his dad haven't gotten along, and the local bank has been threatening foreclosure on their home; Grady hopes finding the treasure will help mend his relationship with his father and smooth things over financially. With the help of the town's librarian and his two best friends; whip-smart Clemmie Powell and kindhearted Thad Carlton, who uses renowned architects' names as exclamations ("Frank Lloyd Wright! Why are you scaring me like that?"); Grady endeavors to puzzle out the clues before he and his father are forced to leave town. But his desperate search turns out to be more dangerous than he bargained for. Throughout their adventure, the tweens learn fascinating factoids about U.S. history, but the effect is dampened by the fictional, standard-feeling setting. Still, Souders (Coop Knows the Scoop) appealingly intertwines a compassionate community and a grieving boy's struggle to connect with his father to deliver a rewarding mystery. Grady and Thad are white; Clemmie is Black. Ages 8: 12. Agent: Sally Apokedak, Apokedak Literary. (July)

#2244864 Backyard Secrets of Danny Wexler (Hardcover (Trade))

written by Karen Pokras

Eleven-year-old Danny Wexler, the only Jewish boy in his blue-collar town during the late 1970s, is obsessed with the Bermuda Triangle. When a local child goes missing, Danny's convinced it's connected to an old Bermuda Triangle theory involving UFOs.

Quantity
1
Unit Price
\$13.49

With his two best friends and their Spacetrone telescope, Danny heads to his backyard to investigate. But hunting for extraterrestrials is complicated, and it doesn't help that his friend Nicholas's mom doesn't want her son hanging out with a Jewish boy. Equipped with his super-secret spy notebook, Danny sets out to fight both the aliens and the growing anti-Semitism in the town, in hopes of mending his divided community.

978-1-7284-1294-8 Kar-Ben ©2021 5-1/4 x 7-1/2 248 pgs.

Grades 3 - 6 Dewey# Fic

Reviews by: Kirkus Reviews A white van, the Bermuda Triangle, and undercurrents of prejudice: welcome to the '70s. It's 1978, and 11-year-old Danny Wexler is Jewish (implied Ashkenazi) and living in a predominantly Italian American town. His mother, a nurse, and father, a factory worker, are discreet about their faith, but they are still outsiders: witness the consistent lack of promotion for Danny's father despite his years of experience. Danny and friends Frank and Nicholas obsess over aliens and the Bermuda Triangle, especially after a boy from a nearby town disappears, supposedly snatched by a man in a white van; Danny and his friends even believe Danny's piano teacher may be an alien and the kidnapper. But when that promotion finally comes through for his father, the town's antisemitism also comes out into the open; Nicholas is prohibited from playing with Danny, while another boy starts calling him Matzah Boy, and Mr. Wexler arrives home with a black eye. Meanwhile, Danny, whose engaging voice anchors the novel, discovers that Mrs. Albertini, their elderly neighbor, is Jewish, and he begins to learn classic recipes--and understand the gains and losses of assimilation--from her experiences. This quick slice-of-life read with an upbeat, tidy ending examines what it is like to be othered and the anchoring force of friendship. A look at the past with resonance for the present. (Historical fiction. 8-12) COPYRIGHT(2021) Kirkus Reviews, ALL RIGHTS RESERVED.

#2274533 **Art of Magic: A Novel (Hardcover (Trade))**

written by Hannah Voskuil

A pack of paints, a set of pens, and unlimited creativity throw two friends into an enchanted, fast-paced adventure. ZuZu's first summer without her best friend is looking pretty grim, until she meets new kid Andrew at a visit to the historic Mapleton Mansion. Together they stumble upon some enchanted art supplies and discover that the shapes they draw and paint can come to life. Their creations are harmless- but ZuZu and Andrew aren't the only ones with access to magic. Soon, nightmarish half-machine, half-living creatures begin appearing around town, controlled by a power-hungry "caster" with a sinister mission. It's up to ZuZu and Andrew to use their newfound abilities to protect their community.

Quantity	Unit Price
1	\$13.49

Reviews by: Booklist Grades 4-7 At an end-of-the-year party in a historic mansion, ZuZu sneaks away from her third-grade classmates to explore the turret room but finds an intriguing boy, Andrew, already there. Their introduction is interrupted by creepy knocking noises that lead to the discovery of a pan of watercolors and set of ink pens, which the two eventually realize have the power to bring their drawings to life. The delight is cut short when an animated portrait explains that her long-dead brother is also planning a return to the world--to seek vengeance on a bully (and town) that wronged him decades ago. ZuZu and Andrew must harness their creative powers in order to save their city from malevolent magic. This is an astonishingly creative story, carefully constructing a magic world with specific rules and hints of a larger organization behind it all. There are deliciously chilling descriptions of scuttling, otherworldly creations and resurrections gone awry, but there is also delight to be found in enchanted artwork and blossoming friendships. A thrilling introduction to a newfangled magic. COPYRIGHT(2022) Booklist, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews Art comes alive with the help of magic. Rising fourth grader Aleksandra "ZuZu" Zieuzielowicz and her new neighbor and classmate, Andrew Chang, are caught up in a return-from-the-dead vengeance plot when they visit a local haunted mansion. They find, in a secret compartment, a set of watercolors and drawing pens seemingly meant for them. The art supplies are infused with magical properties and produce visitors--animated, three-dimensional creatures--when the children combine their drawing and painting skills. Martha Mapleton, who long ago lived in the mansion, explains this to the pair when they bring her charcoal self-portrait to life by completing a missing portion. Martha's malevolent brother, Chester, has held a childhood grudge for a lifetime and beyond. He reanimates himself and numerous

auditions--dastardly musical creations--with the assistance of a self-absorbed classmate of ZuZu's, intending to wreak havoc on his bully's descendants. Martha plans to stop him. Entertainingly inventive visitons--some informed by the imagination of ZuZu's younger brother--battle Chester's wicked auditions in an energetic, epic showdown. ZuZu, whose best friend moved away, feels like an outcast; the temptation to hold on to resentment is addressed subtly and with kindness. ZuZu reads as White; Taiwanese American Andrew's diagnosis of Crohn's disease is discussed in an author's note. A satisfying, compelling adventure with an original magical construct and bright, appealing protagonists. (Fantasy. 8-11) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 4-6—Zuzu is not looking forward to her first summer without her best friend who recently moved away. The hobbies they shared are not as fun to do alone. But when she has the opportunity to visit the historic Mapleton Mansion, she doesn't hesitate to go beyond the velvet ropes into the private rooms. While there, she experiences a meet-cute with a fellow student who feels just as out of place—the perfect ingredient to form a wholesome friendship. The pair stumbles upon enchanted art supplies that bring their creations to life. But when a villainous creator emerges, they will have to rely on friendship, artistic skills, and the unexpected development of their inner strength to combat the evil that wishes to consume their town. The magical rules created by Voskuil feel exciting and somewhat plausible within the characters' real worlds. Though the initial seed of the plot's conflict feels tenuous, the resolution and lessons learned overshadow the antagonist's questionable motivation. VERDICT This creative fantasy will move well with fans of Tae Keller's *When You Trap a Tiger* and Lorelei Savaryn's *The Edge of In Between*.—Nicole DeSimone

#2313766 Enly and the Buskin' Blues (Hardcover (Trade))
written by Jennie Liu

Twelve-year-old Enly Wu Lewis is determined to go to band camp and follow in the footsteps of his musician father, who died years ago. But his mom, a single parent working two jobs, is saving every penny for his older brother's college tuition. So Enly sets out to earn the money for camp on his own, by busking with an obscure instrument he can only kind of play. When someone drops a winning scratch-off lottery ticket into his tip box, Enly thinks it's the answer to his problems--but he'll have to overcome teenage thieves and his own family if he wants to achieve his dreams.

Unit Price \$14.99

Reviews by: Kirkus Reviews A sixth grader tries to make money to attend music camp. When Enly Wu Lewis' best friend, Pinky, shows him a flyer for a music-themed summer camp, Enly is determined to attend. It's his chance to learn more than just the church songs and show tunes in his piano teacher's repertoire and to become a musician like his late father. It's an uphill battle, though—\$2,800 for a two-week camp is out of the question. There's no way his mother would divert any potential savings from his brother's college fund, especially for music. But maybe Enly can earn the cash by busking with his keyboard. After a rough start with a new instrument and a possible lottery ticket payout, he might just make a dent in the camp costs. In this fast-moving tale, Liu explores the push and pull of dreams and circumstance. Readers will connect with idealistic Enly and his drive to pursue music despite the obstacles. A single parent in an increasingly gentrifying city, Enly's mom is focused on day-to-day life and an economic path for her children. Ultimately, the family meets in the middle. Secondary characters like elderly piano teacher Ms. Maisie and Saxophone Joe, a grumpy, disabled war veteran, show the support found in community, though they, particularly Enly's mother, could do with more nuanced portrayal. Enly is biracial (his mother is Chinese; his father was White), while Pinky is cued Black. A quick-paced coming-of-age story exploring music and family expectations. (Fiction. 9-12)

Reviews by: School Library Journal Gr 3-7--Enly Wu Lewis is a sixth grader who is living in the shadow of his high-achieving older brother, Spencer. His white father died when he was young and his Chinese mother struggles to make ends meet in their town, which is undergoing gentrification. Enly wants to be a musician like his dad and gets free music lessons from Miss Maisie, but she only teaches him show tunes. When his BFF Pinky shows him a flyer about a summer music camp, he's excited to go, until he learns of the \$2,800 tuition. Knowing that even if his mother had that kind of money, she would put it towards Spencer's college tuition, Enly and Pinky devise a plan for him to busk downtown, but a piano is not portable. A series of blunders and high jinks lead to Enly to a melodica, an extremely lucky lottery ticket, and even more misfortune. This fast and furious plot will have readers alternately cringing and cheering at Enly's impulsiveness, fully invested in this protagonist's success. While the tone is light, some serious issues are gently explored: gentrification, grief, wealth and lack of it, family ties, and friendship. VERDICT A recommended realistic fiction title with humor and depth.--Brenda Kahn Copyright 2023 School Library Journal, LLC Used with permission.

#2375835 Color of Sound (Hardcover (Trade))
written by Emily Barth Isler

Quantity 1
Unit Price \$14.99

Twelve-year-old Rosie is a musical prodigy whose synesthesia allows her to see music in colors. Her mom has always pushed her to become a concert violinist, but this summer Rosie refuses to play, wanting a "normal" life. Forced to spend the summer with her grandparents, Rosie is excited to meet another girl her age hanging out on their property. The girl is familiar, and Rosie quickly pieces it together: somehow, this girl is her mother, when her mother was twelve. With help from this glitch in time—plus her grandparents, an improv group, and a new instrument—Rosie comes to understand her mother, herself, and her love of music in new ways.

978-1-7284-8777-9 Carolrhoda Books ©2024 5-1/4 x 7-1/2 336 pgs.

Grades 6 - 8 Dewey# Fic

Reviews by: Booklist Everyone knows that Rosie is a musical prodigy. At 12 years old, she's already played her violin at Carnegie Hall—twice. But no one knows that Rosie is also a synesthete who sees music as colors and is overstimulated by the sounds and colors of everyday experiences. Overwhelmed by her endless music responsibilities, Rosie goes on strike: no more violin for the summer. Instead, she visits her grandparents with her mother, who is obsessed with getting Rosie to play the violin again. Rosie also meets a girl in her grandparents' shed who claims she's from the 1990s and who has the same name as her mother, Shanna. This Shanna, however, is more emotionally open than Rosie's mother and feels similarly stifled by her own parents. As Rosie and Shanna bond, Rosie reconciles the idea that the crestfallen preteen before her will eventually turn into the strict mother she knows today. Tweens should pair this moving and pensive read with a viewing of Disney's *Turning Red* for similar themes of intergenerational trauma and overbearing yet sympathetic mothers. — Biz Hyzy

Reviews by: Kirkus Reviews Going on strike gives a synesthetic musical prodigy space in her life to learn the music of her Jewish heritage. Two things control 12-year-old Rosie's life: 1. Her unusual brain, with its full-sensory synesthesia, echoic musical memory, and exceptional violin talent; 2. her imperious stage mother. After her overpacked schedule causes Rosie to lose her only friend, she stops playing violin. Refusing music camp, she perforce accompanies her frustrated mother to her grandparents' for the summer—without devices as punishment. Connecticut offers a fresh start. Alongside secretly watching improv classes at the public library and swimming with her grandfather, Rosie learns about her Hungarian Jewish family history. Most intriguingly, through some time-travel anomaly, she encounters a girl she realizes is her mother. Shanna as a girl is so different from Shoshanna as a grown-up that Rosie wonders how the one became the other—and if she can change that outcome. Rosie is an appealing, sympathetic character who develops believably in her quest to expand both her life and her music. While the scope of her synesthesia is conveyed in a somewhat confusing way, the descriptions of her sensory perceptions are lyrical and evocative, though at times excessive. The depiction of generational trauma is poignant and subtle, from Rosie's Holocaust-survivor great-grandparents, to her dying, Alzheimer's-afflicted grandmother, to her mother. However, as a literary device, Rosie's unexplained time-travel interactions with Shanna feel awkward and unnecessary. A quiet exploration of synesthesia, music, and family history. (discussion questions, author's note) (Fiction. 10-13)

Reviews by: Publishers Weekly A talented tween with synesthesia probes her Jewish family's history in this sonorous tale by Isler (AfterMath), who contemplates the generational trauma caused by the Holocaust. Twelve-year-old "musical genius" Golden Rose Solomon, who experiences sounds "as textures and colors, as feelings and temperatures and tastes," longs to cultivate a part of her identity beyond "the girl with the violin." To the frustration of her rigid mother, Shanna, Rosie goes on a music strike, forgoing symphony commitments. As punishment, she's forced to join her mom on a visit to the dying grandmother Rosie barely knows. At Shanna's childhood home, Rosie "somehow, magically, impossibly" meets a 12-year-old version of Shanna, who longs to play violin and resents her mother—Rosie's grandmother—for forcing her to become a bat mitzvah. From Shanna, Rosie learns that her great-grandmother survived Auschwitz, an experience that echoes through future mother-daughter relationships in her family, making Rosie wonder whether changing the past could help Shanna understand her, and help revitalize her own connection with music. Intricately entwining interpersonal growth with each character's relationship to their Jewish faith and culture, Isler highlights the role of family history in identity formation through metaphorical time travel. Color-centric imagery rendered in immersive prose translates Rosie's synesthesia in this salient celebration of family, music, and neurodiversity. Ages 11–14. Agent: Emily Keyes, Keyes Agency. (Mar.)

Reviews by: School Library Journal Gr 3-7—Rosie is a 12-year-old violin prodigy, but she is hiding her feelings, her fears, her hopes, and her synesthesia—she experiences sound as colors. Rosie and her mom go to Connecticut for the summer to stay with grandparents she barely knows; her grandmother is dying of dementia and often doesn't know her. Rosie refuses to continue the grueling violin practices and performances that she believes prevent her from being a regular tween girl enjoying sleepovers and crushes. But she doesn't throw a tantrum; it is a considered decision that her parents might better understand if they truly listened to her. As a result of tensions with her mom, Rosie spends time with her grandfather who shows her their family history, decimated and traumatized by the tragedies of the Holocaust. Encounters with a young girl, Shanna, on the farm lead to a tentative friendship and gives Rosie an understanding of the impact of growing up in an entirely different family structure. Rosie is able, in her gracious way, not only to learn from Shanna but to also help teach and guide her mother to a place of better understanding. Isler crafts an exceptionally honest portrayal of complicated mother-daughter dynamics, and a protagonist whose independence and kindness is a stunning solo. VERDICT A top pick for any middle school collection; a perfect book club pick and a reminder to all that patience and understanding can change lives.—Lee De Groft

#2323226 Cobra's Song (Hardcover (Trade))

written by Supriya Kelkar

Ten-year-old Geetanjali doesn't mind singing, but she knows she'll never be as good as her mother, Aai, or grandmother, Aaji, famous classical singers from India whose celebrity has followed the family all the way to their small town of Deadwood, Michigan, where Geetanjali lives with her aai, and father, Baba.

978-1-6659-1188-7 Simon & Schuster Books For Young Readers ©2023 5-1/2 x 8-1/4 304 pgs.

Grades 4 - 7 Dewey# Fic

Quantity
1
Unit Price
\$17.99

Reviews by: Booklist Kelkar's (That Thing about Bollywood, 2021) latest middle-grade adventure is colored by magic, mystery, and a lovable, fierce heroine in 10-year-old Geetanjali, whose adventures readers will enjoy following as she discovers more about herself and takes pride in her achievements. In the small town of Deadwood, Michigan, Geetanjali enjoys following in her family's tradition of being a singer, but she is very conscious that she may not measure up to the legacy of her talented mother and grandmother. After she experiences stage fright for the first time at a school concert, her fears and phobias continue to grow, and as her long-awaited visit with her grandmother (and unexpected guests) grows strange, Geetanjali must get to the root of the mystery to help those she loves. Filled with Indian folklore and mythology and memorable characters, this voice-y middle-grade romp will be relatable to anyone who's ever felt nervous about new experiences or family expectations.

Reviews by: Kirkus Reviews ship, and facing your fears. Soon-to-be sixth grader Geetanjali has grown up in the shadow of her mother and grandmother, who were famous Hindustani classical singers back in India. But every time she has to sing publicly, she finds herself besieged with anxiety. And it all starts to snowball: Geetanjali's meant to sing at a public event in her Michigan hometown alongside bestie Penn, a White American boy, but she doesn't feel ready. She's hoping Aaji's visit from Pune will make her feel less anxious, but her grandmother doesn't seem like herself. Nor does their neighbor, recently widowed Heena Mavshi, who is behaving most unusually. Could it have something to do with mysterious new arrival Lata Auntie, who keeps pestering Aaji to sing Raag Naagshakti, a melody said to attract cobras? What about the dead mouse in the backyard with bite marks like those of a snake's fangs? The book digs into changing family dynamics, grief and healing, tween fears, and culture and belonging, among other topics. There's also a mystery connected to snake-related curses and folk beliefs around naagmanis, stones supposedly formed by cobras. Readers might wish for deeper development of some of the many strands. However, the strong pace and the relationships between the vivid characters, both Geetanjali's Marathi family members and others, come together to make this story immensely readable. An absorbing story that has music at its heart. (Adventure. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Though her maternal family have long been famed Hindustani classical singers in India, rising sixth grader Geetanjali struggles to vocalize publicly. She feels ill-prepared to sing with white best friend Penn at their small Michigan town's summertime festival, she fails to intervene when a younger schoolmate is bullied for public singing, and the arrival of her visiting grandmother, Aaji, from Pune, signifies a family performance that she's not ready to join. Geetanjali's reluctance to practice with Penn, or attempt most anything that scares her, drives him closer to a new kid who easily calls out injustice. Worries about Aaji's visible aging and her mother's focus on Geetanjali's baby brother soon spiral into further uncertainty around local events: a warmhearted neighbor starts acting strangely after her husband's death, a newcomer asks Aaji to sing a song whose vibrations attract cobras, and dead mice start turning up with visible puncture marks. Are the threats triggered by baseless fears, or are they clues that portend more? Kelkar (Strong as Fire, Fierce as Flame) centers Indian culture and folklore in a first-person narrative that keenly describes oppressive feelings of guilt and anxiety. Seemingly random details culminate in a layered conclusion that vindicates a persevering heroine realizing her own strength. Ages 8: 12. Agent: Kathleen Rushall, Andrea Brown Literary. (May)

#2328219 Bellwoods Game (Hardcover (Trade))

written by Celia Krampien

A spooky middle grade novel about a girl who volunteers to play a game in the haunted Bellwoods--and discovers some legends shouldn't be played with.

978-1-6659-1250-1 Atheneum ©2023 5-1/2 x 8-1/4 320 pgs.

Grades 3 - 6 Dewey# Fic AR Lvl 4.6 AR Pts 8.0

Reviews by: Booklist Grades 4-7 Every Halloween night in Fall Hollow, it's up to the sixth-grade class to keep their town safe from the vengeful spirit of Abigail Snook. To do this, they play the Bellwood Game, sending some of their own into the forest to ring the bell that will keep Abigail at bay--as long as she doesn't catch them first. On the day of the game, Bailee feels overwhelmed by her nan's recent health scare and her own status as class pariah for supposedly tattling on her peers. Nevertheless, Bailee finds the courage to participate in the long-anticipated game, knowing if she rings the bell, she also gets to make a wish. In the woods, Bailee teams up with four unlikely classmates and a benign spirit to try to defeat the shape-shifting specter. Krampien's eerie story cleverly focuses on themes such as bullying, and Bailee's motley crew discovers the importance of

having the facts before making assumptions. This supernatural tale will chill readers while reminding them that real friendship can brave any situation. COPYRIGHT(2023) Booklist, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews Sixth grader Bailee Heron must win a ghostly game to keep her town, her family, and herself from losing everything. On Halloween in 1982, sixth grader Abigail Snook disappeared in the Bellwoods forest behind Beckett Elementary. Now, every Halloween, Beckett's sixth graders have to play the Bellwoods Game, or her ghost will terrorize the town for the next year. If she catches you, and you don't have a gift to sacrifice, the ghost will take something else--like your tongue. But if you manage to ring the old bell in the woods first, you'll banish her for another year, and she'll give you anything you want. Bailee, lover of all things horror, just wants things to go back to normal. Ever since the factory closed two years ago, her parents have worked long hours to make ends meet, often leaving Nan and Bailee alone. Then Nan got sick at the same time a vicious rumor ostracized Bailee from the rest of the class. Winning the game is Bailee's only chance to set things right, but she soon learns everything is not as it seems in the town of Fall Hollow, where stories are weapons, friends come from strange places, and Abigail Snook isn't the scariest thing hiding among the trees. This gorgeously illustrated, atmospheric, and evocative debut captures the fun of being scared and the hard truths of middle school. Bailee presents White; names and illustrations point to some racial diversity in secondary characters. Beautifully creepy. (Supernatural. 9-13) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly On Halloween 1982, sixth grader Abigail Snook vanished from the Bellwoods while playing a game with her bully. As October 31 approaches in present-day Fall Hollow, the sixth graders of Beckett Elementary are preoccupied with that legend, which annually lures a group of classmates into the forest to play the Bellwoods Game. Horror fan Bailee Heron would rather stay home with her beloved Nan than head into the woods, but she decides that playing is the only way to clear up a misunderstanding that ostracized her from her class. According to the legend, Abigail's spirit reappears in the forest each year on the anniversary of her vanishing; per tradition, three tweens must play the game to its end in order to help her rest and save the town from chaos. The player who first rings an old bell in the woods banishes the spirit for another annum, but anyone caught by the spirit who lacks a gift to trade will be forced to sacrifice something truly dear. Once the game begins, however, Bailee realizes that the stories belie the game's complexity. Krampien (Sunny) intersperses atmospherically eerie b&w art throughout a tense friendship novel steeped in local lore. Bailee presents as white; secondary characters suggest racial diversity. Ages 8: 12. Agent: Andrea Morrison, Writers House. (July)

#2323164 Gossamer Summer (Hardcover (Trade))

written by H. M. Bouwman

It all started when Jojo saw a fairy but said she didn't. After all, fairies aren't real--and if they were, they wouldn't look like that! No, Jojo did not see a small, green, muddy...person. Her sisters have no problem believing, though. They beg Jojo to finish the story she started telling long ago, but since the death of their beloved grandmother, Jojo hasn't felt like talking about magic, even if her sisters still believe.

978-1-6659-1253-2 Atheneum ©2023 5-1/2 x 8-1/4 192 pgs.

Grades 3 - 6 Dewey# Fic

Quantity	Unit Price
1	\$17.99

Reviews by: Kirkus Reviews Five children find a portal to fairyland. Ten-year-old Jojo and her sisters, 11-year-old Maisie and 5-year-old twins Amy and Bee, are spending their summer outside while their mom, an author, tries to meet her looming deadline. The girls while away their sunny days, reading, playing, and imagining. When Theo comes to stay with his uncle, who lives across the street, he joins the gang. Last year, Jojo, the group's storyteller, had woven an intricate tale of an impending attack upon the fairies from frightening skeletal birds she dubs "bone creatures," but she never finished the story after the death of her beloved Grandma Nan. When the quintet follow a fairy through a tiny door in a tree, they discover that Jojo's tale has taken on a life of its own, and she must summon the resolve to give it a conclusion. Bouwman's clever middle-grade fantasy has a delightful throwback feel, noticeably absent of technology or adult intervention as the children spend entire days outside together. As the group delves further into fairyland, Jojo struggles to reconcile her own grief but comes to realize that Maisie and Theo have their own heartaches to unpack. Jojo directly references Narnia as inspiration for her tales, but the book also has much in common with The Neverending Story. Physical descriptions of characters are minimal. A heartwarming fantasy exploring grief, friendship, and fairies. (Fantasy. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly telling fairy stories, but when her Grandma Nan died the summer before this book's start, Jojo's interest in the stories died, too. Instead, she spends her summer vacation playing outside the family's countryside home with her three sisters, 11-year-old Maisie and twin five-year-olds Amy and Bee, while their author mother works on deadline. When her sisters insist on building fairy gardens and find a "squirrel-sized greenish person" napping on their porch, Jojo realizes that each story the siblings have told has created a real fairyland. The tales have even established a catastrophic prophecy about innumerable flying skeletal creatures attacking a faraway fairyland; creatures that are primed to return. Joined by 10-year-old neighbor Theo, jocular fairy Roland, and aloof cat Fabio, the siblings must rescue a boggy realm from their own fantasies in two days' time. An omniscient narrator sets a playful tone and brisk pace in this humorous, E. Nesbit-style feeling fantasy from Bouwman (A Crack in the Sea), and the fairies and younger sisters provide comic relief as Jojo and other characters unpack grief of their own. Maisie and Jojo are described as being paler than Amy and Bee. Ages 8: 12. Agent: Tricia Lawrence, Erin Murphy Literary. (May)

#2333190 **Kin: Rooted in Hope (Hardcover (Trade))**

written by Carole Boston Weatherford

Carole and Jeffery Boston Weatherford's ancestors are among the founders of Maryland. Their family history there extends more than three hundred years, but as with the genealogical searches of many African Americans with roots in slavery, their family tree can only be traced back five generations before going dark. And so from scraps of history, Carole and Jeffery have conjured the voices of their kin, creating an often painful but ultimately empowering story of who their people were in a breathtaking book that is at once deeply personal yet all too universal.

978-1-6659-1362-1 Atheneum ©2023 6 x 9 208 pgs.

Grades 6 - 8 Dewey# Fic AR Lvl 7.0 AR Pts 3.0

Reviews by: Booklist A sweeping, poetic, and genealogical look at how family was defined and unraveled through enslavement, Carole Boston Weatherford's novel in verse explores her own journey toward finding her ancestors, alongside the gut-wrenching, detailed scratchboard artwork of her son. How can one trace their family history from a portrait hanging in a living room to a slave ship bobbing off the coast? Through historical records and Weatherford's rhythmic, imaginative style, her ancestors come to life, as does the reader's journey through time, from plantation to plantation, through historical moments and quiet afternoons in the Wye House. Weatherford's work here—to help build a bridge from the Door of No Return to a place of hope for generations to come—is an impressive feat that nicely supplements any nonfiction work on the Middle Passage through the Civil War. The stark line illustrations on alternating black and white pages are a searing accompaniment to the verse, bringing these figures out of the darkness and deepening the humanity that glows in the pages. For fans of Kwame Alexander, Ashley Bryan, and Faith Ringgold.

Reviews by: Bulletin of the Center for Children's Books With lacerating beauty, Weatherford offers up a series of poems that both document and are inspired by her search to trace her heritage beyond her enslaved ancestors' arrival in the Americas. The book begins with a reflection on watching Roots at nineteen and then shifts to her travels to Senegal to see the Door of No Return; from there, the poems mostly center around the experiences of her family, especially of her great-great-grandfather Isaac, during their enslavement by the Lloyd family in Maryland. Poems vary in style and perspectives throughout. The haughty voice of the Lloyds' manor has a steadiness that lays out the ins and outs of a working plantation, but its callousness is punctuated by a painful, haunting couplet; a defiant staccato pace marks Isaac's daughter's perspective as she spits in the food she serves the Lloyds and their guests; and Frederick Douglass narrates his section and interactions on the Lloyd farm with a melancholic regality. Jeffery Boston Weatherford's stunning, scratchboard art highlights the dignity of the enslaved people while indicting those that enslave them; closeups of hands picking fruit and arms enveloping babies emanate with humanity while bright eyes peer at the reader with fierce determination. This is not an easy read, but it is gorgeously rendered and, when paired with Henderson's Dear Yesteryear (BCCB 2/23), can show how art reckons with history better than any textbook. KQG COPYRIGHT(2023) Bulletin of the Center for Children's Books, ALL RIGHTS RESERVED.

Reviews by: Horn Book Magazine From a single photograph and sparse information to a fully realized lineage of excellence, an African American author, with dramatic illustrations by her son, traces their family's roots. Carole Boston Weatherford (Standing in the Need of Prayer, rev. 9/22) deftly weaves a myriad of locations, entities, and mindsets into her imaginative and moving chronicle. Personification poems introduce various locations she visited, such as the Chesapeake Bay ("Surely as I spill into the Atlantic, the current / of greed swept me into the triangular trade") and Wye House plantation in Maryland ("I witness more cruelty than I care to recall / the sin of slavery haunts my every hall"). Most powerful are the poems that give her ancestors a voice. From brief mentions in enslavers' ledgers and other historical documents, Weatherford gives life to kin such as "Nanny / Nancy / Nan Copper, House Servant (born c. 1763)" and Isaac Copper, an elder who taught younger enslaved people Bible verses -- among them, Frederick Douglass. Jeffery Boston Weatherford's (illustrator of Call Me Miss Hamilton, rev. 3/22) scratchboard and digital black-and-white renderings match the poems' intensity, with the compositions' points of view being as dynamic and varied as the styles of verse. Fans of Bryan's Freedom over Me (rev. 11/16) and Nelson's Heart and Soul (rev. 11/11) will appreciate this extensively researched and deeply felt genealogical exploration. Appended with an author's note, an illustrator's note (unseen), and a comprehensive bibliography. Eboni Njoku(Copyright 2023 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews The lineage of a Black family comes to life through powerful poems. Embarking on genealogical research can be daunting but thrilling. But that is not always the case for many Black families, their heritage interrupted by the enslavement of their ancestors and marred by the atrocities they endured. Carole Boston Weatherford invites readers to explore the past through her own family's history. Beginning with her adolescent indifference and, later, her determined curiosity, she lays the groundwork for how the Lloyd family's Wye House, in Maryland, came to be the site of mass cruelty. While the Lloyds passed down property, positions, and people as they amassed wealth, the enslaved began losing parts of their legacies. Writing chronologically, the author pieces together the history of enslavement, her strength and resolve palpable as she tells of her family's triumphs despite the conditions they were forced to bear. Raw, stark, digitally rendered scratchboard illustrations multiply the depth of her profound words. The imagined thoughts of Weatherford's kin and the personification of the things--among them Wye House and the Chesapeake Bay--that "witnessed" generations of enslavement will give readers a new perspective and inspire questions similar to those she intersperses throughout. A striking work that reshapes the narrative around enslavement. (author's and illustrator's notes, bibliography) (Historical

Reviews by: Publishers Weekly The Weatherfords; a mother-son duo; pay tribute to their enslaved ancestors' pain and resilience across generations in this moving collection of illustrated poems, inspired by Alex Haley's *Roots*. Hoping to learn more about her family history, the author attempts to trace her lineage to its beginnings. In 2016, while traveling to Goree, an island off the coast of Dakar, Senegal, Weatherford and her son visit "slave castles"; trading posts where "captive Africans/ were held for weeks, months,/ until their numbers could fill/ a ship's belly." From there, the two embark on a journey that takes them to the Wye House Plantation in Easton, Md., where their ancestors were enslaved by the Lloyds, a white Quaker family. Throughout, poems showcase various perspectives, including those of the creators' forebears, the enslaving family, and a ship carrying captives. While this narrative range can sometimes cause confusion, it nevertheless makes for a layered text that highlights the perseverance of the Weatherfords' ancestors and the horrors that they endured. Sketch-like b&w line illustrations depict key moments within the narrative. By sharing their family's story, the Weatherfords craft a harrowing and motivational addition to enslaved peoples' history. Ages 10: up. (Sept.)

#2319973 Far Out! (Hardcover (Trade))

written by Anne Bustard

MJ is desperate to show the town that this Crook is not a thief. The only problem is that there is a lot of evidence against her, and Mimi herself isn't helping things. She's acting suspiciously, pulling disappearing acts, and worst of all, can't seem to answer any questions about where she was or what she was doing. But much like UFOs, extraterrestrial visitations, and sending people to space, the impossible has been known to happen.

Reviews by: Booklist ut to prove that it wasn't her beloved grandma Mimi who stole a prize exhibit from the library just days before their FO-smitten Texas town hosts a "First Annual Come On Down Day" festival in hopes of luring aliens (and maybe tourists) into a visit. Unfortunately, the evidence is strong enough that Magnolia Jean's sheriff dad is forced to march his own mom off to jail. Worryingly, Mimi's behavior becoming more erratic as she shows signs of oncoming dementia. Bustard fills her cast with a realistic mix of friends, rivals, supportive parents, and neighborly townsfolk (many given animated faces by Rowland's vignettes at each chapter's head), capturing a vivid sense of the rhythms and atmosphere of small-town life in the early 1960s—inspired, she writes, by a real event staged in the 1970s. Readers fond of comfy tales set in small Southern towns (practically a genre all its own) will enjoy meeting Magnolia Jean.

Reviews by: Publishers Weekly Cosmic questions merge with terrestrial affairs in this unhurried small-town mystery from Bustard (*Blue Skies*). Magnolia Jean Crook; sheriff's daughter, staunch believer in alien life, and aspiring detective; is as excited as anyone in 1964 Totter, Tex., for the upcoming First Annual Come On Down Day. Organized by funeral home owner Mr. Harrington for a local UFO organization's 10th anniversary, the event is intended to both capitalize on the region's history of otherworldly sightings and to attract "any and all space aliens who wish to visit. No RSVP required." The event hits a snag when a prized, anonymously owned meteorite integral to the festivities is stolen from the local library. Magnolia, in partnership with sixth grade classmate Nick Lawless, a drummer, swears to get to the bottom of the heist. When the meteorite is discovered in the shed of Magnolia's beloved and increasingly forgetful grandmother, the duo doubles down on their sleuthing to clear her name and bolster Totter's waning morale. A sometimes meandering plot centers solidly on the book's compassionate protagonist, whose colloquial narrative reflects the town's quirky affability, offers a loving view of an intergenerational relationship, and touches on themes of memory and belief. Magnolia reads as white; context clues hint at the town's diversity. An author's note concludes. Ages 8: 12. Agent: Emily Mitchell, Wernick & Pratt. (Apr.)

#2311053 Enchanted Life of Valentina Mejia (Hardcover (Trade))

written by Alexandra Alessandri

Twelve-year-old Valentina wants to focus on drawing the real world around her and hopefully get into art school in Bogota one day, but Papi has spent his life studying Colombia's legendary creatures and searching for proof of their existence. So when Papi hears that a patasola—a vampire woman with one leg—has been sighted in the Andes, Valentina and her younger brother Julian get dragged along on another magical creature hunt.

Reviews by: Booklist Grades 4-7 Featuring an artistic and brave protagonist of Colombian descent, Alessandri's first novel seamlessly weaves magical and cultural elements into its adventurous narrative. Valentina, 12, dreams of attending art school in her native Bogotá, but when reports of a patasola (vampire woman) reach her papi, Valentina's life is uprooted again. Determined to prove creatures from folklore are real, Papi takes Valentina and her brother, Julián, to the Andes as he seeks to find the patasola himself. What follows is a tale that mixes folklore with fantasy that plunges Valentina and Julián into an alternate Colombia infested with magical creatures. Readers will be on the edge of their seats as they root for the siblings to return to the real world in the face of many dangers. Beautiful prose combines with gripping adventure in this magical ode to Colombia and its legends. Fans of Roseanne Brown's *Serwa Boateng's Guide to Vampire Hunting* (2022) and Zoraida Córdova's *Valentina Salazar Is Not a Monster Hunter* (2022) will adore this book, for both its mythic monsters and its plucky heroine. COPYRIGHT(2023) Booklist, ALL RIGHTS RESERVED.

Reviews by: Bulletin of the Center for Children's Books "The earth is not happy." It's a feeling Valentina cannot shake right before an earthquake rips the ground open, leaving her father injured and stuck down a crevice while Valentina and her brother Julián portal into a magical world of myth. Tierra de los Olvidados has been closed to the human world for hundreds of years since Queen Madremonte's son was kidnapped by humans, and Valentina and Julián, desperate to save their father, must find a way across the enchanted land to speak with the Queen without being killed by her guards. Colombian creatures of legend like madremonte, el silbón, and the patasola populate the dazzling setting, "a flip-flopped image of Colombia," bringing an enlivening cultural specificity to familiar mystical quest tropes. Valentina's love of art and her care toward the environment and others make her a character to root for, and the few words in the text that are in Spanish will be a pleasant addition for young Spanish speakers. Savvy readers might spot the twist kilometers ahead of Valentina but even so, its inevitable arrival is deeply satisfying, capping off an adventurous journey that is by turns bone-chilling and joyful. ART COPYRIGHT(2023) Bulletin of the Center for Children's Books, ALL RIGHTS RESERVED.

Reviews by: Horn Book Magazine As a young girl, Valentina loved the Colombian legends her father told about the magical creatures inhabiting their country. Now that she's twelve ("almost thirteen"), however, she finds the stories childish fantasies, and she's less than thrilled when her father brings her and her younger brother on an expedition into the Andean jungle to investigate a sighting of a mythical female vampire-like creature. Valentina dreams of attending the Bogota Academy of Arts, and she'd prefer to stay at home and work on her drawing portfolio. When a massive earthquake hits the jungle, the siblings fall into a deep crevice that leads to an alternate world -- one that mirrors theirs but is inhabited by mythical beings. To get home, the two must travel through the magical land and beg Madremonte, the mother and protector of Earth, to help them. The only problem is that Madremonte hates humans and will stop at nothing to eliminate them from her realm. Alessandri embeds Colombian folklore into a thrilling tale that centers sibling relationships, eco-justice, border crossing, and intergenerational family wounds. Readers who love mythology, adventure, and suspense will root for Valentina as she embarks on her hero's journey. S. R. Toliver(Copyright 2023 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews Valentina has grown up with Papi's fantastical stories of Colombian monsters and magic. Now she's 12, she thinks the stories are a bit outlandish. When she and her brother, Julián, accompany their dad on a hunt in the Colombian Andes for la patasola--a vampiric demon woman with one leg--the siblings become separated from their dad by a sudden earthquake that leaves him gravely injured. They find themselves in a world beneath their own, one that's similar to Colombia but filled with the mythical creatures from the stories they grew up with. This world is unwelcoming to humans, and they must travel to find Madremonte, the ruler of the land, to convince her to help them before it's too late. In this story skillfully infused with Colombian folklore, Julián and Valentina encounter a variety of beings, including la mano peluda, a hairy hand that lurks beneath children's beds; duendes, or trickster elves; and el mohán, who has the power to bewitch you. A terrifying encounter with el silbón, a harbinger of death, has Valentina running for her life, and she'll need all the bravery she can muster to save her captured brother, reunite her family, and unravel the mystery of Madremonte's discontent. With the action beginning on the first page, this fast-paced adventure set in a well-realized world will keep readers on their toes. Modern kids meet traditional tales with thrilling results. (Adventure. 8-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Colombian 12-year-old Valentina "Vale" Mejia would rather spend her summer working on her art portfolio for the Bogota Academy of Arts than searching for a patasola in the Andes with her folclorólogo father and younger brother Julian, who still believes in the Colombian myths and legends their father tells them. When they get caught in a sudden earthquake, their dad falls into a crevice and is injured. While trying to get help, Vale and Julian stumble upon a mysterious cave that leads to a fantastical version of Colombia seemingly straight out of their father's stories. The siblings journey across the Land of the Forgotten; through a brujita's magical house, an armadillo's cozy burrow, and a village of playful duende; to the castle of the Madremonte, protector of the land, keeper of the only portal back to their world, and known for disliking humans. Vale's pragmatism paired with Julian's effervescent sense of wonder helps them to navigate a world full of danger and magic. Through their adventures, Alessandri (*Isabel and Her Colores Go to School*) expertly weaves an immersive tale bursting at the seams with folklore, enchantments, and spirit. Ages 8: 12. Agent: Deborah Warren, East West Literary. (Feb.)

#2329824 Vivian Van Tassel and the Secret of Midnight Lake (Hardcover (Trade))	1	\$18.99

written by Michael Witwer

Twelve-year-old Vivian Van Tassel is angry: angry about her mom's mysterious and sudden death; at her dad for uprooting their lives in Chicago to move to the sleepy, creepy town of Midnight Lake; at the bullies who seem to be drawn to her no matter how much she tries to keep her head down. but mostly angry at herself for causing bad things to happen wherever she goes.

978-1-6659-1819-0 Aladdin ©2023 5-1/2 x 8-1/4 320 pgs.

Grades 3 - 6 Dewey# Fic

Reviews by: Kirkus Reviews e-playing game Beasts and Battlements originated in Midnight Lake, Wisconsin. Twelve-year-old Vivian Van Tassel has extraordinary fencing skills, a short temper, a passion for Harry Potter books, and a dead mother--for which she blames herself. Moving to her mother's hometown of Midnight Lake just exacerbates her negative feelings, as she endures bullies and nasty teachers at her new school. Still, despite insisting she doesn't want friends, Vivian does gradually connect with four Beasts and Battlements gamers. Then, while doing a local history project, Vivian discovers unusual connections between B&B and Midnight Lake. Are the game beasts...real? She soon learns that vulturebears, leer spheres, and canimen belong to an "unholy alliance" fighting for Arborem, an ancient druid determined to eradicate humanity. Perhaps only Vivian, thanks to her mother's special Silverthorn family heritage, can stop him. This fantasy adventure shines in Vivian's struggle with grief and guilt and in its creatively crafted gaming elements. Following the prologue, though, active fantasy components disappear for many chapters, slowing the start, and some plot mechanisms feel contrived. As well, in our environmentally aware time, some readers might feel surprised to find a protective nature entity cast as the villain. Vivian and most human characters read White; one gamer is Black, and one has a Latine name. This earnest but uneven fantasy will appeal most to role-playing-game fans. (Fantasy. 9-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Dungeons & Dragons expert Witwer draws inspiration from the tabletop RPG to craft an exciting adventure. Twelve-year-old Vivian Van Tassel's hot temper has gotten her into trouble time and again. It's even led to her removal from fencing class, one of her only outlets for her emotions. But worst of all, she believes that her feelings; and their resultant emotional blowout; are the reason for her mother's tragic accidental death. After her journalist father gets a new job and moves the family to her mother's hometown in Midnight Lake, Wis., Vivian finds herself making friends for the first time while playing Beasts & Battlements with fellow classmates, even as she contends with bullies and struggles to manage her anger and guilt. An assignment about the school's defunct sanitarium brings with it public recognition that a century earlier, many people considered mentally ill described seeing monsters like those featured in B&B, driving Vivian to dig deeper into a dangerous mystery. Abundant Harry Potter references and Vivian's distant third-person perspective bog down the straightforward plot, and standard character archetypes make this a familiar jaunt for fans of fantasy fare. Vivian reads as white. Ages 8: 12. Agent: Jacques de Spoelberch, J. de S. Assoc. (Aug.)

#2374556 Deep Water (Hardcover (Trade))

written by Jamie Sumner

Six hours. One marathon swim. That's all Tully Birch needs to get her life straightened out. With the help of her best friend, Arch, Tully braves the waters of Lake Tahoe to break the record for the youngest person ever to complete the famous "Godfather swim." She wants to achieve something no one in the world has done, because if she does, maybe, just maybe, her mom will come back.

978-1-6659-3506-7 Atheneum ©2024 5-1/2 x 8-1/4 224 pgs.

Grades 6 - 8 Dewey# Fic

Reviews by: Bulletin of the Center for Children's Books At 6 a.m. one cool sunny morning, twelve-year-old Tully begins a 12.1 mile marathon swim across Lake Tahoe, accompanied by her best pal Arch, who kayaks behind her with a timer, snacks, and support. Tully's mom was supposed to be the one joining her--the two were avid swimmers--but she took off months ago after going off of her meds. Tully is convinced that if she can record the swim and go viral as the youngest person to complete the "Godfather" swim, her mom will be so proud of her, she'll certainly come home. But twelve miles gives a person a lot of time to think, and as much as Tully tries to drown out the memories of her mom's erratic, hurtful behavior, she can't help but wonder if she's simply not a good enough daughter. When a storm rolls in, Tully must decide if the risk of finishing the swim will be worth the reward. Outside of a few interactions with Arch, the book fully belongs to Tully, her will to swim, and her memories of her mother. The verse format is expertly used to further immerse the reader in Tully's experience, with shifting cadences that move between steady, firm beats like measured, calm breathing, and more staccato, frantic moments, like sputters and gasps for air. The water makes an apt metaphor for Tully's mom, mercurial and enveloping, and the book's portrayal of her and her depression is not necessarily unkind but very much filtered through

the eyes of a child who has been deeply hurt but unable to fully process that trauma. The authentic voice and contemplations on grief call back to Holly Goldberg Sloan's *Counting by 7s* (BCCB 9/13), and Tully's struggles with her mom's mental health echo themes found in Carr's *Lost Kites and Other Treasures* (BCCB 1/24). KQG COPYRIGHT(2024) Bulletin of the Center for Children's Books, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews Sometimes you must risk everything to find out who matters. Tully has her mother's nose and auburn hair--and even her mother's maiden name as her given name. Tully is also athletic and competitive like her mother. She's been swimming competitively since she was 6, and now, at 12, she's encouraged by her mother to be the youngest person ever to swim across Lake Tahoe. But then Mom stops taking her meds, begins exercising obsessively, and suddenly leaves without saying goodbye. Seeing Dad "swallowed up / in the glow of his computer screen," Tully decides that if she succeeds in swimming across Lake Tahoe, her mother will come back, "Because I am a winner / and I can do HARD THINGS." Tully trains in secret, and early one July morning, she sets out across the lake with her best friend, Arch, kayaking alongside her. Laid out in parts titled "Hour One," "Hour Two," and so on, this accessible but sometimes overly obvious story pulls readers into the heart of a grueling 12.1-mile swim. As Tully struggles mentally with the confusion and guilt brought on by her mother's departure and she thrashes her way across a suddenly stormy lake while Arch yells at her to quit, she comes to an honest assessment of herself--and her mother. The varied and creative layout of the text adds an interesting component to the free-verse, present-tense narrative, told from Tully's first-person point of view. Characters read white. Packs a powerful punch. (Verse fiction. 9-12) COPYRIGHT(2024) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Twelve-year-old Tully Birch attempts to set a record as the youngest swimmer to complete the Godfather swim, a 12.1-mile trek across Lake Tahoe, in this carefully crafted verse novel by Sumner (*Maid for It*). Though the endeavor was originally Tully's mother's idea, she abandons the family months before the planned swim. Tully hopes Mom will return to celebrate once Tully completes her clandestine swim, which her best friend Arch Novak plans to post online. Arch also serves as navigator, kayaking beside Tully to pace, monitor, and encourage her, as well as intercept increasingly worried texts from both their parents. If all goes as planned, the duo will be safely across the lake by lunchtime. But a lot can happen during a six-hour expedition. Sumner compassionately examines the effects that living with a parent managing mental health challenges can have on a child ("The mind is the biggest/ danger of all./ My mother taught me that"). The spare text deftly mirrors the push-and-pull rhythm of a swimmer in open water, while lengthier poems emphasize memories and harsh realities. Tully and Arch cue as white. Ages 10: up. (Apr.)

Reviews by: School Library Journal Gr 3-7—Twelve-year-old Tully is set to make history as the youngest person to swim the challenging 12-mile "Godfather Swim" in Lake Tahoe. But her motivation isn't just about the athletic feat. She's hoping this achievement will catch her depressed mother's attention, coaxing her to return home after leaving the family. Tully's been training in secret, hidden from her father with the support of her best friend, Arch. Now, poised for the swim, the question looms: Will she complete it or will fate intervene? Told through verse, this quick read captures the emotional turmoil of a young girl grappling with her mother's abandonment. As Tully pushes ahead in the water, she reflects on the past, trying to understand what might have driven her mother away. Each mile not only propels the race forward but delves deeper into Tully's life story, drawing readers into her struggles and emotions. VERDICT A wonderful read that will resonate with athletes, those navigating family challenges, and even reluctant readers; a strong addition to all middle grade library collections.—Kate Rao

#2325247 When Giants Burn (Hardcover (Trade))

written by Beth Vrabel

In this emotional and riveting middle grade novel that's *The Misfits* meets *Hatchet*, two unlikely friends fly off on an adventure they hope will set them free--only to learn the value of what they left behind.

978-1-6659-1862-6 Atheneum ©2023 5-1/2 x 8-1/4 256 pgs.

Grades 4 - 7 Dewey# Fic

Quantity	Unit Price
1	\$17.99

Reviews by: Booklist zes a "Hatchet and Gretel story," a short hop in a homemade ultralight plane turns into a harrowing ordeal for two sixth-graders feeling betrayed by their parents. Even though his single mom is finally out of prison, Hayes rages at her for deserting him and his little brother, and Gerty, despite losing a baby sister to SIDS, is just finding her balance in school when her survivalist dad announces it's time to leave. Unwillingly brought together by a savvy school counselor, the two outsiders cement a fragile bond by impulsively heading to Pando, a cloned stand of aspen and one of the oldest and biggest single organisms on Earth, just as a massive forest fire shifts into the region. Readers will be swept along by the intense plot, but the way the author also puts her adult cast through hard tests of character over the course of several frantic days, so that by the end both traumatized families have found pathways to healing, adds a rich layer of emotional satisfaction.

Reviews by: Publishers Weekly Vrabel (*Lies I Tell Myself*) spins a poignant love letter to friendship and a harrowing survival tale in this gripping read. Neither Gerty nor Hayes, both white-cued sixth graders in Rabbit, Utah, think that their participation in their school guidance counselor's "safe space" lunches, meant to help them practice their social skills, is necessary. As their forced proximity blossoms into real friendship, however, Gerty shows Hayes her most prized and secret possession: an ultralight airplane she is building alone in her grandmother's barn. Hayes; who is adapting to life with his mother, recently released from prison, while navigating anxious thoughts about ending up alone; welcomes Gerty's friendship and is fascinated by her survivalist parents. When Gerty's family announces sudden plans to move off the grid, she and Hayes endeavor

to pilot the ultralight at least once before their imminent separation. But the short, spontaneous trip quickly becomes a fight for their lives against injury, illness, forest fires, and unexpected criminal activity. Via Hayes and Gerty's riveting alternating narratives, Vrabel carefully unspools the history of each tween's personal trauma and interrogates the necessity of community and forgiveness in working through internal conflicts and surviving external challenges. Ages 8: 12. Agent: Nicole Resciniti, Seymour Agency. (June)

#2325302 McNifficients (Hardcover (Trade))

written by Amy Makechnie

Every day, Lord Tennyson the Miniature Schnauzer does his very best to care for the six McNiff children and keep them from destroying their pink New England farmhouse--and the rest of the town for that matter. But when summer vacation brings the kids home together all day, his chaos-containing skills are put to the ultimate test.

978-1-6659-1898-5 Simon & Schuster Books For Young Readers ©2023 5-1/2 x 8-1/4 320 pgs.

Grades 4 - 7 Dewey# Fic

Quantity	Unit Price
1	\$17.99

Reviews by: Kirkus Reviews Miniature schnauzer Lord Tennyson is in charge of the six rambunctious McNiff children. This precocious dog has his paws filled teaching the children to mind their manners, curb their fighting, and ride their bikes. The children's bumbling father directs community theater productions, and their absent-minded mother is distracted by her gardening and baking--which leaves this accomplished canine in charge. As if six children weren't enough, the family, who live in a pink New Hampshire farmhouse, also have two bunnies, six chickens, and a snake. It is summer vacation for the McNiffs, who are cued White, and chaos reigns, especially between the two oldest girls, Mary, 11, and Annie, 13. In fact, their mutual animosity is venomous; some readers may be distressed by the meanness on display and find it difficult to feel compassion for them, while others may relate all too well. With bed-wetting, a stolen diary, and graffiti involved, even the Sibling Council cannot repair their fractured relationship. Lord Tennyson must find new tricks to bring the children back together into a united pack before summer's end. When Pearl, one of the younger McNiffs who will be entering kindergarten, goes missing, the drama switches gears as Lord Tennyson truly proves his dedication and value to his family. The writing is strong, and Lord Tennyson has an arch, competent manner in keeping with his professional role model, Mary Poppins. Final art not seen. Chaotically entertaining. (Fiction. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly A proper miniature schnauzer and self-appointed nanny seeks to tame his unruly charges in a lively role-reversing family story by Makechnie (Ten Thousand Tries). When an event on the first day of summer sees the McNiff clan again ejected from the local lake, pup Lord Tennyson, "a short, middle-aged gentleman with white whiskers and a royal pedigree," resolves to change things by season's end. The children; ranging from 18 months to 13 years; each serve up their own style of disorderly conduct, however, while their free-spirited, largely hands-off parents are often in the wings. But keeping constant watch and employing well-timed barks, frowns, licks, and tugs is only the beginning for Tenny. In addition to doing nanny research and attempting to teach the children basic dog-care tasks, he must take on rescue missions (e.g., pulling toddler Sweetums from the lake) and check his raw canine instincts around the family's baby chicks. Makechnie invites readers into a sometimes frenetic household that's frequently suffused with love and laughs. Humor abounds in quirky details; avian creatures named after Downton Abbey characters, Tenny's formal inner dialogue and love of the film Mary Poppins; while the siblings' bickering, teasing, and supportive interactions ring true. The human family reads as white. Ages 8: 12. Agent: Zoe Sandler, ICM Partners. (June)

#2332994 Bravest Warrior in Nefaria (Hardcover (Trade))

written by Adi Alsaid

Welcome to Nefaria, where nearly every day the kingdom faces another evil scheme. Most are harmless, though, so the citizens of Nefaria simply learn to live with the latest hijinks and go on with their lives. This includes Bobert Bougainvillea, who is much more concerned with the fact that he seems to be invisible. From the teachers in his school to his classmates, almost no one notices Bobert, no matter how visible he tries to be. Then everything changes when Bobert follows his classmates to a cursed gumball machine.

978-1-6659-2775-8 Aladdin ©2023 5-1/2 x 8-1/4 304 pgs.

Grades 3 - 6 Dewey# Fic

Quantity	Unit Price
1	\$18.99

Reviews by: Booklist Grades 4-6 This droll tale features a narcissistic wizard and a lad with a strong tendency to fade into the background. In the land of Nefaria, where evil schemes are practically a daily occurrence, self-dubbed Great Wizard Matt has concocted a particularly fiendish one: to

assemble an army of bespelled young children and stage a coup, because no grownups will be willing to fight them. Thanks to a spell that makes everyone forget them, the children aren't missed, and that particularly applies to 11-year-old Bobert Bougainvillea, who, even before being sucked into the wizard's magical gumball dispenser alongside 199 other kids, had problems being noticed. Can Bobert rise from anonymity to find a way to free the children? Eventually he does, but as the wizard spitefully turned him into a small sloth, performing the complicated and silly counterspell goes . . . very . . . slowly, keying a climax that likewise stretches out to excruciating length. The pacing ploy is a clever twist, but even patient readers may be tempted to skip ahead to the happy ending. COPYRIGHT(2023) Booklist, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews Bobert is used to being ignored by pretty much all who live in the strange kingdom of Nefaria, until an unexpected adventure thrusts him into the spotlight. In fact, making friends feels impossible to mostly invisible 11-year-old Bobert Bougainvillea. So when he's presented with the chance to protect popular classmate Candelabra and her friends from a dangerous dare by taking on the challenge himself, he jumps at the opportunity. As a consequence of using the cursed gumball machine that is rumored to capture anyone who uses it after dark, Bobert finds himself under the control of Matt, an evil but lazy wizard who is plotting to raise a child army to take control of Nefaria. Inventive oddities like singing mountain spiders and the Anti-Beanbag Society's exploits add charm that keeps the storyline fresh, humorous, and fun as it engages with everyday tween dilemmas. Many readers will be able to relate to the relationship issues explored, both between kids and adults and within peer groups. On his journey to find acceptance and belonging, Bobert comes to understand that others are lonely too, and that "it could break the human spirit." Gumball machines and beanbags notwithstanding, the Kingdom of Nefaria, which is ruled by a king and a clueless Council of Elders, has a rustic, preindustrial feeling. The racially ambiguous characters are varied in appearance, and one child has two moms. Fanciful, humorous, and original. (Fantasy. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly schemes perpetrated by villainous foes are commonplace. But since ploys such as the Great Cheese Fraud, the formation of the Anti-beanbag Society, and a plot to take over the kingdom using highly trained spider monkeys turned out mostly harmless, residents rarely concern themselves about them. Even 11-year-old Bobert Bougainvillea, who has olive skin, is only worried that he seems invisible to his classmates. To make friends, Bobert accepts a peer's dare to use a purportedly cursed gumball machine after dark. In doing so, he springs a trap laid long ago by a sinister wizard named Matt, whose plans to conquer the kingdom involve slowly gathering an army of children through his gumball machine. Matt ensures that any memory of the child's existence is erased, so as to elude the kingdom's evil-scheme sniffer-outers, but Bobert's new friends somehow remember him just enough to go looking for him, thus drawing them all into a struggle to save him and the kingdom. This goofy middle grade debut from Alsaïd (Actually Super) possesses a simmering humor drawn from the premise and setting's thoroughly absurd trappings, and its good-intentioned protagonists lend it an upbeat tone. Ages 8: 12. (Sept.)

#2348009 Looking Up (Hardcover (POB))

written by Stephan Pastis

Living alone with her mother in a poorer part of town, Saint—a girl drawn to medieval knights, lost causes, and the protection of birthday pinatas—sees the neighborhood she has always known and loved disappearing around her: old homes being torn down and replaced by fancy condos and coffee shops. But when her favorite creaky old toy store is demolished, she knows she must act.

978-1-6659-2962-2 Aladdin ©2023 5-1/2 x 8 240 pgs.

Grades 3 - 6 Dewey# Fic

Quantity	Unit Price
1	\$13.99

Reviews by: Kirkus Reviews Imagination and drawing help two grieving children in this illustrated novel by the creator of the popular Timmy Failure series and the comic strip "Pearls Before Swine." Things are not looking up for Saint ("I wasn't named for a bearded guy in heaven. I was named for a football team in Louisiana"). Her favorite toy store is demolished, and her beloved diner closes. It's all part of the gentrification for which she holds her single mother, who works long hours as a real estate agent and frequently breaks her promises, responsible. Saint very much likes reticent neighbor Daniel "Chance" McGibbons, who uses a cane, but first she has to win his friendship after an awkward beginning at his birthday party. When the uncle Chance lives with sells to developers, Saint's determination to save his home penetrates Chance's reserve. The kids' subsequent shenanigans will delight readers. The story is generously illustrated with Pastis' characteristic black-and-white cartoon line drawings, mostly of the two round-headed kids, whose hair and skin are as white as the page. Longtime neighborhood resident Old Lady Trifaldi helps Saint learn to cope with change by looking at the stars from her roof, "to make time go backward." Pastis fills this deceptively simple first-person account with humor, puns, turns, and twists--and the final twist gives this friendship tale its surprising depth. Words and art combine to create a moving story. (Fiction. 9-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly In this deceptively funny illustrated novel about loneliness and grief, Pastis (the Timmy Failure series) introduces a girl striving to save her town from gentrification by latte-sipping hipsters. Saint has a massive crush on neighbor kid Daniel, who walks with a cane. Her heightened emotions compel her to steal his birthday pinata, throw eggs at his drawings, and show up at his door dressed as a skeleton knight speaking in medieval English ("Ye are my Daniel in Distress," she pronounces). On top of her confusing emotions surrounding her crush, Saint is worried about all the fancy new coffee shops and condos springing up around town; she's especially worried about how these new developments have compelled community members to move away. When she learns that Daniel will soon be leaving, too, she persuades him to aid

her in her quest to save the town from developers. Pastis's distinctive, heavily lined b&w illustrations effectively convey the protagonists' depth of emotion via amiable faces composed of two dots for eyes and a c-curve nose, while prose contains his signature absurd humor, which lightens this meditation on mourning. Characters' skin tone reflects the white of the paper. Ages 8: 12. Agent: Dan Lazar, Writers House. (Oct.)

Reviews by: School Library Journal Gr 3–7—Saint (named after the football team) is a face-loving (will eat nothing with a face), piata-saving girl, who claims her mom breaks all of her promises. The latest proof of this shortcoming comes in the form of Saint's mom not being able to attend an egg toss, which henceforth eliminates the chance of Saint winning the shopping spree at her favorite toy store, Punches Toy Farm. When Punches is demolished to become a coffee shop, it is just one more casualty in their small town. Across the street lives shy, Daniel "Chance" McGibbons, who likes to draw (his imaginary friend, Timmy) and walks with a cane. When Daniel's house goes up for sale, Saint's life partner, a painted turtle named Dr. Rutherford B. Hayes, gives out sage wisdom about life and changes. Daniel and Saint try to thwart buyers from buying the house, knowing it will get bulldozed like much of their town. Readers will rally around Daniel, Saint, and elderly toy store owner Muffins, while seeing the dilemmas faced by Saint's mom and Daniel's uncle, who are struggling to make ends meet and care for their children. With this hilarious book and its comical black-and-white illustrations throughout, Pastis (Timmy Failure) once again reaches out to reluctant readers with a multilayered tale of loss, grief, and growing up. **VERDICT** With an imaginative ending that will make readers think, there is more than meets the eye in this funny gem.—Michele Shaw

#2329318 Grumbones (Hardcover (Trade))
written by Jenn Bennett

Everyone in Whispering Pines knows their town is full of ghosts, but Helena Novak hasn't seen a trace of her late grandmother, Babi. Helena and her best friend, Ben, spend most of their free time in the cemetery, yet no amount of gifts on Babi's grave has lured her spirit out. But someone else has been paying attention.

Reviews by: Booklist Helena Novak, known as Haunted Helena in her small coastal town, has desperately been trying to contact her grandmother, Babi, but she's not getting a reply. Yes, Babi is technically deceased, but before she passed, she taught her granddaughter a tip for talking to the dead, and Helena, concerned that something has gone wrong for her grandmother in the afterlife, ropes her best friend, Ben, into a last-ditch effort to make a connection. After spinning a spell, they are presented with a cemetery door to the land of the dead, but what starts as a seemingly simple quest to find Babi turns into a battle for a kingdom and a race to outrun a sinister, soul-sucking force known only as the Nightmare. The gripping story is terrifically eerie and atmospheric, and evocative descriptions easily transport readers to an altogether uncommon sort of underworld, one with distinct, feuding kingdoms, an intricate mythology, and creatively creepy inhabitants. A skillful mix of scary, sweet, and silly, with a deep love at its core.

Reviews by: Kirkus Reviews Helena Novak, eager to reconnect with her deceased grandmother, journeys into the nightmarish world beyond the grave with best friend Ben in this middle-grade debut by acclaimed author Bennett. In Whispering Pines Cemetery, the Oregon sixth graders descend into the underworld in search of Babi, Helena's Czech paternal grandmother. What they never expected to find was a place full of unusual, ghoulish creatures. The tweens meet an alarming guide for hire named Grumbones ("Like Santa's evil skinny brother who lived alone in the California desert") who promises to help them find Babi, but they quickly learn that they don't know whom to trust. In fact, their very lives are at stake as Hereafter is roiled by a battle over its rule. Through the close friendship between Helena and Ben, the book explores middle school pressures and tensions. The sense of place is richly executed, with well-drawn creatures and characters populating this world of the dead. Helena's experiences in Hereafter reflect the grieving and desperation that humans feel for connection with their loved ones after death. Loving bonds between family members and close friends sit comfortably at the heart of this supernatural, often gruesome tale that expertly explores people's feelings of love and loss against the backdrop of an absorbing story of the nonliving. Ben has a Black dad and French Canadian mom. Original and absorbing; presents suspenseful underworld chills alongside heartfelt human emotions. #2332774 Finch House (Hardcover (Trade))
written by Ciera Burch

Eleven-year-old Micah has no interest in moving out of her grandfather's house. She loves living with Poppop and their shared hobby of driving around rich neighborhoods to find treasures in others' trash. To avoid packing, Micah goes for a bike ride and ends up at Finch House, the decrepit Victorian that Poppop says is Off Limits. Except

Quantity 1
Unit Price \$17.99

when she gets there, it's all fixed up and there's a boy named Theo in the front yard. Surely that means Finch House isn't Off Limits anymore? But when Poppop finds her there, Micah is only met with his disappointment.
 978-1-6659-3054-3 Margaret K. McElderry ©2023 5-1/2 x 8-1/4 208 pgs.
 Grades 3 - 6 Dewey# Fic AR Lvl 4.4 AR Pts 5.0

Reviews by: Booklist Micah isn't ready for change. Her mom is moving them an hour away from Poppop's house and the familiarity of their town—including the elusive Finch House, an old, run-down mansion Poppop makes her promise to stay away from. Micah finds herself biking near Finch House one day close to the move, but it's no longer run-down; a new family has moved in, and a boy her age, Theo, is hanging out in the yard. She learns from Theo that the house isn't quite what it seems—it's haunted by whispers and childlike shadows—which sparks an argument with Poppop over what secrets he might be hiding. But after Poppop disappears, his truck left in front of the Finch House, Micah has no choice but to go inside. She quickly discovers the secrets of the home (including a challenging racial history) and a magic that's holding on to her great-aunt, the first of many children the house has taken. Pitch-black tunnels, twisting plots, and untrustworthy relatives will tingle the spines of readers intrigued by ghost stories, and an unexpected ending sets up the potential for a sequel delving further into the magic behind the haunted Finch House. Burch's debut is cohesive, fast paced, and thoughtful about the racial challenges of the past and how they may haunt the present.

Reviews by: Publishers Weekly Having lived most of her 11 years with her beloved grandfather, Poppop, Michaela "Micah" Robinson resists her family's upcoming move to a home an hour away. Frustrated with packing, she goes for a bike ride and discovers that Finch House, a long-abandoned Victorian that Poppop declared off-limits, has been renovated and bought by a new family, including a boy named Theo. When Poppop arrives, he looks strangely terrified and tersely demands that they leave, frustrating Micah with his unusual lack of candor. Later, she learns that Finch House was the last place Poppop saw his sister, who went missing when she was not much older than Micah. After Poppop vanishes the next day, Micah and Theo search to no avail, and a hot chocolate break inside Finch House soon turns terrifying. Micah hears her grandfather's voice, then becomes trapped in the house; an ever-shifting realm with ties to the past. Deftly utilizing a haunted house framework to explore the weight of intergenerational trauma, debut author Burch's chilling tale recalls the sinister atmospherics of *Coraline*, while its thought-provoking ending enhances spare, poetic storytelling. Micah and her grandfather are Black; Theo cues as white. Ages 8: 12. Agent: Patrice Caldwell, New Leaf Literary & Media. (Sept.)

#2365450 Finding Normal (Hardcover (Trade))
written by Stephanie Faris
 This heartfelt middle grade novel about friendship, belonging, and the power of community follows a girl whose family is uprooted after a flood destroys their house.
 978-1-6659-3890-7 Aladdin ©2024 5-1/2 x 8-1/4 256 pgs.
 Grades 4 - 7 Dewey# Fic AR Lvl 4.5 AR Pts 7.0

Quantity	Unit Price
1	\$17.99

Reviews by: Horn Book Magazine After "a bunch of water ruin[s] her life," all that our twelve-year-old protagonist wants to do is get back to normal. But what does normal look like for "Temple Baxter, flood victim"? It doesn't look like living in temporary quarters for weeks, switching schools, and constantly babysitting her three-year-old sister while her parents work and deal with the extensive repairs on their home. When her former private school friends ghost her, she's further unmoored. A natural organizer, Temple lands on the coping strategy of planning a fundraiser. With the help of neighborhood frenemy Jesse and new friend Asha, whose reframing of "flood victim" as "aquatic adventurer" helps Temple find her footing, she recruits local media, some big-name acts, and (just in time) a venue. With a plot that leans on the "plucky kids save the day with a big show" trope, this could read like a heartwarming feature story on the local news. But Faris elevates it with a keen sensitivity to Temple's emotional development as the tween comes to a maturing sense of her place in her family and community. Her desperate insistence that her parents level with her will strike chords of recognition in readers who are also teetering on the brink of agency. Sincere and heartfelt. Vicky Smith (Copyright 2024 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews After a flood upends her neighborhood, 12-year-old Temple Baxter tries to help. When heavy rains threaten the stability of the dam near their home, Temple, her parents, and her 3-year-old sister, Kennedy, are forced to evacuate in the middle of the night. Fortunately, the dam holds, but water spills over the top of it, and their one-story house is flooded up to Temple's mom's knee level. It needs extensive repairs, but the family doesn't have flood insurance. Pulled out of her private school to save money, Temple has to cope with the unexplained enmity of her former classmates and the challenge of making new friends. She also embarks on an ambitious community fundraiser to collect money to help flood victims. Faris' writing is smooth, but she stays at the surface level: The flood and its damage remain in the background, and readers never get a visceral sense of the magnitude of the family's losses; Temple mourns her old bedroom in the abstract, as a place she used to inhabit but not as the repository of a collection of memories or items with emotional impact. The mean girls and annoying-neighbor-who-turns-out-to-be-a-friend feel more like types than fleshed-out people, and the difficulties of putting on a fundraiser dissolve too easily to ring true. Main characters read white. These floodwaters don't run very deep. (Fiction. 8-12) COPYRIGHT(2024) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly A devastating storm upsets every aspect of sixth grader Temple Baxter's comforting life, inspiring her to make waves of her own, in this accessible, character-driven drama by Faris (the Gabby Ghost Hunter series). When flooding from a storm displaces her family, Temple is ousted from her private school's popular clique. Lacking flood insurance to offset renovation costs, the Baxters move in with a neighbor and Temple transfers to public school to save money; at their temporary residence, she's tasked with babysitting her three-year-old sister while their parents navigate home repairs. To turn "the absolute worst day of her life" around, Temple ambitiously plans a high-profile fundraising concert to benefit her family and others affected by the Moorestown flood; and to show up her former fair-weather friends. But new pals gradually impart lessons about acceptance, openness, and trust that evolve Temple's self-serving agenda, while missteps; including slipping grades, childcare failures, and a booking error; emphasize the importance of delegation and teamwork. Though the third-person narration occasionally feels distant and some plot points strain credulity, themes of community, resilience, and youth empowerment buoy a sincere tale enriched by Faris's personal experience as a flood survivor, as discussed in an author's note. Main characters read as white. Ages 9: 13. Agent: Natalie Lakosil, Looking Glass Literary & Media. (Feb.)

Reviews by: School Library Journal Gr 4–7—The story of a sixth grader who overcomes adversity by taking charge and helping those in her neighborhood begins with Temple asking to attend a sleepover and her mom denying her request. At this point, readers might expect a typical coming-of-age novel about strict parents and family disagreements. As the book quickly progresses, Temple and her family experience a natural disaster in the form of a home-destroying flash flood. Temple's family relocates first to a hotel and then to their neighbor's house. The tween is dealing with changing schools, mean girls, and feeling left out. She decides to plan a benefit for the flood victims and contacts the news, and then a popular band to make the event successful. At this point in the novel, there is too much going on to keep up with, and the tasks Temple is taking on seem a bit unrealistic. Despite this, the plot is engaging and the book will be helpful for kids who've experienced something similar. VERDICT Recommended for libraries which serve middle school children.—April Crowder

#2363226 Courtesy of Cupid (Hardcover (Trade))

written by Nashae Jones

Erin Johnson's thirteenth birthday unfolds like any other day, from her mom's quirky and embarrassing choice of outfit to racing her nemesis, Trevor Jin, to the best seat in class-front row, center. But her gifts this year include something very out of the ordinary: magical powers.

978-1-6659-3988-1 Aladdin ©2024 5-1/2 x 8-1/4 288 pgs.

Grades 6 - 8 Dewey# Fic

Quantity	Unit Price
1	\$17.99

Reviews by: Booklist In her campaign to become president of the Multicultural Leadership Club at school, ambitious eighth-grader Erin uses every tool at her disposal to compete with her nemesis, Trevor Jin—including using her newfound magical powers to make people fall in love. But Erin soon finds out that tampering with people's hearts has major consequences, not least the fact that while Trevor's infatuation with her is caused by Cupid magic, Erin might be falling for Trevor for real. Jones' debut middle-grade romance explores fickle adolescent relationships, and strong-minded Erin's story is at its best when she's learning to see her friends, old and new, with more nuance than before. Sudden emotional shifts can make some interactions feel disjointed, but footnotes from Erin inject humorous asides, and each chapter starts with one of the Cupid Commandments, foreshadowing the chapter's coming themes. Some readers will relate to the pressure Erin and Trevor feel to succeed as high-achieving students, and fans of academic rivalries will enjoy the pair's snarky back-and-forth.

Reviews by: Kirkus Reviews A hyperorganized tween's plans are derailed when her orchestrated love connections go awry. Erin Johnson is an ambitious biracial Black girl who's obsessed with being the best academically and wants to follow in the footsteps of her hero, Marie Curie. Her goal for eighth grade is to be elected president of the Multicultural Leadership Club, finally beating archnemesis Trevor Jin, who's Korean American. Trevor's been a thorn in Erin's side ever since kindergarten and is constantly edging her out in every competition. Right after Erin's 13th birthday, her mother finally reveals her father's identity: Cupid, the God of Love, a redheaded white man, who wrote letters to help Erin prepare for the powers that will manifest now that she's 13. He even left her a Cupid manual. Erin's mom makes her promise not to use her powers until she understands them better, but while Erin believes romantic love is a trivial distraction, she realizes her matchmaking powers might give her the edge she needs. Her single-minded focus on achievement, however, leads to friendship troubles--and other unintended consequences. The humor and strong character development drive this tender story about different types of love and our inability to see the ways they affect our lives. The rivalry between Erin and Trevor and the complex relationships among the kids and adults will resonate with readers. Erin's first-person voice is enhanced by the wry observations in her footnotes, which appear throughout the novel. A sweetly romantic coming-of-age story with fun, magical touches. (the Cupid Commandments) (Romance. 10-13) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly A demigod's scheme to use newfound powers for her own gain backfires in Jones's wholesome, cozy love story. Eighth grader Erin Johnson is ambitious: she's determined to cure colon cancer and become the first Black woman to receive a Nobel Prize for medicine. And her primary motivator is to spite rival Trevor Jin. Erin and Trevor, who is Korean, have been academically neck and neck since kindergarten, and this year the two are set to vie for the presidency of their school's Multicultural Leadership Club. Things take a turn for the weird when, the day after her 13th birthday, Erin notices odd sensations; and consequences; when she focuses too much of her attention on the strained

relationships around her. When her romance author mother reveals that Erin's long-absent father is Cupid, the God of Love, Erin dismisses the idea. But growing evidence of her budding magical powers convinces her of the truth. She resolves to make Trevor fall in love with her, so he'll forfeit his presidential campaign, except it's Erin who begins falling for her longtime nemesis. Jones's enemies-to-lovers debut sparkles with charming rom-com banter, and Erin's drive to succeed at all costs; and the myriad ethical dilemmas her determination lands her in; adds a delightfully refreshing quality to the sometimes familiar feeling tale. Ages 10: up. Agent: Chloe Seager, Madeleine Milburn Literary. (Jan.)

Reviews by: School Library Journal Gr 4-8--Erin Johnson has no time for love. She may only be in middle school, but she has big plans: become a biologist; cure colon cancer; and win a Nobel Prize. And to start, she needs to secure her spot as president of the Multicultural Leadership Club. There's only one thing standing in her way: Trevor Jin. Erin's academic rival since kindergarten, Trevor has his eyes on the presidency, and he is ready to fight for it. Then, on her 13th birthday, Erin discovers that she is the daughter of Cupid, and she has inherited the power to make people fall in love. Erin uses her newfound abilities for her own benefit and enchants Trevor with the intention of manipulating him into dropping out of the race. But as her own feelings toward Trevor begin to change, Erin must face the consequences of meddling with love. A diverse cast of characters enriches the academic enemies trope. Erin is Black and Trevor is Korean, and they form a bond as they share their cultures with one each other. But while the triumphs and humiliations of adolescence are vividly depicted, the plot tends to wander, and the central romance lacks that spark that would make the book a more satisfying introduction to rom-coms. VERDICT An optional purchase, except where there is a dire need for middle grade romance.--Alia Shields Copyright 2023 School Library Journal, LLC Used with permission.

#2329962 October Witches (Hardcover (Trade))
written by Jennifer Claessen

Thirteen-year-old Clementine Merlyn lives with her mom, her aunts, and her cousin Mirabelle at Number 15 Pendragon Road. The Merlyns are a family of witches, but because of an ancient falling out with the other branch of the family, the Morgans, they only have powers for a single month of the year: October.

Unit Price \$17.99

Reviews by: Booklist Clementine Merlyn is nervously awaiting October's arrival. It's the month when her matriarchal household, including her mother, several aunts, and a sullen cousin, are imbued with their magical gifts, and Clemmie wonders if her powers will finally manifest. The Merlyns, distant descendants of the famous Arthurian witch, have been locked in centuries of conflict with the rival Morgan clan; both are desperate to maintain their magic year-round. Clemmie receives her powers but finds them surprisingly painful and unwieldy. She can't help wondering if magic only brings mayhem—a suspicion further confirmed by a disastrous Merlyn family magical attempt that sees the older relative spirited away by the malicious Morgans for nefarious purposes. It's up to Clemmie, her reluctant cousin, and some truly unexpected allies to unravel the Morgan/Merlyn mystery and right their extraordinary world. This clever coming-of-age story is chock-full of magic and mythology, mixing Arthurian legend with Practical Magic and plenty of adventure. A marvelous modern fantasy for any young reader in search of a little magic.

#2323049 Work in Progress (Hardcover (Trade))
written by Jarrett Lerner

Will is the only round kid in a school full of string beans. So he hides...in baggy jeans and oversized hoodies, in the back row during class, and anywhere but the cafeteria during lunch. But shame isn't the only feeling that dominates Will's life. He's also got a crush on a girl named Jules who knows he doesn't have a chance with--string beans only date string beans--but he can't help wondering what if?

Quantity 1
Unit Price \$17.99

Reviews by: Kirkus Reviews Will Chambers wrestles with fat stigma, self-loathing, disordered eating, and the ultimate desire to be accepted. Lerner's illustrated verse novel opens on Will's fourth grade year. It's the first time the word fat is hurled at him as an insult, the first time he understands that the rest of the world sees something wrong with his body. Three years later, shame-filled Will is eating less and less. It's Markus, his kind, cool skateboarder friend, who helps Will when he eventually breaks and who is there as he works on piecing himself back together. Lerner uses the format to great effect, as the staccato lines of broken verse are well matched to Will's honest, disjointed inner thoughts. The setup makes for an effective portrayal of Will's painful mental battles. The black-and-white illustrations mostly depict Markus; Will's crush, Jules, a

skinny girl; and a prickly, monsterlike version of how Will sees himself. Peppered throughout are balls of black scribbles representing Will's anxiety, fears, and the anger he directs at himself. The diary feel adds to readers' understanding of Will. Lerner writes very affecting scenes that will resonate with some readers and provide insight for others, shedding powerful light on boys' body image struggles. All characters appear White. A successful marriage of art and poetry. (Verse fiction. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly ing verse, Lerner (the Nat the Cat series) crafts an empathetic illustrated novel about one boy's experience with body dysmorphia, disordered eating, and stigma. Ever since an incident three years ago in which a bully maliciously called him fat in a crowded hallway ("That word./ He spat it at me/ like it was the worst one/ he knew"), middle schooler Will Chambers has felt self-conscious in his body, wearing baggy clothes and isolating himself from his friends. He pretends everything is fine, even as he begins eating less. But when new friend Markus questions Will about why he never brings anything for lunch, and Will overhears hurtful gossip about his crush on a skinny classmate, Will moves further into a cycle of bingeing and restricting food. Lerner's sketch-like illustrations, presented as Will's own diary doodles, render grayscale caricatures of Will's classmates, while his own self-portrait, depicted via stark black scribbles, slowly morphs into a monstrous version of himself that fills the page. Employing frenetic pacing and disjointed verse that conveys Will's growing anxiety and internalized shame, Lerner cultivates a perceptive representation of recovery and self-acceptance. Most characters' skin tones reflect the white of the page. Ages 8: 12. (May)

Reviews by: Shelf Awareness A Work in Progress by Jarrett Lerner (EngiNerds series) is an earnest and inspiring illustrated middle-grade novel in verse that grapples with bullying, the feeling of estrangement, and the social stigma attached to being in a larger body.

#2332775 Maid for It (Hardcover (Trade))

written by Jamie Sumner

Now that Franny and her newly sober mom have moved to a cozy apartment above a laundromat, Franny's looking forward to a life where her biggest excitement is getting top grades in math class. But when Franny's mom gets injured in a car accident, their fragile life begins to crumble. There's no way her mom can keep her job cleaning houses, which means she can't pay the bills. Franny can't forget what happened the last time her mom was hurt: the pills that were supposed to help became an addiction, until rehab brought them to Mimi's laundromat and the support group she hosts.

978-1-6659-0577-0 Atheneum ©2023 5-1/2 x 8-1/4 240 pgs.

Grades 7 - Y Dewey# Fic

Quantity	Unit Price
1	\$17.99

Reviews by: Kirkus Reviews Franny Bishop's life is built on worrying: She worries that Mom will relapse again and that they will have to move back to Memphis, "where all the bad memories live." Suppressing her anxiety is 12-year-old Franny's specialty--to combat it, she religiously crosses daily goals off in her favorite purple planner. Drawing a line through each item helps her find a sense of peace, even if that means hiding in the bathroom at lunchtime and calling to check on her mother. When she's assigned to sit at a table in math class with popular (and mean) cheerleader Sloan and basketball player and origami enthusiast Noah, Franny is pushed further outside of her comfort bubble. And when a car accident lands her mother in the hospital, upsetting the delicate balance they have achieved, even the support of Mimi, her mother's Alcoholics and Narcotics Anonymous sponsor, can't stave off her panic attacks. Franny sees no choice but to take over one of her mother's jobs cleaning houses, even if it means resorting to some ingenious strategies to pull off. This honest story invites readers into a realistic situation that many young people experience. It offers an accessible, welcoming, and introspective account of the struggles faced by those who worry about a loved one's addiction. The well-developed relationships are a highlight. Noah is Black and has two moms in a community that is predominantly white and straight. A heart-wrenching read about a girl forced to grow up too quickly. (Fiction. 10-14) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly With sure-handed plotting and distinctive characters, this immediate-feeling novel from Sumner (The Summer of June) captures the lingering impact of substance reliance on one family. Three years after her mother's rehab stay following a pain pill relapse, sixth-grader Franny Bishop relies on meticulously planned logistics to manage her own anxieties as well as her mom's eating schedule. But handling what she perceives as her household responsibilities becomes more challenging when a car accident fractures her mother's leg, resulting in necessary hospital pain management along with increased medical bills and decreased gigwork for her mother. After hiding the prescribed oxycodone tablets her mom tried to refuse ("If it comes to it, I'll be the one to decide when and how much she gets") and engaging in a bit of subterfuge, Franny secretly takes over her mom's house-cleaning jobs to keep the family afloat. As Franny navigates the past traumas that led to her parentification, the aphorism-studded first-person narrative spotlights her learning to lean on others; including classmates; her mother's sponsor, Mimi; and, eventually, her mom; in a novel about moving forward with awareness and hope. Protagonists largely cue as white. Ages 10: up. Agent: Keely Boeving, WordServe Literary. (Sept.)

#2281290 Lies I Tell Myself (Hardcover (Trade))

1

\$17.99

written by Beth Vrabel

Raymond has always preferred to keep life simple and leave adventuring to other people. Determined to show everyone how brave, confident, and untroubled he can be, Raymond hatches a three-step plan: 1) Learn to ride a bike. His mom never got around to teaching him before she left. 2) Learn how to swim. 3) Make friends. On his own. But can Raymond really change, or is this whole plan just a bunch of lies he's telling himself?

978-1-6659-0088-1 Atheneum ©2022 5-1/2 x 8-1/4 288 pgs.

Grades 3 - 6 Dewey# Fic AR Lvl 4.5 AR Pts 8.0 Lexile 660

Reviews by: Booklist Grades 4-7 After getting into a heap of worthwhile trouble with his best friend, Trixy, in *To Tell You the Truth* (2021), 11-year-old Raymond gets shipped off for the summer to his grandparents' house in Maine. Raymond barely knows his relatives, who've had little contact ever since their daughter, Raymond's mother, abandoned the family five years earlier, and he feels ridiculously out of place. But with the help of his great-grandfather's old journal, Raymond decides to accomplish three things: ride a bike, learn to swim, and make new friends. It's easier said than done; still, he slowly finds ways to connect with the town, his family, and one incorrigible chicken, all combining into a summer far more rewarding and adventurous than he could have dreamed. It's an equally rewarding and adventurous story, remarkable in the way it allows characters to stretch and grow, and even readers unfamiliar with the preceding installment will have no trouble acclimating to Raymond's congenial company. A humorous and honest exploration of deep family ties, unexpected friendships, and the gift of growing self-knowledge. COPYRIGHT(2022) Booklist, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews Eleven-year-old Raymond gains what his mother lacks: self-knowledge and roots. When Raymond is sent to spend the summer with his grandparents in Maine, he's sure it's punishment for the trouble he and best friend Trixy caused during his dad's last music tour. Raymond doesn't remember his mother Abigail's parents, probably because Abigail abandoned Raymond, his sister, and dad years ago. His grandparents sure don't know Raymond: They call him "backward" and encourage him to go biking, swimming--make friends! Raymond doesn't know how to do any of those things, but he's determined to learn. Despite his doubts and discomfort, Raymond is genuine and funny in all his interactions. The colorful cast of mostly White characters is well drawn, as is the small town of Winter's Peak. Raymond slowly realizes he's making connections with people of all ages, plus one chicken, and that each individual's story is becoming intertwined with his own. He draws on them all--his experiences and theirs--when Abigail shows up for an unannounced, self-serving visit to her parents. Raymond thinks he tells himself lies, but he bravely confronts the truth about Abigail: She cannot love him the way he deserves to be loved. It's a gut punch made bearable because Raymond has developed the core strength and friendships to help him through. This heartfelt, emotionally insightful companion to *To Tell You the Truth* (2021) is accessible to readers unfamiliar with the previous book. Proof positive that an open heart can overcome hurt. (Fiction. 8-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 4-6--In this companion novel to *To Tell You the Truth*, 11-year-old Raymond is sent to spend the summer at his grandparents' house in Winter's Peak, ME. Some kids might not find this so bad, but Raymond doesn't remember his grandparents. In fact, he can barely remember his mom, Abigail, who abandoned his family six years before. Of course, Gigi and Jack don't really know Raymond either. They believe he's "troubled" and "backwards" and needs a summer full of bike riding, swimming, and making friends--too bad Raymond can't ride a bike, swim, or easily make friends. Still, he is determined to try. With the help of his grandfather's journal, the tween sets out to make the best of the summer and maybe even find some truth in the lies he tells himself. Readers see Raymond grow in confidence and ability over the months, so the inner strength he exhibits in the final chapters is believable. The cast is primarily white. In this novel with intergenerational themes, the author takes care that no one, child or adult, comes across as all good or all bad. VERDICT Readers don't need to be familiar with the previous book to enjoy this story of a boy learning who he is. Recommended.--Heather Webb Copyright 2022 School Library Journal, LLC Used with permission.

#2264450 Hidden Powers: Lise Meitner's Call to Science (Hardcover (Trade))

Quantity

Unit Price

1

\$17.99

written by Jeannine Atkins

At the turn of the 20th century, Lise Meitner dreamed of becoming a scientist. In her time, girls were not supposed to want careers, much less ones in science. She earned a PhD in physics, then became the first woman physics professor at the University of Berlin. The work was thrilling, but Nazi Germany was a dangerous place for a Jewish woman. Her efforts led to the discovery of nuclear fission and altered the course of history. Novel in verse.

978-1-6659-0250-2 Atheneum ©2022 5-1/2 x 8-1/4 288 pgs.

Grades 4 - 7 Dewey# Fic AR Lvl 5.7 AR Pts 5.0 Lexile 860

Reviews by: Booklist Grades 5-8 Written in free verse, this book opens in 1938 with physicist Lise Meitner on a westbound train, hoping that her forged papers will allow her to escape from Germany but aware of the consequences if her Jewish identity is suspected. The next poem begins a chronological account to Meitner's life: her youth in Austria, the struggle to find employment in her field, the difficulties of living in Berlin during Hitler's rise to power, and the satisfaction she found in her work. She earned the respect of her peers, though two Nobel Prizes were awarded to her longtime male colleagues alone, ignoring her contributions to their joint achievements. The author of *Finding Wonders: Three Girls Who Changed Science* (2016) and *Grasping Mysteries: Girls Who Loved Math* (2020), Atkins approaches her newest biographical novel in verse with the same clarity of purpose and ability to express the vision, the courage, and the achievements of a woman aspiring to move science forward, despite resistance and hostility from many within the field. A respectful and very accessible introduction to Meitner. COPYRIGHT(2021) Booklist, ALL RIGHTS RESERVED.

Reviews by: Horn Book Magazine Another real-life, courageous, boundary-pushing woman gets some well-deserved attention in Atkins's (*Grasping Mysteries*, rev. 11/20; *Finding Wonders*, rev. 7/16) novel in verse. Readers first meet Jewish physicist Lise Meitner (1878-1968) as she "aches to taste hope," clutching fake papers aboard a train at the German border in 1938. Atkins then leaves her audience in suspense and backtracks to Meitner's childhood in Austria, as she chafes against restrictions preventing girls from formal schooling after age thirteen. When the University of Vienna finally opens its doors to women, Meitner is the only female physics student. After earning a PhD and publishing her work on radiation, she moves to Berlin and begins conducting unpaid research in a makeshift basement laboratory. Vivid and poignant, Atkins's poems chronicle Meitner's hesitation to abandon her experiments and flee Germany after Hitler's rise to power; her horror at realizing her role in the creation of the atomic bomb; and her disappointment that her longtime male collaborator received the Nobel Prize for their shared discovery of nuclear fission, while she was snubbed. Atkins meshes "facts with empathy" in this stirring portrait of -- as Meitner's epitaph reads -- "A Physicist Who Never Lost Her Humanity." An author's note, a timeline, an annotated list of Meitner's colleagues, and a selected bibliography are appended. Tanya D. Auger(Copyright 2022 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews A collection of poems charts the life of Lise Meitner, a pioneering scientist who survived two world wars. As a young Jewish girl in 1880s Austria, Meitner longed to study chemistry, but her options were limited due to her gender. After she finally managed to earn a Ph.D. and became a professor in Berlin, she was "both flattered and annoyed" to be compared to Marie Curie; "no one expects every man to be like Pierre Curie." Deliberate, delicate verse describes well the blistering unfairness of sexist academia and the complications inherent in having mentors who don't share one's marginalized identities. Appearances by other European physicists, including Einstein, Niels Bohr, and Meitner's longtime collaborator Otto Hahn, show these revered minds as generally forthright individuals struggling against the rising tide of fascism. While at first reluctant to leave the German laboratory where she worked for years, Meitner eventually escaped to Sweden in 1938, where she continued her work with Hahn from afar. In 1946 she experienced the bitterness of seeing Hahn accept the Nobel Prize for discovering nuclear fission--without mentioning her central role. More than that, though, the devastation of the atomic bomb and the Holocaust haunted her. She lost trust in her home, and "there can be no science without trust." Appropriately, the fictionalized biography ends on a decidedly bittersweet note. An admirable tribute to a life that holds some timely lessons. (author's note, timeline, biographies, selected bibliography) (Verse biography. 10-14) COPYRIGHT(2021) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 5 Up—In brief verses that paint vivid pictures, Atkins, the author of *Finding Wonders*, *Grasping Mysteries*, and other biographies of famous women, presents the complicated and often tragic life of Lise Meitner, the Austrian physicist who was instrumental in the discovery of nuclear fission. Born at a time when women were not permitted to study beyond primary grades nor pursue scientific careers, Lise nonetheless persisted, earning a PhD in physics from the University of Vienna and eventually becoming a full professor at the University of Berlin. While her research was widely published and admired, she was forced to relinquish credit for all that she accomplished to the men with whom she worked. Since she was Jewish, her safety and her work became imperiled after Hitler's rise to power, and she and colleagues were forced to flee to safer countries. While she and Otto Hahn searched for a new element on the periodic table, Lise uncovered the secrets of nuclear fission—but Otto alone received the Nobel Prize for the discovery, since Lise was not free to publish her findings. She refused to work on the development of the nuclear bomb, and although she was honored for her accomplishments after the war ended, she struggled with the consequences of her discoveries. Although the text's format does not lend itself to research, the concluding author's note, time line, and brief biographies of Lise's friends and colleagues help ground this compelling story in history. VERDICT With her portrait of a determined, brilliant physicist, Atkins presents a moving, lyrical tale that reveals the struggles of female scientists and of European Jews between the two World Wars. —MaryAnn Karre

#2282724 **Butt Sandwich and Tree (Hardcover (Trade))**
written by Wesley King

Eleven-year-old Green loves his devoted older brother, Cedar, a popular basketball star, but that doesn't mean he wants to follow in his footsteps. He doesn't really care about sports or making friends. Still, eventually Green caves to pressure to try out for the basketball team. He may be tall like Cedar, but he's nowhere near as skilled.

978-1-6659-0261-8 *Simon & Schuster* ©2022 5-1/2 x 8-1/4 272 pgs.

Grades 3 - 6 Dewey# Fic Lexile 600

Reviews by: Kirkus Reviews Brothers, one neurodivergent, team up to shoot baskets and find a thief. With the coach spit-bellowing at him to play better or get out, basketball tryouts are such a disaster for 11-year-old Green that he pelts out of the gym--becoming the chief suspect to everyone except his fiercely protective older brother, Cedar, when a valuable ring vanishes from the coach's office. Used to being misunderstood, Green is less affected by the assumption of his guilt than Cedar, whose violent reactions risk his suspension. Switching narrative duties in alternating first-person chapters, the brothers join forces to search for clues to the real thief--amassing notes, eliminating possibilities (only with reluctance does Green discard Ringwraiths from his exhaustive list of possible perps), and, on the way to an ingenious denouement, discovering several schoolmates and grown-ups who, like Cedar, see Green as his own unique self, not just another "special needs" kid. In an author's note, King writes that he based his title characters on family members, adding an element of conviction to his portrayals of Green as a smart, unathletic tween with a wry sense of humor and of Cedar's attachment to him as founded in real affection, not just duty. Ultimately, the author finds positive qualities to accentuate in most of the rest of the cast too, ending on a tide of apologies and fence-mendings. Cedar and Green default to White. Slick sleuthing punctuated by action on the boards and insights into differences that matter--and those that don't. (Fiction. 9-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly und injustice fuels the tension in this whodunit from King (the Wizenard series), which follows two tightly bonded co-narrating brothers in the Toronto suburbs. Eleven-year-old Green Bennett calls himself "Butt Sandwich" as a play on Asperger's syndrome, with which he's been diagnosed. Heading into middle school, he takes comfort in his routines and his beloved mayonnaise and cheese sandwich ("the peak of food"). But when his 13-year-old brother Cedar, known as Tree, pushes Green to join him on the school's basketball team, the tryout results in disaster. And after the widowed basketball coach's wedding ring goes missing the same day, Green is blamed for the theft, until the brothers; inspired by the Hardy Boys and Veronica Mars; resolve to uncover the culprit and clear Green's name. While the greater school community harasses and ostracizes Green, he receives love and strong support from new friends as well as Cedar, and the story maintains an enjoyably cozy vibe as wrongs are righted and Green gains a greater understanding of his autistic identity. The Bennett siblings cue as white; an author's note discusses the family-oriented seeds of King's novel and contextualizes Green's diagnosis. Ages 8: 12. Agent: Brianne Johnson, Writers House. (Aug.)

#2328616 Batu and the Search for the Golden Cup (Hardcover (Trade))
written by Zira Nauryzbai

Batu is just an ordinary kid in present-day Almaty, worried about bullies, school, and his mom's new baby, until the day he meets Aspara, the Golden Warrior. Aspara steps straight out of Batu's notebook cover--and out of Kazakhstan's past. Aspara has been waiting hundreds of years to be summoned to the human world and to finally get his chance to search for the Golden Cup, a magical talisman sent down from the heavens. When the Golden Cup was lost, Aspara watched as many of his friends and family were killed or disappeared.

Reviews by: Publishers Weekly Debut authors Nauryzbai and Kalas employ Kazakh mythology to craft a thrilling series-opening fantasy about a contemporary tween who accidentally summons a warrior prince from 2,000 years in the past. Batu, who lives in Almaty, is struggling to cope with his family's preparations for a new baby, and bullying from classmate Scorpion. After inadvertently calling upon Golden Warrior Aspara; the legendary 13-year-old hero of the Saka people; Aspara recruits Batu in his search for the Golden Cup, an ancient Saka relic. Dangerous encounters with evil spirits called Jeztyrnaq imperil their quest, forcing the duo to rely on Batu's friends to survive. Things get even more treacherous when Scorpion and his meddling grandfather begin their own search for the Cup. Culturally significant details; including sensorial descriptions of the smell of dishes such as bauyrmaq and shelppek, and the intricate patterns of traditional Kazakh rugs; ground the characters' journey in Batu's present, even as the narrative swiftly shifts between contemporary action and scenes from Aspara's past. Fans of fantasy adventures such as the Pandava series and Kiranmala and the Kingdom Beyond will enjoy the easy-to-root-for characters and familiar tropes that populate this action-packed tale. A glossary concludes. Ages 8: 12. (Aug.)

#2176425 Atty at Law (Hardcover (Trade))
written by Tim Lockette

Atticus Peale is desperately trying to save the life of a dog in the animal shelter where she volunteers. And an alligator in the swamp who only allegedly tried to eat a fisherman. Her father named her after his favorite character, a lawyer in a famous book, but everyone calls her Atty, and no one, except her dad, stepmom, and

Reviews by: School Library Journal Gr 5-8-A fun ride that combines treasure hunting, quick thinking, Revolutionary-era U.S. history, and teamwork. The teachers announce to the seventh grade at Washington Academy Middle School that the students are now in charge of their own education. Instructional time must occur, safety must be maintained, and teachers must remain present, but everything else is up for negotiation. The students are given two days to decide their governing rules. On day two, new boy Dennis, who has an illegal police scanner app, hears that the school has been evacuated and that FBI agents are on grounds. They are looking for an artifact with information that is of great importance to the nation. He relays the information to the rest of the group. Eventually, they also look to Rhonda, a girl whose father is a survivalist, and has been teaching her that way of life. Using Rhonda's knowledge of Silas Tucker, the original owner and builder of the school, and the students' grasp of revolutionary history, the children set off in search of the artifact. Following clues left by Tucker, the students climb through secret passage ways, all while on the hunt. Are they knowledgeable, quick, and brave enough to find the artifact before the FBI storms the school? This novel reads like a National Treasure and Spy Kids movie combined. It has twists and turns. One of the novel's huge strengths is the kids banding together; in addition, each character has the opportunity to show individual skills and to grow as a person. The only real hitch is their use of "QuackerMe" instead of Twitter. The lingo associated with it is jarring and might yank readers out of the story. Also, Spooner's illustrations add nothing to the narrative. VERDICT Suggested for general purchase for middle school collections, especially for adventure-loving patrons.-Melyssa Kenney, Parkville High School, MD Copyright 2017. #2178047 Blue Wings (Hardcover (Trade))

written by Jef Aerts

Two brothers bound together by affection and responsibility. Jadran is five years older than Josh and huge enough to be nicknamed Giant. Josh is younger, and smaller; but his sweet and stubborn brother thinks in a way that would be more typical of a small child. They are both dealing with changes to their newly blended, Muslim family.

Unit Price
\$17.99

Reviews by: Publishers Weekly Aerts's offbeat novel tenderly depicts the bond between 11-year-old Josh and 16-year-old Jadran, brothers who are so close they fall asleep matching the rhythm of their breaths. Affectionately called "Giant" by Josh and the siblings' single mother, physically large Jadran has a mental disability, and Josh has always proudly served as his "guardian angel." Soon after their mother's boyfriend, Murad, and his daughter, Yasmin, move in, the family visits a local lake to see the soon-to-be migrating cranes; when the flock leaves behind an injured baby, Jadran insists on taking it home. His obsessive attempts to teach the bird, called Sprig, to fly lead to Josh breaking his leg, in turn forcing the decision for Jadran to live full-time at his "special school." Rebellious against the separation, and under the guise of returning Sprig to his now-faraway flock, the boys make a madcap escape via tractor, wheelchair and crane in tow. Their adventure strains credulity, and depictions of Jadran seesaw between respecting his moments of insight and patronizing his emotional immaturity and volatility, but the brothers' love and loyalty, as well as the newly blended family's growing union, gives the story a strong emotional foundation. Final art not seen by PW. Ages 8: 12. (Sept.)

#2266879 **Aviva vs the Dybbuk (Hardcover (Trade))**

1

\$17.99

written by Mari Lowe

As tensions escalate in the Jewish community of Beacon with incidents of vandalism and a swastika carved into new concrete poured near the synagogue...so does the tension grow between Aviva and Kayla and the girls at their school, and so do the actions of the dybbuk grow worse. Could real harm be coming Aviva's way? And is it somehow related to the "accident" that took her father years ago?

978-1-64614-125-8 *Levine Querido* ©2022 1 pgs.

Grades 4 - 7 Dewey# Fic AR Lvl 5.6 AR Pts 7.0

Reviews by: Booklist Grades 4-6 Sixth-grader Aviva Jacobs and her mother live next door to their temple, in rooms above the mikvah (ritual bath), rumored to be haunted by a dybbuk (a ghost with unfinished earthly business) that only Aviva can see. In the years since her father's accidental death, Aviva and Ema have mostly kept to themselves, locked in their grief. When a schoolyard game of machanayim (a dodgeball-like sport) becomes too rough, Aviva and her former best friend, Kayla, are punished for their actions by being forced to work together to plan a school bas mitzvah social event. And while working together renews the girls' friendship, several acts of antisemitic vandalism put their community on edge. Is this terrorism or the work of the dybbuk? Debut author Lowe offers an insider's view of a close-knit Orthodox Jewish community where much of daily life is prescribed in gender-segregated activities. The dybbuk mystery is well-handled, as are the secrets surrounding Abba's death, which Aviva has blocked from her consciousness. A compassionate look at grief and healing. COPYRIGHT(2021) Booklist, ALL RIGHTS RESERVED.

Reviews by: Bulletin of the Center for Children's Books Aviva has an antagonistic relationship with the mischievous dybbuk (a restless soul who seeks resolution of some sort) in the mikvah her mother takes care of, but at the same time the creature has almost been her only friend, or at least near constant companion, since her father died. For years, she and her mother have been in a holding pattern of grief, refusing charitable offers and friendly overtures from their close-knit Jewish community, but a required school project turns out to be the necessary catalyst to help both of them move forward with their lives. Antisemitic acts run through the novel, and one particularly cruel incident is so traumatic that Aviva's reliability as our narrator is called into question as the story progresses-it's a powerful and surprising heel turn, crafted in a way to raise questions but not turn the reader against Aviva. The experience of grief as a suffocating fog is described with grace and thoughtfulness, and the ways in which each person copes are given equal validity (Aviva has deep sympathy for her mom's inability to leave their home). Novels focusing on contemporary Orthodox Jewish communities are rare; other than a glossary, Lowe trusts the reader to piece together the cultural and religious elements that are the most important elements in Aviva's life. AS COPYRIGHT(2022) Bulletin of the Center for Children's Books, ALL RIGHTS RESERVED.

Reviews by: ForeWord Magazine In Mari Lowe's engaging novel *Aviva vs. the Dybbuk*, an Orthodox Jewish girl confronts the troublemaking spirit who disturbs her home, while also working with a friend-turned-rival to plan a big event for her class. Along the way, she learns about grief and being part of a community.

Reviews by: Horn Book Magazine This emotionally complex novel set within a contemporary Orthodox Jewish community is full of immersive Jewish detail -- literally, as much of the story centers around the mikvah, or ritual bath, that eleven-year-old Aviva's mother has run since Aviva's father's death; mother and daughter now live in a "shabby little apartment" above it. Mischief happens often around the mikvah (a guest's candies get unwrapped, a door's hinges come unscrewed), and the culprit is apparently a dybbuk ("a soul that won't rest," though this version creatively inverts the usual definition) that only Aviva can see. When the dybbuk creates more serious trouble, including antisemitic vandalism, Aviva must confront painful truths about her perceptions (and thus what she has been presenting to readers) of her father's "accident," her family's circumstances, and her own actions. The book creates a strong sense of the protagonist's isolation -- awkward, impetuous Aviva has difficult relationships with her classmates, and communication is strained with her mother, who lives with severe depression -- but remains accessible while addressing its heavy issues. Unreliable narrator though Aviva ends up being, she's a heart-rendingly sympathetic one. Shoshana Flax(Copyright 2022 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews Is Aviva's dybbuk helping her through the hard times or just making life more difficult for her? Aviva's life changed when her father died in the "accident"; not only do she and her mother have to leave their home to live over the mikvah (ritual bath in Judaism) where her mother works, but a dybbuk now lives with them, causing trouble that is often blamed on Aviva. But the dybbuk is also the only one who pays attention to Aviva; her bestie, Kayla, doesn't like her anymore; and it is all her mother can do to get out of bed some days. Forced to work together on the Bas Mitzvah Bash, Kayla and Aviva tentatively revive their friendship, battle the dybbuk, and face the reality that antisemitism is as near as the swastika etched into the sidewalk in front of the shul. Aviva is a realistic and complicated heroine, negotiating life after loss and the changing dynamics of friendship as well as figuring out who is the grown-up in her relationship with her mother. A rare find, a modern-day, middle-grade novel that focuses on, and honors, everyday Orthodox Judaism, this unforgettable story makes for an incredible window or mirror for readers. Characters present as White. A heart-rending story of loss, community, friendship, and what it takes to heal and survive. (Fiction. 8-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Debut author Lowe offers an intimate look at a contemporary Orthodox Jewish community in this nuanced story of a girl regaining her footing after her father's death. An aura of mysticism and mystery surrounds 11-year-old Aviva, who lives with her Ema

above the local mikvah, which Aviva believes is haunted. The source of the haunting is a dybbuk of Jewish folklore, which here takes the form of a prankster boy who reminds Aviva of her beloved late Abba. "He would have enjoyed our dybbuk," she narrates. Soon, an act of anti-Semitic vandalism and a subsequent attack on the family's shul throw Aviva's tight-knit community into high alert. Shy but quick-witted and competitive, Aviva is an engaging heroine whose qualities are on full display when she faces off against a friend turned rival during a heated match of machanayim, a dodgeball-like game, and when she is recruited to help plan the annual Bas Mitzvah Bash. Lowe portrays Aviva and Ema's mourning with a gentle touch, gradually building to an ending that points toward spiritual and emotional healing, thanks to the steadfast support of their Jewish community, especially its women. Back matter includes a glossary of Hebrew and Yiddish words. Ages 8: 12. Agent: Tamar Rydzinski, Context Literary. (Feb.)

Reviews by: School Library Journal Gr 3-7--After losing her father in a terrible accident, 11-year-old Aviva Jacobs and her mother move into a small apartment above the local mikvah, a traditional bathhouse for orthodox Jewish women. Aviva's mother takes care of the mikvah and those who visit it, and Aviva takes care of the dybbuk, a mischievous spirit in Jewish folklore. Aviva's dybbuk is a real troublemaker. From tearing up checks to spilling out the contents of visitor's purses, it keeps Aviva on her toes. As Aviva tries to manage the dybbuk, she must also work with her ex-best friend to plan the most amazing Bat Mitzvah Bash that her school has ever seen. As she juggles the stresses of school, friends, and an increasingly tense situation at home, Aviva discovers her inner strength and the resilience of her community. Many readers will find Aviva charming and relatable as she navigates the roller coaster that is growing up. VERDICT A strong purchase for every school and public library. In this tale that's at times funny, sad, and scary, Lowe seamlessly crafts a coming-of-age story that readers will enjoy.--Maryjean Riou Copyright 2022 School Library Journal, LLC Used with permission.

Reviews by: Shelf Awareness A lonely 11-year-old grieves her murdered father, protects her fragile mother and heals an estranged friendship, all while vexed by a mischievous ghost, in Mari Lowe's stirring and suspenseful debut, *Aviva vs. the Dybbuk*.

#2325268 Wild Poppies (Hardcover (Trade))
written by Haya Saleh

As Oscar waits in line for rations, Sufyan explores more nontraditional methods to provide for his family. Ignoring his brother's warnings, Sufyan gets more and more involved with a group that provides him with big rewards for doing seemingly inconsequential tasks. When the group abruptly gets more intense--taking Sufyan and other boys away from their families, teaching them how to shoot guns--Sufyan realizes his brother is right. But is it too late for Sufyan to get out of this?

Reviews by: Booklist Grades 6-9 *Starred Review* The consequences of war are as varied as the lives they touch, and when fighting reaches Raqqa, Syria, it takes the life of the father of Omar, 15, and Sufyan, 12. The brothers flee with their sick mother and little sister to a refugee camp, where the boys, who narrate different sections of the book, draw in readers through their differing perspectives. As the eldest, Omar feels obligated to step into his baba's empty shoes, but the sensitive and peaceable young teen struggles to command the authority of this position. Conversely, Sufyan knows his own strong, outgoing personality makes him better suited to take charge. This conviction leads Sufyan to look for a way to help his family financially, a well-intentioned goal that gets him and several of the camp's boys kidnapped by the extremist group Falcons of Truth. Omar describes his desperate search for his brother, while Sufyan relays the horrible experiences he endures as an unwilling soldier for the Falcons. Excellently translated from the Arabic, this slim novel acts as a razor-sharp dissection of the Syrian War's destructive power. Moments are necessarily brutal, but both boys' growth and unfaltering love for each other shine brighter. Stark without ever losing sight of hope or the humanity that picks itself up from the rubble of others' folly, Saleh's novel blooms with unforgettable beauty. COPYRIGHT(2023) Booklist, ALL RIGHTS RESERVED.

Reviews by: Bulletin of the Center for Children's Books Fifteen-year-old Omar is in charge of his family, including his sick mother, after his father was martyred in the Syrian civil war. At a Syrian refugee camp, Omar is the one who maintains order, while his twelve-year-old brother Sufyan is always getting into trouble and disappearing. When Sufyan becomes involved with a group called the Falcons of Truth, who pay him to complete small tasks and show up to their meetings declaiming Òinfidels, Ó finances start to look up, but the Falcons of Truth eventually kidnap Sufyan, and the brothers must find their way back to each other in life-or-death circumstances. Saleh's prose, translated from Arabic, is elegant but direct, avoiding descriptions of violence without dulling the emotional impact of the tragedies in these brothers' lives. Omar and Sufyan just want safety and reliable sources of food (and maybe some video games), and their alternating perspectives give readers two access points to a story that shines a light on the threats, both present and in the future, that refugee children face. Media about Syrian refugees tends to focus on legislation about other countries accepting refugees rather than internally displaced refugees, and this book gives necessary context for kids who may be in the dark about the Syrian civil war. NB COPYRIGHT(2023) Bulletin of the Center for Children's Books, ALL RIGHTS RESERVED.

Reviews by: ForeWord Magazine Syrian refugees fight to survive in Haya Saleh's moving novel *Wild Poppies*, about how brotherhood endures

wartime.

Reviews by: Horn Book Magazine Brothers Omar and Sufyan find their lives upended by the Syrian civil war. After their home in Raqqun is bombed, killing their father, the family moves to the more rural village of Al-Nuaman. They struggle to find food, and their mother's diabetes endangers her health, requiring difficult-to-obtain medicine. Fifteen-year-old Omar is bookish, meek, and tries to be the man of the family; twelve-year old Sufyan also wants to help but is impatient, impulsive, and "has endless secrets." The book alternates between their points of view, offering readers differing perspectives on the same home life. Eventually, Sufyan's story becomes the central one when he goes missing: he is lured and kidnapped by a militant Islamic group, given military training, and being prepared for combat and death (martyrdom). This short but intense book, with its abrupt ending, deals with complicated aspects of war and how youth are often forced to take on the burdens of caretaking and problem-solving for an entire family before their time. A moving portrait of the horrors of armed conflict and a window into the epidemic of child abduction during war and the psychological effects of extremist religious grooming and indoctrination. Julie Hakim Azzam(Copyright 2023 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews A tale of two brothers set against the backdrop of the Syrian civil war. After fleeing the violence that destroyed his family's home and led to the death of his father, 15-year-old Omar diffidently steps into his role as head of the family. Living with his mother and younger brother and sister in his aunt Sajida's home in Al-Nuaman ("the poppy flower"), Omar must obtain rations and other necessities, including medicine for their diabetic mother, while also trying to keep intractable Sufyan, 12, in line and his own heavy feelings at bay. Angry and unimpressed by his brother's feeble attempts, Sufyan secretly provides for his family only to be coerced and abducted by the Falcons of Truth, a group of Muslim extremists seeking to indoctrinate and use child soldiers. Distraught over Sufyan's disappearance, Omar attempts to find him, but soon further violence comes to the village and threatens his friends' and family's survival. Throughout this novel, which alternates between Omar's and Sufyan's perspectives, the brothers make thoughtful and heartbreaking observations about the cruelties of war, the loss of childhood innocence, and the hypocrisy of the Falcons, whose theology and practices sharply contrast with their own understandings of God and Islam. Saleh's prose, translated from Arabic by Qualey, is accessible and straightforward. Though the novel is short, it carries deep emotional impact, and while the ending is somewhat abrupt, it's imbued with themes of reconciliation and healing. Hauntingly hopeful. (Fiction. 10-14) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Until war came to Syria, 15-year-old Omar lived happily with his 12-year-old brother Sufyan, six-year-old sister Thoraya, and their parents in the Syrian city of Raqqun, attending school, playing soccer, and helping his father tend the family farm. But when bombing begins and their father is killed by shrapnel, the boys move with Thoraya and their diabetic mother to a relative's packed country home in village Al-Nuaman; "the poppy flower." There, each family worries about food, water, and medicine, and the brothers clash over how to care for their loved ones. Clever, moody Sufyan, who sees Omar as a weakling and a coward, starts disappearing on increasingly risky missions to meet their needs. Often-unsure-of-himself Omar, meanwhile, steadfastly queues in hope of buying rationed supplies, and tries unsuccessfully to rein in Sufyan's potentially dangerous activities. When Sufyan's unwitting connection to a religious extremist group leads to his kidnapping, Omar and two friends set out to find him, taking a treacherous journey through the wilderness. In Qualey's smooth translation, Omar and Sufyan's alternating first-person sections thoughtfully explore myriad devastations around an ongoing crisis, including chilling details regarding Sufyan's abduction, while the novel's lean format provides just the right amount of tension and suspense. Ages 10: 14. (May)

1	\$18.99

Reviews by: Booklist Grades 4-7 For 13-year-old Maya, life revolves around working in her family's Puerto Rican restaurant, Café Taza, in Brooklyn and playing soccer. But lately, her mind has been preoccupied with dreams of a mysterious woman in white. She's shocked, then, when her great-aunt Yaya (rumored to be a witch and never discussed due to a falling-out) arrives from Puerto Rico and is a match for the woman in Maya's dreams. What's more, Tití Yaya is staying in the apartment above the restaurant, and Maya can't help the curiosity and connection she feels to her. Tití Yaya practices Santería, and Marrero folds Puerto Rican and Yoruba history and folklore into the story as Maya learns more about her roots. Maya's large, bustling family is a joy to experience, and Spanish flies through the air as mouthwatering Puerto Rican dishes flow from the kitchen. A first crush adds a dash of sweetness to the lightly magical tale, and developments on the soccer field bring action and drama. A spirited debut about finding oneself, familial love, and forgiveness. COPYRIGHT(2023) Booklist, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews al within herself and her family. Café Taza in Fort Greene, Brooklyn, is owned by the close-knit Calderon family and is where Maya Beatriz Montenegro Calderon spends most of her time when she's not busy being a star soccer player. Maya and her lively Puerto Rican family do their best to keep the cafe running despite the rapid gentrification of their neighborhood. Maya's eighth grade year brings new developments--her friendship with teammate Kayla grows, a soccer rivalry intensifies, and she has strangely vivid dreams involving water and an unknown woman that evoke feelings of déjà vu. As if she's been summoned, the mystery woman--her estranged great-aunt Titi Yaya--suddenly appears, dredging up a decades-old feud with Maya's abuela. Maya determinedly seeks to understand why her family became so divided and why she feels a connection to Titi Yaya and the water. Defying Abuela's command to never speak to her great-aunt, Maya starts sneaking around, trying to learn about her Yoruba heritage and the destiny that awaits her. The energetic, bilingual dialogue is welcoming, textured, and accessible; combined with the story's fast pace, it will keep readers engaged through an expertly written exploration of an Afro-Latine family's history and the pantheon of West African gods. Marrero's debut beautifully weaves together themes of family trauma, first crushes, spirituality, and history as Maya embarks on her journey of self-discovery. An uplifting, beautifully rendered story of family bonds and embracing the unknown. (Fiction. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Marrero's beguiling debut about a Latine 13-year-old uncovering her mystical ancestral power is profoundly magical. When she's not playing soccer with her crush Kayla, who reads as Black, Maya Beatriz Montenegro Calderon spends most afternoons and weekends waiting tables at her family's Brooklyn restaurant, Cafe Taza. One day, Maya notices a mysterious old woman who looks like a figure from her dreams. Maya learns that the stranger is Titi Yaya, Abuela Chacha's sister, whom Abuela hasn't seen in 20 years. Abuela reluctantly lets Titi Yaya live in the apartment above the cafe, sternly warning the family not to talk to her. But Maya won't let that stop her; she sneaks upstairs to meet with Titi Yaya, who informs Maya that she's been chosen by Yemaya, the Yoruban goddess of water, to succeed Yaya as a bruja. Maya's lively voice dazzles amid a standout cast that includes her lovably unruly cousins as well as memorable neighbors and classmates of varied Black and Latine heritages. In this evocative multigenerational tale, Marrero cultivates a rich N.Y.C. setting that feels like a character in itself, bursting with even richer depictions of cultural traditions. Ages 8: 12. Agent: Joy Tutela, David Black Literary. (Aug.)

Reviews by: School Library Journal Gr 4-8--Maya Montenegro Calderon lives in Brooklyn with her large Puerto Rican family. At 13, she spends all her time at school, playing soccer, or helping out at the family restaurant, Cafe Taza. Recently, Maya has been plagued by curious dreams and questions that her family refuses to answer until she is older. Then her mysterious Titi Yaya arrives on the Cafe Taza doorstep, and Maya's world is rocked and the strangeness in her life becomes even more frequent. In this novel steeped in family lore and West African Yoruba beliefs, Maya navigates old ideas and thirsts for new knowledge as she discovers how she fits into her vibrant family and the world beyond. It's told through Maya's first-person narrative; her stream of consciousness is endearing and relatable, and peppered with Spanish. Readers are transported to the streets of Brooklyn and treated to the sights, sounds, and smells of life in the restaurant. Characters are as diverse as the streets of New York; main family members are Puerto Rican, Afro Caribbean, and Mexican. VERDICT A must-buy for public and school libraries. Hand to readers who love magical realism and coming-of-age stories.--Maryjean Riou Copyright 2023 School Library Journal, LLC Used with permission.

#2333495 Secret of Lillian Velvet (Hardcover (Trade))

written by Jaclyn Moriarty

Here are only a few of the wonderful, strange, and mysterious elements in this breathtaking visit to the Kingdoms and Empires: A very proper girl named Lillian Velvet, living a very lonely life with a nasty Grandma. A jar of coins, each with the power to take Lillian on a journey to a different time and place and also to grant a single wish.

Reviews by: ForeWord Magazine In Jaclyn Moriarty's kaleidoscopic fantasy novel *The Secret of Lillian Velvet*, a girl armed with a pickle jar full of coins contends with loneliness and otherworldly derring-do.

Reviews by: Horn Book Magazine Lillian, a foundling, has a momentous tenth birthday: her one gift, a pickle jar full of gold coins, gives her access to a series of fantasy worlds. Without warning she is whisked off to the Luminous Forest, the Mellifluous Kingdom, the Kingdom of Kate-Bazaar, and so on: worlds of spells, genies, and mages. She is thrown into the middle of various disasters -- windstorms, near-drownings, and threats of fatal freezing -- before being arbitrarily whisked home again. The various plots do intersect, waving to each other briefly before ricocheting off in other directions until it all weaves together into a finale of reveals and revelry. Lillian is an Alice-like character, sturdy, intelligent, courteous, and with unexpected reserves of courage. In each of the hectic scenarios she is a force for good, although that can get tricky as the ethics of helpful intervention are by no means uncomplicated. This fifth volume in the series (most recently *The Astonishing Chronicles of Oscar from Elsewhere*, rev. 1/23) sparkles with energy, warm humor, outrageous metaphors, and a joyful alertness to the delights and challenges not just of the invented fantasy worlds but of our own as well. Sarah Ellis (Copyright 2023 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews A birthday gift, her very first, gives a 10-year-old Australian girl a chance to prove her mettle. Astounded though she is when the harshly repressive grandmother who has raised her in isolation presents her with a pickle jar full of gold coins, that's only the first of a string of wonders as Lillian is unexpectedly shoved over and over into the magical land of Kingdoms and Empires. There, she's informed by a mysterious collector that the coins pay for wishes. Each visit leads to encounters in which a person or creature (including, once, a huge dragon) is in a pickle and needs help. Actually, Lillian turns out to be a pawn in an evil and potentially deadly scheme, and around its twists and turns, Moriarty weaves a complex tale involving sprites and genies, time travel, fearsome dangers, hard decisions...and also the Mettlestones, a clan whose 11 sisters and their offspring have gone on to all sorts of splendid feats. The clan's close-knit, noisy dynamics give Lillian an eye-opening view of what family life could be like. Presented through multiple points of view, the tale has an overstretched feel; the author sends Lillian back and forth more than 15 times, strings out the suspenseful climax, and repeats herself occasionally. Still, watching kind, smart, and brave Lillian overcome an upbringing designed to leave her mousy and fearful makes for compelling reading, as does watching the intricacies of the plot unfold. Most characters read white. Absorbingly rich and strange. (Fantasy. 9-13) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 4-7--Orphan Lillian Velvet spends her dreary days stuck at home, rarely able to venture out from the watchful eye of her despicable grandmother. Her life is a checklist of homeschooling tasks and household chores until the morning of her 10th birthday. Mysteriously, Grandmother gives Lillian a pickle jar of strange coins, which she discovers will pay her toll to visit the world of Kingdoms and Empires. Lillian is whisked off on short trips to this enchanting land where she makes new friends and thrilling discoveries. Lillian's adventures develop an increasing sense of danger and urgency as she bounces through time, seeking answers to questions about herself, parents, and new friends. Lillian starts to notice common threads among her visits to Kingdoms and Empires. Will these threads help her solve the mystery of her own identity? Will she find what she needs before the entire world of Kingdoms and Empires becomes unraveled? Readers will have a hard time closing this book as they race to discover whether Lillian is the one pulling the threads apart or the only one who can knit them back together. Short chapters with alternating viewpoints, paired with a thrilling opening hook, will draw readers in from the first page. Lillian's adventures take an extended time to coalesce into the climax, but the story does not lose momentum. Middle grade fantasy and adventure enthusiasts will revel in the frequent visits to Kingdoms and Empires. Moriarty broadens appeal here with quirky, charming characters, and richly developed themes of friendship and family. This tale of Kingdoms and Empires works just fine as a standalone, but Moriarty fans will be thrilled to see this new installment in the series. VERDICT A must-have for any middle grade collection with fantasy lovers, and those who enjoy the likes of Roald Dahl, Neil Gaiman, and Lemony Snicket.--Jill Shepard Copyright 2023 School Library Journal, LLC Used with permission.

	#2317227 Many Assassinations of Samir, the Seller of Dreams (Hardcover (Trade)) <i>written by Daniel Nayeri</i> Monk (aka Monkey) tells of his journey along the Silk Road with his newfound boss/guardian, Samir, a larger-than-life character and the so-called "Seller of Dreams". Turns out, the man is a scammer; his biggest skill being the ability to talk his way into getting what he wants. While that talking did save Monkey's life, it has left a lot of people furious with Samir--furious enough to hire assassins 978-1-64614-303-0 Levine Querido ©2023 7 x 9 224 pgs. Grades 4 - 7 Dewey# Fic AR Lvl 5.4 AR Pts 7.0	1	\$21.99

Reviews by: Booklist Grades 5-8 *Starred Review* This tight little tome shares the testament of one orphan boy, dubbed Little Monkey following his rescue (and purchase) by the titular Samir, an incorrigibly jovial and conniving snake-oil merchant, whom--as the boy states up front--he has killed. As Monkey settles in with Samir's caravan, he comes to detest the endless bloviating, scheming, and swindling of the ""Seller of Dreams,"" for whom trickery is not just a constant impulse but the paradigm through which he views the world. As such, there are many who want him dead, and on the journey east along the legendary Silk Road, Monkey elaborates on seven attempts on his master's life. Miyares' rich paintings, only a few here seen, precede each chapter, giving vivid shape to the figures but also endowing the story with a classic quality through a style hearkening to certain renditions of the Arabian Nights. Nayeri grounds the proceedings in Monkey's narration, and the boy proves to be a thoughtful and engaging guide through this simple yet sophisticated story. As Monkey works to save Samir from assassination, hoping to win his freedom in exchange, he takes an inner journey, exploring ""the expansive nature of love"" and ultimately finding something more than he expected. Readers, too, will find more than expected, including tender philosophies, complex characterizations, heaps of humor, a masterful twist, and most importantly, just a great story, beautifully told. COPYRIGHT(2023) Booklist, ALL RIGHTS RESERVED.

Reviews by: Bulletin of the Center for Children's Books Twelve-year-old Omar is fleeing for his life from a pair of murderous monks (who were actually entrusted to care for him but are clearly failing at it) when he, quite fortunately and quite literally, stumbles into a caravan of merchants. Samir the Seller of Dreams trades six bolts of silk for Omar's life and takes him on as a servant, renaming him Monkey. Initially, Samir seems like a decent man, but it turns out he has duped his fair share of buyers, and now at least six, if not more, groups of assassins are dead set on killing him. Monkey bargains his freedom for his efforts to save Samir, but his success depends on trickery he's not yet comfortable with. The episodic nature of the tale would make this an excellent classroom or family readaloud, and the intriguing characters, richly described setting, and fast-paced action maintains reader/listener engagement with ease. A self-proclaimed true believer of love, Omar/Monkey is nonetheless clueless

about its nuances, and his attachment to needing a clear and distinct line between good and evil prevents him from seeing the complexity of people. He's also not a terribly reliable narrator, and it's possible his early judgments of Samir were never his true feelings at all. Nayeri's immersive writing style brings a you-are-there energy to the depiction of the harsh but gorgeous environment of the Silk Road, and an informative author's note further details the geography of the trail, its economic and social value, and the many people who traversed it. The book ends with a simple but profound reminder that love comes in many forms, it is almost always messy and unpredictable, and it is almost always worth every effort toward it. KQG COPYRIGHT(2023) Bulletin of the Center for Children's Books, ALL RIGHTS RESERVED.

Reviews by: Horn Book Magazine Along the medieval Silk Road, a boy is cast out from the temple and nearly stoned to death by monks. He is purchased as a servant by a fast-talking merchant named Samir, for the price of six bolts of silk, and dubbed Monkey. Monkey watches Samir spin tales and make enemies everywhere he goes. In fact, the man is being hunted by six different "killing lines," from a Viking berserker to a Mongol gunner -- though at the end of the first chapter it's Monkey who tantalizingly confesses: "That is why I killed him." The book is warmly funny, with folkloric commitment to larger-than-life characters, exaggerated perils, and plenty of jokes, punctuated by Miyares's lively and colorful illustrations. The formula of the six killing lines encourages readers to anticipate the unspooling of the tale; the twist regarding Samir's eventual death is more a reward than a shock. A celebration of the cultural riches of the Silk Road, along with the geographic, religious, and material diversity of the setting, make for engaging historical fiction -- and a rollicking good yarn. Alex Schaffner(Copyright 2023 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews A servant boy attempts to win his freedom by repeatedly saving his master as they travel the Silk Road. At roughly age 12, Omar has led a hard life, having lost both his parents and the woman who cared for him after their deaths and now being chased away by the monks who once housed him for asking too many questions. For the price of six bolts of silk, they hand him off to Samir, a fellow Sogdian who calls himself the Seller of Dreams. Renamed Monkey, he is tasked with assisting Samir in trading. As the two head west with a large caravan across the Taklamakan Desert toward present-day Tajikistan, Monkey learns Samir's business tricks, though he often disapproves. He also meets blacksmith's assistant Mara, the most beautiful girl he's ever seen. Soon, though, it becomes clear that Samir faces more problems than just making the next deal: He has wronged more than one person along the road, and assassins are after him. What follows is Monkey's account of Samir's brushes with death--and how Monkey himself may have contributed to Samir's eventual demise. Filled with the multicultural hustle and bustle of the Silk Road, enlivened by the unpredictable nature of unreliable storytellers, and adorned with whimsical, colorful illustrations, this is a strange, wondrous, and creative tale. Can family be found along the Silk Road, or will everyone ultimately betray you? An enticing taste of a rich historical world. (author's note, bibliography) (Adventure. 9-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Orphaned novice monk Omar is saved from stoning at the hands of his order at the start of this cleverly constructed adventure centering two Sogdian protagonists. For the dubious equivalent of six bolts of silk, the monks trade the approximately 12-year-old child to Samir, a savvy traveling merchant known as The Seller of Dreams. As their caravan family travels the Silk Road, moving from caravanserais to cities to oases across the Taklamakan Desert en route to Samarkand, Omar, now called Monkey, observes how Samir's dealings have earned more enemies than riches. Fearing for his own fate as a series of hired assassins tracks Samir, and beginning to intuit the man's underlying kindness, Monkey attempts to thwart the killers, each time moving closer to gaining his freedom. Regular acknowledgements of Monkey's involvement in Samir's eventual death accompany an ongoing chain of trades and catastrophes, creating page-turning narrative tension. Nayeri blends playful humor, solid pacing, and fully realized characters into a witty, assassin-studded traveler's yarn that also serves as a memorable, lively portrait of the 11th-century Silk Road. Richly hued art by Miyares and expansive back matter enhance the delight. Ages 8: 12. Author's agent: Joanne Volpe, New Leaf Literary. Illustrator's agent: Judy Sue Goodwin Sturges and April Jones Prince, Studio Goodwin Sturges. (Mar.)

Reviews by: School Library Journal Gr 4-8--This delightful adventure along the 11th-century Silk Road opens with its 12-year-old narrator, Omar (soon called Monkey), fleeing for his life from the monks who had once sheltered him. Monkey is saved by Samir, a merchant traveling in a caravan, who buys him from the monks for six bolts of silk. Monkey joins Samir in his journey to Samarkand and begins to learn Samir's tricks of the trade. What initially seems like simple bartering tactics and weaving of wild tales turns out to be a recipe for disaster. Samir has earned grudges from many of his former customers, and now several assassins are after him. The thrills never let up in this fast-paced adventure tale that is packed with intrigue, vivid description, and plenty of heartwarming moments. The narrative voice is at times naive, at others snarky, but ultimately readers will find delight in Monkey's own ability to weave a wild tale that keeps them guessing till the very end. Miyares's beautiful full-color illustrations animate life along the Silk Road, and an extended author's note provides excellent historical context for Monkey's tale. VERDICT An epic adventure with an enduring message about love and family, this is a first purchase for upper elementary and middle school libraries.--Dana West Copyright 2023 School Library Journal, LLC Used with permission.

Reviews by: Shelf Awareness Most middle-grade novels don't begin with the storyteller being stoned to death. But *The Many Assassinations of Samir*, the Seller of Dreams goes delightfully rogue. The 11th-century Silk Road is a treacherous place for all who journey there in this ambitious, mesmerizing adventure by Printz-winning author Daniel Nayeri (*Everything Sad Is Untrue*).

	Quantity	Unit Price
#2322965 Control Freaks (Hardcover (Trade)) <i>written by J. E. Thomas</i>	1	\$18.99

What if Louis Sachar's Wayside School were a little less wacky - but just as funny - and centered on a young Black boy who IS going to be the great inventor of all time, and set in the top STEM middle school in the country, oh and it was written by someone who worked for years in independent schools, and it also tackles what it's like to live in a blended family and to stand up to a parent who's not being so great and to truly work together with your peers?

978-1-64614-305-4 *Levine Querido* ©2023 5-1/2 x 8 272 pgs.
Grades 4 - 7 Dewey# Fic

Reviews by: Booklist Grades 4-6 *Starred Review* An experimental series of team-building exercises takes many of the hyper-motivated students at a Denver middle school for the gifted out of their comfort zones in this warm and funny debut. As a quintet of misfits, ranging from nine-year-old brainiac Travis Elizabeth "Shark" Cod to Frederick Douglass Zezzmer--destined, in his own mind anyway, to become the world's greatest inventor--make their way past six STEAMS-based challenges (the second S is for sports) that ruthlessly eliminate teams that can't get the hang of working together. Thomas strews the increasingly suspenseful competition with teachable moments and traces learning curves not only for the students but for teachers and parents, too. The cast, premise, and lightly delivered life lessons are reminiscent of E. L. Konigsburg's *The View from Saturday*, and however reluctant readers may be to accept the author's proposition that winning isn't always the same as coming in first, they'll be swept up by the drama and the brisk dialogue, not to mention a school where hot-lunch choices are based on answering quiz questions and the principal snatches student-made spy drones out of the air and pockets them without breaking stride. COPYRIGHT(2023) Booklist, ALL RIGHTS RESERVED.

Reviews by: Horn Book Magazine e "control freaks," each with ambitious personal goals, put them into an all-middle-school group STEAMS (science, technology, engineering, arts, mathematics, sports) competition, and you will rock their universe. Twelve-year-old Frederick Douglass "Doug" Zezzmer, a Black student at Benjamin Banneker College Prep in Denver, is trepidatious. "There's no way to stand out if I'm one of a dozen kids on a team," he says. This will interfere with his "fifty-seven-step strategy to become the World's Greatest Inventor" and Operation Dazzle, intended to impress his principal, Dr. Yee, enough to nominate him for Rocky Mountain GadgetCon. Furthermore, he's placed on the worst team possible. They're the "Island of Misfit Toys of STEAMS teams." Dr. Yee comes up with wild tests, events, contests, and challenges for the students, related through the author's clever use of alternating voices that offer insights into the minds and lives of characters. As miserable as Doug is at the beginning, he eventually gets into the spirit of the competition and sees his teammates, now friends, in a new light. By the end of the competition, he says, "I'm not sure how Dr. Yee did it, but he got all of us celebrating for each other." Thomas's debut novel is a refreshing take on middle-school life -- smart kids who know they are going places but learn to take care of one another along the way. Dean Schneider(Copyright 2023 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews Family, friends, and middle school are tough in ways this book intuitively gets and even celebrates. At elite Benjamin Banneker College Prep in Denver, a new weeklong STEAMS competition--that is, science, technology, engineering, arts, mathematics, and sports--requires collaboration among teams of sixth through eighth graders. For Black seventh grader Frederick Douglass Zezzmer, losing is not even an option. His former professional football player dad has recently come back into his life with big sports-centric expectations for Doug. However, Doug intends to become the "World's Greatest Inventor," avoid summer sports camp, and legitimize his talents in his dad's eyes. His nervous but optimistic best friend, Huey, is also part of comically named team TravLiUeyPadgeyZezz, a portmanteau of the students' names. While Doug's point of view is foremost, the novel's narration shifts among many perspectives, giving a rich, panoramic view of how stressful yet ultimately rewarding these learning experiences are for the overachievers, the socially awkward, the kids with complicated home lives, and all those--young and old--who just need to see each other a little differently. The competition itself impressively brings readers into the week's suspense while highlighting insights that many who have had to balance the demands of academics with the complexities of home life already know--and that Doug and his crew are finding out the hard way. Creative and hilarious. (Fiction. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly A driven Black middle schooler attending Denver's prestigious Benjamin Banneker College Prep must become a team player in Thomas's debut, a witty competition drama. Frederick Douglass Zezzmer has a 57-step plan to become the World's Greatest Inventor, but Doug's birth father; a former Denver Broncos player who recently reentered his life; has a different vision for him: attending the Elite Juniors sports camp. Doug believes that participating in, and winning, a weeklong STEAM and sports tournament will persuade his father into letting Doug pursue his own dreams. But to succeed, Doug must collaborate with classmates from varying disciplines, including art and athletics, something that forces him out of his comfort zone and challenges him in new ways. As Doug navigates budding friendships, dynamic rivalries, and tense familial relationships, he realizes that he doesn't have to do everything on his own, and that not everyone is as they seem. By utilizing multiple POVs, including that of Doug's stepbrother, Thomas lays the groundwork for a telling that prioritizes characters' interiority as well as their impact on each other's lives. While Doug's determined voice is the primary focus, the rotating narratives showcase each of the racially diverse characters' individual stressors, delivering a well-rounded accounting that is better for its multiplicity. Ages 8: 12. (June)

Infamous Frankie Lorde (Trade)

#2179694 (Vol. 01) Stealing Greenwich (Hardcover (Trade))

written by Brittany Geragotelis

Frankie Lorde and her dad have been a team for as long as Frankie can remember. Being a tutor under the man responsible for some of the world's biggest heists has given Frankie a unique perspective on the world. And a special set of life skills. Frankie can spot an FBI agent in a second. Pick a lock in two seconds. Steal a Bugatti in three. Then dad is arrested.

Reviews by: School Library Journal Gr 5 Up—Frankie Lorde is back. She and her new bestie Ollie have been volunteering at an animal shelter for their community service requirement. Frankie has grown restless since her last heist, stuck living in a sleepy Greenwich community with her detective uncle since her dad is in prison. When she learns that Greenwich's idle rich have a penchant for illegally obtained lions and tigers, Frankie decides to act. She makes it her mission to not only free the animals, but to ensnare the traffickers. Along the way, she breaks an eager Ollie into the business and, once she finally gets to visit her dad in prison, has a break of sorts with him. The premise strains credulity, beginning with the supposition that an international jewel thief would keep an incriminating journal, and continues with the supposition that a 13- or 14-year-old could pull off the guise of a writer for a fashion e-zine. Frankie paints herself as worldly and cynically cool and everyone around her in broadly stereotypical strokes—from her earnest yet clueless uncle to the bumbling and rich animal collectors and her theatrical best friend. There's little in the way of character development and subtlety, but the pace is fast and cinematic. This installment can be read as a standalone. Frankie is cued as white. VERDICT A candy-floss confection quickly consumed. Purchase where heist books are in demand or where the first installment is popular.—Brenda Kahn, Tenakill M.S., Closter, NJ

#2288257 (Vol. 03) No Admissions (Hardcover (Trade))

written by Brittany Geragotelis

When Frankie discovers that a classmate's invention has been stolen the day before a school-wide competition, the once-renowned international thief figures she might as well flex her skills to steal it back. But just when Frankie's about to call her mission a success, she learns there's more to the story than she'd originally thought.

Reviews by: Children's Literature Newsletter for Adults There is something remarkable about the Inheritance trilogy, aside from the intricate plot and meticulously built fantasy world. It's the age of the creator. Paolini became a New York Times bestselling author at nineteen when he wrote the first book in the series "Eragon." His home schooling has served him well and his parents deserve a big thumbs-up. In this second installment of the series, Eragon and his dragon, Saphira, travel to the elven city Ellesmera where both must train in the ways of the dragon riders, a group on the brink of extinction. A reign of evil threatens to dominate the region and life as it has existed. Politics and romance lay at the forefront of events, as Eragon comes to grips with his future and the heavy burdens he must bear. Eragon goes through a major transition on his way to maturity, a necessity to survive an overwhelming foe in the finale's epic battle. The story is richly detailed in parts, logically laying down elements of magic and folklore. This weaving of old world history and modern fantasy works well, allowing us to see Paolini's personal grasp of literary elements and how nature works. This is a series worth reading but it is important to begin with the first book in the series. The linear plot unfolds one section at a time, like the layers of an onion, leaving the reader wanting to know more. 2005, Random House Children's Books, Ages 12 up.

Reviews by: Críticas The second volume in Paolini's popular "Inheritance Trilogy" continues the story begun in Eragon. Eragon the dragon rider and Saphira, his dragon, are being trained in the forest city of Ellesmera while Roran, Eragon's cousin, helps the villagers escape Carvahall and flee the siege by the Ra'zacs. There is a large cast of characters and complex story lines, and listeners must be familiar with the first novel before beginning this sequel. But the clear narration of this abridgment makes the plot easy to follow, and little is lost in the production. Though there is not much differentiation in the characters' voices, it is always apparent who is speaking. The recording is evenly paced, the sound clean and clear, and the Spanish straightforward and smooth. Overall, this is a worthwhile addition to larger Spanish-language audio collections.

Reviews by: KLIATT Readers who have been waiting two years for the release of Paolini's second installment in the Inheritance Trilogy will not be disappointed. The story picks up where Eragon left off, at the end of the battle at Farthen Dur. Eragon is now called Shadeslayer, and he has faced a mighty challenge that has changed him forever. After the leadership of the Varden changes hands, Eragon travels on to Ellesmera with Saphira to continue his training as a rider. Among the elves, he learns more about his power and about himself. In the meantime, Carvahall has been attacked. The villagers put up a brave defense, but ultimately they cannot hold out, and Katrina, Roran's betrothed, is kidnapped by the Ra'zac. Roran knows that Carvahall will fall and he asks the villagers to follow him to Surda, where he hopes to discover the whereabouts of the Ra'zac and Katrina. In parallel story lines and groups of alternating chapters, Roran and Eragon move closer to each other, finally meeting as another dragon and rider drop from the sky. As volume two ends, Eragon and Roran join forces to defeat the Empire and avenge the deaths of their loved ones. Paolini's lush writing and close attention to detail make this epic flow effortlessly, leaving readers to wait impatiently again for the third and final book of the trilogy. (Book Two of Inheritance Trilogy). KLIATT Codes: JS*-Exceptional book, recommended for junior and senior high school students. 2005, Random House, Knopf, 684p. illus., Ages 12 to 18. To quote the review of the hardcover in KLIATT, September 2005: The story picks up where Eragon left off, at the end of the battle at Farthen Dur. Eragon is now called Shadeslayer, and he has faced a mighty challenge that has changed him forever. After the leadership of the Varden changes hands, Eragon travels on to Ellesmera with Saphira to continue his training as a rider. Among the elves, he learns more about his power and about himself. In the meantime, Carvahall has been attacked. The villagers put up a brave defense, but ultimately they cannot hold out, and Katrina, Roran's betrothed, is kidnapped by the Ra'zac. Roran knows that Carvahall will fall and he asks the villagers to follow him to Surda, where he hopes to discover the whereabouts of the Ra'zac and Katrina. In parallel story lines and groups of alternating chapters, Roran and Eragon move closer to each other, finally meeting as another dragon and rider drop from the sky. As volume two ends, Eragon and Roran join forces to defeat the Empire and avenge the deaths of their loved ones. Paolini's lush writing and close attention to detail make this epic flow effortlessly. Read all 7 "From the Critics"

Reviews by: Publishers Weekly Narrator Gerard Doyle picks up where he left off narrating Eragon by Christopher Paolini, with its follow-up, Eldest. Again lending his assured, compelling delivery to the proceedings, Brit Doyle relates the continuing adventures of dragon-rider Eragon and his dragon, Saphira, now in Ellesmera, land of the elves. Copyright 2005 Reed Business Information.

Reviews by: School Library Journal Gr 5 Up-Eragon and his dragon, Saphira, have survived the battle at Tronjheim, but their challenges are not over. Galbatorix, the corrupt emperor, still rules Alagaesia and is looking for them. The magically bonded pair must help the rebellious Varden regroup after their leader is slain. Eragon helps deal with the resulting diplomatic complexities and then leaves for Du Weldenvarden, the home of the Elves, in order to finish his training as a Dragon Rider. Meanwhile, his cousin Roran must unite the small town of Carvahall as it is battered by Galbatorix's forces, including the nasty Ra'zac. The story alternates between Eragon and Saphira and their political maneuvering and Roran and his more traditional adventure over land and sea. Paolini provides a worthy companion to Eragon (Knopf, 2003), though it does not stand alone (a summary of the first book will be included in the final edition). The plot-indeed, most of the fantasy conventions-is heavily inspired by Tolkien, McCaffrey, and especially George Lucas. The momentum of the narrative is steady and consistent: a problem presents itself and is neatly (and conveniently) solved before the next one arises, making it appealing to some adventure-quest fantasy fans and runescape.com players. Eragon's journey to maturity is well handled. He wrestles earnestly with definitions for good and evil, and he thoughtfully examines the question of good at

#1657355 (Vol. 04) Inheritance (Hardcover (Trade))

written by Christopher Paolini

Not so very long ago, Eragon--Shadeslayer, Dragon Rider--was nothing more than a poor farm boy, and his dragon, Saphira, only a blue stone in the forest. Now the fate of an entire civilization rests on their shoulders. Long months of training and battle have brought victories and hope, but they have also brought heartbreaking loss.

Reviews by: Booklist Adventurers, take up ye swords! Several of the battle scenes in this massive conclusion to Paolini's Inheritance Cycle and, wow, are there a lot of them are so invigorating that even with all the fountaining of blood and clashing of steel, readers young and old will be begging to enlist. Let's start with the good because, largely, this novel is a rousing success: Paolini fulfills nearly every promise set forward in Eragon (2003), with the young Rider fulfilling his destiny; Roran becoming a warrior of legend; Murtagh facing up to his lineage; and Galbatorix finally taking center stage for the final act, where his evil plans begin to make a disturbing amount of sense. Paolini is especially apt at depicting the queasy nature of unnatural alliances, and each of the 78 chapters contains a meaty or enjoyable nugget, even if it's one of Paolini's trademark tangents (the step-by-step construction of a dwarf's thardsvergundnzmal, for instance). Still, the novel isn't perfect: many characters are so burdened by Tolkeinesque posturing that they are more fascinatingly mythic than truly fleshed out, and the long-winded proceedings follow a fairly predictable, The Return of the King-like arc. But this is every bit as challenging and ornate as its predecessors, and very few of the millions of fans will be disappointed. HIGH-DEMAND BACKSTORY: How does a 2.5-million-copy first printing sound? An 18-city tour, TV advertising, and dedicated apps ensure that this global publishing event will be just that: an event. --Kraus, Daniel Copyright 2010 Booklist

Reviews by: Children's Literature Eragon and his dragon, Saphira's tale has a beginning, middle and now the end. This epic adventure starts with an egg and finishes in the battle of a lifetime. Our young hero trains and battles with his cousin, Ronan, all the way to the main city saving and losing lives along the way. Driven by the need to feel justice after almost losing his cousin to Galbatorix, Eragon must pull from all his inner strength and passionate nature to combat this evil nemesis and restore peace to his people in Alagaesia. Nothing can prepare him for what will happen next, but luckily he has Saphira to make him whole and unstoppable. This plot driven book makes this world of make-believe come to life as each page takes the reader out of reality and into a fantastic place where heroes look like regular teenagers. At times, the book seems overwhelming due to the 800 plus pages and makes me wonder if it could have been divided into two or three books instead of one. Sadness came over me as the realization of completing the book meant no more adventures with my old friends, Eragon and Saphira. This is the last book in the "Inheritance Cycle" series. Reviewer: Julia Beiker

Reviews by: Kirkus Reviews Capping the former Inheritance Trilogy, this fourth epic-length episode brings teenage Dragon Rider Eragon at last to a decisive faceoff with his greatest enemy. Beginning with the capture of the fortress city of Belatona, the rebellious Varden alliance wins multiple hard-fought victories before arriving at last before the iron gates of imperial Urû'baen, "wherein sits Galbatorix, proud, confident, and disdainful, for his is the strength of the dragons." Meanwhile, Eragon and his scaled companion Saphira fly off to the ruins of Doru Araeba in response to mysteriously delivered hints that something in a hidden "Vault of Souls" will help defeat their clever and overwhelmingly powerful adversary. Tucking in well-developed side plots, elaborate set pieces, internecine squabbles, extraneous characters, piles of corpses and, toward the end, even oblique allusions to sex (dragon sex, anyway), Paolini moves his tale along with all deliberate speed to its properly explosive, massively destructive climax. As in previous volumes, there are so many nods to Tolkien and other fantasists that authorial whiplash must have been a chronic hazard, but battle scenes are satisfyingly dramatic. Moreover, the act that leads to the thoroughly predictable outcome is just one of several ingenious twists, and before sailing off to lands unknown in a boat of Elvish make (sound familiar?), the young warrior/mage actually wages peace while methodically tying up loose ends over the final 90+ pages. Despite the long, anticlimactic wind-down, it is a strong conclusion to the crowd-pleasing series. (maps, multilingual word list) (Heroic fantasy. 12-15)

Reviews by: Publishers Weekly Almost 10 years after Paolini self-published Eragon in 2002, he concludes the epic saga of the Inheritance Cycle with this thick fourth volume, the longest yet in the series. With Eragon, his dragon Saphira, and their many allies poised to do final battle against the evil emperor Galbatorix, there is still plenty of unfinished business to wrap up. Cities need to be liberated, enemy leaders (including Eragon's half-brother Murtagh) must be dealt with, prophecies await fulfillment, and a few game-changing secrets will be revealed. In full Tolkeinesque style, Paolini luxuriates in excess details, side quests, and a lengthy dénouement in which every last thread is wrapped up. The solidly entertaining plot is fleshed out with defining moments for every major character and a sense of completion (temporary or permanent) for all involved. While this final chapter is bogged down by an almost obsessive complexity with regard to the world-building, Paolini leaves readers with the satisfaction of a journey's end, along with the promise of new beginnings. It's a can't-miss for fans and completionists, and a worthy end to the story. Agent: Writers House. Ages 12-up. (Nov.)

#2355974 Murtagh (Hardcover (Trade))

written by Christopher Paolini

The world is no longer safe for the Dragon Rider Murtagh and his dragon, Thorn. An evil king has been toppled, and they are left to face the consequences of the reluctant role they played in his reign of terror. Throughout the land, hushed voices whisper of brittle ground and a faint scent of brimstone in the air-and Murtagh senses that something wicked lurks in the shadows of Alagaesia. So begins an epic journey into lands both familiar and untraveled, where Murtagh and Thorn must use every weapon in their arsenal, from brains to brawn, to find and outwit a mysterious witch.

Reviews by: Booklist Grades 7-10 A year after the fall of the wicked conqueror Galbatorix (and 12 years since the conclusion of Paolini's Inheritance Cycle), Eragon's half brother, Murtagh, also a Dragon Rider, is on the run. An antihero in the original series, Murtagh was first one of Galbatorix's men, but he changed sides with Eragon's help. Now, he seeks to steer clear of danger, but danger finds him nonetheless, whether through the sword of a greedy trader or rumors of an evil witch. He rides his dragon companion, Thorn, across Alagaësia in search of answers as he also reckons with his past as a villain and wonders how to use his magic to help, rather than harm. Much of the story surrounds Murtagh's relationship with Thorn, and previous Dragon Riders are name-checked but do not appear. Still, familiarity with the original series and characters is a must. Two decades after the debut of Eragon, Paolini shows that there are still fresh tales to be told in this world. COPYRIGHT(2023) Booklist, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews Murtagh and Thorn must defend Alagaësia from a shadowy new threat in this sequel to Inheritance (2011). In an Alagaësia that's at last free from tyrannical King Galbatorix, Murtagh and his dragon, Thorn, cannot free themselves from the stain of association. As the pair hide their identities, Murtagh works to uncover the mystery behind a cryptic warning from Umaroth. Defending himself against an attack by informant Sarros, Murtagh is horrified to learn that a witch named Bachel has created an amulet that protects against even the Name of all Names. Seeking Bachel, Murtagh returns to Gil'ead, where he risks discovery by those who knew him from Galbatorix's court. Werecat Carabel promises information about Bachel and her Dreamers if Murtagh rescues kidnapped werecat children. Murtagh and Thorn must confront the scars left by their enslavement by Galbatorix if they hope to succeed. Murtagh's point of view is kept vividly distinct, and it contains a visceral anger over injustices that are expressed at a new level of intensity. He's particularly protective of children in a way that wasn't displayed by previous series protagonists. The psychological scars from both Murtagh's enslavement and his childhood abuse are well portrayed and shape his characterization in meaningful ways. In a welcome change, Thorn is no longer merely a plot vehicle; with the intimate rider-dragon bond on display, a terrified, confused young dragon still learning who he is shares center stage. A much-needed follow-up centering a beloved character. (map, names and languages) (Fantasy. 12-18) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly A reverend's children seek to preserve the rare, magical Ink that's long fueled creativity in debut author Peabody's uneven series opener. In the early 1950s, 11-year-old Everett and eight-year-old Bea live in a London vicarage with their clergyman father, who uses Ink to create the Max Courageous comics for which he is known. When he heads to Scotland to conduct a secret mission, public use of the liquid attracts attention, leading to a terrible train accident that leaves him presumed dead. With his fountain pen delivered to Max and Bea, who present as white, the two become aware of the long conflict between Inklings, a worldwide force of creators who defend and use Ink, and inhuman "blotters," who seek to destroy the Ink and those who would use it. They also find that they're in danger of becoming the blotters' next target. Partnering with Trey, an amnesiac boy with Indian heritage, the siblings seek the last known source of Ink before the bumbling yet nefarious blotters can cause further harm; to do so, Bea turns to hymns and prayers, and Everett wrestles with doubt and frustration. Heavy-handed moralizing and derivative fantasy tropes undercut the telling, but whimsical elements, including a gondola carried by a giant invisible pigeon, prove bright spots. Ages 8: 12. Agent: Curtis Russell, P.S. Literary. (Sept.)

#2342614 (Vol. 02) Race to Krakatoa (Hardcover (Trade))

Reviews by: Booklist A young prince defies his destiny by escaping the castle he is meant to rule. At first, the surrounding city seems magical, full of wondrous sounds and sights, but the prince becomes very lonely without anyone to talk to. The kindness of several strangers allows him to begin building a new life for himself, and he eventually finds a job, a home, and, best of all, true friends. All would be well if it were not for the king's courtiers, who will stop at nothing to get the boy back to the castle. The second volume in this contemporary fairy tale continues the quiet introspection and striking visual elements of *The Invisible Kingdom* (2016) as it examines concepts of personal choice and responsibility. The gently rambling narrative flows easily, and the prose balances a sense of wonder and underlying tension. Simple black figures set against a range of colorful, patterned backgrounds make for vibrant, engaging pages that echo the events in the text. A cliffhanger ending will leave readers waiting for the next volume in this enchanting series.--Hayes, Summer Copyright 2016 Booklist

#2348239 (Vol. 01) Invisible Kingdom (Hardcover (Trade))

written by Rob Ryan

He lived in a palace that seemed to have been specially designed to make someone who already felt small feel even smaller. He rarely saw his parents, who were always busy being the King and Queen; and, unlike other children, the Prince never spent time dreaming about what he would be when he grew up because he knew that when his father died, he would become King. It was his destiny. The only person who treated the Prince like a normal child was the Bootman. Understanding that everyone needs something to call their own, the Bootman gave the Prince a pen with invisible ink and a special flashlight that allowed him to create a world that only he could see.

Reviews by: School Library Journal Gr 4 Up-First of a three-part narrated modern fairy tale originally published in England, this oversize volume follows the life of a lonely young prince who becomes king at the age of 13 after his elderly father's death. Having led a solitary life at the palace under the stern Lord Von Dronus, his demanding tutor who believes in living life "according to rules," the young prince lacks playmates. But in his occasional wanderings, he has visited the very bottom of the palace, making the acquaintance, then friendship, of the Bootman-a wise and clever young fellow who polishes the palace footwear. The Bootman is a good listener-nonjudgmental and caring-who answers the prince's questions "thoughtfully and honestly" and gives him a pen that writes in invisible ink and a "special torch" to reveal the markings that enable the prince to draw an imaginary village on the drapes encircling his four-poster bed. When he discovers a window in the palace attic, he begins to sneak out at night to wander the city, fascinated with the ordinary people he observes at their nighttime occupations. Ryan's hand-drawn, screenprinted, and cut-paper illustrations, filled with intricate patterns, detailed cityscapes, and numerous black silhouettes, are placed on watercolor backgrounds ranging from bright yellow to dark gray hues. Much of the text is printed in gray on black backgrounds, creating a visually stunning presentation. VERDICT An intriguing fantasy that pulls readers right into the story with its enchanting plot and eye-catching artwork.-Susan Scheps, formerly at Shaker Public Library, OH Copyright 2016. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

Reviews by: School Library Journal Gr 5-8-In this witty British import, a middle schooler must face her own insecurity after her social status gets an unexpected boost. Anna Huntley, 12, is most comfortable at home with her journalist single dad, watching old movies and communing with her pet/soulmate, Dog. She's terrified she'll embarrass her only friends, Jess and Danny, into abandoning her. Anna's quirky personality and frequent misreading of situations are bemusing, even to Jess. When Anna's father starts dating a superstar, the potential for public humiliation is high. For naive Anna, navigating the limelight as well as normal adolescence (crushes! field trips!) is a test for her already shaky social instincts. After she imperils both her sweet fledgling romance with a fellow nerd and, worse, her friendship with Jess, she must rely on her new blended family's support to scheme her way back to happiness. Smart plotting has the well-developed adult characters and Marianne, Anna's surprisingly nice celebante sister, demonstrate that anyone worth knowing is a little dorky. Birchall's debut is appropriate for younger readers yet sharp enough to keep older middle schoolers rooting for a well-earned happy ending. There are flaws: a slightly slow start, some culturally insensitive asides-Anna's goals include feeding rice to African children, and unlikely tween email habits. VERDICT Though not nearly as nuanced and authentic, this is in the vein of Rebecca Stead's Goodbye Stranger; its juicy premise gives way to supportive female friendship and realistic self-discovery, without losing its teen appeal.-Miriam DesHarnais, Towson University, MD Copyright 2016. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

If she's going to be famous, Anna is determined to find a worthy "thing" to be famous for. Everyone else seems to have one--especially the new girl at school who's distracting her crush, Connor, with a shared love of art. Luckily sports day is looming and Anna is limbering up! What could go wrong?

978-1-4814-6365-2 ©2017 5-1/2 x 8-1/4 304 pgs.

Grades 5 - 8 Dewey# Fic AR Lvl 4.6 AR Pts 7.0 Lexile 670

Reviews by: School Library Journal Gr 5-8-This second entry in the series is true to the humorous tone of the first book, albeit with slightly lowered stakes. Having been thrust into the limelight as a result of her father's marriage to a movie star, 12-year-old Anna Huntley has strengthened her wobbly self-esteem in order to make trustworthy friends, embrace her expanded family, and realize which boy she likes. However, in this sequel, Anna still faces mishaps in the public eye, including a viral video of her falling into a planter, but the catalysts for drama are a bit flimsier. Spurred by a snarky tabloid piece on useless "it" girls, Anna decides outrageous measures are necessary in order to prove her worth, both to the world at large and to her crush, Connor, who seems distracted. To that end, she becomes captain of the Puffins team for her school's sports day, despite being extremely unathletic and a little shy. As in many rom-coms, most of the problems Anna encounters could be cleared up through better communication-but that's not how high jinks are made. The relatively slight plot is bolstered by breezy pacing and genuinely funny dialogue. Jess, Anna's best friend, is a little on the undermining side, but Anna's unconventional family is portrayed with warmth and specificity. As in the last book, emails, notes, and lists are interspersed throughout; their use may not square with how middle schoolers communicate now, but it does make for easy reading. Anna's process of growing into herself is realistically bumpy, with relatable ups and downs as she develops new capacities and interests. VERDICT This series installment should hold great appeal for tweens who enjoy comic fiction with a touch of age-appropriate romance, with added interest for Anglophiles and self-identified members of "Team Awkward."-Miriam DesHarnais, Towson University, MD Copyright 2017. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

Grades 7 - Y Dewey# Fic

Reviews by: Booklist Grades 6-10 In this stand-alone sequel to *The Dire King* (2018), Abigail Rook, whose ability to identify and interpret auras has been mentored by Mr. Jackaby, now serves as a paranormal consultant to the New Fiddleham Police Department. She accepts a burglary case but is soon investigating a series of murders and several kidnappings (including that of her fiancée, Charlie Barker). Further complicating her life are the sudden appearance of her parents (who want to take her home to England to be married) and two peculiar detectives who work for the Bureau of Curiosities. Set in 1890s New England, this Sherlockian mystery is cleverly written, features an appealing (if often insecure) protagonist, and is filled with all manner of magical, shape-shifting creatures. The inclusion of numerous plot twists and steadily rising action throughout will

please mystery fans as well. While this will be most appreciated by those who have read the earlier Jackaby quartet, Rook will also appeal to fantasy and adventure enthusiasts. COPYRIGHT(2023) Booklist, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews Following the (impermanent) death of her eccentric employer, R.F. Jackaby, Abigail Rook, much to her dismay, inherited his ability to see energy and emotional auras. In this stand-alone set in the Jackaby series world, Abigail must now take the lead in their supernatural detective work. Most unusually, the New England city of New Fiddleham includes a rift to the supernatural world. Many paranormals--goblins, trolls, elves, fairies, and their like--have moved in, necessitating a Paranormal Division of police, for which Jackaby and Abigail consult. But while Abigail was cloistered for months, training as the new Seer, supernatural crime and human-paranormal tensions soared. Though feeling decidedly unready, Abigail must use her gift to trace a series of kidnappings and murders. Things grow especially bleak when her prospective sister-in-law, who can shape shift into dog form, is implicated in a murder and Abigail's fiance, Charlie Barker, is kidnapped. Like Jonathan Stroud's Lockwood & Co. series, this book expertly blends witty banter, sympathetic, struggling characters, descriptive worldbuilding, and sometimes-gory supernatural crimes with all-too-believable motives. Quick-moving action and creative supernatural elements will hold readers' attention, though characters' memory-loss incidents might lead to some plot confusion, and the denouement feels rushed. Human-presenting characters read White; Charlie has a "faint Slavic accent." Lively supernatural investigations with humor and heart. (Fantasy. 12-16) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 9 Up--This stand-alone novel is a spin-off of Ritter's well-known "Jackaby" series and follows Abigail Rook. The British Rook is now lead supernatural investigator with Jackaby as her assistant after she receives his sight. The pair have been practicing with Rook's new powers to prepare for solving crimes; for their first case, they are thrown into a complex crime with murder and missing people. The novel is set in the Victorian-era New England town of New Fiddleham where supernatural entities are an open secret after several public displays. Rook's fiancé Charlie is a hound shape-shifter who helps to keep the peace between humans and non-humans. Charlie's sister Alina oversees the veil-gate, an area connecting to a world of magic, something that is not yet fully accepted in New Fiddleham. As Rook attempts to find her footing, her parents turn up to bring her home and marry her off. She tries to keep her two worlds apart while figuring out what she wants from her life, including if she wants her newfound powers. The fantasy world is further fleshed out while the investigators face one of their biggest mysteries and are introduced to the Bureau of Curiosities, a government agency much like their own that investigates the paranormal. Reading the original series would help fill in backstory, but familiarity isn't necessary to follow along. A well-crafted alternative history that will leave readers wanting even more. Main characters cue as white. VERDICT A much-anticipated and worthwhile return to the world of Jackaby.--Rebecca Greer Copyright 2023 School Library Journal, LLC Used with permission.

Jacky Ha-Ha (Trade)

#2014396 (Vol. 02) My Life Is a Joke (Hardcover (POB))

written by James Patterson

James Patterson's newest hilarious heroine returns in Jacky Ha-Ha: My Life Is a Joke, Jacky Hart has found a hidden talent in the performing arts, and she's a triple threat onstage! She wants nothing more than to act and sing all summer--but her parents have other plans for her. Jacky reluctantly signs up for a summer job in her resort town of Seaside Heights, New Jersey, where tourists come to enjoy the beach and fun carnival atmosphere. Now she has serious responsibilities like her job and babysitting her younger sisters, but Jacky longs to perform in the summer stock performance of A Midsummer Night's Dream. Can she handle all of her important commitments and still have fun with her friends--or will she learn that juggling isn't one of her many talents? James Patterson's middle grade jokester Jacky returns in this wild romp through summer in the Jersey Shore, featuring lively illustrations by French artist duo Kerasco. 978-0-316-43376-1 ©2017 6 x 8 304 pgs. Quantity	Unit Price
1	\$13.99

Reviews by: Booklist In 1991, 12-year-old Jacky and her older sisters must find summer jobs to help support the family. Soon she's running the Balloon Race game on the Jersey Shore boardwalk. Though she never stutters while amusing customers with her wisecracking carny patter, her tryout for A Midsummer Night's Dream is a near disaster. Still, she lands a small part. Later, after the Balloon Race booth is robbed and she loses her job, she puts her acting skills to practical use, setting a "mousetrap" to catch the thief. Lines from Shakespearean dialogue, along with facts about his plays and Elizabethan stagecraft, are woven into the story. As in Jacky Ha-Ha (2016), the framework introduces Jacky as an adult, a successful actress reminiscing for her two daughters. Black-and-white drawings with speech balloons illustrate the narrative and underscore its humor. Often impulsive but later reflective, the young Jacky makes mistakes and learns from them. Whether she's helping a sister, solving a crime, or dealing with a boy's first stumbling steps toward romance, this chapter book is engaging from start to finish. HIGH-DEMAND BACKSTORY: Patterson and Grabenstein's latest big-time series will fly off the shelves, and that's no joke.

Reviews by: School Library Journal Gr 5-7-Jacky's mom is back from Desert Storm, her dad has graduated from cop school, and summer is

about to begin. Time for ice cream on the docks and hanging out with friends! Except Jacky's dad is taking a low-paying summer job to get his foot in the door with the police department and now her mom has decided to go into the police academy. Jacky and her six sisters have all been instructed to get jobs to help pay for groceries and babysit their youngest siblings. On top of that, a famous actress is in town, and Jacky's favorite teacher has asked her and her friends to be in a Shakespearean production. There is also a mysterious rash of crime going on all over town. How will Jacky juggle all of her responsibilities, solve the crime, earn enough money, and still have fun? Whimsically illustrated by French duo Kerascodt, the line drawings are reminiscent of "Archie" comics and add more jokes to the story, which is occasionally very funny with a wacky plot. Unfortunately, Jacky is a mostly flat character, as are her family and friends. Disappointingly, stereotypes abound. The Italian shopkeeper is described as wearing large gold chains and saying "fuggedaboutit," the only other characters whose physical characteristics are described in detail are African Americans, and it is noted that girls enjoy gossip, clothes, and relationships (but boys do not). Pop culture references from the 1990s detract from the story and may be confusing or irrelevant to today's kids. **VERDICT** An additional purchase for robust collections. -Terry Ann Lawler, Burton Barr Library, Phoenix Copyright 2017. #2169493 Karate Rebels (Library Binding)

written by Jake Maddox

Karate is the most important thing in Aliyah's life. It allows her to fight - and she's good at that. It also makes her feel like a winner. Nothing is more important to Aliyah than taking down an opponent, especially if it's her main rival, Suma. Things soon change with the arrival of a new student, Zoya, who also happens to be Suma's little sister. Aliyah sees something familiar in Zoya - an anger and aggression that reminds Aliyah of herself. Upon the request of Suma, and with the approval of the sensei, Aliyah agrees to train Zoya. Through their training, she helps Zoya control her anger but also manages to learn a valuable lesson of her own - winning isn't everything.

#2247227 Football Foul Play (Library Binding)
written by Jake Maddox

After winning their first playoff game, Badger teammates Kenny Hu and Romeo Russell get some disturbing news. The Supreme Bowl trophy has been stolen from the rival school across town! Even worse, the evidence points to the Badgers' quarterback being the culprit. At first, Kenny and Romeo think it's just a prank that went too far. But when their teammate insists that he didn't do it, they decide to investigate. Where will the clues lead? Will the evidence show that their friend is innocent? Follow Kenny and Romeo as they work to uncover the truth behind the stolen trophy in this

#2247229 Gymnastics Payback (Library Binding)

written by Jake Maddox

Mia Hernandez's gymnastics team is nervous about the upcoming season. However, they're encouraged when their new coach tells them that she was once a gymnast for their longtime rivals. The coach's knowledge will be a great advantage during the season. But strange things begin to happen at the competitions. The wrong music is played during some girls' floor exercises. Itching powder ends up in one team's chalk. At another meet, the parallel bars fall apart while a competitor performs her routine. Someone is taking dangerous risks to cheat at the competitions. But who could it be, and why? Follow along as Mia discovers the shocking truth behind who's been sabotaging the competition during the gymnastics season in this Jake Maddox JV Mystery.

written by Jake Maddox

Robert, Maryam, and Kylie are excited to be at a sleepaway cheer camp. But then their bunkmates- and main cheer competition- try to convince them their cabin is haunted. The three friends laugh it off until some suspicious things start happening. Flickering lights, getting locked in the bathroom, vandalized poms could all be the work of a cheer competitor . . . or is it the Cabin 4 ghost? Robert is convinced he knows who's to blame, but will he be able to prove it?

Reviews by: Children's Literature Newsletter for Adults Tanner Ryan is a skateboard fiend. He loves everything about it and he is really good. Trouble is the new neighborhood he and his parents just moved too is not too keen on skateboarding. He hates the place and the local folks are not too crazy about him either! But that is about to change. This adventure story is realistic and face-paced with key scenes that contain vivid descriptions of grinding and racing down steep hills and around curves at breakneck speeds. Even kids who do not skateboard will relate to Tanner and his passion (and they might learn a little about skateboarding as the text is full of related terms). The biggest surprise comes when Tanner visits his old neighborhood (and skateboard park) and unexpectedly finds a way to make his new digs more skateboard friendly. The answer is right in his own backyard! This easy reader (written at a 2.5 reading level) is hip enough to appeal to students in upper elementary and even middle school, which makes it perfect for reluctant or struggling readers. Reviewer: Cathy Puett Miller

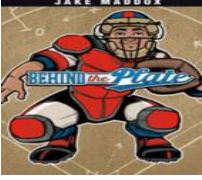

Reviews by: School Library Journal Gr 4-8-These hi/lo books rely on typical sports fiction plots but stand out for their focus on unusual sports. In Board Rebel, Tanner finds himself ostracized when he and his family move to a planned community that doesn't allow skateboarding. In Go-Kart Rush, Tony struggles to keep up when he finds himself the youngest kart racer in a new division. Both stories are written at a second- or third-grade reading level but involve middle grade protagonists and problems-pursuing one's interests and fitting in. In both cases, the boys' dedication

and skill earn them friends who help them resolve their issues. The writing, featuring plenty of sports action and dialogue, is surprisingly engaging, especially considering the constraints of a lower reading level. Each book utilizes the language of the sport at hand. Potentially unfamiliar terms are clearly defined in the backmatter; Go-Kart Rush even includes diagrams. Tiffany's cartoon illustrations have an edge of manga flair. They're eye-catching and support the story, although older readers may think they're a bit too young. The discussion questions and writing prompts at the end of the books add to their appeal for teachers and tutors who work with struggling readers.-Adrienne Furness, Webster Public Library, NY (c) Copyright 2010. Reviews by: Booklist Kids jeer at Riley because he is scared to take a dangerous jump over the edge of a local cliff into the river. What hurts most is that his daredevil best friend, Blake, joins in the teasing. But Riley loves to swim, and after the school coach pushes him, he joins the swim team and finds success in long distance races, even though Blake and his pals call Riley a dumb jock. The blend of swimming action and the friction between friends and enemies makes this chapter book in the Sports Fiction series an exciting read, and the grey-wash, full-page pictures show the quarrels, the frightening scenes, and the final triumph and reconciliation when Riley performs a daring rescue. The back matter includes water-safety rules as well as a glossary, discussion questions, and writing prompts.--Rochman, Hazel Copyright 2009 Booklist

Reviews by: Children's Literature Jake is a champion bull rider, the best in his division. He's never been thrown, and he hopes to win the final. In his last round of the semi-final, he draws a huge bull named King Minos, who has never let a rider last the required eight seconds. King Minos turns out to be a formidable opponent indeed, and when Jake is thrown from the bull's back the boy's shoulder is dislocated. Facing eight weeks of recovery, Jake is discouraged, but then he comes up with a plan: learn to ride left-handed instead. Weeks later, back in the arena, Jake is ready to give bull-riding another try, but then he draws King Minos again. ...

Janitors: School of Garbage (Trade)

#2347087 (Vol. 01) Janitors: School of Garbage (Hardcover (Trade))

written by Tyler Whitesides

Landon Murphy discovers the undercover janitorial world when his soon-to-be stepsister, Jade Shu, guides him through a magical portal at the bottom of a dumpster that leads to a fantastical landfill and the home of the School of Garbage, where she has secretly been a student for the last few years. Problems at home with his family make it hard for Landon to feel like he belongs anywhere, but he is quickly welcomed a student at the intriguing school for wizard-like janitors. Landon and Jade-along with allies from the original series-are tasked to take out the trash and figure out who-or what-is behind the mysterious garbage attacks and stop them before the entire world is literally trashed.

Jessie Files: Boxcar Children Book (Trade)

#2275686 (Vol. 01) Friendship Feature (Hardcover (Trade))

written by Stacia Deutsch

Jessie Alden thinks her days of solving mysteries are over. But when a new boy at school comes to her with information about strange things taking place at his parent's business, and she also finds out the club she's writing her first feature on seems to know something about it, Jessie realizes her story is much bigger than she thought-and she can't help but get to the bottom of it.

Reviews by: Kirkus Reviews In the wake of a freak storm, something is rotten in the town of Greenfield. Jessie Alden is eager to dive into the

new school year: new classes, new friends, new clubs, and, most importantly, new Jessie. That means leaving behind the old Jessie, who "hung out in a boxcar and solved mysteries" with her siblings. But when a new boy at school approaches her with a tale of a bizarre transaction at his parents' art store and strange occurrences in her neighborhood pile up without adding up, Jessie just might have to don her investigator's hat once again, this time with her friends by her side. Deutsch has given the Boxcar Children franchise a modern twist but retains salient features of Gertrude Chandler Warner's original series in creating her version of Greenfield. In doing away with the original family investigative team, this opener heralds a series that feels closer to the A-to-Z Mysteries by Ron Roy and John Steven Gurney, similarly suffused with red herrings, small-town sensibility, and unexpected antagonists, with the added overarching theme of the power of friendship. Characters are distinct and likable, if somewhat shallowly developed, and the surprisingly mature plot clips along at a spritely pace. Jessie and her family are presumed White; supporting characters are children of color. A case worth cracking. (Fiction. 9-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

#2275685 (Vol. 02) Talk of the Town (Hardcover (Trade))

written by Stacia Deutsch

When an embarrassing message between Charla and Daniel goes out to the whole class, Jessie finds herself stuck between her feuding best friends. As she helps Charla investigate how this happened, they find that someone has been tampering with Charla's lawyer mom's computer, and it could spell trouble for her mom's legal case. In order to keep the culprit from walking free, Jessie and Charla need Daniel's help.

#2299302 (Vol. 03) Dramatic Disappearance (Hardcover (Trade))

written by Stacia Deutsch

When a traveling theater production comes to town, Jessie is excited to write a profile of its star, a talented performer who grew up in Greenfield and is making a big splash around the world. But when the performer goes missing days before the show is set to make its debut, Jessie realizes that something big is going on behind the scenes. If she wants to score a celebrity interview, she's going to have to solve a mystery first.

Reviews by: Booklist a forest by his stepfather, young orphan Jinx lands, instead, in the home of a wizard, Simon. There Jinx, who has always had an ability to see others' feelings in colors and symbols, develops the ability to communicate with the forest's trees. But after Simon performs a spell, Jinx loses his capacity as an emotional seer. Setting out into the forest to look for a counterspell, Jinx joins company with a girl and a boy, both of whom are suffering under their own curses. In this expertly paced, beautifully written book, Blackwood elevates familiar fantasy elements with exquisitely credible characters who inhabit a world filled with well-drawn magic and whimsy—witches travel by butter churn, for example. Rounding out the exciting story are terrifying dangers, delightful bouts of wordplay, and vivid settings that will appeal to readers' imaginations, senses of humor, and desire for fair play. A literary cut above Eoin Colfer's Artemis Fowl books but with no less tension or bravado, this exciting, thought-provoking debut will leave readers eager for follow-up adventures.

Reviews by: Horn Book Abandoned in the Urwald by his stepfather, Jinx is adopted by a wizard, Simon, who alternately neglects him and

grudgingly teaches him a little magic. Jinx himself has the ability to see people's emotions in colorful clouds around their heads, but after Simon performs a forbidden spell on Jinx, that sixth sense disappears, leaving an absence like a "blank white space inside his head." Jinx sets out through the Urwald to seek his fortune and regain his power, meeting up with chivalrous naif Reven and indiscreetly honest Elfwyn on the Path, the safe road through the woods. They've all been warned against the evil wizard known as the Bonemaster, who is said to be able to suck your soul out through a straw, but what if the Bonemaster, Simon's rival, is the only one who can tell Jinx how to get his magic back (and, incidentally, lift the curses his two friends labor under)? On the other hand, what if it's a trap? Flowing dialogue, easy interactions between the characters, a mixed Diana Wynne Jones/Lloyd Alexander vibe, and a setting both familiar and original (the Urwald's dangers include trolls, vampires, and werewolves but also witches riding butter churns) make the novel immediately inviting and compelling. Unassuming Jinx has a core of steel under his get-along exterior, a mettle that will be tested in future installments. anita l. burkam

Reviews by: Kirkus Reviews Making unusually entertaining use of well-worn elements, this series opener plops a dense but promising young wizard-in-training between a pair of obnoxious rival mages. Left by his stepparents to die in the dangerous Urwald, Jinx is rescued by Simon Magus, a "possibly evil" forest-dwelling wizard whose obsession with magical research is matched only by a truly profound lack of people skills. Several years later, having learned a little magic but also injured by one of Simon's spells, Jinx stomps off in a rage to seek help. But hardly has he fallen in with a couple of ensorcelled fellow travelers, than all three fall into the clutches of the genial but rightly feared Bonemaster. Along with setting this adventuresome outing in a sentient forest populated by trolls, werewolves and giddy witches who bound about in butter churns, the pseudonymous Blackwood spins out lively dialogue threaded with comical rudeness and teasing. Trotting out a supporting cast whose inner characters are often at thought-provoking odds with their outer seeming, she also puts her central three through a string of suspenseful, scary situations before delivering a properly balanced closing set of resolutions, revelations and road signs to future episodes. Unsurprisingly, Jinx displays hints of developing powers beyond the ordinary. Astonishingly, he and his world still seem fresh, for all that they echo familiar tropes. (Fantasy. 10-12)

Reviews by: Publishers Weekly In a story with strong middle-grade appeal, Jinx has grown up in the Urwald, an enormous, sentient forest where humans exist on sufferance, safe only in their own clearings and the paths between them. Trolls and werewolves prowl the Urwald, as do dangerous witches and wizards. After Jinx's brutal stepfather decides to abandon him in the forest, the boy is saved by a crusty, morally ambiguous wizard named Simon, who takes him in as a servant, eventually teaching him some magic. Years later, a 12-year-old Jinx and two new friends set off to find another wizard, the monstrous Bonemaster, in hopes he can help them overcome their respective magical troubles. Blackwood, a pseudonym for writer Karen Schwabach (*The Storm Before Atlanta*), fills her tale with drama and delightfully funny dialogue ("You could have told us you had a curse on you that made you have to tell the truth," Jinx complains at one point). Jinx is an engaging and memorable hero, and adult characters like Simon, the Bonemaster, and the witch Dame Glammer (who rides a butter churn) are entertainingly eccentric. Ages 8-12. Agent: Caitlin Blasdell, Liza Dawson Associates. (Jan.) (c) Copyright PWxyz, LLC. All rights reserved.

Reviews by: School Library Journal Gr 4-8-"In the Urwald you grow up fast or not at all," readers learn in the opening of this rich and fecund fantasy. Jinx is that staple of children's literature: the scorned, ill-used orphan who proves to be so much more gifted and important than he ever imagined possible. He occupies a world that is simultaneously original and familiar, influenced by centuries of folklore, but newly envisioned and vividly created. This eldritch, primeval forest that Jinx has been warned to shun is, nevertheless, where he has been abandoned by his heartless stepfather. Blackwood has populated this magical place with convincingly conflicted wizards and witches who seem uncertain as to how much they should be using their skills to control events or the beings around them. Jinx is slow to recognize his own powers as he digs his bare toes into the earth of the forest and feels the pulsing heartbeat of its life, or finds that he can call up fire. He is even slower to divine the motives of the various people he encounters, including Elwyn and Reven-youths under mysterious curses of their own-who navigate the Urwald beside him. Readers will thrill to the journey with Jinx as he discovers and grows into himself. Though they will not feel abandoned at the edge of a cliff at the book's end, they won't be surprised-and will be delighted-if sequels are in the offing.-Miriam Lang Budin, Chappaqua Library, NY (c) Copyright 2013. Quantity	Unit Price
1	\$16.99

Reviews by: Booklist Grades 4-8. Blackwood's now nearly 13-year-old wizard apprentice demonstrates both the pluck and smarts to cope with a series of misadventures as he sets about to save Simon, his master, from the evil Bonemaster. To locate an important and powerful book of lost magic wisdom and rescue Simon's missing wife, who has the power to save him, Jinx treks through the magical woodlands, studded with trolls, werewolves, and other menacing creatures, to enroll as a would-be scholar in the hostile country of Samara. Meanwhile, land-grabbing Keyland lumberjacks threaten the trees of the Urwald, who Jinx alone can hear, and his allegiances with his friends Reven and Elfwyn are tested when they are at odds with the desires of the Urwald. Blackwood's invented languages are seamlessly believable, and the compelling moral questions facing

Jinx—how far is he willing to go to rescue the people important to him?—will snag readers. Unlike many second volumes in fantasy series, this one delivers all the grace and spark of *Jinx* (2013) while still allowing the characters to gain depth and complexity and expanding on the already richly dynamic world. This series deserves a permanent place in the children's fantasy pantheon, with *Narnia* and *Earthsea*.

Reviews by: Horn Book As the first "listener" in a hundred years, Jinx can hear the thoughts of the Urwald's trees (*Jinx*, rev. 5/13), so he knows how upset they are that Keylanders are slaughtering acres of them on the Urwald/Keyland border. Jinx tries to rally his companions Elfwyn and Reven to his cause, but after he angrily turns a lumberjack into a sapling, they start to fear him, and he returns to the woods alone. There Jinx finds that his nemesis the Bonemaster has escaped his bonds and wiped out a settlement, and that the destruction is being blamed on Jinx. Blackwood has created several distinct types of magic which, as Jinx explores and reinvents them for his own use, form a puzzle that drives the action forward. The plot is a little convoluted, wrapping up loose ends from the first volume and setting up elements for the next before finally establishing its own internal tension, but the unique setting, smart pace, likable characters, and sprightly voice hold the narrative together while keeping Jinx's fans eager for more. *anita l. burkam*

Reviews by: Kirkus Reviews It's hard not to like a fantasy that is set in an argumentative magical forest, but Blackwood squanders the promise of her debut (*Jinx*, 2013) with a sequel that just spins its wheels. Though he's repeatedly assured that he doesn't know who he is or what he's doing, 12-year-old wizard-in-training Jinx continues to explore the nebulous extent of his burgeoning magical powers. He does this both at a school in the city of Samara, where he discovers a new style of magic, and in the Urwald, where he can draw huge amounts of raw power from the trees—but his ability to hear and speak to them is a mixed blessing. Meanwhile, his crabby mentor, Simon Magus, is recaptured by the Bonemaster, an affable archnemesis who has also taken to exterminating the Urwald's scattered human communities, and Simon's scholarly wife, Sophie, has been imprisoned. Further complicating matters, Reven (aka Prince Raymond) has given the whole forest fantods by promoting a profitable lumbering operation on the way to reclaiming his throne. Blackwood drops hints of a larger conflict looming and continues to throw her protagonist into dangerous situations. At odds with this are tongue-in-cheek plot elements, such as Jinx's ability to see thoughts as pink puffy clouds or other shapes, cryptic remarks delivered at odd moments by elves and an oddly rational werewolf. Typical of middle volumes: much backing and forthing to not enough purpose. (Fantasy. 10-12)

Reviews by: School Library Journal Gr 4-8-The middle book of a trilogy must be the hardest to write: the thrill of the first book's creation of setting and characters is over and the satisfaction of tying every loose end together is yet to come. In this sequel to *Jinx* (HarperCollins, 2013), Blackwood succeeds in keeping readers' interests piqued without completely frustrating them. Jinx travels beyond the borders of his beloved Urwald and learns that it must be saved from the greedy depredations of invading foreigners from Keyland. He insinuates himself into the school at the Temple in Samara so he can explore the history of magic. As Blackwood extends Jinx's experiences to other lands, she adds layers of complexity that hint at future developments. Jinx's magical powers are strengthening, but he doesn't fully understand their source or their extent. He's still finding out how to use his gifts. The result of these uncertainties is that readers are left feeling as unsettled and unbalanced as he is. The next installment can't come along soon enough.—Miriam Lang Budin, Chappaqua Library, NY (c) Copyright 2013. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc. Joey and Johnny, the Ninjas (Trade)

#1898573 (Vol. 01) Get Mooned (Hardcover (Trade))

Quantity	Unit Price
1	\$12.99

Joey and Johnny are best friends, but they could not be more different. Joey follows all the rules. Johnny doesn't know what rules are. Joey is strategic. Johnny leaves everything up to chance. Joey is serious. Johnny is . . . well, he carries a clown hammer and wears a dooly-bopper on his head. But there is something these two boys have in common: They are ninjas. And they're both students at Kick Foot Academy, the premier ninja school in Lemming Falls.
978-0-06-229933-8 ©2015 320 pgs.
Grades 3 - 7 Dewey# Fic

Reviews by: School Library Journal Gr 3-5-Joey and Johnny are real ninjas. They attend the prestigious Kickfoot Academy, run by Headmaster FangSwan. Joey is the smarter of the two, while Johnny is the goofy one who always gets into trouble. The awesomeness of their school is challenged when Red Moon Clan starts using non-ninja, super weapons. The world building is imaginative; especially the visual of the student's sleeping arrangements. They must scale a cliff to get to their two-person tent. At lunchtime, they must catch their food as it flies through the air at super speeds. There are many characters to keep track of amidst the action, so careful reading is required. Full of juvenile humor, fans of super goofy series such as "Captain Underpants" will enjoy this silly adventure, especially if they are looking for a more challenging read. Copyright 2015. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

Johnny Cannon (Trade)

#1779110 (Vol. 01) Troubles of Johnny Cannon (Hardcover (Trade))

written by Isaiah Campbell

Johnny Cannon's got problems. Money is scarce. Martha Macker, the girl he likes, barely knows he's alive. His best friend Willie is pretty great, but he also happens to be a black kid-which is not exactly acceptable in Cullman, Alabama. His big brother Tommy went to war and vanished. His Pa may be committing treason in their backyard. And just when it seems like things couldn't get worse, an old family friend-or maybe enemy-appears and shakes everything up.

Quantity 1 Unit Price \$16.99

Reviews by: School Library Journal Gr 6 Up-Only in sixth grade, Johnny Cannon has seemed to get himself into a mess of trouble. After surviving a car accident which caused his mother's death, Johnny lives with his Pa, an injured war veteran, and his older brother, Tommy, a well-known pilot. Johnny is left as man of the house after his brother leaves for a secret mission in Nicaragua. Johnny's job gets harder as an oldfamily "friend" shows up. Adding to Johnny's troubles: Martha Macker, theagirl of his dreams, doesn't know he exists; his Pa might be committing treason in the backyard; and his house is getting foreclosed by the bank. Johnny's one good friend has troubles of his own: he is black-which is a tough in 1960s Cullman, Alabama. A significant amount of historical events-including the Cuban missile crisis and race riots-are balanced by Johnny's back-country, boyish point of view. A good choice for fans of historical fiction.-Brittney Kosev, Dave Blair Elementary School, Farmers Branch, TX (c) Copyright 2012. Jolly Fish Press: Cole Champion: STEM Superhero (Trade)

#2275910 (Vol. 01) Cole Champion Is Not Super (Library Binding)

written by Rebecca J. Allen

Hi, I'm Cole Champion, and oh-so-very lucky (as my mom's constantly reminding me) to attend the prestigious Honor, Endurance, Resolve, Optimism Junior High. My mom's the principal of HERO Junior High, which is why I'm stuck going there- and sticking out like a sore thumb. How am I supposed to keep up when my classmates can lift cars, become invisible, or break the sound barrier? At least I can excel in science class, where my love of STEM- that's Science, Technology, Engineering, and Math- comes in handy. But science class takes a turn for the worse when the antics of my super-strong classmate put the school in danger. And it seems none of the other students' powers can help. That's where I come in!

Grades 3 - 6 Dewey# Fic Lexile 800

Quantity 1 Unit Price \$16.99

Reviews by: School Library Journal Gr 3-6--Cole Champion, who is white, is supposed to feel lucky to attend Honor, Endurance, Restore, Optimism (HERO) Junior High, where his mother is principal. But Cole, an average student with a love of science, can't help feeling out of place alongside his extraordinary classmates, who have powers like invisibility and super strength. However, when an incident at school is beyond the scope of superpowers, Cole finds his moment to shine. This book is a brisk, accessible text, and Huddleston's artwork adds visual appeal for readers who enjoy multimodal texts and illustrated novels. The first-person narration is inviting, and Cole is a very human character with uncertainties and reflections about the world around him who tween readers will likely find relatable. There is an adventure/action-oriented sensibility that adds another layer of engagement, and the theme of finding the hero within is authentic. VERDICT A heroic series debut with a STEM focus that young readers can connect with. Recommended for comic fans, and for libraries as a solid option for open choice reading time.--Jason DeHart Copyright 2022 School Library Journal, LLC Used with permission.

#2275912 (Vol. 02) Cole Champion Takes On the Villains (Library Binding)

written by Rebecca J. Allen

Hi, I'm Cole Champion, and I'm finally finding my place at HERO Junior High. But now the villains have arrived. Every two years, my school's heroes-in-training test their powers against the villains-in-training from WICKED Junior High. It's bad enough that I have to keep my lack of powers a secret. But some of the villains-in-

Quantity 1 Unit Price \$16.99

training are acting suspicious, and it doesn't seem like they're here to play fair. To figure out what's going on, I'll need the help of my new friends. But as amazing as super-strong Boulder and plant-powered Thorn are, their powers are still limited. At least they're used to working as a team . . . right?

Reviews by: Booklist Jet off to Paris and the peculiar world of Jules Verne fanatics in this fun middle-grade adventure set against the backdrop of a summer class dedicated to the famous sf writer. Owen, an American kid, is spending the summer in Paris, but after a very old book falls on his head, he and his friends Nas and Rose get sucked into solving the mystery of a prophesy left by Verne himself and finding what treasure he left for future readers. The plot engagingly explores some Parisian landmarks and draws the readers into Verne's world. Owen's American antics are perfectly juxtaposed with those of his friends, who offer their own lived experiences as resident Rich Kid and a Libyan living in France. Full of larger-than-life twists (including a kidnapped parent, evil schemes, and police chases) this novel perfectly pairs real-life city adventures with a literary puzzle for the ages. Fans of puzzle games, fast-paced adventures with short chapters, and movies like Uncharted will devour this book.

Reviews by: Publishers Weekly In this quick-moving adventure from collaborators Schwarz and Palmer (Romeo, Juliet & Jim), a rare text sparks a treasure hunt for an American middle schooler in Paris. Visiting the City of Light for the summer with his physics professor mother, Owen Godfrey, who has asthma and cues as white, is roped into attending a seminar on Jules Verne. When an unknown tween steals his copy of Twenty Thousand Leagues Under the Sea just before a test, he searches for a replacement in a nearby bookstore. The massive old book he buys, La Prophetie de Jules Verne, doesn't have what he needs, but it turns out to be a clue-riddled quest offering "keys to adventure, wonder, and possibly treasure." Owen and his new friends; privileged French classmate Rose Bordage and fellow skateboarder and would-be DJ Nas Shirvani, a French scholarship student of Libyan descent; must decipher clues and undergo challenges to discover long-hidden secrets, and stay one step ahead of the ruthless people determined to claim Verne's legacy for themselves. Highlighting Verne's classic stories alongside Paris's history and iconic locations, the creators give the three friends ample chemistry as they race around the city by various thrilling means, bonding over their escapades in this energetic thriller. Final art not seen by PW. Ages 10: 14. Agent (for Schwarz and Palmer): Fonda Snyder, Alchemy Ink. (June)

Kane Chronicles (Trade)

#1604073 (Vol. 01) Red Pyramid (Hardcover (Trade))

written by Rick Riordan

Siblings Carter and Sadie join their father in a research project at the British Museum and soon discover that an evil Egyptian god has been unleashed on them, banishing their father into oblivion.

978-1-4231-1338-6 ©2010 5-1/2 x 8-1/4 288 pgs.

Grades 4 - 6 Dewey# Fic AR Lvl 4.5 AR Pts 18.0 RC Lvl 3.7 GR Lvl Y Lexile 650

Reviews by: Kirkus Reviews The gods sure are busy in New York City. Manhattan was the site of the climactic battle of the Percy Jackson and the Olympians series. Now, Brooklyn is the base for Riordan's new series involving Egyptian gods. Similar story, different gods. In fact, fans of The Lightning Thief and its sequels will find themselves put through familiar paces here-short chapters with catchy titles, cheeky characters, a lightning-paced plot, humorous banter between characters, gods with mysterious connections to their human counterparts, young protagonists with powers not yet realized and a world in grave danger unless the humans get involved. Here, it's 14-year-old Carter Kane and his 12-year-old sister Sadie, African-American siblings, who must battle the gathering forces of chaos. Lacking the more leisurely development of characters and settings of The Lightning Thief, this tale explodes into action from chapter one, when Dr. Kane, at the British Museum, unleashes mysterious forces that Carter and Sadie must stop. Readers pining for Percy Jackson will find new heroes in Carter and Sadie Kane, and that's not all bad, even if the plot will seem familiar. (Fantasy. 10 & up)

Reviews by: New York Times Book Review Riordan fans young and old will eat this new book up. The Red Pyramid is in almost every way an improvement over its predecessors, deeper and more emotionally resonant, and with an underlying moral and philosophical semi-seriousness...None of which takes away from the thrills...The Red Pyramid is wholly satisfying while also setting the table for what promises to be a rip-roaring saga...

Reviews by: Publishers Weekly This fun, if formulaic, start to the Kane Chronicles series opens with a signature Riordan move: an explosion. Siblings Carter and Sadie have been living apart since their mother's mysterious death. On Christmas Eve, archeologist Julius Kane and son Carter, 14, show up in England for one of their two days a year with Sadie. Julius ushers his children to the British Museum, where he blows up the Rosetta Stone, unleashing five Egyptian gods and causing his own disappearance. The kids' Uncle Amos whisks them to a Brooklyn mansion, where he reveals that the Kanes descend from powerful Egyptian magicians. Swap Egyptian mythology for Percy Jackson's Greek gods and

you've got the best part of this—an ancient history lesson seamlessly unfurled in a rip-roaring adventure. Told in alternating chapters by Carter and Sadie, the novel begins with a warning that the book is a "transcript of a digital recording," a distracting gimmick, and the attempts to make Sadie sound English by dropping in British slang are intermittent. Despite those flaws, Riordan delivers another funny yarn with kids in the lead and animal sidekicks that nearly steal the show. Ages 9-12. (May)

Reviews by: School Library Journal Gr 4-9-Riordan takes the elements that made the "Percy Jackson" books (Hyperion) so popular and ratchets them up a notch. Carter, 14, and Sadie, 12, have grown up apart. He has traveled all over the world with his Egyptologist father, Dr. Julius Kane, while Sadie has lived in London with her grandparents. Their mother passed away under mysterious circumstances, so when their father arrives in London and wants to take them both on a private tour of the British Museum, all is not necessarily what it seems. The evening ends with the apparent destruction of the Rosetta Stone, the disappearance of Dr. Kane, and the kidnapping of Carter and Sadie. More insidiously, it leads to the release of five Egyptian gods, including Set, who is their mortal enemy. Carter and Sadie discover the secrets of their family heritage and their ability to work magic as they realize that their task will be to save humanity from Set, who is building a destructive red pyramid inside Camelback Mountain in Phoenix. The text is presented as the transcript of an audio recording done by both children. Riordan creates two distinct and realistic voices for the siblings. He has a winning formula, but this book goes beyond the formulaic to present a truly original take on Egyptian mythology. His trademark humor is here in abundance, and there are numerous passages that will cause readers to double over with laughter. The humor never takes away from the story or from the overall tone. A must-have book, and in multiple copies.-Tim Wadham, St. Louis County Library, MO (c) Copyright 2010. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

Reviews by: Washington Post The pace never flags as the narrative cuts between cautious Carter and intrepid Sadie. Riordan knows what kids like and delivers it well...

#1639975 (Vol. 02) Throne Of Fire (Hardcover (Trade))

written by Rick Riordan

In this exciting second installment of the three-book series, Carter and Sadie, offspring of the brilliant Egyptologist Dr. Julius Kane, embark on a worldwide search for the Book of Ra, but the House of Life and the gods of chaos are determined to stop them.

Reviews by: Children's Literature Sadie and Carter Kane return in this second installment of "The Kane Chronicles" in all their wise-cracking, teen angsting, magical glory. The world is going to end in less than five days—at the Spring Equinox—unless they can (1) find all three parts of the book of Ra, (2) find the sun god Ra himself and wake him up, and (3) bring the gods and magicians of the world together to defeat the return of Apophis, the god of Chaos. All pretty typical stuff for the Kane family, we are reminded, who have nascent magical powers due to their Egyptian pharaoh ancestry. Enemies become allies, and they are all needed as Egyptian gods, evil magicians, demons and monsters are swarming to stop Carter and Sadie from succeeding in this fast-paced adventure. The story is told alternately from Sadie and Carter's point of view—ostensibly relayed to the book's author via an audiotape that he has transcribed. They strike just the right tone for siblings who have been raised largely apart but are now each other's only living family. Sadie and Carter's worries about boyfriends and girlfriends take on a bit of humor when said beings are not ordinary humans. This should appeal to both genders and may even spark interest in learning more about Egyptian history and mythology. Text is followed by a glossary of hieroglyphs, some Egyptian terms, and a list of the gods encountered. Reviewer: Paula McMillen, Ph.D.

Reviews by: Publishers Weekly The amazing performances of Kevin R. Free and Katherine Kellgren make this YA fantasy—the second volume in Riordan's The Kane Chronicles—enthraling for listeners of any age. Descendants of the House of Life, Carter and Sadie Kane are teenage magicians responsible for preventing Egyptian gods from interfering with mortals. And this time around, the brother-and-sister team face off against the chaos snake Apophis—something that's bound to interfere with Sadie's 13th birthday party. But even being chased through the streets of London by monstrous gods doesn't slow down Sadie. Meanwhile, Carter continues to train a troupe of young magicians to battle the forces of evil. Free deftly handles Carter's narration; he sounds exactly like a 14-year-old boy, while voicing dozens of other characters. Kellgren's narration is no less impressive, and her interpretation of a budding teen girl is exuberant and believable, as are the multitude of other colorful characters she creates. Between these two spirited performances, the characters come to life and leave listeners breathless. A Hyperion hardcover. (May)

Reviews by: School Library Journal Gr 5–8—Elaborating on the ominous revelation that caps The Red Pyramid (Hyperion, 2010), this planned trilogy's middle episode sends dual narrators Carter and Sadie Kane from their newly established school for sorcerers in Brooklyn to the underworld realm of the Duat, leaving massive trails of destruction on their way to a first face-off with Apophis, snake god of Chaos. Given just five days to find the retired god Ra—god of order, or ma'at—before Apophis escapes millennia of confinement and destroys the universe, the squabbling sibs also have their own growing magical abilities to explore; hostile factions of both human wizards and Egyptian gods to battle; monsters to face; temptations to overcome; infatuations to work through; rescues to make; and, of course, plenty of digs, wisecracks, fashion notes, and teen chatter to deliver. Fortunately they have some sturdy allies—notably Bes, the god of little people and memorable for more than just his Speedo with "Dwarf Pride" written on the butt that is his battle costume. Despite helpful lists of Egyptian deities and terms at the back, readers

unfamiliar with the opener may have trouble at the beginning keeping up with both the continuing plotlines and the teeming cast, but Riordan kickstarts the action, never lets up on the gas, balances laughs and losses with a sure hand, and expertly sets up the coming climactic struggle without (thankfully) ending on a cliff-hanger. It's a grand ride so far, showing nary a sign of slowing down.—John Peters, formerly at New York Public Library

Reviews by: Voice of Youth Advocates (VOYA) nicles picks up three months after *The Red Pyramid*, Book 1 (Hyperion, 2010) ends. The siblings and their associates attempt to break into a museum to locate the first part of the Book of Ra. Unfortunately, the museum and the scroll are both heavily protected by curses, magical guards, and a high-tech alarm system. They cause massive damage to the museum and just barely escape with their lives, but they obtain the first piece of the Book of Ra. They need to find and recover the other two pieces within four days. Carter and Sadie will use the Book of Ra to awaken the long-retired Egyptian god Ra in hopes that he can save the world from the chaos threatening to overtake it. The gods and magicians start taking sides, and Ra could be the world's only hope. Once again, the action follows audiorecorded events from Carter and Sadie. They speak directly to the readers and at times each other. Carter and Sadie face difficult choices and must overcome impossible odds to achieve their goal. Danger follows them, and they escape near-death scenarios, creating a fast-paced, exciting read. Sadie and Carter share their adventure with sarcasm, wit, humor, and courage. *Throne of Fire* is a breathless, action-packed tale that will leave readers clamoring for the next chapter. Quantity	Unit Price
1	\$19.99

Reviews by: Booklist Grades 5-8. Armageddon looms as teen magicians Carter and Sadie Kane work feverishly to foil the evil machinations of the Chaos snake, Apophis, and, ultimately, to destroy him. These modern-day siblings have a lot going for them in the struggle, from gifted fellow magicians to the Egyptian gods themselves, but between frequent attacks from an assortment of enemies and the realization that their stalwart friend, Walt, is dying, the outcome of the conflict often looks bleak. While the final battle rages, each of the main characters merges with one of the gods in hopes that their magnified powers will enable them to prevail. This epic battle and the quiet concluding chapters glow, alternating heroism and humanity, with any trace of bombast erased by the wry wit of the alternating narrators, Sadie and Carter. As in *The Red Pyramid* (2010) and *The Throne of Fire* (2011), the cast of characters here is confusingly large and the backstory sometimes seems tucked into the spaces between the battles. But powered by Riordan's talent for creating vividly written action scenes and his ability to keep a complicated story moving, this volume brings the Kane Chronicles series to a rousing conclusion.

Reviews by: Horn Book Joined by the Egyptian gods who helped them in previous books (*The Red Pyramid*, rev. 7/10; *The Throne of Fire*, rev. 9/11) as well as their fellow teen magicians Zia and Walt, Sadie and Carter Kane face the culmination of peril in this third volume in the Kane Chronicles. Apophis, the Serpent of Chaos, is attempting to achieve his legendary goal of swallowing the Sun God, Ra, and destroying all creation. If Sadie and Carter can collect the knowledge and tools they need from journeys to ancient sites in Egypt and the Duat, the Egyptian underworld, they might be able to perform a spell of banishment on him -- but they could just as easily burn themselves out in a spell of such power. As they solve puzzles and fight demons, the siblings grow in confidence and ability. Their wry asides and comedic takes on their predicament keep them accessible to their adventure-loving audience, many of whom will enjoy the romantic byplay between Carter and Zia and between Sadie and Walt. Although little is new in this iteration of Riordan's universe, the climax soundly delivers, and the denouement hints at possible future overlap with foreign gods. Paging Percy Jackson? anita l. burkam

Reviews by: Kirkus Reviews Riordan's Kane Chronicles trilogy concludes with a smash, as Carter and Sadie Kane once again try to save the world from the forces of Chaos. The giant Chaos snake Apophis and his rebel magician allies are on the rise. Luckily, Carter and Sadie Kane are back, ready to fight Apophis and restore Ma'at, the order of the universe. The ghost of an ancient psychotic magician offers help: Find the shadow of Apophis, capture it and use it for an execration spell that will pop the evil god so far into the Duat--the magical realm that coexists with our world--that he will never return. As in the previous volumes--*The Red Pyramid* (2010) and *The Throne of Fire* (2011)--the tale is told in the alternating and still-fresh voices of Sadie and Carter. Beyond the explosive action and fireworks, Riordan deftly develops the theme of the duality of the universe--order versus chaos, living a normal life versus risking the extraordinary, being protected by parents versus growing up and stepping out of their shadows. A rousing adventure with plenty of magic and food for thought. Other gods and future stories are hinted at in the conclusion; in the meantime, Riordan's *The Kane Chronicles Survival Guide* is available to maintain the spell. (glossary, list of gods and goddesses) (Fantasy. 10-14)

Reviews by: From the Publisher In A Most Improper Magick, a twelve-year-old girl with magical powers finds adventure and romance in Regency England.

Reviews by: School Library Journal Gr 6-9-Resentful of her stepmother, her secretive older sisters, and the whole code of ladylike conduct in early-19th-century England, 12-year-old Kat Stephenson takes action. She chops off her hair, learns to use her mother's magical mirror, and fends off both well-meaning and threatening adults. Posing as a highwayman, she captures husbands for her sisters. There is more than a little wish-fulfillment here as the ignored younger sister-constantly criticized for her curiosity and impulsive behavior-discovers her exalted status while providing for her less-adept older siblings. The Regency world is drawn in broad strokes, and some secondary characters are more caricature than convincing, but the sisters-clearly close to the 21st century in their basic outlooks, even if Elissa, the eldest, fancies herself a Gothic heroine-are appealing and their relationship is believable. Regency romance and fantasy adventure all in one, this is a satisfying read and a promising beginning to a trilogy that is sure to be popular with middle school girls.-Kathleen Isaacs, Children's Literature Specialist, Pasadena, MD (c) Copyright 2010. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

#1715653 (Vol. 03) Stolen Magic (Hardcover (Trade))

written by Stephanie Burgis

Kat is tasked with saving her family, the Order of the Guardians, and England itself. With just days to go before her sister Angeline's long-delayed wedding to Frederick Carlyle, the impetuous Kat Stephenson has resigned herself to good behavior. But Kat's initiation into the magical Order of the Guardians is fast approaching, and trouble seems to follow her everywhere.

Reviews by: Booklist Impetuous teen Kat Stephenson is resigned to being on her best behavior as her sister Angeline's long-delayed wedding to wealthy Frederick Carlyle approaches. But Frederick's mother is intent on humiliating Angeline, there's a mysterious and somehow familiar marquise among the wedding guests, and someone has stolen all the portals used by Kat and her fellow Guardians of the Order. Clearly, it's time to forget Regency England manners and break out her magic powers to put things right. Part Jane Austen, part Harry Potter, and with a healthy dash of Tamora Pierce, Burgis' the Unladylike Adventures of Kat Stephenson series is good, clean fun for tweens and younger teens.--Carton, Debbie Copyright 2010 Booklist

Grades 3 - 6 Dewey# Fic AR Lvl 4.4 AR Pts 3.0

Reviews by: Booklist Grades 3-7 Fifth-grader Kate absolutely loves chemistry! But chemistry can't help her figure out what to do with her friends over fall break. When one of her best friends announces that the Drama Club is putting on a musical called *Dragons Vs. Unicorns* and they need an assistant director, Kate is intrigued. To her surprise, she lands the job! Unfortunately for her, someone is out to sabotage her best efforts at doing a great job. Can Kate use her chemistry knowledge to find out who is playing tricks on her and trying to sabotage the show? And, most important, can chemistry help her figure out how to get those unicorn horns to stick and her dragon cast to breathe fire? This is a fun read that weaves science concepts throughout the story. Kids will enjoy reading about Kate's antics and will love trying out the chemistry project included at the end of the story. (Reprinted with permission of Booklist, copyright 2020, American Library Association.)

Reviews by: Kirkus Reviews A fifth grade girl brings her love of chemistry to the school play. Kate loves science so much she's determined to breathe fire. Of course she knows that she needs adult supervision, and so, with her science teacher's help, Kate demonstrates an experiment with cornstarch and a blowtorch that nearly sets her teacher's cactus on fire. Consequences ensue. Can someone who loves science as much as Kate does find pleasure spending her fall break at drama camp? It turns out that even the school play--*Dragons vs. Unicorns*--needs a chemist, though, and Kate saves the day with glue and glitter. She's sabotaged along the way, but everything is fine after Kate and her frenemy agree to communicate better (an underwhelming response to escalating bullying). Doodles decorate the pages; steps for the one experiment described that can be done at home--making glittery unicorn-horn glue--are included. The most exciting experiments depicted, though, include flames or liquid nitrogen and could only be done with the help of a friendly science teacher. Biberdorf teaches chemistry at the University of Texas and also performs science-education programs as "Kate the Chemist"; in addition to giving her protagonist her name and enthusiasm, she also seems represented in Kate-the-character's love of the fictional YouTube personality "Dr. Caroline." Kate and her nemesis are white; Kate's best friends are black and South Asian. A fun-if-flimsy vehicle for science lovers. (Fiction. 8-10) COPYRIGHT(2020) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 2-5—Kate lives and breathes science and chemistry—literally! After a successful attempt to breathe fire during her after-school chemistry club session, Kate thinks a science camp would be just the ticket to enjoying her fall break. Instead, her friends and her principal mom encourage her to join the drama camp, where Kate snags the coveted assistant director position. After a few disasters, including a glue mishap, Kate realizes someone is trying to sabotage her. Using hypotheses and scientific methods, Kate is on the case to uncover the saboteur before the opening night play becomes a failure. What she ultimately discovers, however, is something much more important and timely. VERDICT This title, which features playfully worded definitions sprinkled throughout, proves that science and fun go together like molecules in a polymer. A delightful addition to early middle grade collections.—Amanda C. Buschmann, Carroll Elementary School, Houston

Reviews by: School Library Journal Gr 2-5—The fourth adventure in the "Kate the Chemist" series follows the titular hero as she navigates chemistry experiments, rocket launches, school drama, and more. Kate befriends a new member of the science club, Tala, and the two bond over a shared passion for science. But their burgeoning friendship causes Birdie, Kate's art-loving best friend, to feel isolated. She immediately distances herself from the pair, much to Kate's confusion and dismay. Meanwhile, the science club plans a rocket launch, an experiment suggested by Tala. There is one major problem: The launch falls on the exact same day and time as Kate's younger brother's birthday party. Through clever thinking and no shortage of STEM, Kate works out a way to attend both events, mend friendships, create new ones, and support her brother. Kate and her family are white, Tala and her family are Filipino, and their classmates are racially diverse. Instructions for a double balloon rocket experiment, including materials, protocol, and an explanation of the science behind the experiment, follow the story. VERDICT With numerous scientific concepts and terms scattered throughout, this pleasant title will appeal to fans of other STEM-infused series like Emily Calandrelli's "Ada Lace" and Asia Citro's "Zoey and Sassafras." An additional purchase for middle grade collections.—Olivia Gorecke, Cape May Cty. Lib., Ocean View, NJ

Reviews by: Horn Book Guide Sophie continues to learn about her elven heritage and powers (including some disturbing ones) while struggling to clarify her connection to the rebel group Black Swan, which may have created her. Despite this installment's excessive length and inconsistent focus, Sophie's coming into her own as an unwitting "chosen one" is a compelling arc, set against a well-developed backdrop of social conflict. (Copyright 2014 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews Full-blown middle-volume-itis leaves this continuation of the tale of a teenage elf who has been genetically modified for so-far undisclosed purposes dead in the water. As the page count burgeons, significant plot developments slow to a trickle. Thirteen-year-old Sophie manifests yet more magical powers while going head-to-head with hostile members of the Lost Cities Council and her own adoptive elvin father, Grady, over whether the clandestine Black Swan cabal, her apparent creators and (in the previous episode) kidnappers, are allies or enemies. Messenger tries to lighten the tone by dressing Sophie and her classmates at the Hogwarts-ian Foxfire Academy as mastodons for a silly opening ceremony and by having her care for an alicorn--a winged unicorn so magnificent that even its poop sparkles. It's not enough; two sad memorial services, a trip to a dreary underground prison, a rash of adult characters succumbing to mental breakdowns and a frequently weepy protagonist who is increasingly shunned as "the girl who was taken" give the tale a soggy texture. Also, despite several cryptic clues and a late attack by hooded figures, neither the identity nor the agenda of the Black Swan comes closer to being revealed. However tried and true, the Harry Potter-esque elements and set pieces don't keep this cumbersome coming-of-age tale afloat, much less under way. (Fantasy 10-12) COPYRIGHT(2013) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 5-8—This sequel to Keeper of the Lost Cities (S & S, 2012) continues the story of Sophie Foster, the girl who was brought up as human but who is really an elf with engineered DNA, which has conferred enormous power on her. She now lives with the

elves in Havenfield, and has been adopted by a couple whose daughter died. Sophie tries to integrate into the elf community and be a regular kid at school. Her powers of telepathy and psychic healing, however, set her firmly apart as she helps to capture and train a unique alicorn (one with wings). As the mystery of the Black Swan group and their true allegiance continues, Sophie tries to help heal the broken minds of certain elves crucial to uncovering the secret. Clearly the middle book in a series, this title works best for readers familiar with the first book. There is plenty of action, but the story of Sophie's origins, the Black Swan and their role, and the struggle to save the world of the elves does not progress significantly. This installment lacks the sense of urgency and emotional connection of the first title.-Sue Giffard, Ethical Culture Fieldston School, New York City (c) Copyright 2014. young pioneers who travel to the distant planet Kepler62. In this story, the lush, green planet that they land on is more suitable for life than anyone could have imagined. It's like a paradise compared to the barren earth they left behind. Once the children start building their base camp they find traces of other forms of life. Will they be friendly or hostile?

Keynan Masters (Trade)

#2349627 (Vol. 01) Peerless Magic Crew (Hardcover (Trade))
written by DaVaun Sanders

Keynan Masters doesn't know the truth about Peerless Academy. He thinks it's just a fancy art school that can't teach him anything he doesn't already know (how to write fire poems) and won't solve his problems (the massive storms that threaten his home and family).

Reviews by: Booklist The arts make more than their usual kind of magic in this dystopian fantasy. Reluctantly leaving his loving parents and tight-knit community for Peerless Academy, an exclusive boarding school, Keynan finds that all is not as it seems as halls weirdly change shape, power failures and lockdowns are frequent, and the teachers are irritable and secretive. He's amazed to learn that a wizard's war long ago left his world a quilt of altered realities, with the academy engaged in a quixotic effort to knit everything back together. The key to magic working lies in using art, music, poetry, and dance together, and it is Keynan's genuinely hard-fought, sometimes disastrous efforts to hone his lackluster hip-hop lyrics, with help from a newly met team of variously gifted classmates, that drive this tumultuous tale. Readers will cheer him along his artistic journey, which reaches a climactic breakthrough courtesy of a frenemy's unexpected talent for beatboxing. But Sanders saves a devastating twist for the end that punctures his budding freestyler's triumph and absolutely demands at least one sequel.

Reviews by: Publishers Weekly Sanders offers an energetic fantasy adventure teeming with memorable characters and mysteries in this thought-provoking debut. Nobody knows why mercurial and devastating storms have been plaguing Earth, prompting anxiety across the globe. And while 12-year-old Keynan Masters would rather focus on perfecting his rhymes and communing with his neighbors, he's also preoccupied with soothing his mother's fears about the weather. When Keynan is accepted into the Peerless Academy, a prestigious school for the arts, he's reluctant to leave home, and only agrees to attend after learning that the school's elite science programs might determine how to eliminate the storms. But nothing about Peerless is as Keynan expects; underneath the inexplicably boring classes hide unusual and fantastical secrets involving covert passageways, reality rifts, and an ancient, corrupt magic that only he and his classmates can contain. Using his newfound powers, which he conjures through his rhymes, Keynan is determined to uncover the truth behind Peerless and the storms. Occasionally ambiguous worldbuilding sometimes causes confusion; nevertheless, Keynan's talent for spoken-word performance proffers strong messaging about the power of the arts, making for an ambitious, postapocalyptic-feeling tale. Most characters read as Black. Ages 8: 12. Agent: Mary C. Moore, Kimberly Cameron & Assoc. (Oct.)

Reviews by: School Library Journal Gr 4-6-The Kentville Kangaroos, a California middle-school soccer team, return. Devin is a cross-county transplant, but as a serious student and zealous cocaptain, she aims to lead her team to victory through drills, hard work, and extra practice. The Kicks find themselves unexpectedly within reach of the playoffs. Then minor troubles crop up, and they can't help but suspect sabotage. Through her nightly video texting with her Connecticut buddy, readers follow Devin's interactions with boys, soccer, a little sister, and other distractions like an exploding soccer ball, damaged team materials, and scheduling mix-ups. Devin's narration sounds artificial, but overall this book is a good choice for girls looking for mysteries or stories about sports or friendship.-Glynis Jean Wray, Ocean County Library, Toms River, NJ (c) Copyright 2013. Reviews by: School Library Journal Gr 4-6-This formulaic story follows 12-year-old Devin, who has just left her friends and soccer team behind, moving cross country with her family. There is a lot of expected angst in the beginning of the story. Will she like her new school? Make new friends? And since California is known for producing superstar soccer players, will she even make the team? While quickly learning the ropes at her new school and instantly making friends-and perhaps even gaining a boyfriend-the plot twist is revealed: Devin's new soccer team isn't great at all-in fact, it is downright bad. Throw in a bossy/bully older teammate as cocaptain against Devin, and the rest of the blanks will be easily filled in by most readers. Despite its predictability, the novel conveys some solid messages about teamwork and assertiveness. Purchase where there is a demand for sports stories with strong female role models.-Lisa Kropp, Suffolk Cooperative Library System, Bellport, NY (c) Copyright 2013. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

Reviews by: Publishers Weekly rade adventure, a kid without superpowers nevertheless discovers his true calling when he's accidentally enrolled in a secret school for superhumans. Eleven-year-old Murph Cooper doesn't have high hopes for the school, his fifth one in as many years thanks to is mother's many work-related moves. It doesn't help when he's the only normal human in a place where people can fly, control weather, move at s per-speed, and summon tiny horses (not every power, or Capability;"Cape" for short;is a winner). Murph unexpectedly makes friends with some of the school's other misfits, which comes in handy when a bizarre villain attacks the school and captures everyone else. Now only Murph a nd his friends can save the day. This lighthearted caper from BBC radio stars James and Smith is packed with dry wit, snarky narrative asides, and an unabashed eschewing of subtlety (the school's headmaster, a former superhero, is Mr. Souperman). Salcedo's playfully frenetic illustrations complement James and Smith's silly adventure and its good-natured sense of wonder. Ages 8--12. (June)

Grades 4 - 6 Dewey# Fic AR Lvl 6.1 AR Pts 10.0	1	\$13.99

Reviews by: Booklist Murph Cooper, aka Kid Normal, leads his tight, if motley, squad of young superheroes into a second serial escapade (Kid Normal, 2018), facing off against archvillain Magpie, whose Capability, or Cape, is the power to steal the Capes of other supers. Being the newest and youngest members of the worldwide Heroes' Alliance, Murph and the Super Zeroes struggle for acceptance in the Caped community, but when Magpie escapes after 30 years of imprisonment, it is their trust in and reliance on teamwork that (mostly) saves the day. With a number of other previously jailed or otherwise demented baddies at large, more sequels seem imminent, but getting there involves all sorts of daring exploits, narrow squeaks, explosions, and meetings with current and retired heroes. Alongside the action is a darling tale featuring three rapping kittens and other random diversions, outrageous puns, and lines of dialogue printed in heavier type for added drama. Salcedo adds trading-card-style profiles of the Super Zeroes and cartoon views of intrepid heroes taking on caricatured supervillains. Stay tuned.--John Peters Copyright 2019 Booklist

Kiki Kallira (Trade)

		Quantity	Unit Price
	#2233550 (Vol. 01) Kiki Kallira Breaks a Kingdom (Hardcover (Trade)) <i>written by Sangu Mandanna</i> Kiki Kallira has always been a worrier. Did she lock the front door? Is there a terrible reason her mom is late? Recently her anxiety has been getting out of control, but one thing that has always soothed her is drawing. Kiki's sketchbook is full of fanciful doodles of the rich Indian myths and legends her mother has told her over the years. One day, her sketchbook's calming effect is broken when her mythological characters	1	\$17.99

begin springing to life right out of its pages.
978-0-593-20697-3 ©2021 5-1/2 x 8-1/4 352 pgs.
Grades 4 - 7 Dewey# Fic AR Lvl 5.3 AR Pts 9.0 Lexile 780

Reviews by: Bulletin of the Center for Children's Books Eleven-year-old Kiki Kallira used to be a "sunshine girl," but these days, the only thing that calms her anxiety is drawing her own fabulous version of the Kingdom of Mysore, inspired by stories of her relatives and ancestors back in India and the myth of the goddess Chamundeshwari's battle with the demon lord Mahishasura. When her fictional heroine Ashwini pursues a demon through a rip in the sketchbook into everyday London, Ashwini explains that Mahishasura turned Kiki's obsessive fictional drawing into a real pocket universe, and only Kiki can vanquish him. Into the sketchbook they go, and soon Kiki's hanging out with a group of child resistance fighters, but vanquishing a demon lord—even if it means destroying the world she created—is every bit as scary and complicated as she could imagine. Kiki's Mysore is full of wonderful architectural details, from magnificent palaces to the caretaking Crow House, while Kiki realizes the weight of the burdens she's placed on her fictional friends and the extent to which anxiety has taken over her own life. Ashwini helps her begin to think of anxiety as an illness rather than a fundamental personal flaw, a distinction readers will appreciate, and one that enables Kiki to reclaim her agency. This opening title in British author Mandanna's first middle grade series will suit fans of Rick Riordan Presents titles, while the focus on Kiki's artistry and anxiety will appeal to readers eager for a heroine who proves that the pen (or drawing pencil) is mightier than the sword (or demon lord). FHK COPYRIGHT(2021) Bulletin of the Center for Children's Books, ALL RIGHTS RESERVED.

Reviews by: School Library Journal er in London, Kiki Kallira has grown up listening to her mother's stories of family and folklore from India. When her anxiety is overwhelming, she takes comfort in these stories and reimagines her ancestors as characters she draws in her sketchbook, which provides an escape both literal and metaphorical. Steeped in Hindu mythology, Mandanna's fast-paced modern take on a classical myth explores the legend of Mysore and the Goddess Chamundeshwari's victory over the demon king, Mahishasura. While this story is celebrated in the real city of Mysore annually during Dussehra, in Kiki's it begins when a doorway opens from her world to one she created in her sketchbook, filled with her mother's folktales with her own fresh spin. Inside the sketchbook world, it is up to Kiki to defeat the demon king before he escapes to the real one. Armed only with her pencil, she makes an unlikely hero, but one that demonstrates the power young people can wield when they trust their talents. Mandanna creates vibrant, relatable characters, including secondary figures like Ashwini and the Crows who are fleshed out enough for readers to connect. VERDICT While the myth itself may not be familiar to all readers, Mandanna has created an engaging fantastical story that will strongly appeal to readers of Rick Riordan, Roshani Chokshi, and Sayantani DasGupta.—Monisha Blair, formerly at Rutgers Univ., NJ

Reviews by: Shelf Awareness This debut middle-grade novel from Sangu Mandanna (*A Spark of White Fire*) is a vivid reimagining of an Indian legend that makes the myth's classic elements feel both enduring and modern.

#2278834 (Vol. 02) **Kiki Kallira Conquers a Curse (Hardcover (Trade))**

written by Sangu Mandanna

Fresh from the exciting discovery that the beautiful kingdom and band of rebel kids she drew in her sketchbook exists in another world, Kiki Kallira has an unexpected visitor. One of those rebel kids has come into the real world to ask for her help--the river Kaveri that is Mysore's only source of water has suddenly vanished! With no water to drink or grow food, Kiki's kingdom is doomed.

Reviews by: Kirkus Reviews In this sequel to *Kiki Kallira Breaks a Kingdom* (2021), the Kikiverse is grappling with yet another curse: Will Kiki be able to harness her magic in order to save the day a second time? Kiki is back to living her regular life in London after closing the tear in the Kikiverse when Lej suddenly appears in her bedroom saying Mysore is in trouble once again--the Kaveri River has disappeared, and everyone in Mysore will soon be wiped out if their water source is not restored. Kiki agrees to return and help out. Reunited with all her friends, she tries to harness her powers within the realm of this universe, which came to life through the art in her sketchbooks, only to realize things have changed, and her old approach will not work. Mandanna explores Kiki's mental health in more detail in this book, referencing a combination of medication and therapy to cope with anxiety. Kiki has a strong character arc in which she goes from self-doubt to fully embracing her flawed self. Kiki finds her way to understanding that the things we create never fully belong to us once we release them into the world. Readers get to see Kiki rewrite her own story and find nuanced ways of understanding how her mind works. Those unfamiliar with Kiki's story will find this novel accessible but will gain more from having read the previous book. Kiki is of South Indian and Scottish descent. Enchanting and deeply captivating. (Fantasy. 8-13) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews A boy who lives in an elite residential community at Walt Disney World's Epcot amusement park is unwittingly thrust into a real, magical battle on his 13th birthday. Eli Whitman has grown up in the Epcot CommuniTree, surrounded by amusement park magic. Unbeknownst to Eli and his friends, their parents are among the fabled Kingdom Keepers, those whose heroics protected the amusement parks from Disney villains in an eponymous prequel series. When Eli attempts to use his father's real sword in a holographic video game, he accidentally cuts a hole in the space-time continuum and is kidnapped to an alternate-reality Disney version of the real Morocco, where he encounters the descendants of Aladdin and Jafar. Jafar's grandson Carnius is a powerful sultan plotting to kill the Kingdom Keepers. The fast-paced plot diverges, sometimes confusingly, in numerous directions as it follows Eli, his pals the Kingdom Kids, and everyone's parents as all try to figure out and defeat the new evil threatening their world. A family tree of the original Kingdom Keepers and Kingdom Kids would have been helpful. Eli's mother is described as part Asian (the rest of her ancestry is unspecified); his father is White. The depictions of Morocco and the Moroccan characters are reflective of the Aladdin Disney movie universe. A slur for Roma people is casually included without comment. An overloaded story. (Fantasy. 8-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 3-7--When Eli is celebrating his 13th birthday in the CommuniTree, surrounding the Walt Disney World theme park, something odd happens. He plays a game with a hologram of Jafar, the main antagonist of Disney's 1992 animated feature film Aladdin. However, the hologram comes to life and tries to attack Eli. Thus begins an exciting story of Eli and his friends fighting against Disney villains, and a secret the children's parents have kept for years begins to emerge. For readers unfamiliar with Disney characters (especially villains), the book might not resonate. While the title holds appeal for fans of Disney and sci-fi, it is fraught with gender stereotypes and racism. A boy who dyes his hair is called "a girl," and a man with long fingernails is considered "girly." The author also describes the smell of curried popcorn as "awful," and something so disgusting that the child will not eat even if she is famished. These sentiments are not challenged within the narrative. VERDICT A Disney-infused sci-fi adventure marred by out-of-place and outdated commentary that renders the book ideologically problematic and harmful for young readers; not recommended.--Shuya Su

Reviews by: Booklist When twins Rose and Arthur were younger, they were inseparable; they played games, had inside jokes, and even had an

imaginary world they called Roar, which they reached by crawling through a folded-up mattress in their grandfather's attic while shouting, "Hear me roar!" But now the twins are 11, and Rose is more interested in playing on her phone and jumping on a trampoline with the neighborhood girls than she is in hanging out with Arthur. Roar is a distant memory. But when Grandad is suddenly sucked into Roar by Crowky, the half-crow, half-scarecrow monster that Arthur never really stopped fearing, everything he ever knew about Roar comes rushing back. His imaginary world is quite suddenly very real, and if he's going to save Grandad, he's going to have to go back. But Arthur's only ever been one half of the Masters of Roar. Mantle's whimsical black-and-white illustrations enhance this playful, Peter Pan-like tale of sibling rivalry and affection. A series starter with heart.

Reviews by: Publishers Weekly Once upon a time when twins Arthur and Rose were younger, they created a make-believe world called Roar, which they accessed through a folded cot in their grandfather's attic, and where they enjoyed adventures alongside imaginary friends such as Mitch (a mermaid-witch) and Wininja (a wizard-ninja). Then they got older. But when the twins, now 11, help their grandfather clean out his attic to make way for a "proper den," they find a map that brings back memories. And when an old imaginary foe, a wicked winged scarecrow called Crowky, kidnaps Grandad, the siblings must travel to a far more alarming Roar than they remember, reunite with childhood companions, and stop Crowky from transforming Grandad into a stuffed scarecrow and conquering all of Roar. If, that is, Arthur can convince his sister that she's not too cool for fantasy games. McLachlan (Truly Wildly Deeply) infuses a traditional portal fantasy with a whimsical logic; the twins' power of belief influences Roar's landscape, and their mundane possessions (a fidget spinner, for example) become talismans to its inhabitants; while deftly portraying two modern siblings working to mend their strained friendship. Occasional illustrations by Mantle capture the story's fantastical feel. Ages 8: 12. Author's agent: Julia Churchill, A.M. Heath. (June)

 #2008632 (Vol. 06) Worlds Collide (Hardcover (Trade)) <i>written by Chris Colfer</i> Conner and Alex must brave the impossible. All of the Land of Stories fairy tale characters--heroes and villains--are no longer confined within their world! With mayhem brewing in the Big Apple, Conner and Alex will have to win their biggest battle yet. Can the twins restore order between the human and fairy tale world? Breathtaking action mixed with laugh out loud moments and lots of heart will make this a gripping conclusion for many fans!	1	\$21.99

Reviews by: Kirkus Reviews Witches and other fictional baddies move to conquer this world when a portal opens between the Land of Stories and a branch of the New York Public Library. For the finale to his popular series, Colfer recaps the first five episodes, then brings together most of the teeming cast to wage, as the narrator admits, "an overdue battle of good versus evil." Flanked by a wish-fulfilling frame story in which Conner, one of the white twin protagonists, has grown up to become a revered writer of middle-grade fantasies, the climactic struggle begins with the portal's opening in the sumptuous Rose Reading Room. It spreads to Central Park and other locales as the then-teenager and allies fictional or otherwise (including a lot of ineffectual Marines) square off against his powerfully gifted sister, Alex, the dastardly witches who have ensorcelled her, and a Literary Army led by (among others) the head-chopping Queen of Hearts. Many set pieces ensue, from a pitched battle with gingerbread soldiers to no fewer than six individual witch-fairy duels in a row—not to mention gags and one-liners aplenty, topical references, and adolescent posturing ("Knock it off, boys," Merlin snaps at one point, "there are much bigger issues in this story"). With one exception, characters who die bleed words instead of blood, and all of the destruction in both worlds is neatly fixed at the end by an albino dragon (see Book 3: A Grimm Warning). Dorman's vignettes at the chapter heads offer glimpses of settings and characters. A busy if ultimately tidy wrap-up for fans.

#1776001 (Vol. 03) Grimm Warning (Hardcover (Trade))

written by Chris Colfer

Conner Bailey thinks his fairy-tale adventures are behind him—until he discovers a mysterious clue left by the famous Brothers Grimm. With help from his classmate Bree and the outlandish Mother Goose, Conner sets off on a mission across Europe to crack a two-hundred-year-old code. Meanwhile, Alex Bailey is training to become the next Fairy Godmother...but her attempts at granting wishes never go as planned. Will she ever be truly ready to lead the Fairy Council?

Reviews by: Booklist Grades 4-8. Twins Alex and Conner have traveled from our world into the Land of Stories before, but now other realms are available, thanks to a potion their deceased grandmother Anneliese (the Fairy Godmother) created to open portals. The potion has disastrous results when the twins' estranged uncle, Lloyd, uses it to enter fictional worlds and recruit an army of villains. With help from friends—Red, Jack, Mother Goose, and Goldilocks—Alex and Conner race against time and magic to try to stop Lloyd. This latest from Glee star Colfer takes readers beyond fairy tale kingdoms and into realms from literature: Oz, Neverland, Camelot, the Sherwood Forest, and Wonderland all appear. The pacing is fairly relentless, and readers new to the series may struggle to keep up with the large cast of characters (who are not what you might expect). Still, fans of reimagined fairy tales will be drawn to the whimsy, and Colfer's popularity ensures an audience. With a cliff-hanger ending to boot, fans may have a hard time waiting for the final installment of this series.

Reviews by: School Library Journal Gr 3–5—A novel that immerses the reader headfirst into the cold, bare landscape of the Arctic melting under the effects of climate change. Young April and her scientist father travel to Bear Island for his research. Ironically, no bears are believed to be left. That is, until April catches a glimpse of a malnourished polar bear. They form a friendship as April nurses him back to health. She discovers that he has been stranded on the island for many years and devises a plan to get him home to Svalbard before her time in the North comes to an end. Gold's debut middle grade novel is a bold, unapologetic look into the devastating effects of climate change and its impact on wildlife. Scientific facts and statistics are seamlessly integrated into the narrative, strengthening the book's urgent tone. While the themes are clear and compelling, certain plot points remain nebulous, such as how April is able to communicate so well with the bear (a gift briefly tied to her late mother) or how her father seems unconcerned with her wandering the island alone all day. These small details will likely not bother young readers, who will be eager to find out if Bear makes his way home. Sections of the book are divided by gentle black-and-white illustrations that help bring April's story to life. The author includes a helpful and informative note at the end about the real Bear Island she used as inspiration. VERDICT A fast-paced novel that will awaken or strengthen readers' concern for their environment and that has the potential to act as a powerful discussion tool in classrooms and book clubs.—Katherine Hickey, Metropolitan Lib. Syst., Oklahoma City

Last Cuentista (Trade)

#2350046 Alebrijes (Hardcover (Trade))

written by Donna Barba Higuera

(Companion) For 400 years, Earth has been a barren wasteland. The few humans that survive scrape together an existence in the cruel city of Pocatel - or go it alone in the wilderness beyond, filled with wandering spirits and wyrms. They don't last long. 13 year-old pickpocket Leandro and his sister Gabi do what they can to forge a life in Pocatel.

978-1-64614-263-7 ©2023 5-1/2 x 8-1/4 336 pgs.

Reviews by: Booklist Grades 5-8 *Starred Review* Upon a desolate Earth, an enclave of humans has established a society amid hostile surroundings, including a wyrmfield inhabited by subterranean monsters straight out of Tremors. A harsh caste system has landed orphaned 13-year-old Leandro and his little sister, Gabi, in the Pox (Pocatel's slum) with the other Cascabeles, who work the potato fields each day under the watchful eye of the Pocatelan guards. Longing for a better life, Leandro has planned an escape, but everything is ruined when he is arrested for stealing and sentenced to three years' exile. Curiously, it will only be his mind that is held captive--uploaded into a tiny piece of Old-World tech called a spark. The physician performing the procedure secretly offers Leandro a deal in which she will place his spark into a hummingbird drone if

he will search for her missing daughter, who is also in drone form. He accepts, knowing he and Gabi can leave Pocatel should he succeed. The high-stakes adventure awaiting Hummingbird Leandro is enthralling and studded with surprises that spur the narrative onward. Beautiful, imaginative writing fills this dystopian sf novel. Though it exposes cruelty and corruption, it raises up storytelling, culture, and kindness as stronger yet, giving a satisfying nod to Higuera's Newbery Award-winning *The Last Cuentista* (2021) in the process. A wondrous addition to any collection. COPYRIGHT(2023) Booklist, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews Thirteen-year-old Leandro Rivera and his 9-year-old sister, Gabi, brave the harsh reality of a segregated settlement in post-apocalyptic California. Spanish-speaking Cascabeles like Leandro are forced to work the fields to provide for elite English-speaking Pocatelans or risk exile and certain death in the desolate and dangerous monster-filled outside world. Descended from farmers who worked the land before the calamity that made everything barren, the orphaned siblings, who survive as pickpockets, face discrimination within the city's walls and are threatened with deadly punishment for even minor offenses. Leandro and Gabi hatch a plan to escape from their oppressors, live free in the wild, and return to the ways of their people. Their plans derail, however, when Leandro is banished for stealing after he covers for Gabi's impulsive theft of a strawberry. But Leandro's magical transformation leads to a breathtaking discovery that could transform the lives of everyone in Pocatel. In Leandro's hero's journey, alebrijes are brilliantly cast as animalistic machines from another era and saviors of the living. The story examines how people can build better societies from the ashes of unequal, oppressive, and corrupt ones. Softly rendered black-and-white illustrations evoke the terrors and wonders of a broken world through a child's eyes. Strong worldbuilding uses the familiar and the fantastic to prod readers to consider the story's parallels to real-world injustices and the ethics of power, storytelling, and greed. This heartfelt adventure signals hope for humanity, even in the aftermath of darkness. (map) (Dystopian. 10-14) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly An orphaned pickpocket must inhabit the body of a hummingbird drone in Newbery Medalist Higuera's deeply humane postapocalyptic novel set in the distant future. Since arriving in Pocatel, a walled city with a harsh climate and scant resources, 13-year-old Leandro Rivera and his nine-year-old sister Gabi endure a life of arduous physical labor and must frequently engage in petty theft to survive. As Cascabeles, the Latinx-coded descendants of workers from the San Joaquin Valley, Leandro and Gabi must at all times abide by the oppressive Pocatelan Regime's laws; or else face banishment as well as the deadly wyrms that lurk outside the city. When Gabi is caught stealing a strawberry just before a planned escape, Leandro sacrifices himself in her place. Upon meeting his captors, though, he is offered a reprieve in the form of a task: occupy a piece of tech thought lost to time and find a missing person beyond the city's borders. Steeped in folkloric ambience and employing delicate character work, this stellar speculative narrative explores themes of identity across circumstance, centering an adolescent without structural power working to protect family and community. Occasional b&w interiors from Alvarez enrich the narrative. Ages 10: 14. Agent: Allison Remcheck, Stimola Literary. (Oct.)

Reviews by: School Library Journal Gr 4-9--Subtle worldbuilding, flesh-and-bone protagonists, and magnetic writing make this sci-fi companion to Newbery Award--winning *The Last Cuentista* an instant classic. To survive, orphan brother and sister Leandro and Gabi scavenge potatoes for their harsh employers. They are Cascabeles, the descendants of the farmers who worked the lands of the San Joaquin Valley before a disaster wiped out most of the world 400 years ago. They live under the subjugation of the cruel Pocatelans, under threat of exile for any minor infraction, in tent communities and dire conditions, afraid of monsters and starvation. Completely on their own, the siblings have to pickpocket to stay alive. Leandro takes the fall for Gabi when she gets caught stealing, and he is banished. Instead of a death sentence, he is transformed into a hummingbird drone and joins other machines, called alebrijes, named after the mystical creatures sculpted by Oaxacan artists. In his new form, Leandro uncovers a dangerous plot. With measured pacing and layered character development, Higuera's latest is a masterly exploration of how corruption is an indelible part of every oppressive society. It's also a celebration; there will always be a beacon of hope in dark times, fueled by stories and community. There are still reminders of the previous world that serve to remind readers that this society is not too different from our own. The Cascabeles speak Spanish; the Pocatelans speak English. VERDICT This gorgeously written post-apocalyptic novel is a must for every library.--Shelley M. Diaz Copyright 2023 School Library Journal, LLC Used with permission.

Last Human (Trade)

#2122513 (Vol. 01) Last Human (Hardcover (Trade))
written by Lee Bacon

In the future, robots have eliminated humans, and 12-year-old robot XR_935 is just fine with that. Without humans around, there is no war, no pollution, no crime. Every member of society has a purpose. Everything runs smoothly and efficiently. Until the day XR discovers something impossible: a human girl named Emma.
 978-1-4197-3691-9 ©2019 5-1/2 x 8-1/4 288 pgs.
 Grades 4 - 7 Dewey# Fic AR Lvl 4.2 AR Pts 6.0

Quantity	Unit Price
1	\$16.99

Reviews by: Booklist Grades 3-6 What if robots destroyed all humans?or at least thought they had? XR_935, a gen-9 robot, narrates this unusual sci-fi tale, beginning with his first day online. XR_935 entertainingly learns about his environment and the downfall of humans by examining data files and asking the two robots serving as his FamilyUnit questions, such as What's a nail salon? and Why did humans congregate to watch movies? Once up to speed, XR_935 spends the next 12 years diligently working alongside SkD (who communicates in emoticons) and Ceeron (who enjoys

telling human jokes). They get the shock of their lives, therefore, when a 12-year-old human, Emma, shows up at the worksite. Emma enlists the robots' help in finding medicine to cure the sickness sweeping through the people in her bunker. Subtle humor surfaces when literal-minded robots try to understand human idioms, behavior, and emotions. And Bacon raises the story's stakes and action level as the group works against the clock and unexpected new threats. A tech-fueled friendship adventure ideal for fans of Peter Brown's Wild Robot series. (Reprinted with permission of Booklist, copyright 2019, American Library Association.)

Reviews by: Bulletin of the Center for Children's Books The robotic uprising was successful, and human beings are now officially extinct. Robot XR_935 and its co-workers, SkD_988 and Ceeron_902, believe what all robots believe: that human eradication was necessary for planetary survival. When human Emma appears at their worksite, the bots question if humans are as dangerous as they've been taught. They must decide if they will report her appearance to the robot hive leader, PRESIDENT, and destroy the girl, or if they believe her story enough to help her to safety. Narrated by XR_935, the book examines the post-apocalyptic genre from the robot's perspective. Malapropisms (Ceeron_902'S attempt at "Don't let the bedbugs bite" is advising Emma to "not allow the bedbugs to chew your face off") and debates about human culture create many wink-and-nudge moments between the author and audience. XR_935 navigates experiences of culture clash, morality vs. legality, and friendship that will resonate with young readers in a changing world. Chapter titles written in binary, non-traditional punctuation, and dialogue inscribed in emojis add a sci-fi/futuristic touch that will broaden appeal. The short chapters-some only a sentence or two in length-allow for an especially quick and rewarding read. KP

Reviews by: Kirkus Reviews A trio of robot workers sets out to help a girl they believe to be the last of humankind. Thirty years after robots put an end to humanity in order to save the planet, a girl appears at the narrator's worksite. XR_935 is purpose-built to install solar panels in a large array. XR_935's work companion, enormous, strong Ceeron, built to lift and carry, is a scholar of human jokes and colloquialisms. Smaller, zippy SkD connects wires and communicates via emoji pictographs. XR_935 itself is analytical, constantly running numbers, data, and measurements. Emma, a white-presenting human, explains that her family and others have been overcome by a flu epidemic in their hidden bunker. The lone survivor, she hopes to reach a point of help marked on a map. XR_935 grapples with the dilemma: It needs to violate the rules it knows in order to provide forbidden assistance to this Unknown LifeForm. Bacon deftly constructs an amiable but also moral and emotional self for XR_935 out of the data that the unlikely hero collects and considers. The result is an amusing and upbeat adventure, with glimpses of a fading human footprint on the planet and a suggestion that there's hope for a shared AI and human future. An off note is sounded, however, in XR_935's initial conjecture that Emma could be "a shaved gorilla" (to which Emma reacts, "not cool"), which unnecessarily deploys a phrase that some young readers will recognize as a racist one. After all, via data clips, XR_935 and its fellow robots have seen images of humans multiple times. Appealing speculative fiction with memorable robot personalities. (Science fiction. 9-12) COPYRIGHT(2019) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly t war established humans as corrupt, robots wiped them out, replacing them with a machine society linked a ross a hive. Robot XR_935, who narrates, installs solar panels, never questioning its purpose until the day that a 12-year-old human girl, Emma, appears in its solar field. Emma shouldn't exist, but she does, and XR and its two robotic coworkers, despite the paradox, can't bring themselves to destroy her. Instead, they disable tracking and accompany her on a journey set by her dying parents. Along the way, they face danger, risk being lost to battery depletion, and are eventually branded traitors to robot society. But the robots' experiences of human kindness, empathy, and collaboration lead them to reconsider their views on humankind's potential. In this enjoyable sci-fi adventure, the stakes are believable and high, and the robots' interactions are humorous, sometimes mixed up for comedic effect. Against a timely backdrop, Bacon (the Joshua Dread series) explores messages of friendship, tolerance, and cooperation with wit and thoughtfulness. Ages 8: 12. (Oct.)

Reviews by: School Library Journal Gr 3–7—In this future world, humans have been eliminated by robots, leaving a supposedly better society devoid of the evils caused by humans—wars, pollution, crime, and waste. The robots have been brainwashed by their leader, the Hive President, into believing that humans caused nothing but trouble, and the robots have no reason to doubt him. Besides, their programming would not allow them to. Robot XR_935 is 12 years old and has spent his whole "life" with his FamilyUnit—Parent_1 and Parent_2—fulfilling his purpose of installing solar panels for energy. His life is shattered by a paradox: he encounters a 12-year-old girl named Emma, which is impossible because humans are supposed to be extinct. From Emma, XR_935 and his robot "friends," SkD_988 (who communicates through emojis) and massively strong Ceeron_902, learn that there is a secret underground bunker of humans who weren't exterminated. However, the inhabitants of the bunker, including Emma's family, succumbed to a mysterious illness, leaving Emma alone in the world and desperate to reach a mysterious spot on a map her parents left her. Despite their programming, the robots decide to help Emma on her dangerous journey, facing killer HunterBots, drones, and the risk of not finding charging stations before it's too late. Along the way, an unlikely friendship is forged, with humor, misunderstandings (robots don't understand human jokes or expressions), and plenty of rule breaking. Bacon's story is full of twists and adventure, leaving readers guessing throughout. VERDICT With the ever-increasing presence of technology, readers may be torn between rooting for Emma or the robots. Recommended for fans of thrilling sci-fi with a strong ethical motif.—Michele Shaw, Quail Run Elementary School, San Ramon, CA

Leave It to Plum! (Trade)

#2280786 Leave It to Plum! (Hardcover (Trade))
written by Matt Phelan
Young Plum is one of the peacock ambassadors for the Athensville Zoo. Every day the peacocks are allowed to wander freely among the zoo's visitors, delighting and guiding kids and grownups alike. The peacocks are very proud of their responsibility, none so much as kind, curious Plum. But Itch the ningbing-a type of very small marsupial-doesn't understand why those birdbrains should get so much freedom while he's all cooped up. So he plots and plots, sure that he will escape to become the zoo ambassador!

Reviews by: Booklist Grades 3-5 Plum the peacock is an exuberant ambassador at the Athensville Zoo, part of the grounds' long tradition of free-roaming peacocks. Plum and the rest of his flock are charged with welcoming and interacting with the human visitors, happily hopping into selfies or helpfully pointing the way to exhibits. But trouble is brewing in the form of disgruntled ningbing Itch, a tiny Australian marsupial who seethes about the unfairness of his own captivity while the foolish birds are free to roam. He conspires to displace the peacocks and take over as a more educational ambassador, and it's up to Plum to sort out the schemes and keep the zoo humming. The story is a hoot, combining the hilarity of chatty

zoo animals with more somber undertones of loneliness, though everyone has found their perfect place by the conclusion. Plum is a chipper and generous, if not sweetly oblivious, guide through the proceedings, while the ningbing is delightfully menacing, and cartoonish sketches enhance the lighthearted tone. Young readers will relish this splendid hullabaloo at the zoo. COPYRIGHT(2022) Booklist, ALL RIGHTS RESERVED.

Reviews by: Bulletin of the Center for Children's Books Plum the peacock is content with his life at Athensville Zoo: he gets to hang out with Mike the alligator, chat with Kevin the giant elephant shrew, and follow the sacred instructions of Hampstead the head peacock regarding zoo visitors: "MINGLE! GUIDE! DELIGHT!" Over in the Small and Unusual Mammal Pavilion, however, Itch the ningbing has had it with all the peacocks strutting around, mingle-guide-delighting visitors. With the help of some devious squirrels, he enacts a brilliantly evil plan to overthrow the birds' reign. After framing the peafowl for a series of thefts, he sends the birds on the Kiddie Monorail to meet their doom, and it's only Plum and his pal Jeremy, a smart but insecure cat, who can save the day. True to his mission, Plum does indeed delight in this beginning chapter book, and the straightforward, concise storyline is both accessible and goofy, with a cast of amusingly quirky characters and a surprising amount of emotional weight. Plum is all innocence and naivete, which sets him up for disappointment when he realizes not everyone operates out of the goodness of their heart, but, even after that reality check, he still wants the best for everyone-including Itch. Phelan's characteristic sketchy black and white art is given more definition here, and wide-eyed, feathery Plum makes a visually appealing foil to angular (and angry), sharp-toothed Itch. The turn in Jeremy's role from fraidy-cat to courageous hero neatly and triumphantly brings everything together, and this will be an instant hit with kids who like to root for the underdog (cat? bird?) KQG COPYRIGHT(2022) Bulletin of the Center for Children's Books, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly A bighearted peacock with boundless cheer stars in this lively zoo caper by Phelan (Knights vs. Dinosaurs). Free-range peacocks have long been official guest ambassadors at the Athensville Zoo, seeking to "Mingle! Guide! Delight!" But not everyone is happy about the arrangement, especially not a dour, power-hungry marsupial called Itch, a ningbing with an inflated sense of his own smarts. Fed up with being caged while others roam free, Itch plots to frame the pea-fowl for a manufactured crime spree with the help of some wily, sticky-fingered squirrels. When the plan results in entrapment, a "peppy, purple peacock" named Plum plays detective to gain their release, and in the process, his sleuthing sees him standing up to bullies and growing in social awareness. Luckily, the congenial protagonist is also able to draw on the help of new friends, including a lonely street cat and an introverted new zookeeper, and by book's end, everyone is better off than they were at the start, including the series starter's villain. With occasional grayscale art presented alongside amusingly self-important, cinematically rendered characters, Phelan offers winning animalian antics for chapter book beginners. Ages 8: 12. Agent: Rebecca Sherman, Writers House. (June)

Reviews by: School Library Journal Gr 3-7—In this alliterative zoo tale, peppy purple peacock Plum befriends Jeremy, a sad and solitary street kitty, who returns the favor by saving all the peafowl from a frightening fate. It seems that nefarious ningbing Itch, a mouselike marsupial aiming to get the feathered flock ejected, has concocted a scheme to frame the flightless fowl for a series of theft, and then dispatch them via an "accident" on the zoo's closed-off elevated monorail. Fortunately, Plum manages to send a signal that brings his feline ally racing to the rescue in the nick of time. And being grateful, as well as the most beneficent of birds, Plum goes on to hook Jeremy up with lonely new zookeeper Lizzie. Perhaps Phelan can be forgiven for portraying the tails of both peacocks and peahens with the same calligraphic swirls, as the expressive ink-and-wash animal portraits that pack his short chapters of well-paced narrative are done in a fanciful style. Progressing readers weaned on similarly sited anthropomorphic shenanigans like Diane Redfield Massie's Baby beebee bird or Philip Stead's Amos McGee tales will find their suspicions that it really is all happening at the zoo further confirmed. VERDICT A buoyant tale for younger middle grade readers, with a mild dose of danger for spice and an extroverted protagonist on a mission to "mingle, guide, delight."—John Edward Peters

 #2310864 Snow Day for Plum! (Hardcover (Trade)) <i>written by Matt Phelan</i> The animals of the Athensville Zoo are thrilled to be visiting a local school to star in a presentation--everyone except for a very nervous Plum, that is. And then an unexpected blizzard strands the animals at the elementary school overnight--yikes! 978-0-06-307920-5 ©2023 5-1/2 x 7-1/2 128 pgs. Grades 3 - 6 Dewey# Fic AR Lvl 3.7 AR Pts 1.0	1	\$17.99

Reviews by: Kirkus Reviews Has Plum's pep deserted him? Several animals from the Athensville Zoo are on their way to visit an elementary school. Overconfident Itch the ningbing (an Australian marsupial), unaware that zookeeper Lizzie will be doing all the talking, looks forward to "lecturing eager young minds." Plum, the usually chipper peacock, on the other hand, is anxious--maybe the schoolchildren won't like him or he'll get lost. So when they arrive at the school to find the students have been sent home due to a blizzard, Plum is relieved. The animals are left in a school gym for the night until three self-important class mice free them. Itch heads for the library to meet the learned turtle, but Plum reluctantly explores with his friends. When his anxiety peaks, they reassure him, and when the mice reject Meg, another peacock, as "borrrring" and uncool, they buoy her as well before everyone comes together to save Itch, who finds himself outside and stranded in a snowdrift. Unlike Leave It to Plum (2022), this is not a mystery, and the relationship focus shifts from Lizzie to the rodents, but the pace is brisk, and sequel seekers will be pleased to revisit familiar characters (if dismayed that Itch's longing for knowledge leads to his downfall). In Phelan's engaging grayscale pen-and-wash illustrations, Lizzie has short curly hair; text and art cue her as Latine. Lively fun with animal friends. (how to draw Plum) (Chapter book. 7-10)

#2349570 Trouble Finds Plum! (Hardcover (Trade))

written by Matt Phelan

When Plum the peacock stumbles across a raccoon asking for help finding food on a gloomy day at the zoo, he is delighted to assist his new friend. But Scratch the raccoon doesn't stop there. More and more of Scratch's friends arrive, and soon the zoo is overrun by rowdy and rude raccoons. Though trouble might have found Plum, Plum has a plan to save the Athensville Zoo-and make a few new friends at the same time.

Reviews by: Booklist Plucky peacock Plum is back with another entertaining installment that has him facing his highest-stakes situation yet. On a quiet day at Athensville Zoo, Plum is thrilled by an unexpected visit from a raccoon named Scratch. Though Plum hopes to make a new friend, it's clear that the nefarious mammal means to take over the zoo and establish a raccoon resort for himself and his henchmen. When the diplomatic approach fails, the zoo animals realize they might need a former evil genius to fight the new one, so Itch the ningbing, reformed nemesis, is tapped to scheme a solution. A scary showdown seems inevitable, and it will take all of Plum's creativity and positivity to save his home. It's a delight to drop back into this wacky zoo world and become reacquainted with the comical cast of critters, from an elephant shrew to a capybara. The brisk pace, witty wisecracks, and humorous illustrations easily retain attention, and Plum's eternal optimism and perpetual enthusiasm are contagious. A warm and welcome addition to an already charming series.

Legend (Trade)

#2107364 (Vol. 04) Rebel (Hardcover (Trade))

written by Marie Lu

Day has spent the past decade piecing together his memory of his time in the Republic, pretending to enjoy life in Antarctica's capital, Ross City, and quietly hiding out from the world. But Eden isn't safe. As the two brothers struggle to accept who they've each become, they grow more distant from one another than they've ever been.

Reviews by: Horn Book Magazine ts of the original Legend trilogy (Legend, rev. 11/11, and sequels), and Daniel Wing now lives in Ross City, Antarctica, where he works in the intelligence service for the fledgling nation, while his younger brother, Eden, is attending university there on scholarship for his engineering prowess. Antarctica may provide relative anonymity for the brothers, but its sociopolitical foundation is shaky, as the country's system of rewards and punishments does not offer true opportunities for social mobility, leaving a vast underclass seething with desperation and resentment. As Eden ventures into the Undercity to help a friend, he gets drawn into the clutches of the very crime lord that Daniel has been unsuccessfully tracking. Meanwhile, June has arrived in Antarctica on a diplomatic mission, and Daniel still has feelings for her. In alternating first-person narratives, the book hurtles to its climax as both brothers find themselves in danger, torn by strong feelings of love, loyalty, and honor. The setting isn't as fully realized here as in the original trilogy, but fans will welcome the opportunity to revisit these beloved characters, and the tried-and-true formula of adventure, suspense, and romance once again proves satisfying. Jonathan Hunt March/April 2020 p.84(c) Copyright 2020. The Horn Book, Inc., a wholly owned subsidiary of Media Source, Inc.

Reviews by: Publishers Weekly In this fourth installment of the Legend series, Lu revisits Daniel "Day" Altan Wing; his brilliant younger brother, Eden Bataar Wing; and Day's love interest, June Iparis. Ten years after Day incited a revolution that brought down the Republic, he is an agent in the Antarctic Intelligence Service in Ross City, the world's most advanced; and purportedly its fairest; metropolis. Residents live within a gamified, level-based social and economic system that monitors and incentivizes good behavior with points; these unlock leveled privileges that control access to education, healthcare, housing, and jobs. But fundamental problems plague the allegedly egalitarian society, reminding the siblings of a tiered pre-revolution Republic. Day is willing to look the other way if it keeps Eden safe, but the injustices Eden sees in Undercity, where those of lower strata are forced to live, push him to take risks that place him in the path of Dominic Hann, a warlord intent on toppling the system for his gain. This tale of intrigue, alliances, and love will draw Legend fans and new readers into a fascinating world whose combined layers of privilege and surveillance draw comparisons to many present-day social ills. Ages 12: up. Agent: Kristin Nelson, Nelson Literary Agency. (Oct.)

Legends of Eerie-on-Sea (Trade)

#2386585 (Vol. 05) Mermedusa (Hardcover (Trade))

written by Thomas Taylor

It's Midwinter again in Eerie-on-Sea, when legend claims the terrifying Malamander emerges to hunt—and search for its long-lost mate. It's the anniversary of daring Violet Parma's arrival in Eerie; a year later, she still hasn't found her missing parents, just as anxious Herbert Lemon has learned little else about why he washed up on the shore in a crate of lemons.

Reviews by: Kirkus Reviews This November is "NOPE-vement," Herbie Lemon tells Violet Parma, meaning no risky adventures, but spoiler alert: Perilous mysteries are Eerie-on-Sea's stock in trade. Sebastian Eels, the sleuths' slimy, would-be nemesis, returns to Eerie to refurbish and reopen Festergrimm's Eerie Waxworks. While Herbie and Vi doubt Eels' good intentions, their adult allies are less wary. When the bookstore mermonkey dispenses Dickens' A Christmas Carol, Jenny assumes it means Eels deserves a second chance. Dr. Thalassi hopes the gallery refurbishment will result in new exhibits for his Eerie Museum. Dismayed by Eels' plan, Mrs. Fossil reveals a secret: She's the caretaker of the gallery that was built by her ancestor Felix Fossil when he was hired to collect and repair the remains of Ludo Festergrimm's creations. Ludo's clockwork wonders included a giant robot intended to find Pandora, his missing daughter, but the robot's deadly rampage resulted in the destruction of both itself and its maker. The gallery is now a ruin. The train that once meandered through the spooky gallery's decaying waxworks sits motionless on tracks that descend in darkness to lower floors and exhibits. As creepy mysteries proliferate, Herbie senses Pandora's story is connected to his--but doesn't know how or why. While series fans know what to expect, the plot's familiar contours deliver a few surprises along the way. As usual, the quirky art serves as witty counterpoint to Herbie's stoic narration while Eerie's Saint Dismal nicely embodies the English-seaside-in-the-off-season setting. A cozy and atmospheric read. (Fantasy. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Legends of Lotus Island (Prebound)

#2364020 (Vol. 01) Guardian Test (Prebound)

written by Christina Soontornvat

Young Plum is shocked to discover that she's been accepted to the Guardian Academy on Lotus Island, an elite school where kids learn how to transform into Guardians, magical creatures who are sworn to protect the natural world. The Guardian masters teach Plum and her friends how to communicate with animals and how to use meditation to strengthen their minds and bodies. All the kids also learn to fight, so they can protect the defenseless if needed.

Reviews by: Booklist Though orphaned at a young age, Plum has enjoyed her quiet childhood with loving grandparents on a small island. She spends her days tending their lush garden and communing with local animals; but her quiet existence is interrupted by an unexpected invitation to

attend the prestigious Guardian Academy on Lotus Island. The school has long existed to train future Guardians, a select set of magically endowed humans capable of transforming into mystical creatures and charged with protecting the natural world. With her affinity for flora and fauna, it seems only natural that Plum would conjure such a power. However, she has only a month to train for her first exam, and there's no magic to be found—she worries she may not have what it takes to become a Guardian after all. The first installment in the new series is effortlessly entertaining and atmospheric, and the new Thai-adjacent world is teeming with magical life and gentle mystery. Additionally, Hong's imaginative manga-style illustrations and the book's shorter length will easily draw in younger readers. An enchanting eco-fable sure to intrigue and delight.

Reviews by: Kirkus Reviews become a shape-shifting Guardian? Raised by her grandparents since her parents died in a boating accident, Plum has spent her childhood learning about plants and animals. She hasn't ventured far from her island home, part of the Santipap Islands, but when she is accepted into the prestigious Guardian Academy, where she will train to become a Guardian along with other children from all walks of life her grandparents encourage her to go, certain that her future holds more than their little island can provide. At the Academy, Plum's tendency to talk to plants and animals strikes some of the students as strange, though she also begins to make friends. In the Santipap Islands, Guardians have the power to shift into an animal shape to better protect the land, and Plum's first test is to find her own animal shape—but will she succeed, or will she be forced to return home a failure? With a Thailand-inspired setting, magic rooted in nature and the environment, and whimsical illustrations, this is a promising beginning to a series ready to introduce readers to both the fantasy genre and a beautiful and mysterious new world. All characters are somewhat loosely implied to be Thai due to character and place names. Themes of friendship and environmentalism combine in this magical school story. (map) (Fantasy. 7-11) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Soontornvat (The Tryout) deftly combines a Thai-inspired setting, familiar fantasy tropes, and themes of nature conservation to craft a mystical series kickoff. Tween Plum, who's grown up on her grandparents' farm in the Santipap Islands, can hardly believe that she has been chosen to become a Guardian, part of a group of magical animalian shape-shifters who protect and nurture the natural world. She's soon sent to Guardian Academy on Lotus Island to train for her first test: discovering her animal shape. At school, Plum faces bullying based on her rural upbringing, and forges an immediate friendship with knowledgeable, take-charge classmate Cherry. Despite her quickly improving abilities, however, Plum is unsure whether she will be able to unleash her inner power. Plum's struggles with her self-worth are compassionately wrought, and her unique ability to communicate with animals and plants suitably plays into the narrative's focus on environmentalism. Descriptive scene setting and humorous dialogue offer a solid foundation for interpersonal conflicts, while Hong's animated grayscale illustrations elevate Soontornvat's leisurely unfolding, intriguing Guardian mythos. Ages 8: 12. Agent: Stephanie Fretwell-Hill, Red Fox Literary. (Mar.)

Legends of Lotus Island (Trade)

#2328033 (Vol. 02) Into the Shadow Mist (Hardcover (Trade))

written by Christina Soontornvat

Plum and her friends are traveling to the misty Bokati Island. There they will study with the mysterious Guardian Master Em, who is the keeper of the ancient forest there.

The field trip comes just in time for Plum, who still can't figure out why she's so different from the other Novices on Lotus Island.

Reviews by: Kirkus Reviews A group of young Novices at a magic school learn more about using their powers to protect the land. Plum has passed the first test necessary to remain at the Guardian Academy and now is a true Novice, training to use her magic in service of the Santipap Islands. Like her classmates, Plum has the ability to shape-shift into a fantastic creature, the mark of a Guardian. But unlike her classmates, Plum does not seem to have a Guardian power, at least not one that makes sense. Plum worries that she may be like another one of her classmates who had to leave the academy because she used unauthorized workarounds to pass a test. And Plum's next test is fast approaching: She and a few of her friends must journey to another island in the archipelago to use their magic in the field. Something is threatening the trees on Bokati Island, and Plum and her friends must help—but will Plum be able to use her magic and live up to being a Guardian? Touching on friendship, confidence, environmentalism, belonging, and the notion that sometimes actions aren't black-and-white, this second installment of the Legends of Lotus Island series sheds more light on Plum's mysterious powers but still hints at more to come. Plum and her friends live in a loose fantasy version of Thailand. A fun, magical journey featuring a relatably conflicted protagonist. Lei and the Legends (Trade)

#2326228 (Vol. 01) Lei and the Fire Goddess (Hardcover (Trade))

written by Malia Maunakea

Curses aren't real. At least, that's what twelve-year-old, part-Hawaiian Anna Leilani Kama'ehu thinks when she listens to her grandmother's folktales about sacred flowers and family guardians. But when Anna accidentally insults Pele the fire goddess by destroying her lehua blossom, a giant hawk swoops in and kidnaps her best friend, and she quickly learns just how real these mo'olelo are. In order to save her friends and family, Anna must now battle mythical creatures, team up with demigods and talking bats, and evade the traps Pele hurls her way.

Grades 4 - 7 Dewey# Fic Lexile 770

Quantity	Unit Price
1	\$17.99

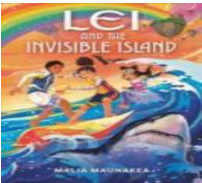

Reviews by: Booklist Anna Leilani is sure there's no place in the modern world for the traditional lore and stories her Hawaiian tūtū (-grandmother) shares—right up to the moment she picks a flower associated with Pele the volcano goddess and a giant bird snatches away her best friend, Kaipō. That's only the first of a series of life-changing revelations, as her determined quest to rescue him leads to encounters with a snarky talking bat, a shape-changing boar, and other supernatural creatures, capped by a wild he'e hōlua, or sled race, down the rocky slopes of Mauna Kea against a mercurial deity with, as she puts it, "major trust and power issues." The author sensitively portrays the way her half-white protagonist wrestles with her identity, and establishes unusually immersive senses of place and culture by, for instance, stirring in references to local foods, tucking untranslated Hawaiian language and slang into the dialogue, and describing a hula Anna/Lei dances in terms of its deeper meaning and spirit. An exciting adventure in an uncommon, perceptively drawn setting.

Reviews by: Bulletin of the Center for Children's Books When Anna and her parents moved from Hawaii to Colorado, Anna's grandmother was determined that Anna not forget about her Hawaiian roots, so the family agreed to send Anna back each summer to learn the family stories. Anna used to love just being with her island best friend and grandparents, but after a rough sixth grade, she's hoping to gain some social capital back home by doing a bunch of touristy things and having the photos to compete with her best friend's trip to Paris. Instead, though, she thoughtlessly angers the fire goddess Pele, which results in a series of disasters, including a giant hawk kidnapping her friend and lava threatening her grandmother's house. Anna quickly discovers that the only way to undo her grave error is by fully embracing all of the family stories and her own Hawaiian roots. Anna is brash and impulsive, traits that lead her into trouble but also give her the courage and creativity to find her way back out, and her struggles to reconcile her love for her grandma with her desire to fit in back in Colorado are authentic. Maunakea elegantly folds in enough cultural details to orient readers while not interrupting the flow of the story, trusting the reader to use context with unfamiliar terms or to weave together the snippets of Hawaiian lore as they are offered. AS

Reviews by: Kirkus Reviews Hawaiian legends she doesn't want to believe are real. Ever since her family moved to Colorado seven years ago, 12-year-old Anna Leilani Kama'ehu has been spending summers with her tutu, or grandmother, learning the family's mo'olelo. Usually she enjoys these stories that connect her to her Native heritage. She also normally loves spending time with Kaipō, her best friend in Hawai'i, and eating li hing mui gummy bears, but this year is different: Kids at school are mocking her, and her Colorado best friend has left her for the popular crowd, leaving Anna feeling conflicted about her heritage. Now she refuses to believe in the Hawaiian gods and goddesses and tries to convince Tutu to let her do touristy things. Then a frustrated Anna loses her temper, insults fire goddess Pele, and picks a sacred 'ohi'a lehua flower to prove her point. Pele, angered by her disrespect, causes two earthquakes, a lava flow heads toward Tutu's house, and a giant hawk takes Kaipō away. To fix things, Anna must find herself and her Hawaiian roots. This exciting, fast-paced adventure is full of humor and action. Anna wrestles with friendships, being biracial (her mother is Polish American), figuring out where she belongs, and finding pride in her culture. Hawaiian cultural elements are seamlessly woven into the story, giving just enough context for those unfamiliar with them without taking away from the narrative. An exhilarating, adventure-filled celebration of Hawaiian culture. (Adventure. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Twelve-year-old Anna Leilani Kama'ehu, who is part white, usually loves spending her summers with her grandmother, Tutu, in Volcano, a rainforest village in Hawaii. But her Boulder, Colo., classmates have started mocking her whenever she brings up Hawaiian stories such as Pele the Fire Goddess, prompting feelings of shame about her heritage. Now Anna isn't looking forward to her trip at all; disinterested in listening to more stories about her culture, she instead wants to "come and visit like a tourist." When Anna questions Pele's existence, Tutu warns her that she'd best show respect, since she's "on Pele's land now." Still disbelieving, Anna picks a sacred 'ohi'a lehua flower, a blasphemous act, resulting in Pele's triggering earthquakes, sinkholes, and volcanic eruptions across the island and sending a giant hawk to kidnap Anna's best friend, Kaipō. Accompanied by Ilikea, a talking bat, and Makani, the breeze, Anna must win back the goddess's favor to save Kaipō and the rest of Hawaii. Scenes peppered with pidgin dialect, Hawaiian words, and descriptions of snacks such as li hing mui gummi bears establish a keen sense of place. Anna feels too Hawaiian to fit in at school, but too haole, or white, to feel at home in Hawaii; a struggle that aptly center themes of identity and connection in Maunakea's energetic, adventuresome debut. Ages 8: 12. Agent: Patrice Caldwell, New Leaf Literary. (June)

Reviews by: School Library Journal Gr 4-6--Anna Leilani Kama'ehu, a 12-year-old girl who is part-Hawaiian and part-Polish American, finds herself in the adventure of a lifetime as she seeks to right wrongs and rediscover the strength of her Hawaiian roots. At school in Colorado, Anna struggles to balance her desire to fit in with her family obligation to remember her heritage, so, when she visits her beloved grandmother on Hawai'i Island, Anna lashes out and her disrespectful actions invite the wrath of Pele, the fire goddess. As an individual who is part-Hawaiian herself, Maunakea displays mastery in weaving Hawaiian words, mythological references, and legendary Hawaiian figures into her story in a manner that draws readers' attention to the richness of the traditions and beauty of Hawai'i. Bits of humor sparkle throughout the story but the general tone focuses on the significance of Anna's endeavors to connect with her Hawaiian culture and overcome obstacles to save her friend Kaipō with a seriousness that adventure readers will take to mean there is no time to waste, as each event rolls into another at a quick pace. Readers will rely heavily on Anna's outward observations of the rich descriptions of her surroundings and often draw their own conclusions about her emotions from her interactions with figures from legend, as the story's third-person perspective features a great deal of dialogue mixed with or leading up to the story's action. Anna's sullenness and uncertainty give way to a character fueled by wonder and confidence, a transformation that can be discussed in ELA classes as an example of how connections with legends and stories can enliven a sense of identity and inspire strength. VERDICT This story belongs in the hands of middle grade readers who love adventure fiction and mythological elements, as well as those who wish to find an example of rediscovering pride in one's culture and identity.--Rachel Mulligan Copyright 2023 School Library Journal, LLC Used with permission.

 <p>#2349246 (Vol. 01) Like a Charm (Hardcover (Trade)) <i>written by Elle McNicoll</i> Ramya Knox always knew she was different. Her dyspraxia makes her clumsy and prone to attracting the disapproval of her teachers. Ramya didn't know she can see magic! But when a dog statue comes to life, Ramya follows the pup and discovers a world she thought existed only in fairy tales. 978-0-593-64913-8 ©2023 5-1/2 x 8-1/4 320 pgs. Grades 3 - 6 Dewey# Fic Lexile 570</p>	1	\$17.99

Reviews by: Booklist For as long as she can remember, Ramya has lived with dyspraxia and feeling different, but she's not prepared for how truly unusual she turns out to be. After her grandfather dies, she receives a bizarre inheritance: an empty guidebook to the Hidden World of Edinburgh, which she is charged with completing. Ramya is one of very few humans who can see through the enchantments that magical creatures use to disguise their true appearances. She's suddenly thrust into a world populated by friendly trolls, distrusting vampires, surprisingly helpful kelpies, and menacing faeries. It soon becomes clear that something is terribly wrong in both the visible and hidden worlds, and Ramya appears to be the key to saving them both. McNicoll brings a striking Scottish setting and its otherworldly inhabitants vividly to life with cinematic descriptions. Neurodivergent Ramya is a wonderfully complicated protagonist, imbued with deep compassion and courage but also incredible rage at being othered by parents and teachers. A magical, modern fantasy for anyone who has felt that they don't fit in.

Reviews by: Publishers Weekly In this eloquently written duology opener by McNicoll (Show Us Who You Are), a 12-year-old with Scottish and British ancestry is seemingly the only one capable of seeing magical creatures that live among humans. Following an emotional blowout between then-five-year-old Ramya Knox's parents and her maternal grandfather, Ramya is forbidden from seeing him. Seven years later, Ramya; who is resentful toward those who view her as "useless" because of her dyspraxia; is stunned to receive a blank book upon her grandfather's death, inscribed with an ominous warning: "Beware the sirens." Ramya soon discovers that her native Edinburgh is home to vampires, trolls, kelpies, and fae. What's more, Ramya learns that she has a rare ability to see through their protective Glamour. Now she must take on the mantle her grandfather left behind: recording the truths about the Hidden Folk. But as she delves further into the enchanted world existing parallel to her own, family secrets emerge and nefarious beings stalk her. By spinning a dark and delightful Edinburgh setting elevated by innovative twists on Scottish mythology, McNicoll paints a vivacious portrait of one neurodivergent tween's experience navigating the world. Ramya's frustrations and vulnerability make for a resilient character who refuses to be defined by her challenges. Ages 8: 12. Agent: Suzie Townshend, New Leaf Literary & Media. (Oct.)

Reviews by: School Library Journal Gr 4-6-Weiner's middle grade debut tells the story of Alice, a 12-year-old girl who is ostracized and bullied because of her larger size and unruly hair. Alice begins attending the rural, offbeat Experimental Center of Love and Learning-the eighth school to which her wealthy parents, who want little to do with her, have sent her-where she rescues an unusual girl named Millie from drowning in the lake. Millie is a young Yare, or what humans commonly refer to as "Bigfoot," but she is small and fascinated by human life, unlike the rest of the larger, stronger Yare in her tribe, who forbid her from interacting with "No-Furs," or humans. Alice and Millie quickly bond, but Millie is soon threatened when she is spotted by a painfully average boy named Jeremy, who hopes to carve out his own niche by discovering Bigfoot. Weiner's three young outcasts are well-developed as each seeks belonging, acceptance, and friendship. While Alice loathes her hair and size, Millie admires these

attributes and insists Alice is beautiful and strong, and the novel concludes with a feeling of camaraderie and inclusivity as the teachers and students at the Experimental Center stand up for Alice and Millie. The epilogue leaves several unanswered questions, creating an opening for a sequel. VERDICT A heartwarming tale about friendship and belonging that will resonate with those young readers who have ever struggled to fit in or find their place in the world.-Laura J. Giunta, Garden City Public Library, NY Copyright 2016. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

Reviews by: School Library Journal Gr 4-6-After learning she might not be human in the first book (The Littlest Bigfoot), Alice starts searching for clues to discover if she really is part Yare-or what humans refer to as "Bigfoot." Unfortunately, her best friend Millie, a confirmed Yare, is too preoccupied to help her; Millie is busy devising a plan to audition for her favorite reality competition show while still hiding her true identity. Meanwhile, amateur Bigfoot hunter Jeremy is being threatened by a shady government organization that wants to find out what he knows about Alice, Millie, and the Yare. Weiner continues to expand both her characters and the Yare mythology while providing resolution to some of the last book's lingering questions, such as revealing the truth about Alice's origins. Readers will relate to Alice and Millie as their paths diverge in their pursuit of their own interests-which sometimes causes them to neglect their friendship-and with Jeremy, who struggles to do the right thing and protect Alice and Millie, even as he is pressured to reveal the information he's uncovered. As in the first novel, not everything is neatly resolved in the sequel, which ends on a cliff-hanger. Although Weiner provides some exposition, new readers will fare better reading the books in order. VERDICT Fans of the first book won't be disappointed with this latest installment.-Laura J. Giunta, Garden City Public Library, NY Copyright 2017. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

And when Carson sneaks off to the locker it does, indeed, provide a solution--an eraser! But the problem is that the eraser works a little too well, erasing anything it's rubbed against three times. ANYTHING. 978-0-593-09428-0 ©2020 5 x 7 224 pgs. Grades 3 - 6 Dewey# Fic AR Lvl 4.7 AR Pts 2.0 Lexile 670</p>	1	\$16.99

Reviews by: School Library Journal Gr 2–5—Locker 37 provides the fourth grade students of Hopewell Elementary with solutions to their problems in the most unexpected of ways. This first installment promises a look at the various adventures students have with the tools found in the locker, starting with fourth grader Carson Cooper and a mysterious stain on his pants. Awash in shades of green and gray, the cartoon-style artwork often provides character development where the words are lacking. This particular mix of text and illustration may appeal to "Diary of a Wimpy Kid" fans who are looking for another series, though Starmer fails to create relatable characters with depth. Younger readers are likely to skip the special "math chapters," which feel jarring to the flow of this heavily plot-based book. A "history chapter" will give kids an insight into the mythology about how a magical locker came to find its way to Hopewell Elementary. VERDICT With short chapters and large print, reluctant young readers will likely speed through this middle grade novel.—Monisha Blair, Rutgers Univ., NJ

Lockwood & Co. (Trade)

#1748339 (Vol. 01) Screaming Staircase (Hardcover (Trade))
written by Jonathan Stroud
 Follows three young operatives of a psychic detection agency as they battle an epidemic of ghosts in London.

Reviews by: Booklist Grades 4-7. Fifty years after the Problem began in London, it has slowly spread through the country. The public dreads Visitors, malevolent ghosts that can be directly sensed only by children. Young Lucy Carlyle joins Anthony Lockwood and George Cubbins to become Lockwood & Co., three kids using rapiers, iron chains, and magnesium fire to handle Visitors. After they bungle a job by inadvertently burning down a house, their company faces imminent ruin. Their last hope of saving it involves accepting a dicey assignment in one of England's most haunted houses. Despite the necessary time spent framing the series, Stroud ratchets up the tension considerably when the trio goes to work. Still, the most satisfying parts of the book concern the three intriguing main characters and the dynamics of their not-quite-comfortable relationship. Best known for the Bartimaeus books, beginning with *The Amulet of Samarkand* (2003), Stroud writes for a younger audience in book one of the Lockwood & Co. series and delivers some chilling scenes along the way. HIGH-DEMAND BACKSTORY - Stroud made many fans with the Bartimaeus books, and his even though this is for a younger audience, his name carries weight with librarians, teachers, and parents.

Reviews by: Horn Book In a world where ghosts have become the world's worst pest infestation, protagonist Lucy and her Lockwood & Co. colleagues take on a high-profile, high-paying haunting from a client who is not telling them everything. Lucy's wry, practical voice counterpoints the suspenseful supernatural goings-on in this rollicking series-opener, which strikes just the right balance between creepiness and hilarity.

Reviews by: Kirkus Reviews Three young ghost trappers take on deadly wraiths and solve an old murder case in the bargain to kick off Stroud's new post-Bartimaeus series. Narrator Lucy Carlyle hopes to put her unusual sensitivity to supernatural sounds to good use by joining Lockwood & Co.--one of several firms that have risen to cope with the serious ghost Problem that has afflicted England in recent years. As its third member, she teams with glib, ambitious Anthony Lockwood and slovenly-but-capable scholar George Cubbins to entrap malign spirits for hire. The work is fraught with peril, not only because a ghost's merest touch is generally fatal, but also, as it turns out, as none of the three is particularly good at careful planning and preparation. All are, however, resourceful and quick on their feet, which stands them in good stead when they inadvertently set fire to a house while discovering a murder victim's desiccated corpse. It comes in handy again when they later rashly agree to clear Combe Carey Hall, renowned for centuries of sudden deaths and regarded as one of England's most haunted manors. Despite being well-stocked with scream-worthy ghastrilies, this lively opener makes a light alternative for readers who find the likes of Joseph Delaney's *Last Apprentice* series too grim and creepy for comfort. A heartily satisfying string of entertaining near-catastrophes, replete with narrow squeaks and spectral howls. (Ghost adventure. 11-13)

Reviews by: Publishers Weekly In what has come to be called "the Problem," the British Isles have become plagued with ghostly Visitors in this highly entertaining first book in Stroud's Lockwood & Co. series. Since children and young teenagers are most able to sense the ghosts, psychically gifted youths are employed by agencies large and small, and use iron chains, magnesium flares, and salt bombs to contain and dispatch the Visitors. Narrator Lucy Carlyle has moved to London following a ghost-hunting mission gone very wrong, and her luck improves when she joins a small, independent outfit run by the dashing Anthony Lockwood and his studious and exasperating (to Lucy) partner, George Cubbins. Stroud (the Bartimaeus series) shows his customary flair for blending deadpan humor with thrilling action, and the fiery interplay among the three agents of Lockwood & Co. invigorates the story (along with no shortage of creepy moments). Stroud plays with ghost story conventions along the way, while laying intriguing groundwork that suggests that the Problem isn't the only problem these young agents will face in books to come--the living can be dangerous, too. Ages 8-12. (Sept.) (c) Copyright PWxyz, LLC. All rights reserved.

Reviews by: School Library Journal Gr 6-9-Lucy Carlyle relates the exploits of the teenage ghost-hunting agency, Lockwood & Co. The world is still reeling from an infestation of malevolent, deadly ghosts that can only be detected by Talented youngsters with rare psychic sensitivities. Anthony Lockwood heads his three-person team, including Lucy and George Cubbins, in their efforts to defeat the evil spirits-and remain solvent.

A minor haunting that turns into a major problem leads Lockwood & Co. to a brooding mansion that has already claimed the lives of more experienced ghost hunters. Combe Carey Hall is "the most haunted private house in England. an ugly oppressive mongrel of a building," and the trio quickly realizes that the dangers they face have human as well as supernatural sources. Authentically spooky events occur in an engagingly crafted, believable world, populated by distinct, colorful personalities. The genuinely likable members of Lockwood & Co. persevere through the evil machinations of the living and the dead and manage to come out with their skins, and their senses of humor, intact. This smart, fast-paced ghostly adventure promises future chills.-Janice M. Del Negro, GSLIS Dominican University, River Forest, IL (c) Copyright 2013. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc. No redistribution permitted.

#1782571 (Vol. 02) Whispering Skull (Hardcover (Trade))

written by Jonathan Stroud

Repeatedly targeted by Quill Kipps and his team of Fittes agents in the months after surviving a night in England's most haunted house, Anthony, Lucy and George attend the exhumation of a Victorian doctor whose remains were buried with a highly dangerous supernatural object.

978-1-4231-6492-0 ©2014 448 pgs.

Reviews by: Booklist Grades 4-7. In this sequel to *The Screaming Staircase* (2013), Stroud delivers another riveting narrative in which the three young psychic investigators deal with malevolent supernatural forces in an alternate London. Narrator Lucy Carlyle, the newest member of Lockwood & Company, develops the rare ability to converse with a mysterious skull kept in a sealed jar. Though this captive spirit has the firsthand knowledge the group needs to solve its latest case, Lucy suspects that beyond his entreaties and wisecracks, the tortured skull is manipulating them with misleading information. Physically and psychologically taxing, the case strains the bond that Anthony Lockwood, Lucy, and their colleague, George, share. Stroud writes with a fine ear for dialogue, a wry sense of humor, and a knack for describing haunted places. Creating tension that ebbs and flows, he slowly builds the dramatic narrative to a resounding crescendo, and he makes the quieter scenes that follow just as compelling. The second entry in the Lockwood & Company series, this imaginative adventure features one of the most hair-raising chase scenes in children's fiction. At the book's end, when the enigmatic Lockwood reveals a chilling secret, readers can only hope that more sequels are in the offing. High-Demand Backstory: Stroud, of *Bartimaeus* fame, is no stranger to the New York Times best-seller list, and this second installment of his new series looks primed to keep him there.

Reviews by: Kirkus Reviews An occult portal and its spectral guardian nearly cut short the careers of three rising young ghost hunters in this madcap sequel to *The Screaming Staircase* (2013). Continuing their predilection for falling into predicaments that require rapier work and fast exits, psychic detection agents Lockwood, George and Lucy are reluctantly hired by Scotland Yard to track down a mystical old "bone-glass" no sooner found in the arms of a moldering exhumed corpse than stolen. As everyone who has looked into this small but potent artifact seems to have either been driven insane or eaten by rats (or both), police and psychic black marketeers are equally eager to get their hands on it. In fine form, Stroud sends Lockwood & Co. on a trail that leads from an upper-crust social event to the mucky margins of the Thames and into dust-ups with thugs, rival agents and carloads of ectoplasmic horrors that can kill with just a touch. Lucy's cautionary "If you're easily icked-out, you might want to skip the rest of this paragraph..." goes for more than one grisly passage. For all their internecine squabbling, the three protagonists make a redoubtable team--and their supporting cast, led by the sneering titular skull in a jar, adds color and complications aplenty. Rousing adventures for young tomb robbers and delvers into realms better left to the dead. (Ghost adventure. 11-13)

Reviews by: School Library Journal Gr 5-8-In this spine-chilling sequel to *The Screaming Staircase* (Hyperion, 2013), Stroud again demonstrates his ease in the world of the macabre and truly frightening. Lucy works for Lockwood & Co., one of many agencies dealing with The Problem. Fifty years ago, for no apparent reason, the dead rose and began to walk among the living. Agencies employ psychic children to help dispatch the dead permanently. In this second installment, the group (Lucy, leader Anthony Lockwood, and bumbling researcher George) finds themselves drawn deeper into the mystery of The Problem. A supposedly simple job dispatching an unruly cemetery ghost leads to the discovery of black markets, obsessive cults, mysterious collectors, and a bone mirror that drives anyone who looks into it completely mad. As in the first novel, the descriptions of the different types of spirits are nightmarishly frightening (one episode with rat-ghosts is especially gruesome.) Lucy's growing abilities to communicate with the dead, especially the nasty spirit attached to a skull in Lockwood's home, add an additional layer of menace to an already creepy tale; Lockwood's secrets add intrigue and suspicion. The plot gallops along at a breakneck pace, giving little respite from the horrors within. For fans of scary fare, this page-turner is a dream (or nightmare) come true.-Elisabeth Gattullo Marrocolla, Darien Library, CT (c) Copyright 2014. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

After leaving Lockwood & Co. at the end of *The Hollow Boy*, Lucy is a freelance operative, hiring herself out to agencies that value her ever-improving skills. One day she is pleasantly surprised by a visit from Lockwood, who tells her he needs a good Listener for a tough assignment. Penelope Fittes, the leader of the giant Fittes Agency wants them--and only them--to locate and remove the Source for the legendary Brixton Cannibal. They succeed in their very dangerous task, but tensions remain high between Lucy and the other agents.

978-1-4847-0967-2 ©2016 464 pgs.

Grades 6 - 8 Dewey# Fic AR Lvl 5.2 AR Pts 17.0 RC Lvl 4.3 Lexile 690

Reviews by: Booklist *Starred Review* Though Lucy's making a go of it as a freelance psychic investigator, when Lockwood knocks on her door, asking for help with a case, she's willing to work with the old firm again. Their tasks escalate from eradicating the ghost of a cannibalistic Londoner to descending, unarmed, into a den of brutal thugs and thieves. Soon the four young Lockwood agents stumble upon their most alarming and momentous challenge yet. Dispatching a vicious ghost is one thing, but uncovering a vast scheme of calculated evildoing is quite another. While the novel's epic climax will please any lover of chills, thrills, and explosions, the simultaneous conversational counterpoint is not to be missed. A revelation in the concluding pages will leave readers wondering what dark secret lies behind the plague of spirits terrorizing England for 50 years. The wry first-person narrative is a pleasure, relating the story with an impeccable, understated sense of drama. Appearing at chapter headings, Adams' dark, richly atmospheric, and often ghostly vignette drawings can make even a sandwich look downright sinister. Stroud's scene setting and storytelling are second to none, but it's his ability to create credible, idiosyncratic characters and relationships that makes avid fans of the Lockwood & Co. series.--Phelan, Carolyn Copyright 2016 Booklist

#1937840 (Vol. 03) Hollow Boy (Hardcover (Trade))
written by Jonathan Stroud

As a massive outbreak of supernatural Visitors baffles Scotland Yard and causes protests throughout London, Lockwood & Co. continue to demonstrate their effectiveness in exterminating spirits. Anthony Lockwood is dashing, George insightful, and Lucy dynamic, while the skull in the jar utters sardonic advice from the sidelines. There is a new spirit of openness in the team now that Lockwood has shared some of his childhood secrets, and Lucy is feeling more and more as if her true home is at Portland Row. It comes as a great shock, then, when Lockwood and George introduce her to an annoyingly perky and hyper-efficient new assistant, Holly Munro.

978-1-4847-0968-9 ©2015 400 pgs.

Grades 6 - 8 Dewey# Fic AR Lvl 5.3 AR Pts 15.0 RC Lvl 4.4 Lexile 710

Reviews by: Booklist In the latest captivating volume of the Lockwood & Co. series, a new ghostly threat has forced officials to evacuate London's most afflicted area, which is now swarming with psychic investigators as well as apparitions. Lucy, one of the three intrepid investigators at her firm, returns early from a holiday to find that an administrative assistant named Holly was hired in her absence. She takes an instant dislike to the attractive, highly efficient, and now firmly ensconced newcomer, whose presence both Lockwood and George clearly enjoy. When a crisis takes all four to the center of London's worst paranormal disturbance, Lucy struggles to control her feelings, which the supernatural entity uses to magnify its fearsome destructive powers. From the banter among the young associates at Lockwood & Co. and the flaring of unruly emotions to the well-choreographed fight scenes involving monstrous spirits, Stroud brings his considerable storytelling skills to bear in this riveting sequel to *The Screaming Staircase* (2013) and *The Whispering Skull* (2014). Written from Lucy's point of view, the narrative has excellent pacing, fine descriptive passages, and a wry sense of humor. An unexpected development at the story's end will leave fans wildly impatient for volume four. – Carolyn Phelan

Reviews by: School Library Journal As in the previous volumes, *The Screaming Staircase* (2013) and *The Whispering Skull* (2014, both Disney-Hyperion), the latest escapades of Lockwood and Co., a ghost-hunting agency staffed by the crack team of Anthony Lockwood, George Cubbins, and Lucy Carlyle, starts with a hair-raising scene of murder, mayhem, and ghostly apparitions. Narrator Lucy finds herself on shaky ground as her ability to speak to ghosts grows ever more powerful and more dangerous, while changes to the agency in the form of a tidy, type-A assistant named Holly Munroe seem to spell doom for Lucy's future with the company. Meanwhile, *The Problem* grows exponentially worse and a fading, famous department store holds more horrors than Lucy has ever seen. A series of disturbing discoveries, building on revelations in the earlier books, make it clear that there is a more human malevolency than *The Problem* at work in London, and Lucy, George, and Lockwood are drawing ever closer to its source. As always, the descriptions of the hauntings are genuinely frightening, especially that of a spindly, humanoid creature that crawls on all

fours and whispers Lucy's name. VERDICT Pleasantly nightmare-inducing and as captivating as its predecessors. Fans of the series will anxiously await Lockwood and Co.'s spine-tingling adventures in the next installment.—Elisabeth Gattullo Marrocolla, Darien Library, CT

#2017781 (Vol. 05) Empty Grave (Hardcover (Trade))

written by Jonathan Stroud

Join Lockwood, Lucy, George, Holly, and their associate Quill Kipps on a perilous night mission: they have broken into the booby-trapped Fittes Mausoleum, where the body of the legendary psychic heroine Marissa Fittes lies. Or does it?

Reviews by: Booklist *Starred Review* It's not Lockwood & Company's finest hour. Breaking into Marissa Fittes's mausoleum and entering the booby-trapped crypt is routine, if unnerving. But the surprising contents of her coffin leave Lockwood, Lucy, George, Holly, and Kipps distracted and ill-prepared for dealing with the vengeful spirit they've just unleashed. On the upside, they gain a new client, a ghost who's fixated on destroying a mutual enemy, but the path to that end is dark and perilous. In addition to relating encounters with alarming specters and destructive human thugs, the fifth and final volume in the Lockwood & Co. series follows this team of young psychic detectives to the source of the mystery that darkens the entire series: What is causing the plague of dead souls that have been terrorizing London for half a century? Lucy tells the story in an offhand, yet perceptive way. Whether she's describing her enigmatic fellow investigators, their otherworldly adventures, or the disarmingly snarky ghost and sparring partner that she carries around in a jar, the engaging narration shines with imagery, insight, wit, and finesse. Stroud brings his intricate, series-long story line to a close with a complex, dramatic climax followed by a simple, satisfying conclusion. A first-rate adventure, full of memorable, original characters.--Phelan, Carolyn Copyright 2017 Booklist

Reviews by: Kirkus Reviews The Norse god of lies gets well and truly served for his misdeeds--stuck in Midgard (Earth) as an 11-year-old boy with one month to mend his ways. Sternly forbidden by Odin to use his godly powers and compelled to record his experiences in a diary that automatically flags every fib, Loki, or Liam Smith, endures massive frustration as every attempt to raise his rapidly falling Loki Virtue Score with good deeds falls afoul of both his ingrained trickster instincts and his general cluelessness about humans and their feelings. (It doesn't help that Thor, "god of bum thunder," comes along disguised as his rude brother.) Readers will have no trouble seeing where, time after time, he goes wrong...or spotting the literally faint signs of a voice of conscience that begin to appear on occasional pages even before he climactically hires himself out to a bully for a humiliating trick on Valerie, the one classmate he's managed not to alienate. Along with flavorsome Norse mythological references, Stowell peppers her whiny protagonist's daily entries with spiky pen-and-ink drawings of mostly White divines and humans, hand-lettered outbursts, and isolated cartoon panels with smart comments in balloons. At last, after Loki helps rescue Valerie from a quartet of frost giants and, more importantly, shows sincere remorse for doing her wrong, the one-eyed Allfather grants his request to stick around Midgard for future adventures in friendship and snack-food discoveries. Salutory reading for anyone who needs steering toward good behavior...or good-ish anyway. (Graphic adventure. 9-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

#2354971 (Vol. 02) Loki: A Bad God's Guide to Taking the Blame (Prebound)

written by Louie Stowell

Quantity
1
Unit Price
\$17.95

Norse god Loki records the highs and lows of living on Earth as an eleven-year-old in grumbles, snarks, and doodles in his enchanted diary. He might not have shown any moral improvement (yet), but Odin has given Loki another chance to prove himself worthy of Asgard. So far, Loki has managed to make only one human friend, Valerie, but is now irritated to learn that Valerie has made another friend, Georgina. Then, at Thor's birthday party (a pointless mortal ritual, though luckily there is cake), the magical hammer Mjolnir is stolen--and everyone suspects Loki! Can Loki find Thor's hammer, discover who the real thief is, and clear his name--or will his jealousy over Valerie's new friend cloud his judgment?

978-1-5364-8250-8 ©2023 5 x 7-1/2 288 pgs.

Grades 4 - 7 Dewey# Fic

Reviews by: Kirkus Reviews The Norse god of trickery gets another lesson in ethics when Thor's hammer is stolen. Confined to Midgard (Earth) in the form of 11-year-old Liam Smith by (as he puts it) "Poo-Poo Head Odin" until he can learn better behavior, the god of pranks continues the schooling begun in *Loki: A Bad God's Guide To Being Good* (2022). This time, he not only gets past major jealousy when Valerie, his one human friend, bonds with newly met fellow horse lover Georgina, but overcomes his deeply ingrained sense of self-righteousness to help save more than just this world from Frost Giants. Actually, along with folding in frequent glancing references to Norse myths, the author has salutary messages for much of the immortal supporting cast (and readers, too). Loki, his protestations of innocence ignored, is not only automatically accused of stealing the hammer of Thor, but turns out to have been framed by one of his Asgardian victims. A multitude of cartoon scenes, pages of sequential panels, and spot-art sight gags like a bag of dog poop labeled "MY LIFE" mingle with the boastful, self-absorbed preteen's records of his misadventures, including exchanges with his developing conscience and an admonitory magic journal that displays his wildly variable virtue score. Georgina and a teacher present as Black, the rest of the cast as White. More life lessons abob in poop jokes, boasts, and mythological references on the way to a bit of world-saving. #2378642 (Vol. 03) Loki: A Bad God's Guide to Ruling the World (Hardcover (Trade))

written by Louie Stowell

Norse god Loki's been able to avoid eternity in a pit of angry snakes, but living on Earth as an eleven-year-old is still a drag. When Thor and Loki's "parents" abandon them to go on holiday, Odin sends Balder--Thor's half brother and god of making Loki look bad--to babysit. Then there's the school play. Despite Loki's acting genius (it's lying, after all), Thor is cast as the wonderful prince, while Loki is the villain. What?!

Reviews by: Booklist In this sequel to *Podkin One-Ear* (2017), the enigmatic rabbit bard leaves Thornwood Warren along with a companion, a curious young rabbit who longs to become an apprentice storyteller. During their journey, the old rabbit continues the tale of Podkin and his quest to find the magical objects needed to defeat the evil Gorm. Like the mysterious bard, Larwood shines as a storyteller, providing an intriguing group of heroes with different strengths and vividly describing their experiences on a journey full of danger, suspense, and swashbuckling action. At

intervals, double-page black-and-white pictures illustrate their adventures and intensify the drama inherent in the Longburrow series.--Carolyn Phelan Copyright 2018 Booklist

Reviews by: Booklist The third Longburrow book opens with a framework story: an enigmatic bard faces an intimidating audience and begins a tale in which the Gorm begin a loud, mechanized destruction of the Forest. Shocked into action against their relentless enemy, Podkin and his rabbit friends find that they have some unlikely allies, from the previously hostile warren led by Podkin's uncle to wolves, two-legged beasts, and the mysterious bonedancers. The rabbits' growing treasury of magical objects becomes ever more vital as they plan and carry out their attack to stop the Gorm. The book's appendixes offer an introduction to the growing cast of characters as well as an illustrated, descriptive list of The Twelve Gifts of the Goddesses. Since many of these artifacts are still to be found, readers can hope for more quests, battles, and revelations to come. Double-page grayscale illustrations appear at intervals, adding an appealing visual dimension to the story. This well-crafted adventure will thrill fans of the Longburrow series with its well-drawn characters, dramatic pacing, and occasional humor. An accessible tale of heroism.--Carolyn Phelan Copyright 2019 Booklist

Unit Price
\$19.99

Reviews by: School Library Journal Gr 3-6—An unnamed unheroic lad retells his adventures competing in the Olympic Games with an appealing combination of bravado and humor. As an assistant to the Athenian representative of the ancient games, the hero weaves facts about daily life into the narrative, alongside short factual paragraphs set off with the caption "Get Real." The format is identical to other entries by the same author and illustrator in the series. The humor, line drawing illustrations, and predictability of the plot make it useful to reluctant readers, but it's not a necessary purchase. The whimsical pen-and-ink illustrations are appealing and provide support for readers unfamiliar with ancient Greece, as does the glossary at the end. Fictionalized history proves to be a relatively painless way to discover fifth-century Greece. The time line, which dates from 776 BCE to the 2020 postponement of the Games, combined with a short list of Olympic heroes from ancient and modern times in the back matter add to the value. If the 2020 Olympics had not been pushed back, this title could have seen more demand. VERDICT A useful package for reluctant readers; for reports where the topic is of interest.—Carol A. Edwards, Formerly at Denver P.L.

Reviews by: School Library Journal Gr 3-5-This epistolary novel follows the exploits of Ann, a young fossil hunter from a coastal town in Britain. Ann hunts along the rocky shoreline each morning for the "fish lizard bones" that her father sells as cure-alls to unsuspecting tourists. Ann believes she is inherently unlucky. Her luck seems to change the day Mr. William Armstrong, a fossil enthusiast, comes to town. Mr. Armstrong is impressed by Ann's finds and facilitates a fossil hunting trip to the American West. That is where the real adventure begins, rife with hijinks, villainy, and humor. This fictional tale is littered with interesting historical facts through the "Get Real" segments included in each chapter. A time line of dinosaur history is included, as well as biographical sketches of the real people on which the fictional characters are loosely based. The beginning of the book is a little disorienting-it is initially unclear who is narrating and from what time period-but readers who stick with it will be rewarded by a funny and enlightening story. VERDICT A humorous and informative read fitting for middle graders interested in paleontology.-Tiffany Davis, Mount Saint Mary College, Newburgh, NY Copyright 2018. Los Monstruos (Trade)

#2321107 (Vol. 01) Felice and the Wailing Woman (Hardcover (Trade))

written by Diana Lopez

When Felice learns that she's the daughter of La Llorona, she catches a ride to the magical town of Tres Leches, where her mother is said to be haunting the river. Guided by the magical town's eccentric mayor, Felice vows to help her mother make peace with the events that turned her into the most famous monstruo of US-Mexico border lore. Along the way, she meets the children of other monstruos, like La Lechuza and the Dancing Devil, and together they free Tres Leches from magical and metaphorical curses that have haunted its people for generations.

1	\$17.99

Reviews by: Booklist From the author who brought about the captivating picture book *Sing with Me: The Story of Selena Quintanilla* (2021), Lopez returns to deliver a charming, yet ghostly, middle-grade fantasy. Twelve-year-old Felice is being raised by her maternal uncle Clem and has a severe phobia of all things aquatic. Believing this terror stems from her mother being La Llorona, she sneaks off to her birth town of Tres Leches to visit the ominous river where it all began. Setbacks such as a mayoral debate and a mob of townsfolk who fear La Llorona add to Felice's obstacles. During the journey, she befriends three amazingly unique individuals who aid in her quest to find and better understand her mother's suffering. Lopez takes a popular Latin folktale and reimagines it as a bewitching adventure sprinkled with Spanish terminology. This story is an excellent reminder of how fear, anger, or sadness can make people do foolish things; though, with the support of friends and family, people can create happy memories.

Reviews by: Kirkus Reviews In this series opener, 12-year-old Felice discovers her mother is La Llorona and embarks on a journey of self-discovery. The magical town of Tres Leches, Tejas, is home to La Llorona, a famous spirit from Mexican folklore. Haunting the local river, she cries out for her lost children. When Felice--whose father is absent and who believes her mother is dead--learns the truth, she sets her sights on visiting the river and meeting her mother. However, her overwhelming fear of water is one obstacle. Another is the opposition of her guardian, Uncle Clem. But Felice ultimately travels from her Corpus Christi home to Tres Leches along with its quirky mayor, Reynaldo, Clem's best friend. There she learns that the town is less sweet than advertised: Despite the abundance of bakeries, the townspeople are unkind, and dangers lurk in even a field of bluebonnet flowers. Felice pairs up with two young outcasts who also have supernatural parents--Ava, the daughter of La Lechuza, and Rooster, the son of a devil--to reunite with her mother and save the town from its magical curses. Explorations of bullying, grief, loss, and fear permeate the landscape and are naturally woven into the story. The characterizations of the secondary characters are well developed. This intriguing adventure centering Mexican American characters gives a maligned monstruo a backstory that reframes her story sympathetically. It will leave readers anticipating the sequel. A fresh, feminist take on Mexican folktales, rooted in family, belonging, and acceptance. (author's note) (Fiction. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly The surviving child of a grieving ghost sets off to uncover familial mysteries in this folkloric series starter from Lopez (*Sing with Me*). Twelve-year-old Felice has always lived under the shadow of her mother and brothers' death by drowning. She was saved from the same fate by her uncle Clem, who has raised her in Corpus Christi, away from the river in Tres Leches, Tex., that "took my family and... almost took me." With the arrival of Uncle Clem's old friend Reynaldo, Tres Leches's mayor, Felice learns that her mother still haunts the river where she and her sons died, seeking her remaining child, Felice. Reynaldo campaigned on the promise of a revitalized river, and he's easily persuaded to take the girl back to Tres Leches, where she; alongside the children of other creatures from folklore; seeks to meet, and free, her mother's ghost. Between Felice's trauma-induced aquaphobia, the frightening reputation Felice's mother has as La Llorona, and the river running suddenly dry, reuniting mother and daughter proves difficult. Both a loving, magically tinged portrayal of border-town Texas and a literalization of folklore, Lopez's moving portrayal of familial love and grief interweaves a tale of acceptance with a genuinely chilling ghost story. Characters read as of Mexican heritage. An author's note concludes. Ages 8: 12. Agent: Stefanie Sanchez Von Borstel, Full Circle Literary. (Apr.)

Reviews by: School Library Journal sole survivor of an accident where her mother and brothers drowned. Raised by her maternal uncle Clem in Corpus Christi, TX, she lives a fairly normal life, other than a severe case of aquaphobia. But everything changes with the sudden arrival of Reynaldo, the Mayor of Felice's birthplace (Tres Leches, TX). Reynaldo comes with the shocking news that Felice's mother, now known as La Llorona, still haunts the river where she drowned, making it inaccessible. Felice must return to Tres Leches and save the day. Felice's adventure is filled with obstacles, many of them magical, on her way to save her mother and the town. Along with Felice, the town of Tres Leches introduces a quirky cast of characters, some also hailing from Mexican folklore like La Lechuza and the Dancing Devil. The story makes reference to various

Mexican traditions along with the use of Spanish terms throughout. The novel presents a great lesson on love, acceptance, and overcoming fears. VERDICT Recommended for readers who enjoy a fast-paced fantasy with folkloric roots. This is a good addition to any juvenile fiction collection, especially for those seeking shorter, less magic-heavy, books in the fantasy genre.--Hannah Pohl Copyright 2023 School Library Journal, LLC Used with permission.

#2380460 (Vol. 02) Rooster and the Dancing Diablo (Hardcover (Trade))

written by Diana Lopez

The magical town of Tres Leches, home to the figures of Texas-Mexico border lore, has been through a lot. Most recently, the town was released from a curse that kept La Llorona, the wailing woman, haunting the shores of their river. But just when the townsfolk were preparing to return to sunny riverside picnics and barbecues, the children of Tres Leches mysteriously began to go missing. The town suspects another monstruo, the Dancing Devil, is luring kids to El Camaron Dance Hall & Arcade.

Quantity	Unit Price
1	\$16.99

Reviews by: Booklist Grades 4-6 Hanging out at his father's workplace, the National Portrait Gallery, 12-year-old Art notices a suspicious anomaly: every afternoon at exactly the same time, a woman takes exactly the same number of steps along the same path through the Great Hall. After Camille, his friend and sleuthing partner, joins him and observes the woman, he convinces her that the thieves who masterminded the notorious art heist at Boston's Gardner Museum 30 years earlier are about to strike again, probably during the upcoming gala. When Art and Camille's initial investigation leads to embarrassment and reprimands, they back off, but a revelation at the gala sends them into action once more. Readers intrigued by the famous paintings mentioned can access them online by scanning QR codes within the book. Set in Washington, D.C., this fast-paced narrative features two likable, capable protagonists, a twisting plotline, and plenty of suspense. Kids who enjoyed *The Van Gogh Deception* (2017) will want to follow Art and Camille's latest adventure, and this sequel works equally well as a stand-alone. An appealing choice for mystery fans. COPYRIGHT(2020) Booklist, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews Art and Camille return to foil another art thief. Twelve-year-old Arthur Hamilton Jr. ("Art" to his friends) is certain that the National Portrait Gallery's newest exhibit is in danger. Art's father, recently appointed director of the gallery, doesn't share Art's concerns; the paintings are protected by several state-of-the-art security systems after all. But Art can't shake the feeling that something's up, and he ropes his friend Camille Sullivan into helping him expose the suspicious characters buzzing around the museum for the thieves they are. The novel mirrors its predecessor's mixture of propulsive plotting, dynamic character work, and nifty art facts. Fans of *The Van Gogh Deception* (2017) will be thrilled to see not much has changed here. The mystery provides a few pleasant twists and turns, culminating in a rousing conclusion that handily points to the next book without feeling incomplete. While the QR codes included effectively render the works mentioned, the scanning is sometimes difficult when using a digital copy of the book, interfering with the mystery's momentum. Thankfully the art history lessons never feel too artificially wedged into the narrative. The author's note discusses the notorious 1990 heist at the Isabella Stewart Gardner Museum, the subject of tantalizing discussion in this story. Art and Camille are White. A solid second helping. Grades 4 - 7 Dewey# Fic AR Lvl 5.3 AR Pts 8.0

Reviews by: Booklist Traveling to London to meet the father she has never known, 12-year-old Camille is accompanied by her mother and her best friend, Art, who is there to provide moral support. It's a good thing, too, because like her history professor-adventurer father, Camille has curiosity, quick wits, and plenty of courage, and those qualities sometimes lead her into trouble. Camille learns that her father has vanished, leaving behind a cryptic riddle within a stolen artifact. Convinced that he's in danger, she springs into action, while Art scrambles to keep them safe from the cruel thug who lands him in the emergency room and pursues Camille onto a precarious rooftop ledge above Westminster Abbey. While Camille is at the center of the action, the telling gives equal weight to Art's point of view. With a tight time frame, a fast pace, and plenty of action, this sequel to *The Van Gogh Deception* (2017) and *The Rembrandt Conspiracy* (2020) is a page-turner that can be enjoyed on its own, but it will particularly interest readers of the *Lost Art* series.

Reviews by: Kirkus Reviews Art and Camille go to foggy London town in this follow-up to *The Rembrandt Conspiracy*(2020). Camille's estranged father has come out of the woodwork and invited her to visit him in London, and of course, Art is happy to tag along for emotional support. Unfortunately, Camille doesn't get the heartwarming welcome she's longed for upon disembarking from the plane. Dad's a no-show, and it doesn't take long for the friends to discover a clue at his abandoned apartment that points to his whereabouts. Camille's dad is a professor of English Renaissance history with extensive knowledge of myths and legends, and it seems someone has snatched him up hoping to exploit his expertise to solve a long-lost mystery. Art and Camille must visit a variety of famous London sights in search of professor Tinsley. Twists and turns present themselves at just the right moments, and the White tween sleuths bounce off one another with comfortable familiarity as they solve the case. The QR codes remain frustrating to scan when reading a digital edition of the book, but the author is admirably effective at sliding art history lessons into the narrative at just the right times. The balance of character work, nifty art facts, and propulsive mystery-solving remains impeccable in this third entry. Fans will be delighted. Another strong entry in a consistently appealing series. (Mystery. 9-12) COPYRIGHT(2021) Kirkus Reviews, ALL RIGHTS RESERVED.

Quantity	Unit Price
1	\$16.99

Reviews by: School Library Journal Gr 4-7-Deep in the rainforest, there are animals who are daywalkers and those who are nightwalkers, and it is unnatural for the groups to ever meet. Mez, a young panther who lives with her aunt, sister, and cousins, is not content with walking only at night. While her family sleeps, she explores beyond their cave, making her a shadowwalker. When a constrictor named Auriel comes calling for Mez, she succumbs to his plea to join other shadowwalkers in defeating the ant queen who is imprisoned in the ziggurat. The animals are all heavily anthropomorphized, each with their own distinct personality. As with most adventure stories, the protagonists must contend with obstacles and villains to reach their ultimate goal. It is the camaraderie of the group, and their ability to work together, that makes this tale so charming. Readers will be cheering when Mez and the gang figure out the riddle of the ziggurat. VERDICT Just right for middle grade readers who want an engrossing fantasy adventure.-Elizabeth Kahn, Patrick F. Taylor Science & Technology Academy, Avondale, LA Copyright 2017. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

Reviews by: Booklist *Starred Review* In the year since the shadowwalkers met at the magical rain forest's ziggurat (The Lost Rainforest: Mez's Magic, 2018), the evil Ant Queen reemerged with her ant minions and plans to decimate Caldera. Now, with only 13 days until the next eclipse, a strong source of magic, the remaining five shadowwalkers young animals Rumi, Gogi, Mez, Chumba, and Lima reconvene to strategize how best to eliminate the Ant Queen. What they learn from Rumi's interpretation of the symbols on the ziggurat makes their mission all the more urgent: they are the Ant Queen's targets. If she can control or kill them, her rise to power will be more certain. Not only must they trust one another, but they must trust two animals (Sky and Auriel) that in the first book were perceived as traitors. Here the monkey Gogi's heart and caring nature become the group's moral compass. Several times the group appears doomed, yet, even when they triumph, dangers to the rain forest still lurk. Schrefer's second book in the Lost Rainforest series continues the enthralling fantasy adventures of this eclectic group of animals and hints at where the next threat to the rain forest will come from. Fans of Mez's Magic and Katherine Applegate's Endling #1: The Last (2018) will eagerly devour this.--J. B. Petty Copyright 2019 Booklist

#2149105 (Vol. 03) Rumi's Riddle (Hardcover (Trade))

written by Eliot Schrefer

When the shadowwalkers were victorious in their battle against the Ant Queen, they hoped their work to save Caldera was done. But the rainforest has begun to rumble. Rumi, a scholarly tree frog who can control the wind, must bring his band of animal friends to face the greatest danger they've yet faced--the giant volcano beneath the jungle itself. While Rumi has solved many riddles to get this far, wits and wind alone won't stop this foe.

Love Like Sky (Trade)

#2082500 (Vol. 01) Love Like Sky (Hardcover (Trade))

written by Leslie C. Youngblood

G-baby and her younger sister, Peaches, are still getting used to their 'blended-up' family. They live with Mama and Frank out in the suburbs, and they haven't seen their real daddy much since he married Millicent. G-baby misses her best friend back in Atlanta, and is crushed that her glamorous new stepsister, Tangie, wants nothing to do with her. G-baby is so preoccupied with earning Tangie's approval that she isn't there for her own little sister when she needs her most. Peaches gets sick - really sick.

Reviews by: School Library Journal, who prefers to go by Georgie or G-baby, is adjusting to life in her newly blended, African American family. She has moved to the suburbs with her mom and younger sister Peaches to live with her stepdad Frank and teenage stepsister Tangie, whose approval she is trying to earn. Meanwhile, she hasn't seen her dad much since he married Millicent. When Peaches gets sick, requiring a stay at the hospital, Georgie feels guilty for not being there because she snuck out to see a friend. This sweet story features themes of family relationships, friendship issues, testing boundaries, standing up for oneself, and first crushes. The story also touches briefly on difficult subjects including police brutality and racism as Tangie is planning to attend a peaceful protest with her college-age boyfriend. It's rare to find a middle grade novel that puts divorce and the complicated dynamics of blended families at the center of the story, a topic that is relatable to many readers. VERDICT Readers will fall in love with Georgie and her "blended-up" family as they navigate tough challenges and new family dynamics.--Sarah Polace, Cuyahoga

Lucky Luke's Hunting Adventures (Trade)

#2282427 Winner, Winner Turkey Dinner (Hardcover (Trade))
written by Kevin Lovegreen

Join Luke and his dad as they experience all the wonders of a big turkey hunt. At last, old enough to join Dad on a wild turkey hunt; Luke is bursting with excitement from the start. When he finally sees his first turkey roaming wild in the woods, he has to overcome his excitement and make sure he can take a good shot. What an adventure, what a day!

\$19.99

Reviews by: Booklist rom Filipino writer Villanueva is inspired by the legends of her childhood. Eleven-year-old Lulu lives with her adoptive family in Silanganan Village, a subdivision of Manila. After an earthquake erupts, Lulu starts seeing some recognizable creatures from Philippine mythology, like the tikbalang, wakwak, and aswang. Lulu and her sister, Kitty, must rescue their mom after she is taken by a wakwak. Villanueva's fun fantasy adventure takes us on a quest through the urban landscape of metropolitan Manila and includes details of street life in Silanganan: aromatic food vendors, high-speeding bucket trucks, and sari-sari stores. Tagalog words and phrases are sprinkled throughout the book and add to the overall atmosphere and world building. There's plenty of humor in this story, and it also touches on epilepsy and adoption in mixed-race families (Chinese and Filipino). A good pick for fans of Rick Riordan-style mythological fantasies, especially those who liked Erin Entrada Kelly's *Lalani of the Distant Sea* (2019) or Tracy Badua's *Freddie vs. the Family Curse* (2022).

Reviews by: Kirkus Reviews A Manila tween learns of her magical powers in this duology opener steeped in Tagalog mythology. Lulu has always known that she was adopted; the physical differences between her and her Chinese Filipina mother and sister, Kitty, are clear. Lulu's painfully aware that to the outer world, her darker skin and hair, flatter nose, and shorter stature make her "not 'pretty,' " unlike them. Still, Lulu and Kitty, both 11, are extremely close. Lulu's inner circle also includes best friend Bart and supportive adult friends. But her life is suddenly

shattered by a violent earthquake, the revelation that she's a salamangkero (someone with the power to "save the universe from falling into chaos"), and the kidnapping of her mother by a wakwak, a sharp-toothed flying creature. It also emerges that Lulu's adoptive and chosen family are deities and that Bart is an aswang, or were-dog shape-shifter. They're all trying to protect her from malicious spirit Maligno, who seeks to bring chaos to all three Realms: the Upperworld, the Middleworld, and the Underworld. Lulu, while trying to make sense of everything and explore her new powers, must now rescue her mom. Readers will be completely immersed in the book's fantastical and culturally and historically rich world, which features inclusive representation; Lulu's bisexuality is naturally woven into her characterization. Villanueva deftly balances complex worldbuilding, plot twists, and moments of levity while touching on serious themes such as colonization. Rich in adventure, intrigue, and magical fun. (author's note, glossary) (Fantasy. 9-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly All 11-year-old Luningning Sinagtala wants is "an ordinary life" in the Philippines with her adoptive Chinese Filipina mother and sister Kitty, also 11, in this high-energy exploration of Tagalog mythology, strong relationships, and self-identity by Villanueva (Sugar and Spite). But their physical differences ("My being dark and flat-nosed means I'm not 'pretty'") and her epilepsy make her feel like the odd one out. And when strange things begin happening to Lulu that other people don't seem to remember afterward; such as her single-handedly stopping a truck from hitting her and Kitty; she feels even more at odds with her family. As enchanted creatures descend upon her community, seeming intent on finding and targeting Lulu, she realizes that the Tagalog myths she learned about in school are real, and that she's been chosen by the Anito, or the spirits, to wield their power to protect the universe. Laugh-out-loud humor and a plethora of pop-culture references add contemporary sparkle to this vividly imagined and riveting fantasy adventure starring a charming protagonist whose quick wit and loyalty, as well as love for those around her, make her easy to root for. Ages 8: 12. (Jan.)

Reviews by: School Library Journal Gr 4-7--The first in what is sure to be a hit series full of magic, mythical beings, and an endearing cast of characters. Lulu was adopted when she was just a baby and has been brought up in a warm family consisting of her mom and sister Kitty. She has a relatively normal life in the City of Caloocan, learning about her Filipino heritage and spending time with an amazing array of people on her lively street. But one day, everything changes. When an earthquake hits, Lulu and Kitty are thrust into a new world full of magic and Tagalog deities, and a wakwak has kidnapped their mother. Along with their friend Bart, as the sisters embark on an epic journey to save their mother, they must rely on each other to stay safe in a world full of danger. Villanueva is a spectacular worldbuilder and does a remarkable job of depicting Tagalog mythology and Filipino history that is riveting, and also accessible to readers with no background in either. VERDICT A solid magical thriller that will leave readers anxiously awaiting Lulu's next adventure.--Tara Peace Copyright 2024 School Library Journal, LLC Used with permission.

Maggie and Nate Mystery (Trade)

#2177696 (Vol. 01) Mutant Mushroom Takeover (Hardcover (Trade))

written by Summer Rachel Short

Ever since Magnolia Stone's scientist dad left Shady Pines to find a new job, Maggie's been stuck in her gramma's mobile home with her grumpy older brother, Ezra. Now she's on a mission to put her family back together by winning the Vitaccino Junior Naturalist Merit Award.

978-1-5344-6865-8 ©2020 5-1/2 x 8-1/4 256 pgs.

Grades 4 - 6 Dewey# Fic Lexile 670

Quantity	Unit Price
1	\$17.99

Reviews by: Kirkus Reviews A budding scientist battles an insidious, glowing fungus. When friends Maggie and Nate decide to investigate paranormal activity in Old Man Bell's woods, Maggie hopes to take the perfect photo so she can win a contest that would allow her to meet with the board of the company that pretty much runs the small town of Shady Pines and convince them to rehire her father. The two friends have been through a lot together, but neither one is prepared for giant, neon bioluminescent mushrooms. Beautiful at first, deadly on further inspection, Maggie and Nate's fungal discovery leads them on a hair-raising race against time to save Maggie's brother, everyone in Raccoon Creek Trailer Park, all of Texas--heck, maybe even the world--from the mutant mushroom takeover! Written from Maggie's first-person perspective, with exaggerated characters and occasionally gross humor, this tale is reminiscent of a larger-than-life monster movie. With giant spiders, zombies, and a satisfyingly stinky solution, Maggie's adventure is packed with creepy, disgusting action. Some characters lack dimension, but Maggie herself is compellingly complex. The small-town setting allows for a contained cast, with White main characters. An author's note separates compelling science fact from fiction. With an abundance of STEM content, this book could easily springboard classroom discussion or library programming. Packed to the gills with fun. (Science fiction. 10-13) COPYRIGHT(2020) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 4-7--Eleven-year-old Magnolia "Maggie" Stone loves science and nature, and this summer she is determined to win Vitaccino's Junior Naturalist Merit Award. Not only will the award earn her \$500, but it will also give her the chance to speak to the Vitaccino board about her father getting his job back and coming home to Shady Pines. When her conspiracy theorist pal Nate asks her to come with him to investigate some mysterious lights in the woods, she agrees, hoping to capture a photograph that will earn her the top prize. But what she and Nate encounter in the woods that night is even more bizarre than either of them could have predicted. Maggie is a diligent scientist, recording her observations and hypotheses in her field notes. She is also a persistent and vocal advocate for her family and her town, even in the face of danger and a real conspiracy within Shady Pines' powerful company, Vitaccino. Young readers will likely identify with Maggie's tenacity,

and her frustration when adults seem unwilling to hear or believe her concerns. An author's note at the end of the book helps to ground some of the science fiction elements (such as zombie-creating mushrooms and anti-fungal bat poop) in the real world. VERDICT A fun debut novel with an action-packed climax that will leave readers eager to scope out the weirder side of nature.--Dana West, Roosevelt H.S., Seattle Copyright 2020 School Library Journal, LLC Used with permission.

#2240589 (Vol. 02) Attack of the Killer Komodos (Hardcover (Trade))

written by Summer Rachel Short

Having rescued her town from zombifying mutant mushrooms, eleven-year-old Magnolia Stone is ready for her next adventure! Maggie and her best friend, Nate, head to Yellowstone National Park to visit Maggie's park ranger dad.

978-1-5344-6868-9 ©2021 5-1/2 x 8-1/4 240 pgs.

Grades 3 - 6 Dewey# Fic Lexile 740

Quantity

\$17.99

Reviews by: Kirkus Reviews ungi in The Mutant Mushroom Takeover (2020), friends Mags and Nate are back to solve another science-gone-wrong mystery. While visiting Mags' park ranger father at Yellowstone National Park, the pair uncover a sinister plot involving animals never before seen in the park. The extraordinary creatures are terrifying--but even more alarming is the possibility that Mags' dad might be mixed up in all of it. The stakes get higher when a famous cryptid documentary crew shows up and a massive earthquake separates kids from adults. Encountering more earthquakes and incredible wildlife, Mags must use all her science knowledge and survival skills to get her loved ones out of the park alive. Veering more into adventure than the series starter, this story is better appreciated as a sequel. Mags' first-person narrative is action-packed with a liberal dash of snarky, sometimes gross, humor and dangerous elements that will keep readers' attention even though the madcap plot relies a bit too much on coincidence. Nate's goofy personality and budding YouTube career balance Mags' more serious, science-loving nature. The author's note provides insight into the science behind the story, and as with the previous entry, there are plenty of STEM connections, such as the way Mags uses her knowledge of pH as a weapon. The first book cues the main characters as White by default; this one includes some diversity in supporting characters. A humorous, genre-blurring survival story. (Science fiction. 10-13) COPYRIGHT(2021) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 4-7—For budding naturalist Magnolia Stone, exploring the backcountry of Yellowstone National Park is a dream come true. She is there with her family and her adventuresome best friend, Nate, who produces The Conspiracy Squad on YouTube. Nate is a fan of the supernatural, and he is convinced that Bigfoot inhabits Yellowstone and is determined to document it. Maggie's father is a park ranger and Nate believes that he is part of conspiracy to keep Sasquatch secret. Maggie and Nate get more than they bargained for when they find themselves separated from the group after an earthquake disrupts their trip. Finding themselves lost and possibly hunted by rogue Komodo dragons, they then discover they are on the set of a Finn Brody documentary, which is a once-in-a lifetime, big deal in their book! Readers will appreciate that author Short has a background as a science reporter. VERDICT A thrilling, fast-paced adventure book where readers discover awe-inspiring science with interesting and diverse characters.—Lisa Gieskes, Richland County P.L., Columbia, SC

Mango Delight (Trade)

Reviews by: Kirkus Reviews During a life-changing adventure in Hollywood, Mango Delight comes into her own. Mango, her dad, and her friend/crush TJ fly to Hollywood to audition for a TV show starring 16-year-old Destiny Manaconda, her favorite television star, whom they met in

New York City during the off-off-off-Broadway production of their school musical, Yo, Romeo!. Their two-day trip is all paid for, though that doesn't mean it will be incident-free, as indicated early on by the airline employee who assumes their party doesn't belong in first class. On this trip, Mango sees even more of Destiny's life up-close. An emancipated minor, Destiny lives in a mansion apart from her family and works hard to make her performances seem easy. While Destiny's manager whisks them around Los Angeles, revealing his plans for her little by little, Mango contemplates whether she even wants the glamorous life that Destiny has. While the events of her whirlwind experiences in Los Angeles change her, Mango remains the down-to-earth young person fans fell in love with in previous books: a fun, relatable character to follow through the ups and downs of discovering what life is really like for Black people in Hollywood, how to stand up for oneself, and the importance of valuing true friends and family. Glitz and glamour tempered by real-life concerns make this finale a winner. (Fiction. 9-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Mark of the Thief (Trade)

#1944632 (Vol. 01) Mark of the Thief (Paperback (Trade))
written by Jennifer A. Nielsen

When Nic, a slave in the mines outside of Rome, is forced to enter a sealed cavern containing the lost treasures of Julius Caesar, he finds much more than gold and gemstones: He discovers an ancient bulla, an amulet that belonged to the great Caesar and is filled with a magic once reserved for the Gods -- magic some Romans would kill for.

Reviews by: School Library Journal Gr 6-9-A fantastical alternate history set in ancient Rome. Nicolas Calva and his sister are slaves in the mines outside of Rome. When Nic is forced to retrieve treasure from Julius Caesar's cave, he assumes he is going to his death. But inside the cave he finds a bulla, a magical amulet thought to have given Caesar great power, and takes it for himself. Suddenly, Nic is the most wanted fugitive in Rome. The emperor and a powerful general are after the amulet and they will kill Nic to get it. His only help is Aurelia, a plebian girl who is searching for her own family. With no one to trust and nowhere to hide, the protagonist must decide how he is going to save his sister and get out with his life. He doesn't want the bulla or the responsibility of the magic it contains, but if the magical object gets into the wrong hands, Rome will be at war and Nic will be at the center of it all. Fans of Nielsen's "Ascendance" trilogy (Scholastic) will be clamoring for this new series. This genre mash-up of history, fantasy, and action/adventure is fast-paced and explores themes such as class struggles, familial ties, and the immorality of slavery. Readers will have lots to digest as they quickly flip through the pages to see how Nic will escape his enemies to become a free man.- Kimberly Garnick Giarratano, Rockaway Township Public Library, NJ (c) Copyright 2014. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

written by Jennifer A. Nielsen

When the Praetors capture Nic's mother, Nic knows he must do anything to save her. He challenges the Praetors to a chariot race. If he wins, they will release his mother. But if he loses, he must hand over a magic that will certainly bring about the end of Rome -- as well as his own life. Can Nic once again harness his magic and gather the strength to defeat his enemies? Or will he lose his mother and bear witness to Rome's destruction?

Reviews by: Booklist Though Nic is no longer a slave, he still feels powerless. His grandfather, General Radulf, controls almost every move he makes, at least until the Praetors an opposition group to the Roman government make themselves known. They have captured Nic's mother and are threatening to kill her unless he agrees to use his powerful bulla talisman to create a Jupiter Stone. But Nic knows they intend to destroy all of Rome with the stone, so how can he possibly win? The novel's Roman mythology connections, along with strong characters who are shrewd, if somewhat predictable, will have great appeal for fans of Rick Riordan. Heavily plot-driven with a movie-script feel, the novel suffers as Nielsen struggles with pacing for the first two-thirds, but those who persevere will be rewarded with a stellar climax. Familiarity with its predecessor, Mark of the Thief (2015), is a must, so be sure to read this series in order.--Moore, Melissa Copyright 2015 Booklist

#1989973 (Vol. 03) Wrath of the Storm (Hardcover (Trade))

written by Jennifer A. Nielsen

Trouble has a way of seeking out Nicolas Calva, and it's not likely to leave him alone any time soon. With Caesar's magic bulla, the Malice of Mars, and the possibility of a Jupiter Stone in play, all the powers of Rome are circling Nic. He'll have to maneuver his way through scheming government officials and reawakened magical beasts to save the Empire. Can he manage to keep his friends and family safe, claim his own freedom once and for all, and rescue the Empire -- before the magic gets the better of him?

Reviews by: School Library Journal Gr 7 Up-In a story that is at once evocative of Lois Lowry's *The Giver* (Houghton, 1993), George Orwell's 1984, and Aldous Huxley's *Brave New World*, Condie introduces readers to the "perfect" Society. Cassia Reyes is a model student, daughter, and citizen. How could she not be when the Society has everything planned and functioning perfectly? All of her needs are met: food, shelter, education, career training, and even her future husband are selected by officials who know what is best for each individual by studying statistical data and probable odds. She even knows when she will die, on her 80th birthday, just as the Society dictates. At her Match Banquet she is paired with Xander, her best friend and certainly her soul mate. But when a computer error shows her the face of Ky, an Aberration, instead of Xander, cracks begin to appear in the Society's facade of perfection. A series of events also shakes her dedication to Xander and puts her future in jeopardy. Cassia exhibits some characteristics of Winston Smith and Lenina Crowne in her silent rebellion against societal control and in her illicit friendship with Ky but ultimately, and more satisfyingly, she is more like Lowry's Jonas. Her awakening and development are realistically portrayed, and supporting characters like Cassia's parents and her grandfather add depth to the story. The biggest flaw is that the story is not finished. Fans of the *Giver* will devour this book and impatiently demand the next installment.-Anthony C. #2219809 Hunter's Choice (Hardcover (Trade))

written by Trent Reedy

Twelve-year-old Hunter Higgins has been dreaming about his first hunting trip for as long as he can remember. He's taken the classes, earned his license, and become one of the best marksmen in his family. Now he's old enough to join his father, grandfather, and uncle at their cabin for the first weekend of hunting season.

Reviews by: Booklist Grades 4-7 Twelve-year-old Hunter Higgins, whose favorite book is Hatchet, is beside himself with excitement; he's about to go on his first hunt with his father, grandfather, and Uncle Rick. The Higgins men's passionate devotion to the sport is the very reason the boy was named Hunter. But can he live up to that name? The first day of deer hunting puts it to the test when Hunter finds he's unable to shoot a magnificent buck because it's so beautiful. "Coward," he bitterly calls himself, "failure, hippie." He is only partially mollified when Uncle Rick, whom he reveres, talks with him about the philosophy of hunting and "the awesome, the holy power to kill." Hunter will test that thesis when, later, he and his uncle find themselves in mortal danger. This is a well-written but sometimes didactic paean to hunting that is otherwise notable for its verisimilitude and well-realized setting, the Idaho wilderness. The book's uncritical devotion to hunting recommends it for classroom use, where it may well invite discussion and debate. COPYRIGHT(2021) Booklist, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews Can Hunter live up to his name? Hunter Higgins is 12, and it feels like his whole life has been leading to this

weekend: his first deer hunt. His family is a hunting family, and their land in the Idaho wilderness has been its emotional center for decades. Hunter's taken all the classes, has perfected his shooting, earned his license--but still he wonders whether he can actually take a life. He keeps this worry bottled up as his family gathers at their lodge: his father, his grandfather, his uncle, and his cousin, Yumi, who's also 12--and, unexpectedly, Yumi's friend Annette, their classmate and Hunter's secret crush. Now Hunter has to navigate his family's expectations and Annette. Reedy introduces a powerful subplot in Yumi's difficult relationship with her father, a veteran whose experiences in Afghanistan have left hidden scars. Reedy's familiarity with the terrain, the culture of the outdoors, and combat breathe authenticity into the narrative; as Hunter reflects, "A non-shooter would probably never be able to understand what this felt like." Hunter's rural Idaho world is populated by folks like the Higginses; the ethics of hunting are not called into question. It is also mostly White, with Yumi and her mom's presumed Japanese heritage hinted at in their names. Readers from outside Hunter's culture may find such details as the lodge's all-camo decor cartoonish, but those from within it should feel at home. For kids who, like Hunter, can't get enough of Hatchet. (Fiction. 8-12) COPYRIGHT(2021) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly In the small town of McCall, Idaho, Hunter Higgins, 12, has spent years preparing for "the weekend of his first-ever hunt," a coming-of-age ceremony in his white family. Now that he's completed gun safety training, Hunter finally gets to join his lawyer father, construction worker grandfather, and Uncle Rick, an Army National Guard member; who served in Afghanistan 10 years ago and whose PTSD-like symptoms threaten to estrange him from his wife and daughter; on the last hunt of the season. There's just one problem: though Hunter desperately wants to bag his first buck to prove himself, he feels deep uncertainty over killing an animal. His plans are upset when Yumi, Uncle Rick's half-Japanese, half-white daughter and Hunter's best friend and classmate, and her bespectacled friend Annette Willard, Hunter's secret crush, show up at the family lodge to join the hunt, shifting the hunters' all-male dynamic. Vividly realistic passages about shooting and hunting enrich the narrative, while explorations of toxic masculine attitudes in hunting culture, fear of failure, and trauma underscore the steady action. Though a slightly contrived final act and overly neat ending muddle the thematic impact, intertwining Hunter's growth with his uncle's narrative makes for an emotionally satisfying read. Ages 9: 12. Agent: Ammi-Joan Paquette, Erin Murphy Literary. (Mar.)

Reviews by: School Library Journal Gr 5-7--Turning 12 is a big deal in the Higgins family, because it means Hunter can be part of hunting expeditions. The sixth grader, who is white, is ready--he's taken the safety courses, learned the skills, and has had plenty of target practice--but he's not sure if he'll be able to actually shoot a living deer. Reedy lightly explores topics like mental health and gender dynamics, but the character development remains secondary to the plot. VERDICT Recommended for fans of hunting adventure stories or others looking for a plot-driven middle grade book with a modern rural setting. Not a first purchase.--Gesse Stark-Smith, Multnomah County Lib., Portland, OR Copyright 2021 School Library Journal, LLC Used with permission.

#2267316 Racing Storm Mountain (Hardcover (Trade))

written by Trent Reedy

Kelton Fielding has always felt out of place, never sure what to say to his peers who, truth be told, only tolerate him. When a snowmobile race is announced at McCall's annual Winter Festival, Kelton sees his chance to impress his classmates. He'll fix up his old sled and get it running, and he's planned out a risky shortcut through the wilderness that he's sure will win him the prize. But when the popular Swann Siddiq and Kelton's nemesis, Hunter Higgins, follow him into the backcountry, Kelton quickly runs into trouble and realizes that the competition is the least of his worries. With bad weather closing in and the risk of avalanche on the mountain, Kelton and the others find themselves in real danger, relying on their wits and teamwork to survive.

978-1-324-01139-2 ©2022 5-1/2 x 8-1/4 176 pgs.

Grades 6 - 8 Dewey# Fic Lexile 750

Quantity	Unit Price
1	\$17.95

Reviews by: School Library Journal ee middle school students—Swann, Kelton, and Hunter—whose dedication to competing might j st cost them their lives. Swann is the child of rich Hollywood movie stars, Kelton comes from a single-parent household with little to no ext a funds, and Hunter (Kelton's enemy) is somewhere in between. When Kelton attempts a shortcut during the race, the other two follow him into d ngerous land, getting trapped by an avalanche and seeking shelter in a mine to survive. Reedy's writing style evokes classic authors like Gar Paulsen and Terry Lynn Johnson, but this book is also more than an adventure story. Rich dialogue ensues as the trio learn more about each othe r, exploring the differences they face due to their families' socioeconomic statuses. In the midst of disaster, Swann, Kelton, and Hunter have realistic concerns that will resonate with tweens. A minor plot hole involving Kelton and a pawned knife (the pawn industry is regulated and Kelton is underage) doesn't detract from this skillful, exciting companion to Hunter's Choice. VERDICT A complex novel exploring socioeconomic status and friendship wrapped in an engaging adventure story.—Nathan Neal

#2314381 Fishing in Fire (Hardcover (Trade))

Quantity	Unit Price
1	\$18.95

written by Trent Reedy

Things are tense for the middle schoolers in McCall, Idaho, so when Annette Willard suggests a fishing trip, Swann Siddiq, Kelton Fielding, and Hunter and Yumi Higgins all jump at the chance to get away from the drama. The group ventures out into the Idaho woods to Annette's favorite river spot. But with the other four coupling off, Yumi quickly feels like she's the only one catching fish, not feelings. Letting the others stay behind, Yumi makes her way home when she runs into Swann's rival, McKenzie Crenner, and her friends--and instantly connects with professional fisher Mason Bridger. But when they spot smoke rising in the woods between town and their fishing spot, they realize there's a forest fire raging--and closing in on them. The two friend groups must put aside their feud and work together if they're going to get out of the forest alive.

Me VS. the Multiverse (Trade)

#2167379 (Vol. 01) Pleased to Meet Me (Hardcover (Trade))

written by S. G. Wilson

It all starts with a note folded into the shape of an origami octopus: "Hi, Me. Yes, you. You're me, and I'm you." If you believe this and the other origami notes that follow--which middle schooler Meade Macon absolutely, positively does NOT--the concept of parallel dimensions is true, and there is a convention full of alternate versions of Meade waiting for his RSVP. It's got to be a joke.

978-1-9848-9575-2 ©2020 5-1/2 x 8-1/4 272 pgs.

Grades 4 - 7 Dewey# Fic Lexile 740

Quantity	Unit Price
1	\$16.99

Reviews by: School Library Journal Gr 3–7—Meade Macon is a pretty average kid with a knack for intricate origami. When he finds a number of invitations to MeCon combined with the origami folds he invented, he's confused but intrigued. When he arrives at MeCon, he's met with 98 versions of himself from 98 unique parallel universes. MeCon was advertised as a way for the different Mes to get to know each other, but there's clearly something more sinister at stake. With the help of some fellow Mes, will Meade (aka Average Me) be able to thwart Meticulous Me and his evil plot? Is Meade actually so average after all? This fun, quick read will appeal to kids who like humor and adventure without the scary. There are loads of Mes to keep track of, but with names like Hollywood Me, Resist Me, Disco Me, and Motor Me, it's not too hard to follow. The engaging plot moves quickly enough to keep readers interested. The story includes many cheesy, intentionally obvious pop culture references, and some may be lost on younger readers. Most kids will, however, enjoy the abundant toilet humor and general quirkiness of the story. VERDICT This is a good book for bridging the gap between early chapter books and more advanced middle grade fiction. A secondary purchase for larger libraries or those with robust middle grade readers.—Jessica Trafton, Skidompha Lib., Damariscotta, ME

#2235136 (Vol. 02) Enough about Me (Hardcover (Trade))

written by S. G. Wilson

Saving the multiverse starts with another origami note: Make it here, pronto. This time Meade Macon, aka Average Me, knows that parallel dimensions are real. He's met dozens of his counterparts from other Earths. What he doesn't know is that they're all about to get zapped out of existence.

Reviews by: Booklist Fans of Michael Vey will not be disappointed in this high-octane addition to the series featuring a boy who can manipulate electricity and who tries to stop the nefarious Dr. Hatch from controlling the world's power. Picking up from the final escape scene in Rise of the Elgen (2012), Michael finds himself in the Amazon rain forest. There, he joins forces with Tessa, whose ability to amplify powers comes in handy as they try to free the other Glows still held captive. Evading both the Elgen and Peruvian armies, the teenage Electroclan try to stop Dr. Hatch and return home once and for all. While the character development is shallow and the dialogue sounds dated, Michael and his friends are appealing, uncomplicated protagonists. Chaste romantic scenes and a conspicuous lack of profanity may widen the audience. Readers new to the series may be confused by the large cast and lack of backstory, but the relentless pace and constant one-liners should keep the pages turning easily.--Hayes, Summer Copyright 2014 Booklist

#1780070 (Vol. 04) Hunt for Jade Dragon (Michael Vey) (Hardcover (Trade))
written by Richard Paul Evans

Michael, Taylor, Ostin and the rest of the Electroclan head to China in search of a girl who may have discovered why Michael and his friends became electric. Her name is Lin Julung, or Jade Dragon, and she's a child prodigy with an IQ higher than Einstein's--"and" Ostin's.

978-1-4814-2438-7 ©2014 320 pgs.

\$19.99

Reviews by: Booklist Grades 7-10. Michael Vey and the Electroclan gear up for another adventure in the fourth volume of the popular series. A method of replicating the electric children has been discovered, but the formula is locked inside the brain of a deaf, mute autistic savant named Jade Dragon, and Dr. Hatch will stop at nothing to get her to reveal it. Vey and his team must travel to Taiwan to rescue the girl, but Hatch has a powerful army and his own team of Glows that would like nothing better than to see Vey die. Expectant fans will find much to enjoy, with plenty of plot twists, double-crossing characters, and endless action that propels the classic battle between good and evil. Michael and his crew embody strong moral values, emphasizing loyalty and bravery, but the heavy reliance on antiquated Asian stereotypes is off-putting. Purchase for collections with heavy demand for the series.

Reviews by: Kirkus Reviews An autistic genius is in the hands of the enemy, and it's up to Michael Vey and his fellows in the Electroclan to save her. The Electroclan is regrouping on a top-secret ranch after striking a major blow against the villainous Dr. Hatch and the Elgen. The evil empire's flagship vessel, the Ampere, has been blown out of the sky, but Hatch's plans for world domination are still strong. His next nefarious deed is the abduction of the young Jade Dragon, a girl whose special gifts can make all of Hatch's evil dreams come true. The author mixes this sci-fi nonsense with just the right amount of fun, evoking Saturday-morning-cartoon heroics. It's hard not to see the influence of GI Joe and The Transformers in the Electroclan's adventures. Dueling factions and two-dimensional characters never get bogged down in the superserious mumbo jumbo that trips up many teen adventure series. This individual episode has a refreshingly intimate feel. The heroes' main objective isn't destroying a secret base or executing an evil potentate but instead a simple rescue mission. The relatively narrow focus allows for a more tangible, and therefore more satisfying, victory. A brisk pace and smart characterization make this an easily digestible adventure, and the requisite cliffhanger promises larger stakes for the next go-round. A series that is shaping up to be quite a fun ride. (Adventure. 10-14)

#2368584 (Vol. 03) Biggest Secret Ever! (Hardcover (POB))
written by Wanda Coven

Heidi is making new friends at Broomsfield Academy--in particular, a popular girl named Isabelle. But it turns out Isabelle has a big secret that Heidi discovers by accident! Heidi promises to keep the secret, but as more time goes by, it becomes more and more difficult.especially with nosy Melanie Maplethorpe snooping around. This secret is huge. Will Heidi be able to keep her promise?

Quantity 1
Unit Price \$14.99

Reviews by: Kirkus Reviews Heidi Heckelbeck is a witch and first-year student at Broomfield Academy, a boarding school that educates magical and nonmagical kids alike. Heidi's an ordinary tween, concerned with clothes, friendships, crushes (currently on Nick Lee, who's not in the School of Magic), and her tenuous relationship with Melanie, her often-mean "broommate" and acquaintance from home. She's also excited about learning witchcraft and is pleased to receive private magic lessons from Mrs. Kettledrum. Her teacher instructs her in calming meditation techniques as a prelude to mind-reading and emergency spells. Sometimes Heidi writes spells enthusiastically but incorrectly, however, with unintended consequences. She also faces a difficult decision about revealing a big secret about new friend Isabelle. Heidi pushes the boundaries of appropriate behavior (both in the real world and the magical one) and must think hard about self-discipline. Breezy and fun, this volume will satisfy devotees who have enjoyed following this engaging character since she was in elementary school, with each entry slowly but surely moving up in complexity as Heidi grows and becomes a little more serious. Her latest adventures are delivered with the usual humorous grayscale illustrations and fonts that vary in size and style, moving the story along quickly. The volume will entice new fans, welcome reluctant readers, and please those who have been awaiting Heidi's latest exploits. Isabelle reads Black; other central characters are cued white. Fun middle school antics with a dollop of light magic and considerations of loyalty. (Fiction. 9-12) COPYRIGHT(2024) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 3-7—In this latest entry of the "Middle School and Other Disasters" series about witch-in-training Heidi Heckelbeck, Heidi is excited to be chosen for private magic lessons with Mrs. Kettledrum, beginning with meditation techniques to help her master mind-reading. She has a blossoming crush on a non-magical student named Nick, and a new friend named Isabelle. Everything is going well until she discovers that Isabelle has a big secret: she is a princess from a magical royal family. Heidi promises Isabelle she won't tell anyone, but she is bursting to share the big news, and accidentally reveals it to her gossipy roommate Melanie Maplethorpe. She tries to use an emergency spell on Melanie to make her forget Isabelle's secret, but in the process makes Melanie forget who Heidi is! Luckily, Mrs. Kettledrum can read Heidi's thoughts and helps her with a new emergency spell to undo her mistake without revealing Isabelle's secret. This novel is full of relatable middle school experiences: crushes, secrets, navigating new and old friendships, and struggling to do the right thing. Although it assumes some knowledge of the previous books, new readers will still be able to understand and engage with the story. The variable font size and cartoon-style black-and-white drawings by Abramskaya add to the book's readability and charm. Although the background of the characters is never explicitly stated, Heidi, and many of the other main characters, appear white in illustrations, while Isabelle and Nick have darker skin. VERDICT A solid new addition for Heidi Heckelbeck fans that could also serve as an entry point for new readers.—Ashley Larsen

#2323255 (Vol. 01) Worst Broommate Ever! (Hardcover (POB))

written by Wanda Coven

It's goodbye, Brewster Elementary and hello, Broomsfield Academy when Heidi starts middle school at the only school in the country that has secret classes for witches in training! Heidi is excited but nervous about living on her own and making new friends (and new crushes)! Her first day takes a turn for the worse when Heidi discovers her roommate is none other than her old rival, Melanie Maplethorpe!

Reviews by: Kirkus Reviews With her witch mom and human dad, Heidi Heckelbeck was first introduced to readers in a long-running eponymous series about her elementary school life. Now she's off to middle school at Broomsfield Academy, her mom's alma mater. The boarding school, ostensibly an ordinary one, secretly provides special classes for witches and wizards. Those with magical talents must keep them secret, but that's hard for Heidi. To her great dismay, her "broommate" is her nemesis from home, Melanie Maplethorpe. Is the rude, mean girl of her nightmares also a witch? Despite the rules against using magic outside her special classes, Heidi uses her powers to play a prank on Melanie, whose music is too loud. When the girls are partnered during Broommate Bonding Day, they find out that they are more alike than they think--but that doesn't mean it's completely smooth sailing ahead, especially when both of them have crushes on the same boy. There are sweet, detailed, grayscale illustrations scattered throughout, and many of Heidi's thoughts are emphasized in different type sizes. The story moves quickly, and it may particularly appeal to reluctant readers. Loyal readers of the first series can easily transition to this, and others looking for an accessible read with a touch of magic will also enjoy it. Heidi and Melanie appear White; some secondary characters bring racial diversity. Serves up light sorcery mixed with middle school friendships. (Fiction. 9-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal in Comity, MA, in this stand-alone companion novel to LaRocca's Midsummer's Mayhem. After moving to Comity, 12-year-old Trish Das worries about being accepted as the only girl on her baseball team. Making matters worse, Trish's math puzzle competition rival Ben Messina plays on the same team. Insecure about his baseball skills and resentful of Trish's most recent math competition victory, Ben clashes with her while his best friend, Abhi, schemes to get the two to become friends (a la Much Ado About Nothing). In this book told in alternating perspectives, Trish and Ben stumble across copies of a mysterious book called The Mathematics of the Wild, whose odd math puzzles seem to magically help the team and bring the former rivals together. But when the books disappear just before the championship game, Abhi's life is endangered and they must seek answers in Comity's enchanted woods. Fans of Midsummer's Mayhem will delight in a return to the richly developed setting of Comity and its familiar quirky characters. A relatable sports plot about rivalry, teamwork, and forgiveness is elevated by lyrical descriptive writing and the unique intersection of mathematics and nature in the book's puzzles, which readers will be eager to solve. Trish is Indian American, and Ben is white. **VERDICT** This ambitious, layered story pulls together sports, Shakespeare, and mathematics while conveying a sweet, accessible message of the value of friendship and forgiveness. Recommended for all collections; hand to fans of Stacy McAnulty's The Miscalculations of Lightning Girl or Erin Yun's Pippa Park Raises Her Game.—Elizabeth Giles, Kansas City P. L., MO

#2104891 Midsummer's Mayhem (Hardcover (Trade))
written by Rajani LaRocca

When the new bakery in town holds a contest, Mimi is determined to win and find her place among her successful brethren. But when she starts experimenting with the exotic ingredients she finds deep in the forest, the treats she bakes become simply irresistible and almost... magical, and strange things start happening throughout the town. Contemporary-fantasy retelling of Shakespeare's A Midsummer Night's Dream.

 Grades 4 - 7 Dewey# Fic AR Lvl 4.7 AR Pts 9.0 Lexile 670

Quantity **Unit Price**
 1 \$17.99

Reviews by: Publishers Weekly As the curtain raises on this reimagining of A Midsummer Night's Dream, Indian-American Mimi, 11, is reading her favorite cookbook when she hears a song drifting from the woods "like an irresistible aroma." Debut author LaRocca liberally uses food metaphors to underscore Mimi's passion for baking, which she shared with her sorely missed best friend who moved away. Hints of Shakespeare surface as Mimi's brother Henry spouts lines from the school production, in which he plays Puck, whose character traits are reflected in Vik, the mysterious pipe-playing boy who befriends Mimi in the forest. While she experiments with recipes in hopes of winning a celebrity-judged Midsummer's Eve baking contest and proving herself to her high-achieving parents and siblings, Mimi's family and neighbors start talking and

acting out in puzzling, inexplicable ways after sampling her herb- and flower-based confections. Though this mayhem provides some humorous moments, repetition and overstatement impede the pace of the story, until LaRocca; with Vik's help; ties together its myriad threads in a satisfying finale. Enchantment reigns, yet the author's exploration of family, friendship, and self-esteem are firmly grounded in reality. Final art not seen by PW. Ages 8: 12. Agent: Brent Taylor, TriadaUS. (June)

Reviews by: School Library Journal Gr 4–7—Eleven-year-old Mimi Mackson is the youngest in a family of overachievers. Between her older siblings' many activities and her parents' busy work lives, Mimi feels lost in the shuffle and longs for her own moment in the spotlight. When she learns about a contest held by the mysterious new bakery in town, Mimi sees a chance to distinguish herself and jump-start her dream of becoming a celebrity chef like her idol Puffy Fay. But she struggles to find inspiration with the loss of her best friend Emma, who recently moved to Australia, and the advice of her dad, who overnight seems to have lost his impressive sense of taste. Then one day, while searching for ingredients and ideas in the woods, Mimi meets a boy who shows her areas she's never visited before. She is surprised to discover Banyan trees and a wild boar in the Massachusetts forest, along with delicious nectar-filled flowers and other ingredients that she incorporates into her baking. Things at home go from weird to weirder, with her father continuing to eat more food than seems humanly possible, her sisters caught up in an intense and absurd love triangle, and her brother suddenly in love with his own reflection. Despite the mayhem, Mimi pushes forward toward her goal of winning the contest. This delightful and delicious spin on Shakespeare's *A Midsummer Night's Dream* flows beautifully into a sensitive and thoughtful novel that addresses family dynamics and self-confidence alongside mouth-watering descriptions of food. Readers will relate to Mimi's attempts to stand out and find her place and will be thrilled by the magical baking. **VERDICT** A first purchase for most libraries, especially where titles like Kathryn Littlewood's "Bliss Bakery" and Anna Meriano's "Love Sugar Magic" series are popular.—Kristy Pasquariello, Westwood Public Library, MA

Mihi Ever After (Trade)

#2323825 (Vol. 02) Giant Problem (Hardcover (Trade))
written by Tae Keller

Mihi and her friends Savannah and Reese have been back from the Rainbow Realm for a few months, and none of them can get it out of their minds. When Mihi's former best friend, Genevieve, goes through the fridge and into the fairy world herself, Mihi and her friends know that they're the only ones who can save her. But when the girls arrive in the fairy tale realm, they discover a giant and an enormous beanstalk have wrought a new kind of havoc in the fairy world, and Genevieve isn't the only one who needs saving.

Reviews by: Kirkus Reviews Three friends face one giant problem. Since narrowly escaping many dangers in *Mihi Ever After* (2022), Korean American Mihi Whan Park has been afraid to admit her secret to besties Reese and Savannah: She misses the Rainbow Realm and its magic. When Genevieve, Mihi's former best friend and current archnemesis, is near tears due to punishment for a fight they got into at school, Mihi impulsively tells her about the Rainbow Realm in an attempt to cheer her up. Soon after, Genevieve disappears--and Mihi discovers her backpack near the portal. Mihi, Reese, and Savannah decide they ought to rescue Genevieve even though "she's rude and a little spoiled and she doesn't seem to care about other people's feelings." They are surprised to find the Rainbow Realm in dire straits thanks to a large beanstalk and a giant who has been stealing the rain. The action-packed plot maintains a brisk pace as the trio meet with familiar characters, friendly and otherwise, and learn that Genevieve has gone searching for the giant's gold. Using a spell, the three girls disguise themselves and sneak into the giant's ball. Even though they are captured, with a bit of magic and ingenuity, they are able to save the day. Keller deftly explores both perseverance and the evolving nature of friendships that sometimes need to end. Readers would benefit from familiarity with the first book. The ending paves the way for another adventure. Final art not seen. A high-interest fantasy romp. (Fantasy. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

#2366031 (Vol. 03) Off the Rails (Hardcover (Trade))
written by Tae Keller

Mihi, Reese, and Savannah thought their fairy-tale realm adventures were over. But just as they were getting ready to go home, they learn that their first friend in the realm, Princess Pat, has disappeared on a quest of her own. Pat is traveling around the fairy world trying to gather enough magic to save the Rainbow Realm, but the journey is too dangerous, and Mihi, Reese, and Savannah are the only ones who can save her.

training turns out to be more than Mihi bargained for, and the fairy tale world is not the wonderful place she imagined. Soon, Savannah and Reese decide they're ready to go home, and Mihi has to decide where her loyalties lie: With her friends and her future at home, or with her princess dreams?

978-1-250-81431-9 ©2022 5-1/2 x 8-1/4 240 pgs.

Grades 3 - 6 Dewey# Fic AR Lvl 4.6 AR Pts 5.0

Reviews by: Booklist Grades 3-6 In this cute middle-grade fantasy, fairy tale-loving readers will get to visit the magical land where all their favorite characters live. Korean American Mihi desperately wants to be a princess but feels like she doesn't quite fit in. She unexpectedly meets some new pals (and fellow misfits) in the school library, and, like something out of Narnia, they discover a portal into a magical land. Unfortunately, they get way more than they bargained for when they begin to realize their dreams of being princesses and start to experience magic firsthand. Newbery-winning Keller includes some familiar characters from well-known stories while adding some new dimension with a contemporary spin. The girls are told they cannot make changes to the stories as written, but when they start seeing the dark side of things, they decide they'll do anything to get back home. Themes of friendship, honesty, and integrity really shine here, and the girls' journey to safety makes for an exciting page-turner. Some tantalizing threads left hanging hint at the possibility of future adventures. COPYRIGHT(2022) Booklist, ALL RIGHTS RESERVED.

Reviews by: Horn Book Magazine Fourth grader Mihi Whan Park, who loves fairy tales and princesses, wants nothing more than to fit in at school, a place where microaggressions abound. A botched game of Snow White results in Mihi's being sent indoors to the library for recess, where she meets two other misfits, Reese and Savannah. Though the three girls are vastly different -- Reese is curious and inventive, Savannah is quiet and cautious, and Mihi is headstrong and bold -- they share a love of princess stories and adventure. These qualities and their common interests come in handy when they discover a magical portal in the school librarian's fridge that takes them to the Rainbow Forest, where they find themselves in training to become royalty. But it turns out that learning how to be a princess isn't as easy or as much fun as Mihi expects. The Rainbow Forest is full of mystery and danger and is home to several classic Western fairy-tale characters, including Sleeping Beauty and Goldilocks's three bears. In a tale of kinship and self-discovery, Keller conveys the isolation one feels when faced with racism and stereotypes without steering readers away from the primary story line. In her quest for belonging and creating her own perfect fairy tale, Mihi finds that genuine friendship is what she needed all along. Gabi K. Huesca(Copyright 2022 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews A young girl seeks her own happily-ever-after. Korean American Mihi Whan Park is at a crossroads. Her best friend, Genevieve, is pulling away, and worse, she called Mihi's love of all things princess childish. All her life Mihi has feared that she is not princess material, and she has been looking for a happy ending in which things feel right. Mihi runs into classmates Reese, who is Black, and Savannah, who presents White, in the school library, and the three girls decide to sneak candies from the librarian's fridge. They discover that the fridge is a portal: It transports them to the magical Rainbow Forest. There they meet three chatty mice who are shocked that beings from what they call the Grey World have made it into their land. The mice direct the girls to Sleeping Beauty's castle, where they can seek their own fairy-tale ending. After being greeted by Bertha, Sleeping Beauty's lady-in-waiting, they are presented with a list of odd rules and requirements for becoming princesses. Eventually a more sinister truth reveals itself, compelling the girls to frantically search for a way home. Characters from popular European fairy tales and folktales make appearances, often somewhat randomly and without a clear purpose, and some worldbuilding rules regarding the Rainbow Forest and its magic are left unanswered; the next volume may clarify some of these elements. Final art not seen. A fast-paced series opener that introduces a new kind of princess story. (Fantasy. 8-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Keller (Jennifer Chan Is Not Alone) leans into the power of fairy tales, friendship, and self-acceptance via this quickly paced fantasy. In Massachusetts, Korean American princess fan Mihi Whan Park feels "like a princess, like someone important, someone who mattered, someone who belonged," but a close friend's hurtful comment disparaging princess play as "babyish and kind of annoying" leaves her wondering if she will ever be good enough for a fairy tale life. An unexpected portal in the school librarian's refrigerator allows Mihi and two new friends; Reese, who is Black, and cued-white Savannah; into a magical world peopled with characters from popular European nursery rhymes and fairy tales. At first, the girls are ready for adventure and thrilled about the potential of becoming royalty, but various setbacks soon show the world's grimmer realities, including restrictive rules for princesshood. And when she and her friends don't agree on how to react, Mihi must decide whether to prioritize her dreams of princesshood or her hopes for friendship. Familiar elements combine with vivid storytelling and cartoon renderings by Rodriguez (Bella's Recipe for Success) to underline themes of adventure and self-discovery. Final art not seen by PW. Ages 8: 12. Author's agent: Faye Bender, Book Group.(Nov.)

written by Jason Fry

Join a daring expedition into strange new lands with this official Minecraft novel!

When a young man is ripped from his quiet life and stranded far from home, he must learn not only how to survive, but how to live. Stax Stonecutter has lived a peaceful--if unremarkable--life in his small town in the Overworld. The son of great adventurers

Quantity 1 Unit Price \$17.99

and wise builders, Stax prefers an easier life. He loves to tend to his gardens and play with his cats all day, rather than venturing out to explore the surrounding lands. It's quiet on his estate, even lonely sometimes, but it suits Stax well enough. His solitude is shattered when a mysterious stranger arrives with a band of merciless raiders. In one terrible night, Stax's old life is taken from him, and he is left stranded in the middle of nowhere, angry and alone. He's never left home, and now he knows why: everything beyond the boundaries of his little town is scary and dangerous! But as he begins his long journey back, Stax encounters fascinating travelers who show him that there's more to the Overworld than marauding pirates and frightening mobs; there are beautiful lands to explore, fantastical contraptions to build, and new friends to meet. It may have taken losing everything he once knew, but on his adventure Stax finds something more valuable than all the diamonds in the Overworld: a whole wonderful world that's just waiting to be explored.

Reviews by: Booklist Billed as the first official Minecraft novel, this adventure guides an epicene narrator ignorant of the game world's rules or

hazards along a steep learning curve in solo survival mode. After waking up in the ocean and marveling at the square sun and clouds, the amnesiac gamer swims to an island and gradually learns how to manipulate the blocky environment to make food and shelter while navigating attacks from zombies, skeletons, and other hostile mobs and gaining the confidence to set out in search of new realms. To set this apart (somewhat) from an outright instruction manual, Brooks adds physical pain and smells, gives his protagonist emotional highs and lows, and, for humor, presents general observations and conclusions in the form of frequent conversations with a monosyllabic cow. (How do mobs spawn in caves? Moo.) The plot still has a mechanical feel, but Minecraft noobs will get a sense of what to expect, and also to come away with a tally (actually enumerated at the end) of useful hints and strategies.--Peters, John Copyright 2017 Booklist

Reviews by: School Library Journal Gr 5-8-Christopher, his parents, and a few other families live on Perses, a planetoid in Earth's solar system that has been set up as a mining operation, shipping much-needed ore back to Earth. One night, just as a communications blackout begins, raiders attack Perses, bombing and shooting into the gathered crowds. Christopher and a few other kids survive, hiding in the mining tunnels. It will be two months before the blackout is over, however, and Christopher isn't sure they can hold out that long. As the oldest, it's up to him to find a way to keep everyone alive and figure out a way to contact Earth once the blackout ends. A survivor with a more militant agenda, the discovery of Perses' dark secret, and a spy within the ranks threaten not only his plan, but everyone's survival. MiNRS combines elements of science fiction and adventure to create a novel with high appeal. Christopher is a very well-developed, realistic character. Secondary characters are developed to

varying degrees, but their motivations are clear and each is essential to the story. Plot twists and turns pull readers through the novel and keep them on the edge of their seats. There is never a dull moment or unnecessary scene. VERDICT A solid survival story with a cliff-hanger ending that will leave readers clamoring for more.-Heather Miller Cover, Homewood Public Library, AL Copyright 2015. #1983627 (Vol. 02) MiNRS 2 (Hardcover (Trade))

written by Kevin Sylvester

They are coming to get you. Hide. Hide. Hide. The children of Perses have been receiving this message on repeat, from Earth, for weeks. Christopher, Elena, and the other survivors of the attack on their space colony know two things: their victory over the Landers will be short-lived and a new wave of attacks is imminent. The kids have nowhere to go but underground. Again. But resources and patience are running low and the struggle to keep everyone safe is complicated by all the infighting amongst the kids.

Miraculous Sweetmakers (Trade)

#2299998 (Vol. 01) Frost Fair (Hardcover (Trade))

written by Natasha Hastings

It's winter, 1683, and the Great Frost has swept into London. By day, thirteen-year-old Thomasina and her friend Anne peddle sweets on the frozen river, hearing rumors of the magical Frost Fair that awakens there at night. They say if you can find it, Father Winter himself will grant any wish you have. And Thomasina has an impossible wish: the return of her twin brother, whose death left her family fractured.

Reviews by: Kirkus Reviews A girl in 17th-century London enters a dangerous bargain to resurrect her deceased brother. Since her twin, Arthur, died four years ago, 13-year-old Thomasina, a pale, brown-haired, gray-eyed girl, has blamed herself. After all, she challenged him to a race before he died of their shared affliction, which she later learns is called asthma. Filled with loss and guilt, she makes gingerbread for her family's floundering sweet shop while running the house and caring for her grieving parents. As the Great Frost grips London, a Frost Fair opens on the frozen River Thames, and Thomasina's family sets up a stall there. Lured to the river one night by a blue light, Thomasina encounters Inigo, a peculiar stranger who offers to bring Arthur back to life if she will temporarily surrender her memories of him and make four visits to the Other Frost Fair where Father Winter, Frost Beasts, and Frost Folk gather. As her memories of Arthur fade, Thomasina discovers silvery snowflakes on her skin: Is she becoming one of the Frost Folk? Set against the backdrop of the Great Frost of 1683-84, the third-person narrative conveys Thomasina's consuming guilt, fear for her mother's mental state, frustration with her father, longing to become a sweetmaker, and desperation to heal her family. Her harrowing efforts to unlock the secrets of Inigo's past and expose Father Winter's demonic designs prove intriguing while chilling descriptions of the Other Frost Fair evoke the surreal. A gripping, atmospheric, fantastical tale of atonement. (Fantasy. 9-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly A mournful blend of historical fiction and frigid fantasy characterizes Hastings's debut, set in late-17th-century London. Blaming herself for the incident that killed her asthmatic twin Arthur four years earlier, Thomasina Burgess all but runs her family's sweets shop, testing out inventive recipes while her father avoids her and her grief-stricken mother remains in bed. After the Thames freezes over and city vendors, including the sweets shop, set up a Frost Fair on its icy surface, a will-o'-the-wisp lures the lonely 13-year-old to mysterious, "blue-tinged" Inigo, who offers to bring her brother back to life if she agrees to terms: give up her memories of Arthur, and accompany Inigo four times to the Other Frost Fair, "created from magic and sea smoke." As her memories of Arthur begin to fade and she encounters the alternate fair, populated by people made of ice and ruled over by sinister Father Winter, Thomasina begins noticing snowflake marks on her skin, and wonders about the bargain's stakes. Though magic-related worldbuilding can slow the book's pace, crystalline prose deftly conjures the protagonist's guilt-laden internality alongside historical topics, including views on, and treatment of, mental health. Most characters cue as white. Ages 8: 12. Agent: Chloe Seager, Madeleine Milburn. (Nov.)

Misewa Saga (Trade)

#2176206 (Vol. 01) Barren Grounds (Hardcover (Trade))

written by David Robertson

Morgan and Eli, two Indigenous children forced away from their families and communities, are brought together in a foster home in Winnipeg, Manitoba. They each feel disconnected, from their culture and each other, and struggle to fit in at school and at their new home--until they find a secret place, walled off in an unfinished attic bedroom.

Reviews by: Publishers Weekly y House Cree Nation, winks at C.S. Lewis's Narnia tales in this Indigenous fantasy series starter, centering two Cree foster children in Winnipeg. Avid fantasy reader Morgan, 13, has been living with well-intentioned but culturally insensitive white couple Katie and James for two months. After being abandoned as a toddler and cycling through seven white foster families, Morgan is frustrated, and she expects no better from this home. Meanwhile, Eli, 12, arrives at Katie and James's house, escaping his pain by drawing strange creatures in a sketchpad. When Morgan and Eli staple one of Eli's drawings to the wall of their off-limits attic, they travel to the ever-winter land of Aski, where they meet bipedal animals that wear clothes and speak an English-Cree mix. Indigenous stories are touched on as the children and their new friends, Ochek ("fisher" in Cree) and Arikwachas, a squirrel, set out to make spring return to Aski. While the humans' and animals' voices are somewhat homogenous, the treatment of Cree culture resonates, and the engaging characters and folklore ensure readers will look forward to the next installment. Ages 10: up. Agent: Jackie Kaiser, Westwood Creative Artists. (Sept.)

#2246070 (Vol. 02) Great Bear (Hardcover (Trade))

written by David A. Robertson

Back at home after their first adventure in the Barren Grounds, Eli and Morgan each struggle with personal issues: Eli is being bullied at school, and tries to hide it from Morgan, while Morgan has to make an important decision about her birth mother.

They turn to the place where they know they can learn the most, and make the journey to Misewa to visit their animal friends.

Reviews by: Booklist In the second volume of the portal-fantasy Misewa Saga (The Barren Grounds, 2020), Morgan and Eli, foster children of Cree descent, decide to return through one of Eli's visionary drawings to the village of Misewa—but earlier in time than their first venture—in order to meet beloved friends who were lost or left behind. Building what becomes a double-stranded parallel tale around the ever-popular bullying theme, Robertson pits his protagonists in our world against a gang of punks who harass Eli because he wears a braid, and in the alternate one against an aggressive, widely feared bear. Though some of the references may fall flat, the author, who belongs to the Norway House Cree Nation, populates Misewa with an energetic assortment of North American talking animals and enlivens the dialogue with Cree words and phrases, which are defined in a glossary and pronunciation guide in the opening pages. To make the most of the characters and situations here, readers are strongly advised to start with the series opener.

#2285532 (Vol. 03) Stone Child (Hardcover (Trade))

written by David A. Robertson

After discovering a near-lifeless Eli at the base of the Great Tree, Morgan knows she doesn't have much time to save him. And it will mean asking for help -- from friends old and new. Racing against the clock, and with Arik and Emily at her side, Morgan sets off to follow the trail away from the Great Tree to find Eli's soul before it's too late. As they journey deep into the northern woods, a place they've been warned never to enter, they face new challenges and life-threatening attacks from strange and horrifying creatures. But a surprise ally comes to their aid, and Morgan finds the strength to focus on what's most important: saving her brother's life.

Reviews by: Kirkus Reviews Twinned expeditions into the northern woods drive this third installment in The Misewa Saga. When last readers saw Cree teen Morgan, she had just woken up next to Eli under the Great Tree that is their portal from their foster parents' Winnipeg attic into the magical land of Aski. The colossal footprints that lead from her foster brother's unresponsive body can only mean that the giant Mistapew has stolen Eli's soul, and it's up to Morgan to get it back. Soon Morgan and the squirrel Arik are trudging north with Eli's inert body on a sled. They are accompanied by a White girl named Emily, a new school friend whom Morgan's hastily brought through the portal to help (and who becomes something more than friend as they go). This journey is mirrored by a subsequent trip north on Earth so that Morgan can meet her kókom, the old woman who's now her only surviving biological forbear. The shift from race-against-time fantasy adventure to a more mundane car excursion may throw readers, but Morgan's grief at the newfound loss of the mother she'd been taken from years ago forms a unifying throughline. Robertson (Norway House Cree Nation) has a lot of narrative balls in the air in this outing, and they don't all stay there--in particular, the time-travel mechanism becomes quite convoluted--but the story's emotional arc shines true. A mostly satisfying return. (map, glossary) (Fantasy. 10-14) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

#2348879 (Vol. 04) Portal Keeper (Hardcover (Trade))

written by David A. Robertson

While exploring World's End, an area in Aski they've just discovered, Morgan and Emily delight in their developing relationship, while Eli struggles to understand his new-found power: the ability to locate a portal. A shocking turn of events leads them to a new village, Ministik, where the animal beings who live there are going missing. Horrified to discover who is responsible, the children vow to help and turn to friends, old and new. But it's getting harder and harder to keep the two worlds separate, especially when details of a traditional legend change everything. Forever.

Misfits (Random House / Trade)

#2363323 (Vol. 01) Royal Conundrum (Hardcover (POB))

written by Lisa Yee

Olive Cobin Zang has... issues. And they mostly aren't her fault. (No, really!) Though she often slips under the radar, problems have a knack for finding her. So, imagine her doubts when she's suddenly dropped off at the strangest boarding school ever: a former castle turned prison that's now a "reforming arts school"! But nothing could've prepared Olive for RASCH (not "rash"). There, she's lumped with a team of other kids who never quite fit in, and discovers that the academy isn't what it seems--and neither is she. In fact, RASCH is a cover for an elite group of misfits who fight crime... and Olive has arrived just in time.

Reviews by: Book Page If the best fiction taps into universal longings, it's no wonder that middle grade novels often focus on protagonists who feel left out. Lisa Yee evokes this feeling with

Reviews by: Booklist Olive Zang has always felt invisible and out of place. Even her mom and dad barely register her presence, and as they leave on yet another lengthy work assignment, Olive is deposited at a new boarding school for children with artistic temperaments. The island manor turned prison turned reform school turned art school is a wonder, but a series of unusual aptitude tests sees Olive assigned not to an art class but rather to a super-secret training division for elite crime fighters. No one is more shocked than Olive herself, but the small, disparate group of similarly skilled students quickly forms a bond, which is soon tested when a criminal mastermind interrupts a school gala and puts the future of Olive's newly beloved academy at risk. This absorbing series opener wastes no time throwing Olive headlong into adventure. There are hilarious high jinks and outlandish plot points aplenty, plus an astonishingly inventive array of technology that would make even James Bond jealous. It's easy to root for the delightfully diverse spy squad, and readers will eagerly await the next installment of their crime-fighting capers.

Reviews by: Horn Book Magazine In this series opener, twelve-year-old Olive Cobin Zang is a lonely homebody who feels invisible and uncool. She doesn't play sports and is only good at things she thinks nobody else cares about: board games, trapeze, acrobatics, and tightrope walking. She loves Meggie & Her Fun Family comic books, which portray a lively family's adventures and home-cooked meals -- most unlike her own family. Her parents are always traveling for business, and now they have shipped her off to the Reforming Arts School -- RASCH -- near San Francisco. A former castle turned prison, the building is now a school (think Alcatraz meets Hogwarts) for the "artistically adventurous." Among the other misfits Olive finds she's a good fit, at least within the team of crime-fighting preteens assembled to thwart an expected jewel heist on campus. This reunion of Yee and Santat (Bobby vs. Girls (Accidentally), rev. 9/09; Bobby the Brave (Sometimes), rev. 9/10) offers an entertaining mystery with good kids working together to defeat the bad guys and, in the process, finding their place in the world. Conversational prose, offbeat similes ("Emotions swirled like a smoothie in a blender"), and Santat's black-and-white illustrations (final art not seen) add up to a madcap escapade featuring likable heroes and dastardly villains. Readers will look forward to further installments. Dean Schneider (Copyright 2024 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews Olive's move to a new school leads to friends, adventures, and greater self-confidence in this series opener. Invisible at school and forgotten by her distracted parents, 12-year-old Olive Cobin Zang is lonely and drifting. Her only source of solace is memories of her loving grandmother's wise words. So, when Olive's parents transfer her to the Reforming Arts School, a Bay Area boarding school located in a former prison, she is ambivalent but curious. The school's unusual approach includes both individual and group placement auditions. These challenges reward often-overlooked skills that Olive and four other idiosyncratic new students turn out to embody: creativity, teamwork, and reasoning. The new pod of five coalesces, exuberant upon learning that they will "join an elite force of specially trained operatives" and become the youngest group ever to go undercover and bring fresh ideas to solving crime. The self-styled Misfits have finally found their calling, but will it last? A crisis is unfolding: The villainous Bling King could keep the school's main benefactor from attending the annual fundraiser, threatening the school's existence as well as the Misfits' own ambitions and newfound feelings of sanctuary. The straightforward storyline has more telling than showing, making it accessible to younger and reluctant readers. Readers will delight in the cartoonlike worldbuilding, zany capers, and plentiful and expressive illustrations. Olive is Chinese American and white; there's racial diversity among the remaining cast. A fantastical blend of quirky characters and goofy adventures. (Adventure. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Ever since her grandmother Mimi's death, East Asian American tween Olive Cobin Zhang; who "never fit in" at school and hardly sees her busy parents; has felt especially alone. Worse, her mother abruptly sends her to a former castle that had been turned into a prison before being converted into a "reforming arts school." But the prestigious boarding school is a cover; soon, Olive is recruited for an experimental group of covert child operatives to serve as the eyes and ears of the pseudo-government crime-fighting organization No One Can Know, or NOCK. She quickly befriends fellow operative and computer genius Philomena, as well as tough girl Iggy, bookworm James, and laid-back Theo; together, they deem themselves the Misfits. Yee (Maizy Chen's Last Chance) builds suspense in this spy-adjacent series opener by utilizing an immediate feeling third-person perspective to depict Olive's grief over Mimi and attempts to make friends while contending with secretive and dangerous circumstances. An in media res opening alongside expressive and animated b&w pencil illustrations by Santat (A First Time for Everything) add dynamism to the text and heighten the rapidly paced narrative. One of the Misfits wears a hijab and another is Black; other supporting characters are depicted with varying skin tones. Ages 8: 12. (Jan.)

Reviews by: School Library Journal Gr 4-7--Olive Cobin-Zang's parents are on another one of their business trips, and Olive is off to...reform school? She knows she hasn't always made the best decisions, but this seems a bit extreme. Then she sees RASCH (Reforming Arts School) for the first time, a mystical island campus that emerges from the fog, and she is even more confused. What is this place and why is she here? Strangely, when Olive is placed in what initially appears to be a class of leftovers, she starts to feel a part of something. Soon, Olive and her fellow misfits realize that there might be something extraordinary about themselves after all. In the meantime, a series of high-end jewelry heists have swept across San Francisco and threaten some of RASCH's most important benefactors. If Olive and her friends can't put a stop to these thefts, not only will RASCH lose its money, but Olive might lose the only place that has felt like home in a very long time. Readers will be quick to follow Olive and her diverse friend group as they chase actors/pirates/thieves, search for priceless pastries, and hunt down jeweled cat collars. With quick pacing and over-the-top action, this humorous caper is full of plot twists and zany antics. At times, the pacing may move too quickly, not giving readers enough time to absorb the action or build more suspense. However, the clever clues and outrageous antics will be enough to pull readers through the pages and into the story. VERDICT Clever and funny, this rousing mystery-adventure will be a hit with a wide audience.--Louie Lauer Copyright 2023 School Library Journal, LLC Used with permission.

Reviews by: Shelf Awareness National Book Award finalist and Newbery Honoree Lisa Yee (Maizy Chen's Last Chance) plays out every awkward preteen's fantasy in the humorously charming opener to a new illustrated series, The Misfits, in which a team of nerds solve crimes. A Royal Conundrum introduces 12-year-old Olive Cobin Zang and her classmates, who work together to stop a notorious jewel thief and save their boarding school. National Book Award-winner and Caldecott Medalist Dan Santat (A First Time for Everything) enhances the book's charming zaniness with black-and-white art.

Mission Multiverse (Trade)

#2224143 (Vol. 01) Mission Multiverse (Hardcover (Trade))
written by Rebecca Caprara

Quantity 1
Unit Price \$16.99

During a school field trip to NASA headquarters, five middle school band geeks—Dev, Austin, Tessa, Isaiah, and Meryl—are accidentally sent to an alternate universe when a project-in-progress goes haywire. The five Space Cadets find themselves in the hands of the Inter Galactic Planning Committee, who inform them that their own universe's destruction is imminent.

978-1-4197-4823-3 ©2021 5-1/2 x 8 400 pgs.
 Grades 4 - 7 Dewey# Fic

Reviews by: Publishers Weekly On a field trip to NASA's Gwen Research Center in Conroy, Ohio, a quintet of middle school marching band members is transported to a parallel dimension after a mysterious portal-opening device is accidentally activated. Indian American saxophonist and physicist's son Dev Khatri; olive-skinned, prank-playing drummer Lewis Wynner; Black, fashion-conscious mayor's daughter Tessa Hawthorne-Scott (masquerading as her clarinet-playing identical twin sister, Zoey); anxious, gray-eyed, implied Asian trumpeter Isaiah Yoon; and dramatic white oboist Maeve Greene are whisked away to Station Liminus, a waypoint between different worlds. There, they learn that Earth is destined for destruction in 30 days unless they can convince the Multiverse Allied Council, which represents the known dimensions, to help. In this fast-paced intergalactic romp, Caprara (The Magic of Melwick Orchard) introduces an inclusive cast of memorable characters, who must deal with hostile aliens, unfamiliar customs, and the fate of the world as they know it. Elements including the sprawling cast and myriad dimensions may overwhelm at times, but Caprara successfully maintains excitement throughout this action-packed series opener, even while focusing on characters' individual issues and dynamics. Ages 8: 12. Agent: Christa Heschke, McIntosh and Otis. (May)

#2279278 (Vol. 02) Doppelgänger Danger (Hardcover (Trade))
written by Rebecca Caprara

Quantity 1
Unit Price \$16.99

This action-packed sequel finds middle-school band geeks Dev, Isaiah, Tessa, Maeve, and Lewis trapped in a parallel version of Earth as they fight to save their families—and the entire rest of the multiverse—from the villainous Empyrean One. Far from home and running out of options, it will take everything they have to get back to Earth and preserve humanity once and for all. The startling revelation that they are their own worst enemies forces a painful decision: will they forsake the lives they once knew for an uncertain future?

978-1-4197-4825-7 ©2022 5-1/2 x 8 288 pgs.
 Grades 4 - 7 Dewey# Fic

Reviews by: Kirkus Reviews Back on their own planet, a group of middle school friends aren't done trying to save the multiverse—and the multiverse isn't done with them either. After an unexpected detour at the tail end of their previous adventure, Dev Khatri, Maeve Greene, Tessa Hawthorne-Scott, Lewis Wynner, and Isaiah Yoon have made their way back to central Ohio's Conroy Middle School and their lives on Earth, a Dimension14 planet. But unbeknownst to the Conroy Cadets marching band members, Maeve's doppelgänger, Em, has tagged along, escaping the wasteland universe she'd been banished to. While being home and reuniting with family in a more familiar, less giant monster-filled environment has its perks, the pull for the original five kids—plus Tessa's twin, Zoey, who resents being secretly replaced in the first book—to return to their multiversal hijinks is strong. Not to mention that Em's constant plotting to get back in the good graces of her planet-destroying family may mean major threats from before are still at play. The warm rapport and slapstick humor the Cadets share is even stronger in this second series entry, as they've matured in their grasp of all things multiverse while maintaining an endearing commitment to middle school concerns. Band practice is just as important as closing interdimensional holes, and if a so-called evil doppelgänger can offer a caring, world-shattering touch when needed, hypercompetitive twin sisters might be able to figure it out too. Ethnicity is largely cued through names. Savvy fun fit for any universe. (Science fiction. 10-14) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

MK's Detective Club (Prebound)**#2387791 (Vol. 01) Poison Puzzle (Prebound)***written by James Patterson*

Momo Arashima (Trade)**#2313127 (Vol. 01) Momo Arashima Steals the Sword of the Wind (Hardcover (Trade))***written by Misa Sugiura*

All Momo wants for her twelfth birthday is an ordinary life—like everyone else's. At home, she has to take care of her absentminded widowed mother. It turns out that Momo's mother is a banished Shinto goddess who used to protect a long-forgotten passageway to Yomi--a.k.a. the land of the dead. That passageway is now under attack, and countless evil spirits threaten to escape and wreak havoc across the earth. Joined by Niko the fox and Danny--her former best friend turned popular jerk, whom she never planned to speak to again, much less save the world with--Momo must embrace her (definitely not "ordinary") identity as half human, half goddess to unlock her divine powers, save her mother's life, and force the demons back to Yomi.

Quantity	Unit Price
1	\$18.99

Reviews by: Booklist Momo has long known that she's different. After all, nobody else sees the things she and her mother can—something her teachers attribute to an “overactive imagination” and a childhood listening to her mother's stories of the kami and other fantastical beings from Japan. This has led to Momo being labeled least popular in seventh grade, which makes her yearn to be “normal” and thus reject her mother's stories about the gods. It's hard enough dealing with her father's death and mother's grief without having to be reminded that she doesn't fit in. This is all upended when a visit from a magical fox, her ex-best friend, and a death hag proves not only that everything her mother taught her is true, but that her mother's life—and the fate of the world—are in Momo's hands. Sugiura's wonderful series starter is a page-turning, emotion-packed adventure that draws on Japanese-inspired folklore to explore themes of family, friendship, and identity. Though fairly light and humorous in tone, this book deals with loneliness, the emotional strain of a child acting as caregiver to a parent, and the bravery needed to be who you really are. Highly recommended for fans of the Aru Shah books and Winnie Zeng Unleashes a Legend (2022).

Reviews by: Kirkus Reviews Momo must travel through the mortal and spiritual worlds and fight Japanese demons to save her mother--and the rest of humanity. Twelve-year-old Momo Arashima is trying to be a normal kid, but that isn't easy since she sees things others can't, gets bullied at school, and takes care of her inattentive widowed mother. After Momo is attacked at the mall by a shikome, or death hag, then rescued by talking fox Niko, who at first appears as a redheaded boy wearing old-fashioned clothing, a tremendous secret is revealed: Mom is a kami, or Shinto goddess. As the guardian of the Island of Mysteries, Mom is tasked with protecting the gate between Earth and Yomi, where the dead dwell. But wicked demon oni are emerging from the portal and harming the island, which in turn is killing Momo's mother. Being half-kami and half-human, Momo is the only one able to visit the island and then leave it; it's up to her to save the day. She travels across the Sea of Heaven in the company of Niko and, unexpectedly, a former friend who gets swept up in their emergency departure. Japanese American transracial adoptee Danny used to be close to Momo until he fell in with the popular crowd. This hilarious, high-spirited tale blends Japanese legends, mythical creatures, and deities. Alongside the fantastical romps, themes of fear, anger, loneliness, belonging, friendship, and inner strength are thoughtfully explored. Funny, relatable, and full of adventure. (author's note, glossary) (Fantasy. 8-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly A Japanese American 12-year-old must procure a magical artifact to save the world from monsters in this rollicking series opener by Sugiura (Love & Other Natural Disasters). Momo Arashima's widowed mother raised her on stories about Japanese gods, called kami, and monsters, called yokai. Momo also "tended to see things no one else could see," often confusing her supernatural visions with reality, and leading to her getting bullied by classmates and feeling like an outsider at Oak Valley Middle School. Her life becomes even more

challenging, though, when she's attacked by a Japanese death hag and saved by a magical fox named Niko as well as bully Danny Haragan, a former Japanese friend adopted by white parents. Momo soon learns that her mother is a Shinto goddess, guardian of the Island of Mysteries, and that demons have escaped from the underworld into the mortal plane. To protect humankind, Momo, Danny, and Niko must travel across heaven and earth for an enchanted sword to defeat the yokai. Culturally specific details imbue this roller-coaster-feeling magical plot with authenticity and intrigue, while Momo's smart, funny narration and slowly reforming relationship with Danny ground their adventure in a thoughtful friendship tale. Ages 8: 12. (Feb.)

#2365893 (Vol. 02) Momo Arashima Breaks the Mirror of the Sun (Hardcover (Trade))

written by Misa Sugiura

In the next book in the thrilling fantasy series filled with gods and monsters of Shinto mythology, a twelve-year-old girl must steal an ancient relic, work with new friends and learn to control her own dangerous power to defeat a new threat.

Monster Club (Trade)

#2287776 (Vol. 01) Monster Club (Hardcover (Trade))

written by Darren Aronofsky

Like almost everything in twelve-year-old Eric "Doodles" King's life, King's Wonderland—the amusement park his great-great-grandfather founded—was seriously damaged when a hurricane hit Coney Island. Hungry property developers are circling the wreck of the once-awesome Wonderland like vultures, and Doodles's family is falling apart over the threat of losing everything. If it weren't for Monster Club—an epic role-playing game that Doodles and his friends developed together—Doodles's life would be terrible. So when his friends start to get more interested in other things, Doodles just can't deal. But then everything changes when Doodles finds a long-lost vial of magic ink that somehow brings his monster to life. Now that Brickman, Bellybeast, DecaSpyder, and RoboKillz can move, talk, and fight on their own, Doodles thinks he's found the key to saving King's Wonderland—and maybe even his parents' marriage too.

Reviews by: Publishers Weekly A 12-year-old's monster doodles come to life and terrorize his Brooklyn neighborhood in a quirky novel by collaborators Aronofsky and Handel (Noah). With his parents bickering more than ever over the fate of his father's Coney Island amusement park, King's Wonderland, Eric "Doodles" King is counting on Monster Club, a neighborhood group dedicated to developing the "coolest, smartest monster battle game of all time," to distract him. But as the club crumbles following a blowout with one of its members, who claims the group has outgrown the game, Doodles scrambles for a way to keep them together. As Doodles contends with tense relationships and literal monsters, flashbacks detailing a surrealist 1940s Coney Island and Doodles's great-great-grandfather fleeing a pogrom in Kyiv feature throughout. Disjointed pacing, a tone that unevenly vacillates between somber and silly, and thinly rendered characters impede what is an otherwise boisterous read. Classic tropes such as monsters coming to life and friends on the outs banding together to defeat a larger evil permeate this action-packed series opener, a savory match for fans of Doodleville. Final art not seen by PW. Ages 8: 12. (Sept.)

Reviews by: School Library Journal Gr 3–6—Eric has spent hours perfecting drawings of Brickman, a very special monster who can shoot cement out of one arm and swing a wrecking ball with the other. Using various board game strategies, Eric and his friends in Monster Club battle their monster drawings against each other, vying for dominance and bragging rights. This takes place on paper until Eric comes across some very special (and very smelly) ink passed down from his great-great-grandfather, which causes the monsters to pop off the page as real, three-dimensional, ready-to-rumble beasties. Eric is thrilled—until his nemesis at school draws some out-of-control monsters of his own, leading to a wild battle and chase culminating in a showdown at Coney Island. The biggest challenge of this novel is simply how many different plot points are included: flashbacks to a great-great-grandfather's experiences in the early 20th century, mythical creatures, modern monsters, both obvious and secret villains, friendships, falling outs, the difficulties of outgrowing childhood pleasures, burgeoning romance, parents who may be divorcing, parents who may be losing their business, bullying at school, and the iconic elements of Coney Island. All these combine to create a fast-paced and

exciting yet cluttered, thrill ride. While this first entry may have been more successful having eliminated some of those elements, all of these pieces do provide numerous potential plot lines for future entries in the series. Engaging illustrations provide additional interest; characters are depicted with a range of skin tones. VERDICT Electrifying adventures and a clever twist will leave readers anticipating the next volume in this new, jam-packed adventure series.—Alyssa Annico

#2363199 (Vol. 02) Monsters Take Manhattan (Hardcover (Trade))
written by Darren Aronofsky

Ever since Eric "Doodles" King and his friends saved Coney Island from Crumple Noodle and its minions, Eric's life has been changing faster than he ever expected. His parents' divorce has gone through, his mom has moved to a deluxe apartment in Manhattan, and now she's making him start all over at a fancy new private school. Suddenly Eric's trapped between two worlds-his old Coney Island friends and the rich, cool kids at his new school who treat him like a celebrity.

Quantity	Unit Price
1	\$19.99

Reviews by: Kirkus Reviews Eric "Doodles" King thinks the magic ink that brings monsters to life has been destroyed, but a powerful CEO is planning to use it to flood lower Manhattan and make a new Atlantis. The exciting events of the 2022 series opener are months past; Eric's new worry is beginning seventh grade at Tinsdale, a Manhattan private school, instead of returning to his old gifted and talented school with his friends. At Tinsdale, Eric is dubbed "Sketch" for his art skills and adopted by three popular kids. When he returns to Brooklyn and his dad's house on weekends, he has trouble transitioning between worlds. At an age in which friends and identity are closely linked, Eric isn't sure whether he's "Doodles" or "Sketch," and he makes some mistakes with his old friends. But when a serious new threat arises, Monster Club assembles again to fight King Neptune. Most chapters are told from Eric's perspective, but some are about Neptune, and the epilogue focuses on Eric's new friend Pete, with an ending that sets the stage for a third entry. New readers are given enough background information to follow along, but this work is best appreciated by those who've read the first book. The fight scenes with the monsters are joyous, and one especially dramatic, high-stakes action scene is perfectly paced. While Brickman, Eric's monster creation, is heroic, Eric's words are even more powerful. Eric is Jewish; secondary characters' names signal ethnic diversity. Final art not seen. Exciting, inventive, and emotionally intelligent. (Fiction. 9-13) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Monster High (Amulet / Trade)

#2349886 (Vol. 01) Fright to Remember (Hardcover (POB))
written by Adrianna Cuevas

As Monster High prepares for its annual talent show, Frankie Stein is left wondering what they could perform. When Torelei Stripe mocks Frankie's music playing abilities, Frankie is left even more confused about which of their brain parts is exciting enough for the talent show. Luckily, Headmistress Bloodgood presents Frankie with new information about their brain that might hold the answer. Except Frankie discovers that their brain part is from a disgraced scientist accused of unethical experiments. Plagued by dreams from the scientist's life, Frankie teams up with Draculaura and Clawdeen to discover the truth about their past-and save Monster High in the process.

1	\$14.99

Reviews by: Kirkus Reviews At an all-monster school, a new student struggles with identity. Frankie Stein (who uses they/them pronouns) may look around the same age as the other students at Monster High, but they were actually only pieced together by their loving and supportive parents one month ago. The parts making up Frankie's brain came from monsters gifted in STEM subjects, and they're incredibly intelligent and also very literal--Frankie has a tough time with idioms. An upcoming schoolwide talent show puts Frankie on the radar of mean-girl werecat Toralei, who expresses her jealousy through nasty EekTok videos after overhearing a shocking secret about the source of one of Frankie's brain parts. Frankie is then plunged into an unexpected journey of self-discovery as they explore not only their past but also the choices of their parents and the history of the school. Cuevas' series opener is deftly constructed for the middle-grade crowd, examining friendship, bullies, and the power of stories. For those unacquainted with Mattel's Monster High franchise, this volume is an excellent jumping-in point, making enough introductions to the

characters and the world's specific parlance; for those who dismiss commercial tie-ins, this well-crafted volume will get them to reconsider that stance. With its cinematic pacing and contemporary slant told through a fantasy lens, expect readers of series such as Percy Jackson to find much to enjoy here. Satisfying and substantial. 1	\$17.99

Reviews by: Kirkus Reviews Three friends discover real monsters lurking underneath an amusement park's haunted house. Cautious Mateo, brash, reckless Taylor, and levelheaded Zari, who's often caught in the middle between the other two, are enjoying a night out at local amusement park ThrillVille. Before they leave, they plan to try one last ride, a haunted house built on the site of the original home of the town's legendary necromancer, Hezekiah Crawly, who disappeared 100 years ago. As luck would have it, on their way through the jump-scare-packed Grimstone Manor, their car breaks down right as the park is closing, leaving the three 12-year-olds searching desperately for an escape. They find a secret passageway to the basement of the haunted house and monsters that are definitely not the animatronic ones from the ride. The answer to the mystery of Hezekiah Crawly may also be closer than they imagine--if they can survive long enough to figure it out. Leaning more heavily on the monsters than the mystery, this series opener features a small cast of imperfect but relatable and well-developed characters. It also deftly explores themes such as courage and the challenges of being vulnerable with friends. There are no dull moments in this rapidly paced tale that's loaded with action, including physical altercations with various monsters (though the end does come a bit too abruptly). Zari has dark brown skin, Mateo is brown-skinned, and Taylor presents White. Frighteningly fun. (Fiction. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly A sepulchral theme park tests a trio of 12-year-olds in musician McMann's debut, a pared-down adventure with Goosebumps vibes. Visiting amusement park ThrillVille, friends Mateo, Taylor, and Zari approach haunted house Grimstone Manor near closing time. It's built on the grounds of a mansion that once belonged to suspected necromancer Hezekiah Crawly, whose mysterious disappearance 100 years back is the stuff of local lore. The three gain a grim opportunity to explore the legend firsthand when their ride through the animatronic manor grinds to a halt, stranding them. Tensions, already high between wary Mateo and impulsive Taylor, boil over; despite reserved Zari's exasperated attempts at peacemaking; resulting in a fight that reveals just how real the local yarn is. The action proves unrelenting as the friends fight and flee from all manner of possessed skeletons, mummies, and more in scenes that pause just long enough for the group to attempt reconciliation. An abrupt ending seems designed to propel readers into the next book, while a combination of interpersonal vulnerability and monster mayhem drives a horror-tinged thriller that's more rollicking than revolting. Mateo and Zari are described as having brown skin; Taylor presents as white. Publishing simultaneously: The Snatcher of Raven Hollow. Ages 8: 12. Agent: Michael Bourret, Dystel, Goderich & Bourret. (May)

#2323953 (Vol. 02) Snatcher of Raven Hollow (Hardcover (Trade))
written by Matt McMann

Here's the second book in a new series of terrifying tales that combine monsters + mysteries, perfect for fans of Goosebumps.

Reviews by: Kirkus Reviews Teo and Logan's summer plans are disrupted when they stumble onto a lead about the mystery of Raven Hollow's missing infants. After coming across an empty stroller, the kids learn that a baby recently disappeared in their town. Then they see a flyer for yet another missing infant. Teo is sure they can figure out what is going on, and Logan is willing to tag along but doesn't really share her urgency until he realizes the implications for his little sister and baby cousin. Their research leads them in several mythical directions, and they find themselves on an increasingly dangerous quest to discover which legendary creature may be responsible for the disappearing babies. Brown-skinned, willowy Teo and pale-skinned, stocky Logan are very different; Teo is a brave and determined leader, while Logan is somewhat doubtful but devoted to his friend (and also more experienced at handling actual babies). The duo strike a great balance and make believable friends despite (or perhaps because of) their differences. Like the first in this series of stand-alones, short chapters and a lack of extraneous information keep the pace quick

and the tension high. The unsettling ending is thoroughly entertaining, and striving middle school readers interested in mysteries or creepy horror will be particularly enthralled. Brief but darkly mysterious. (Thriller. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

#2330205 (Vol. 03) Terror in Shadow Canyon (Hardcover (Trade))
written by Matt McMann

Twelve-year-old Tegan and his friends are excited to set out on a weeklong backpacking trip through the wilderness in Shadow Canyon, known for its vast forests and jaw-droppingly deep canyon. But after the group sets off on a little-used trail to visit a remote waterfall, they soon discover that the path markers they've been following have mysteriously disappeared, leaving them hopelessly lost.

Reviews by: Kirkus Reviews ckers stumble into a living nightmare when their trail markers disappear. Twelve-year-old Tegan's mother was meant to help supervise his and his friends Marcus and Ning's backpacking trip. He tries to make the best of things when she has to work and his hapless, disengaged father steps in, but it isn't long until his dad's immaturity causes problems. Though athletic Ning and her mom, Yanay, are experienced hikers, they all lose their way in the unforgiving wilderness when the markers along their trail disappear. Strange stonelike objects, moving tree roots, and too many glowing eyes begin to coalesce into a terrifying adversary no one could have imagined, and it looks like the kids may have to save the adults. A strength of the series and this title in particular is the tight focus on plotting while characters also work through complex problems. Tegan learns to speak up about how his father's haphazard parenting and inattention make him feel, and his father makes clear efforts to discuss and correct his mistakes. McMann strikes a balance between suspenseful storytelling and strong characterization in another quick-moving, action-packed story with plenty of gore and terror. Tegan and Ed are cued White, while Marcus presents Black. Ning is cued as Chinese, while Yanay is described as tan-skinned. A creepy camping catastrophe that will give even the most stoic readers the shivers. (Fiction. 8-12)

#2363118 (Vol. 04) Beast of Skull Rock (Hardcover (Trade))
written by Matt McMann

Twins Simon and Jade are thrilled to visit their grandfather in tiny Skull Rock, Maine, and stay with him above the cabinet of curiosities museum he runs, which is full of creepy old relics, taxidermy specimens, and other sinister odds and ends. But lately, strange reports have come out about a series of nighttime animal attacks in the area, leaving Simon wondering if Panther Man—a monster that's part human, part panther, and rumored to live in a cave outside of town—might be responsible.

Reviews by: Booklist Taking a seat on the (R. L.) Stinewagon, Reynolds kicks off a series to be based on classic horror story scenarios with this tale of 12-year-old Max, who reluctantly visits his grandparents in their remote rural cabin just in time for some (literally) hairy adventures. Taking

a cue from the master, most of the short chapters end with a sudden shock or cliff-hanger but the suspense depends more on mysterious clues and suggestive language (Max looked out the window and saw ivy crawling across the shingled roof) than explicit gore even when one character does get a silver dagger in the eye, there's no permanent harm done. Readers hoping for close encounters with werewolves will be well served, and as for Max . . . well, he starts out a vegetarian but doesn't end up that way. The unfortunately titled Halloweeners, copublished as book number two, shares a similarly low level of violence (one character dies but it's only temporary) and rapid pacing. Even in the initial going, a series of comfortably formulaic chills.--John Peters Copyright 2019 Booklist

Reviews by: Kirkus Reviews A weekend getaway takes a hairy turn when a full moon invites werewolves to play. Twelve-year-old Max Bloodnight is wary of meeting his grandparents for the first time and staying with them alone. They live in a dilapidated log cabin in the middle of the forest in Wolf County, which means no cell service and no electricity. But meeting the grandparents also means getting closer to Max's late father, who died in a mysterious hunting accident in the area. Max's grandparents only have one rule in their house: "Don't cross the barbed wire fence into the eastern forest." Max quickly breaks this rule when he helps Jade Howler, his grandparents' young neighbor, search for her missing dog. The forest proves to be as monstrous as his grandparents warned. Can Max learn the truth about his father and the disappearances in Wolf County, or will he become the next to vanish? More Scooby Doo mystery than bone-chilling horror, Reynolds' debut series entry is a fast-paced, cliffhanger-heavy creature feature. Thanks to plenty of carefully laid clues, discerning readers will solve the mystery long before Max does. The predictable, trope-filled plot and medium scare factor offer nothing new but may appeal to the Goosebumps crowd. A stand-alone sequel that stars a different main character, The Halloweeners, publishes simultaneously. The cast assumes a white default; Max is vegetarian. Serviceable scariness for series seekers. (Horror. 8-12) COPYRIGHT(2019) Kirkus Reviews, ALL RIGHTS RESERVED.

Moonwind Mysteries (Trade)

#2330494 (Vol. 01) Night Raven (Hardcover (Trade))

written by Johan Rundberg

It's 1880, and in the frigid city of Stockholm, death lurks around every corner.

Twelve-year-old Mika knows that everyone in her orphanage will struggle to survive this winter. But at least the notorious serial killer the Night Raven is finally off the streets. Or is he?

978-1-6625-0958-2 ©2023 192 pgs.

Grades 6 - 8 Dewey# Fic Lexile 680

Quantity 1
Unit Price \$17.99

Reviews by: Booklist Set in Stockholm during the bitterly cold winter of 1880, this dark, intricate story features Mika, a 12-year-old girl. Left at an orphanage as an infant, she now helps the younger children when she's not working at a bar. Detective Valdemar Hoff recruits Mika after reading a constable's report that records her keen observations. Informally deputized, she agrees to help him solve a mystery involving a serial killer who was active years earlier, captured, and supposedly put to death. Now rumors suggest that "the Night Raven lives." It's a terrifying prospect since his victims appear to have had ties to Mika's orphanage. Rundberg creates an utterly convincing, consistently grim setting during a winter so cold that the orphans can barely collect enough firewood to keep from freezing. Dinner means watery gruel again, and Mika's dark humor includes references to cannibalism. Originally published in Sweden, the novel ends with justice done and, for Mika, a newfound sense of purpose. While not every mystery introduced is solved, this is only the first volume in the Moonwind Mysteries series.

Reviews by: Horn Book Magazine This English translation of Rundberg's lively historical mystery, set in 1880 and winner of several prestigious prizes in its native Sweden, is something to celebrate. Twelve-year-old Mika has lived all her life in Stockholm's public orphanage; she's its child-minder and maid-of-all-work as well as a server in a local pub. She is exceptionally spirited in her humor, kindness, courage, and perceptiveness, and when her astute observations attract the attention of police detective Valdemar Hoff, he enlists her help in a murder investigation. Could a copycat murderer be imitating a man who was recently executed, the serial killer known as the "Night Raven"? This is a captivating murder mystery, and more. Mika's awareness of her disposability -- "I'm an orphanage kid...and a girl besides...I have to pay attention to detail all the time because my life depends on it" -- is only one of the ways Rundberg sheds light on the most vulnerable. At the same time, his prose is quick, earthy, and comic: Hoff's hands are "as big as toilet lids"; he smells like "an old horse blanket"; and the rhapsody of the coming spring is noted by "the smell of thawing latrines." Joyous, funny, suspenseful, and serious -- an unusual and winning combination for middle-grade readers. Let's hope its three sequels appear in Prime's English translation too. Deirdre F. Baker(Copyright 2023 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews In this Swedish import, 12-year-old orphan Mika gets wrapped up in a murder investigation. Set in 1880 Stockholm, this story opens with Mika receiving a new admit at the Public Children's Home, a mysterious baby handed to her by a boy who then vanishes into the night. But that's not the only odd happening of the night--there is also a murder. Detective Valdemar Hoff, who's looking into the murder, interviews Mika and is struck by how observant she is. A vulnerable orphan treated as disposable, Mika eventually explains that her survival depends on paying close attention to her surroundings. As the two investigate together, they realize that the murder resembles the work of the Night Raven, a serial killer who once terrorized Stockholm--and who was executed last year. Mika is clever, scrappy, determined, and moral, all of which makes her a compelling hero. Rundberg's sharp writing gives readers a window into the underside of a desperate city grappling with a devastating winter, police corruption, and the cruel indifference of many of its residents. Valdemar makes a good partner for Mika, rough-looking and no-nonsense, oblivious that others have much less privilege than him, yet governed by a strict sense of right and wrong. This gripping, fast-paced mystery comes together well, with Mika's deductions based firmly in logic and connections based in her own clear observations. The climax requires Mika to be as bold as she is clever, and the resolution promises more mysteries. Characters are cued as White. A thrilling and thoughtful period murder mystery. (Historical thriller. 9-14) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly A sharp-witted, orphaned 12-year-old helps solve a perplexing crime in this intelligent series launch by Rundberg, set in 1880 Stockholm. Three months before the book's start, a serial killer called the Night Raven was caught red-handed and executed; so it shocks young Mika when she overhears a cop say that a recent victim's final words were that the Night Raven had come for him. When a newborn arrives at the Public Children's Home, where longtime resident Mika takes up a mentor-like role for younger residents, she briefly forgets this impossible revelation, until the police report for the baby's surrender earns a visit from Det. Valdemar Hoff. Frustrated by his colleagues' ineptitude and impressed with Mika's keen observations, Valdemar enlists her help in investigating the Night Raven's possible return. And though Mika knows the work is dangerous, she perseveres, insisting that "if I can help catch him, I'll have done something with my life, even if I'm risking death." A rushed denouement shortchanges an intriguing setup, brilliant deduction, and an artfully crafted mystery. Still, Mika is a brave, resourceful heroine, and her warm relationships with Valdemar and her peers at the orphanage counterbalance the bleak backdrop. All characters cue as white. Ages 10: 14. Agent: Carin Bacho Carniani, Koja Agency. (Nov.)

978-1-368-05218-4 ©2020 240 pgs.

Grades 4 - 6 Dewey# Fic AR Lvl 5.9 AR Pts 8.0

Reviews by: Kirkus Reviews A young mouse earns her place among a secret society of world-savers. Bernadette is a small rodent with big ambitions: joining the Mouse Watch, an elite team of mice that protect the world from evil while keeping themselves secret from humans. Bernie has long dreamed of joining her idol, Gadget Hackwrench (the female lead of Disney's popular cartoon Chip & Dale: Rescue Rangers), and going on gizmo-filled, adrenaline-fueled adventures. As a new recruit of the Watch, Bernie befriends Jarvis, a sensitive rat with puzzle-solving skills to spare. The two rodents flit from set piece to set piece, uncovering a dastardly plot concocted by the devilish Dr. Thornpaw that could turn the world upside down. Readers familiar with Rescue Rangers will find similar rhythms here: a precise blend of jokes, action, and plucky young heroes ambitious to prove themselves. The novel is smartly paced, keeping readers pushing forward but with just enough assurance that everything will turn out OK in the end. It's a comfort read, one that tees up a sequel in its final pages and points back just enough to Rescue Rangers that young readers interested in exploring more of this world won't be disappointed (provided their families have subscribed to Disney +). A fun little adventure brimming with Disney intellectual-property synergy. (Fantasy. 8-12) COPYRIGHT(2020) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Connection Bernadette Skamperksy (who much prefers to be called Bernie) is not your average 12-year-old girl mouse overly concerned with fashion and the like. For one thing, she is extremely small for her age due to childhood illness; moreover, she has a burning desire to follow in the footsteps of her hero, Gadget Hackworth, founder of the Mouse Watch, a small group of elite mouse agents who travel the world solving crimes. Bernie receives the coveted recruitment invitation from the Mouse Watch and heads off to New York City for great adventures, life-changing friendships, and self-discovery. Good guys, evil guys, mayhem, and cheese ensue. Readers will fall headlong into this mouse-sized story as they follow Bernie's heroic attempts to save the world. There are some great descriptions involving the parallel blend of the human world with the hidden mouse world operating in the shadows. The mice are fully connected with high-tech tools, virtual reality, and more. Readers will love the image of the mice using a smartphone as a large screen TV as well as the very clever mouse-tech invented by these miniature action adventure heroes. Middle grade series readers will want to add this one to their list. Terry Roper, Library Consultant, Region 10 Education Service Center, Richardson, Texas

Reviews by: School Library Journal Gr 3-7—Evil machinations are at play in the world of mice and rats. Bernie is a 12-year-old mouse determined to become part of the famous Mouse Watch with its technology, determination, and teamwork to fight crime. Readers meet Bernie and her mouse family in a world reminiscent of Mary Norton's The Borrowers. Mice have to evade human detection as they shop for groceries, work, and enjoy their communities, but Bernie is focused on becoming a trainee recruit. Not only are these rodents trying to save the world, but they have a leader, Gadget Hackwrench, who invents fantastically advanced gadgets and technogear. Bernie gets in and out of trouble as it becomes clear that a villainous mastermind is influencing humans to do his bidding through a doctored cheese scent that renders them mindless. The gasp-worthy escapades are over the top, but Gilbert makes it work with trademark covert terminology worthy of a James Bond flick. Plus, he adds in plenty of cheese; swiss, cheddar, camembert, bleu, and brie. Embedded is a message about not stereotyping others and learning to recognize real friendship. The cute little world of mice is an odd mix with advanced spying, giving this a somewhat cinematic vibe. VERDICT A dashing fluff adventure with appealing miniature heroes and villains. Cheesy in a few ways.—Carol A. Edwards, Formerly at Denver Public Library

written by J. J. Gilbert

Six months into their Mouse Watch training, Bernie and Jarvis are getting along like cheese and crackers! Less exciting: having already completed their first successful mission, it's now back to basic training. But more pressing matters are at hand (or rather, at paw). The remains of the S.S. Moon, a long-lost spy vessel, have been found.

Grades 3 - 6 Dewey# Fic

Reviews by: Kirkus Reviews The Mouse Watch returns. Bernie and Jarvis have settled back into their Mouse Watch training six months after saving the world. Bernie itches to move beyond her station as a Level One agent, to get out into the world and do more than rescue cats stuck in trees. Luckily adventure calls in the form of reports that the SS Moon, a spy vessel long thought lost, may still be out there with a map onboard leading to a power source that could reshape the world for the better--or the worse, if the dastardly R.A.T.S. get to it first. The deep-sea mission sends Bernie and Jarvis along on a snappily paced thrill ride to the underwater city of Catlantis and beyond in this crowd pleaser. Readers with a healthy appetite for Saturday morning cartoons will find much to engage with here, and returning readers will be pumped to see that this sequel boasts more of Bernie and Jarvis' endearing friendship and the propulsive set pieces that made the first entry such a winner. Jarvis and Bernie continue to prove themselves as engaging protagonists who are supported by an array of old reliable characters from the Rescue Rangers cartoon as well as new additions to the franchise. Corporate-branded adventure done right. (Adventure. 8-12) COPYRIGHT(2021) Kirkus Reviews, ALL RIGHTS RESERVED.

#2257785 (Vol. 03) Mouse Watch in Space (Hardcover (Trade))

written by J. J. Gilbert

Hot off their successful mission in THE MOUSE WATCH UNDERWATER, Bernie and Jarvis are tapped to join the most important mission yet: one that will take them into outer space! The task? To take the Milk Saucer energy source they recovered from Cat-Lantis and connect it to a satellite that's currently circling the earth in order to halt the effects of global warming, and basically save the world.

978-1-368-05220-7 ©2021 5-1/2 x 8-1/4 272 pgs.

Grades 3 - 6 Dewey# Fic

Reviews by: Kirkus Reviews . Bernie and Jarvis are riding high after the success of their underwater mission to rescue the Milk Saucer from the nefarious clutches of R.A.T.S. Their next assignment promises to bring the dynamic duo into an exciting new frontier: space! With the brave Cmdr. Sleekwhisker in charge, Bernie and Jarvis are confident they'll be able to connect the Milk Saucer to a Mouse Watch satellite that could save the world from the effects of global warming. But not everything is as it seems aboard the USS Mozzarella, and things promptly take a turn for the worse. This third entry in the series stands tall upon the shoulders of its predecessors. The characters are limber, the plotting is excellent, and he blend of humor and action provide the crisp read fans of the series have come to expect. Bernie and Jarvis remain engaging protagonists, and the spionage worldbuilding is effectively rendered. The supporting cast from the second book (particularly the Rescue Rangers legacy characters) have a reduced role here, smartly pinning the focus on Bernie and Jarvis while fleshing out the world with some new supporting players. This proves promising for future Mouse Watch titles, a series that has improved with each outing. The Saturday-morning-cartoon flavor is a tricky one to pull off, but the author has managed to turn this series into a true delight. A heck of a two-fisted action-adventure story. written by Lisa Fiedler

Felina the cat queen may be gone, but the subway tunnels of Atlantia are still dangerous to all rodents who dwell within the twists and turns. Pup and his spider companion Hacklemesh are lurking in the shadows... Hopper is determined to reach out to his brother-gone-bad, to see if he can talk some sense into the young rodent. But then Hope, the youngest of Zucker and Firren's new litter, goes missing, and all signs point to Pup as culprit. Meanwhile, Firren is rattled not only by the disappearance of her daughter, but a shameful secret from her past that she's kept hidden for years. A secret that may hold damaging consequences for not only Firren, but all of Atlantia. How can Pup betray his brother like this? What exactly is Firren hiding? And will the tunnels ever be the same again?

Reviews by: School Library Journal Gr 4-6-The trilogy set in the world of mice concludes with a rousing adventure packed with revenge, kidnapping, redemption, pirates, and a wedding. Hopper and Zucker are still leaders of the underground city of Atlantia, and their friendship grounds the narrative, but Fiedler allows "Chosen One" Hopper's siblings to become important characters in their own right. This entry is younger brother Pup's turn to shine, and he evolves from outlaw to hero as he helps rescue Firren and Zucker's children, held captive by a traitor to the city with an old grudge against Firren. New readers may have trouble keeping track of the novel's different tribes and family trees, but fans will relish surprises in the backstories of characters they have grown to love. Fiedler keeps the pace moving quickly and the tension tight; the traitor's identity is revealed early to readers but not to the characters. The peril is on the lighter side, making this series ideal for younger middle grade readers who enjoy animal fantasy. The novel's New York City setting continues to be a strong, appealing element as the rodent heroes venture into Manhattan, and Fiedler playfully mines local history and culture for character names, some obvious (Verrazano), some subtle (Vigneault). VERDICT A bonus story about the founding of Atlantia caps this satisfying tale full of cat, rat, and mouse heart.-Marybeth Kozikowski, Sachem Public Library, Holbrook, NY Copyright 2015. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

#1777497 (Vol. 01) Mouseheart (Hardcover (Trade))

Reviews by: School Library Journal Gr 4-8-Fiedler reinvigorates the "small but courageous mouse" literary trope with this captivating animal fantasy set in the subway tunnels of modern-day Brooklyn, NY. Hopper escapes from a pet shop and tumbles into the subterranean rat empire of Romanus. Aided by his new friend Zucker, rascal prince of the rat empire, he longs to find his missing siblings and understand his role in a war between Romanus and the mysterious Mus tribe. Good and evil are not as they seem, and through careful structure and rounded characterizations, Fiedler keeps readers engaged, revealing important plot details at just the right moment and using varying sentence lengths to great dramatic effect. Rich vocabulary and sly references to New York sports history (Dodger, Ebbets, Rangers) add depth. Older readers may pick up on hints about government control and the dangers of trading freedom for safety. In the end, the stage is amply set for book two as Hopper seeks to reunite with his found-yet-lost-again siblings and explore his destiny as the rodent world's "Promised One." Mouseheart will please fans of novels by Erin Hunter, Brian Jacques, and Kathryn Lasky.-Marybeth Kozikowski, Sachem Public Library, Holbrook, NY (c) Copyright 2014. Reviews by: School Library Journal Gr 4-8-Abby and friends are back in this rip-roaring second installment. This time, Toby's dad has been kidnapped by a mysterious villain. Abby, Izumi, and Charlotte must help Toby complete a series of tasks in order to beat the deadline to save his father. The story meanders through various locales with lots of action, sometimes making it tricky to keep up with the chain of events. Initially, it seems like Toby's complicated relationship with his father will be explored, but that is set aside in favor of a new character with whom Toby has a troubled past. This new character feels like a throwaway bad guy, making it a little difficult to emotionally invest in the story's resolution. Readers may also struggle to relate to the very privileged lifestyle of Abby and her friends, who can call up a private jet at a moment's notice. Even with these challenges, Abby's delightfully quick and witty sense of humor and the continual excitement of the plot provide pleasant and satisfying escapism. Young readers will enjoy the quirky spy gadgets, as well as the fact that it's the kids who save the day. VERDICT A celebration of friendship and girl power, this exciting spy story will keep readers on the edge of their seats. Purchase where the first book has fans.-Alyssa Annico, Youngstown State University, OH Copyright 2018. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

Reviews by: Horn Book Guide Fall of 1935 finds a new Head Girl and her mean-girl minions making life miserable for Daisy, Hazel, and their Deepdean schoolmates. A murder on Bonfire Night and scandalous secrets put Daisy and Hazel's Detective Society back in action, but they face complication as their own friendship sours. It's an unexpected twist that makes room for character development in this compelling fourth mystery. (Copyright 2018 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: School Library Journal Gr 5-8-For the first time since the "Wells & Wong" series debut, sleuths Daisy and Hazel are back at Deepdean School with friends Beanie, Kitty, and Lavinia in 1935: their ninth-grade year. During the Guy Fawkes Day bonfire at school, the Detective Society encounters their newest case: Head Girl Elizabeth has been killed, and the only possible suspects are her five closest friends. As Hazel, Daisy, and their friends investigate, they discover that each suspect had her own potential motives for the murder. Elizabeth was holding secrets over her friends' heads, ranging from fairly innocuous (one student dyes her hair) to more serious (an eating disorder and a romantic relationship between two girls at a time when this would have been extremely taboo). As in prior installments in the series, Steven's storytelling and suspense-building are top-notch, though the killer's motive is not quite as compelling as other suspects'. The fast-changing nature of friendship between girls is a constant theme throughout; the gossipy secrets Elizabeth uses to blackmail other students and Daisy's insecurity when Hazel shows interest in a boy are prime examples. This realistic depiction of student life may make the 1935 setting a little more relatable for readers, while also providing appeal to an older audience than previous books. VERDICT An appropriately complex depiction of adolescent friendship gives this well-crafted mystery appeal beyond its genre alone.-Katherine Barr, Cameron Village Regional Library, Raleigh, NC Copyright 2018. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

Reviews by: School Library Journal Gr 4 Up—A short story companion to the popular mystery series. At Deepdean School for Girls, Daisy Wells and Hazel Wong are solving mysteries once again. In this book, they encounter some "mini mysteries" while offering tips, tricks, and tales from the Detective Society. The book opens in 1936 with the introductory text appearing on a typewriter, intriguing readers and setting the tone that this is a legitimate artifact revealing true tips and detective secrets. Readers are given a thorough guide on how to set up their own detective society, the basics of sleuthing, information about special cases and the world of spies, and how to crack unsolved mysteries. Readers are encouraged to choose detective society members well and have them pledge to discover truth and justice. The book even includes instructions on

how to make a fingerprint kit. VERDICT Fans of Enola Holmes, Agatha Christie, and Stuart Gibbs will love this engaging text that is a blend of mystery fiction and gumshoe how-to.—Lisa Gieskes

#1898878 (Vol. 01) Murder Is Bad Manners (Hardcover (Trade))

written by Robin Stevens

Daisy Wells and Hazel Wong are best friends at Deepdean School for Girls, and they both have a penchant for solving mysteries. In fact, outspoken Daisy is a self-described Sherlock Holmes, and she appoints wallflower Hazel as her own personal Watson when they form their own (secret!) detective agency. The only problem? They have nothing to investigate.

Reviews by: Booklist Grades 5-8 Here's a mystery import, set in the 1930s, that does justice to its British roots. Hazel Wong has come from Hong Kong to attend Deepdean boarding school. An outcast until she is accepted by upper-crust Daisy Wells, Hazel is happy to be half of a two-girl detective agency. The crimes they solve are silly until Hazel discovers the body of their dead science teacher in the gym. By the time she gets Daisy, the body is gone. The situation grows more complicated as the girls dash around Deepdean, learning secrets about teachers (including a hint of a same-sex relationship), picking up clues, and getting in all sorts of mischief (such as drinking ipecac to make themselves ill). Then another murder occurs. This is a delightfully designed book, from the throwback cover to the school map inside. Hazel makes a good narrator, and while the mystery plods a bit and has too many teacher though a cast list helps not every reader will guess the ending. Nancy Drew, meet Wells and Wong. (Reprinted with permission of Booklist, copyright 2015, American Library Association.)

Reviews by: Bulletin of the Center for Children's Books Thirteen-year-old Hazel Wong and her best friend, Daisy Wells, students at Deepdean School in 1930s England, aspire to be detectives. To that end they have formed a secret Detective Society, practicing their observational skills by snooping on their peers and teachers and memorizing license plates. When Hazel discovers science teacher Miss Bell dead in the gym one evening, and the corpse then disappears before anyone else can witness it, the society has a real case at last (much to Daisy's delight and Hazel's trepidation). The pair put their deductive skills to work as they seek to solve the mystery of Miss Bell's death, and gradually they begin to whittle down the suspect list, discovering a connection to a Deepdean student who "accidentally" died the previous year. Stevens' story, narrated by Hazel, is a first-rate homage to English boarding school adventure and period murder-mystery tales. Hazel's astute observations as a cultural outsider (she's a native of Hong Kong) add an interesting layer of depth to the narrative while also making it more accessible to non-British audiences (a helpful "Guide to Deepdean," provided by Daisy at book's end, amusingly sheds more light on specific terminology). Spot art at the beginning of each chapter features Daisy and Hazel in silhouette and sporting flashlights, a satisfyingly correct period detail. Middle-schoolers with a taste for Agatha Christie (and perhaps PBS costume or mystery dramas) will eat this up and ask for more. JH

Reviews by: Horn Book Guide Pals Hazel Wong and Daisy Wells are desperate for a mystery to solve, but when Hazel finds the dead body of teacher Miss Bell, she's absolutely gobsmacked. The details of the girls' friendship and the 1930s English boarding school setting are just swell, and readers who fancy mysteries will have masses of fun with this ace murder story. (Copyright 2015 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews A pair of eighth-grade girls, admirers of Holmes and Watson, expose a real murderer in a tony English boarding school in 1934. This splendid school story/murder mystery opens with a map and a helpful cast of characters: the staff and students of Deepdean School, where Hazel Wong, daughter of an Anglophile Hong Kong banker, and Daisy Wells, golden-haired member of the English nobility, have formed the Wells & Wong Detective Society. From Part One, "The Discovery of the Body," to Part Eight, "The Detective Society Solves the Case," Hazel, as the society's secretary, worriedly but methodically recounts the case. Her account begins on Oct. 30, 1934, one day after finding Miss Bell's dead body, runs through the end of November, when the murderer is arrested, and wraps up during their Christmas holiday. Her narrative is punctuated with occasional handwritten updates of their suspect list. Hazel's outsider status allows her to comment humorously on the curious customs of the English world, while cheerful Daisy's need to know and her privileged assumption that everyone will love her and do her bidding earns them access to places and information that help them solve their first serious case. There are clues, red herrings and suspenseful chases galore, as well as heaps of boarding school trivia that amuse and delight. An irresistible English import with sequels to come. (Mystery. 10-14) COPYRIGHT(2015) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Eighth-grader Hazel Wong lives in the shadow of her best friend Daisy Wells, a girl so flawless that even retching seems to agree with her. Inspired by pulp fiction paperbacks, the girls form a secret detective agency at their boarding school, opening their first big case when their teacher, Miss Bell, turns up dead. Set in 1934 England, this first book in the Wells & Wong Mystery series is part murder mystery, part diary, and a pitch-perfect snapshot of adolescent friendship. Daisy is the classic mean girl: privileged, selfish, and as beautiful as she is heartless; all qualities that Hazel lacks. (Narrator Hazel isn't even the heroine of her own story!) The girls are in over their heads, but Daisy, used to bending everyone to her whims, refuses to admit it, so it's up to pragmatic Hazel to save the case, and their lives. Their yin-yang

friendship, like the camaraderie of Sherlock and Watson, is as integral to the story as the revelation of the murderer. A sharp-witted debut for Stevens, one that will leave readers eagerly awaiting subsequent installments. Ages 10--up. Agent: Gemma Cooper, Bent Agency. (Apr.)

Reviews by: School Library Journal Gr 4-7-A cozy murder mystery with manifest charms, this series opener introduces a pair of boarding school sleuths covertly detecting a death no one else realizes has occurred. Narrator Hazel Wong, a sturdy Hong Kong transplant, and charismatic English Rose Daisy Wells forge a friendship based on their mutual deception of their classmates, concealing their abundant intelligence during lessons and instead deploying it in the service of the Wells & Wong Detective Society. Though Hazel adopts the lingo of the native students, her pleasant, frank narration displays her outsider status, a perspective that helps guide readers through the logistical and social nuances of their 1930s British countryside school. The mystery proves a twisty but conventional story replete with concealed relationships, professional jealousy, and genre-bound clues. Fresher and more compelling is the tension between the two detectives. Even as the friends remain bonded in cleverness, Hazel develops a conscientious concern for students and staff along with anxiety at tracking a murderer; her caution sparks conflict with Daisy's gleeful curiosity and unperturbable confidence. A recent spate of boarding school settings means this novel shares some DNA with several 2014 offerings, especially Julie Berry's puzzler, *The Scandalous Sisterhood of Prickwillow Place* (Roaring Brook), a spiky story that flaunts its affectations. But Stevens's engaging tale shines with the reflected charms of its detecting duo, a winsome combination of thoughtfulness and relish.-Robbin E. Friedman, Chappaqua Library, NY (c) Copyright 2015. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

Unit Price \$19.99

A tea party takes a poisonous turn leaving Daisy and Hazel with a new mystery to solve in the second novel of the Wells & Wong Mystery series. Schoolgirl detectives Daisy Wells and Hazel Wong are at Daisy's home, Fallingford, for the holidays. Daisy's glamorous mother is throwing a tea party for Daisy's birthday, and the whole family is invited, from eccentric Aunt Saskia to dashing Uncle Felix. But it soon becomes clear that this party isn't about Daisy after all--and she is furious. But Daisy's anger falls to the wayside when one of their guests falls seriously and mysteriously ill--and everything points to poison. It's up to Daisy and Hazel to find out what's really going on. With wild storms preventing everyone from leaving, or the police from arriving, Fallingford suddenly feels like a very dangerous place to be. Not a single person present is what they seem--and everyone has a secret or two. And when someone very close to Daisy begins to act suspiciously, the Detective Society does everything they can to reveal the truth...no matter the consequences.

Reviews by: Booklist Grades 5-8 *Starred Review* After getting off to a good start in *Murder Is Bad Manners* (2015), Stevens perfects her take on the British murder mystery in the second book in the Wells & Wong series. Daisy Wells has brought boarding-school friend (and co-member of the Detective's Society) Hazel Wong to Fallingford, her family's estate, complete with mazes, libraries, lords, and ladies. It's Daisy's birthday, and a lavish tea is planned with visits from two other school chums. But there are other visitors, including the nefarious Mr. Curtis, who seems as enamored of the family antiques as he is of Daisy's mother. From the first pages, we learn something dreadful happens to Mr. Curtis, and as the book progresses, readers will be enthralled with the what, why, and howall issues that the Detective's Society unravels through cleverness and sleuthing skill. Not so long ago, detailed accounts of murders in middle-grade mysteries were rarely done. Here, though, Mr. Curtis lies moldering in a guest room after a violent poisoning, while the game is afoot all over the house, which has been cut off by a flood. Though Stevens handles the mystery element to perfection (the house diagrams are a nice touch, too), what really shines is the depiction of her characters, especially bossy, egocentric Daisy and loyal, smart Hazel, always aware that she is other. A smashing good time.(Reprinted with permission of Booklist, copyright 2016, American Library Association.)

Reviews by: Bulletin of the Center for Children's Books When a suspicious death occurs at Daisy Wells' family home over the Easter holiday break, the Wells & Wong Detective Society (from *Murder Is Bad Manners*, BCCB 7/15) leaps back into action as young teen Daisy and best friend (and narrator) Hazel Wong endeavor to solve the murder of unpleasant houseguest Mr. Curtis. Fellow Deepdean students and visitors Kitty and Beanie join them as assistants, and the quartet searches for clues throughout Fallingford House as heavy rains flood the area and cut off both escape and outside help. Suspicion falls primarily on Daisy's family members--her mother was having a fling with the deceased; her uncle is acting peculiarly; and her great-aunt (a known kleptomaniac) had been eyeing Mr. Curtis's gold pocket watch--but Daisy's governess is also observed behaving unusually. Daisy's relationships with the suspects make the groups' detective work an emotionally charged effort, but careful deduction and perseverance serve the young detectives well in solving the crime. Stevens continues to satisfyingly scratch the English murder-mystery itch with this delightful second installment in the Wells & Wong series. The supporting cast is fairly formulaic, but Hazel and Daisy are nuanced, three-dimensional characters, and their bickering but loyal friendship rings true. The mystery itself is solidly constructed, and the solution is both surprising and logical. Fans of the first book will find this just as rewarding, and kids on the cusp of embracing Agatha Christie will enjoy testing

their deductive skills here as well. JH

Reviews by: Horn Book Guide It's Daisy's fourteenth birthday, and her best pal and fellow Detective Society member Hazel is there to celebrate. When a party guest is murdered, the sleuths face a suspect list that includes--gulp--Daisy's father. Following *Murder Is Bad Manners*, Stevens serves up another cozy Golden Age style mystery (1930s English manor setting--check; no outside suspects--check), with two likable heroines to boot. (Copyright 2016 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews Wells and Wong return in a classic country-estate mystery. Spending their April break at Fallingford, Daisy's stately (but run-down) family home, schoolgirls Daisy Wells and Hazel Wong become detectives again when an unpleasant friend of Daisy's mother is murdered there. Mr. Curtis is a stranger, ostensibly invited for Daisy's 14th birthday party. He's clearly more interested in the family's valuable antiques, and Daisy's mother, Lady Hastings, is inappropriately interested in him. When he's fatally poisoned after drinking his tea, many people have motives, but the girls (and two school friends invited for the occasion) quickly narrow the list. All their potential suspects are members of Daisy's own family. This is difficult for the president of the Detective Society, but she continues to gamely direct its proceedings. Hazel serves as scribe and narrator. Besides recording their activities, she supplies her own observations, including comparisons of her wealthy Chinese family's home in Hong Kong with this shabbier one, and her feelings about looking and being different from Daisy and her white family. Published in England in 2015 as *Arsenic for Tea*, this well-crafted and entertaining detective story, a stand-alone sequel to *Murder Is Bad Manners* (2014), is solidly set in a fading world of 1930s minor nobility and supported by a cast list and map. A first-rate whodunit, reminiscent of a game of Clue and terrific preparation for the works of Agatha Christie. (Historical mystery. 10-14) COPYRIGHT(2016) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 4-8--Detectives Daisy Wells and Hazel Wong are back to solve another mystery, but this one hits a little closer to home for Daisy. While on school break, bossy Daisy and levelheaded Hazel are staying at Daisy's family home, where her mother is throwing Daisy a children's birthday tea party. Fourteen-year-old Daisy is appalled that she is having such a childish fete, especially since her mother has invited family, school friends, and her "gentleman friend" Mr. Curtis. The house is full of suspects when, during the party, Mr. Curtis is poisoned and later dies. Mr. Curtis is truly an unlikable individual, so the list of suspects is large, and most are people Daisy has known her whole life. Daisy and Hazel's skills are tested as they narrow down the list of possible murderers. The countryside has flooded, and the arrival of the police is delayed by days. Daisy and Hazel's unlikely friendship balances out the strengths and weaknesses of their personalities; Daisy is pushy and clever, while Hazel is cautious and practical. VERDICT An English import with a good mystery that will keep readers' attention, this second volume of the trilogy is strong enough to be a standalone title.--Lisa Nabel, formerly at Dayton Metro Library, OH Copyright 2016 School Library Journal, LLC Used with permission.

#2000261 (Vol. 03) First Class Murder (Hardcover (Trade))

written by Robin Stevens

An heiress is murdered, her magnificent ruby necklace is missing, and there's a train full of suspects. . . .

Reviews by: Horn Book Guide Aboard the famed Orient Express, sleuthing schoolmates Daisy Wells and Hazel Wong try their best to heed Mr. Wong's one holiday rule of no crime-solving. But when a young heiress is murdered and another undercover detective appears searching for a spy, the two friends are thrust into their third mystery. A clever and diverting homage to Agatha Christie's classic work, with perceptive musings on racism and classism. (Copyright 2018 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews Crime-solving friends Hazel Wong and Daisy Wells encounter yet another murder victim while traveling from Paris to Istanbul on the famed Orient Express in 1935. A jewel theft, a spy hunt, forged documents, a magician, a seance, and a locked-room murder--what more could the Detective Society (rising 14-year-old schoolmates Hazel and Daisy) hope for on a summer holiday? In this third of the Wells & Wong mysteries to be published in this country, Hazel chronicles how her father's efforts to take their minds off crime backfires when one of their fellow first-class passengers is murdered, apparently by her jealous brother and possibly for her beautiful diamond-and-ruby necklace. And it's not just Hazel's father prohibiting their detective efforts--there is also a fellow traveler, the undercover detective Miss Livedon, whom they've encountered before. Disguised as the wife of a copper magnate, she's really searching for a spy onboard. Stevens' clever story has been constructed as a tribute to Agatha Christie's *Murder on the Orient Express*, published in 1934, just one year before Daisy and Hazel's ride on that same train, and uses many similar elements. There's solid suspense, humor, and food for thought: Hazel's Hong Kong origins allow her to notice examples of racism, anti-Semitism, and class snobbery that white, upper-class Daisy doesn't see. Just as Daisy predicts, "the Detective Society's most exciting adventure yet!" (train car diagram with characters, glossary, acknowledgements) (Mystery. 10-14) COPYRIGHT(2017) Kirkus Reviews, ALL RIGHTS RESERVED.

My Father's Dragon (Trade)

#2349370 My Father's Dragon (75th Anniversary Edition) (Hardcover (Trade))
written by Ruth Stiles Gannett

When Elmer Elevator hears about a baby dragon being held captive on Wild Island, he knows just what to do. First he packs his knapsack with important supplies like chewing gum, lollipops, and lots of rubber bands. Then he stows away on a ship headed for the island. There he'll meet many animals who try to stop him, but Elmer has a few tricks up his sleeve . . . or more precisely, in his knapsack. One way or another, he will rescue the dragon!

My Life as a (Prebound)

#1961170 (Vol. 03) My Life As a Cartoonist (Prebound)
written by Janet Tashjian

There's a new kid in Derek Fallon's class. His name is Umberto and he uses a wheelchair. Derek's family is still fostering Frank the monkey, and Derek thinks it would be great to train Frank to assist Umberto. But Derek quickly realizes that Umberto is definitely not looking for any help. Derek soon becomes the butt of Umberto's jokes. On top of that, Umberto starts stealing Derek's cartoon ideas and claiming them as his own. How did Derek get himself into this mess, and how can he find a way out before he is the laughingstock of school? The answer may very well be his cartoon strip--SUPER FRANK!

Reviews by: Booklist Twelve-year-old Derek is not a reader. His assignment to read three books over the summer stinks. But then something that he wants to read catches Derek's eye. In the attic, he finds a 10-year-old article about a teenage girl who drowned on a Martha's Vineyard beach.

When he questions his mother about the article, her nervousness tells him something's up, so he takes on the assignment of discovering what happened on the beach that day and why it's important. Janet Tashjian, known for her young adult books, offers a novel that's part *Diary of a Wimpy Kid* (2007), part intriguing mystery; yet the best element here is really the first-person voice, which captures so completely the pushes and pulls in the life of someone with learning disabilities. Derek is brash, careless, and usually willing to do something stupid. He is also bright, a talented artist, and smart enough to know when he has gone too far. Adding to the book's effectiveness is a generous typeface that looks like printing and artwork by the author's 14-year-old son, Jake. Like the story's narrator, he uses stick figures to illustrate vocabulary words, and here they march down the margins. Some are simple depictions, like a handful of flowers for the word bouquet. Some take more thought: a sad face moving to a happier one for adapt. Give this to kids who think they don't like reading. It might change their minds. -- Cooper, Ilene Copyright 2010 Booklist

Reviews by: Horn Book Meet twelve-year-old Derek, a perfect example of the kind of kid adults describe with loving exasperation as "all boy." Derek fidgets, makes (with magic marker grids) grenades out of avocados, and, above all, doesn't like to read required books. In Derek's mind, summer means two months of liberation—that is, until his parents send him to Learning Camp so he won't squander his intellectual potential. What they don't realize is that Derek is an inquisitive child; an imaginative artist; and, in educational parlance, a visual learner. For not being much of a reader, Derek is a smooth narrator with a strong, humorous voice. He outlines the trials and tribulations of Learning Camp, especially in getting along with teacher's pet Carly. Derek's attempts to solve a mystery from his childhood connect the events of the story and divert readers from any hint of didacticism as he learns to build on his strengths rather than concentrate on his weaknesses. Cartoon drawings by the author's teenaged son decorate the margins and not only re-create Derek's illustrated vocabulary lists but also reduce the amount of text on each page, making the book more approachable for kids like Derek. Derek tells readers, "If my life were a book, I'd have my own cool adventures." It is, and he does. From HORN BOOK, (c) Copyright 2010. The Horn Book, Inc., a wholly owned subsidiary of Media Source, Inc. No redistribution permitted.

Reviews by: Publishers Weekly When 12-year-old Derek discovers an old newspaper article in his attic about a girl "found dead" on a beach, he becomes obsessed, especially when he learns the teenager may have died saving him from the ocean when he was just a toddler. Derek is a mischievous boy who enjoys using avocados as grenades more than reading, but as he uncovers the truth about what happened 10 years ago from those who were there, he discovers he is "surrounded by stories" both tragic and inspiring. Readers may not quite understand the intensity of Derek's obsession, which takes him from his home in California to Martha's Vineyard, where the accident took place, but his story moves quickly, thanks in part to stick figures drawn in the book's margins by Derek to define "vocabulary words." Some of these illustrations, drawn by Tashjian's 14-year-old son, Jake, are quite clever ("injustice" shows two irate students reading a sign saying "School on Saturday"). Derek's concluding speech may strain credibility, but a relatable and fun format make this a smart choice for "reluctant" readers—like Derek. Ages 9-12. (July) (c) Copyright PWxyz, LLC. All rights reserved.

Reviews by: School Library Journal Gr 4-7—Twelve-year-old Derek has been identified as a reluctant reader. He likes to read, but doesn't enjoy required materials. He says he prefers having his own adventures (tossing as hand grenades the avocados his mother is saving for dinner, climbing onto the roof with a croquet set to hit wooden balls into the satellite dish) to learning about someone else's life. When his teacher gives the class summer reading and writing assignments, Derek finds a way to distract himself from the task. He discovers an old newspaper clipping about a 17-year-old who drowned, and his mother explains that the teen was babysitting him at the time and died saving him. Derek is determined to learn more about her death and his involvement in it. The margins of this book feature vocabulary words illustrated with cartoons. The protagonist is by turns likable and irritating, but always interesting. He is sure to engage fans of Jeff Kinney's "*Diary of a Wimpy Kid*" books (Abrams) as well as those looking for a spunky, contemporary boy with a mystery to solve. Reluctant readers will appreciate the book's large print and quick-paced story. -- Helen Foster James, University of California at San Diego (c) Copyright 2010. Lotta has just started middle school--but life isn't going very smoothly. First of all, she has a teacher named Mrs. Crabbert--who is very, well, crabby. Then, her mom gives her a recorder that seems to make mysterious things happen. Lotta also wants to get her own pet... no matter what it takes. But her parents' refusal to consider her request, a fight with her best friend, and that weird recorder keep getting in the way. Can Lotta make it all work out?

978-1-4549-3624-4 ©2019 5-1/2 x 8 192 pgs.

Grades 4 - 6 Dewey# Fic Lexile 660

Reviews by: Booklist Ten-year-old Lotta loves to write and draw in her diary, and this doodle-filled series starter begins with her first day of fifth grade. She's excited for the new school year, until she hears that crabby Mrs. Crabbert will be her teacher; though, luckily, Lotta's best friend, Cheyenne, is in her class. Over the span of two weeks, a lotta things happen to Lotta. These come in the form of everyday disasters and mishaps that kids will find instantly entertaining. For instance, her first-day-of-school family dinner at an Italian restaurant takes an unsavory turn; her mother continues to encourage Lotta to play the recorder by gifting her yet another of the dreaded instrument; then Lotta decides she wants a pet (besides her turtle, Webster), but her parents resoundingly say no. Pantermnller's Lotta books have been wildly popular in her native Germany, and American readers will be smitten with the spunky protagonist and her indefatigable scheming. Lotta's escapades are described and illustrated with theatrical flair and humor, making this an enjoyable snapshot of tween life.--J. B. Petty Copyright 2010 Booklist

Myrtle Hardcastle Mystery (Trade)

#2160429 (Vol. 01) Premeditated Myrtle (Hardcover (Trade))

written by Elizabeth C. Bunce

When her next-door neighbor, a wealthy spinster and eccentric breeder of rare flowers, dies under Mysterious Circumstances, Myrtle seizes her chance. With her unflappable governess, Miss Ada Judson, by her side, Myrtle takes it upon herself to prove Miss Wodehouse was murdered and find the killer, even if nobody else believes her -- not even her father, the town prosecutor.

Reviews by: Publishers Weekly Channeling classic Victorian whodunits, Bunce's (the Thief Errant series) detective series opener features a quirky, winning narrator and a lively secondary cast. Thanks to governess Miss Judson, 12-year-old Myrtle Hardcastle, who is middle-class and white, is training to become a Young Lady of Quality. Inspired by the examples of her late mother, who was a medical student, and her widowed lawyer father, Myrtle tends to be anything but proper, for example erecting an observation point from which to chronicle neighborhood events. When elderly next-door neighbor, scornful Miss Wodehouse, doesn't follow her routine one morning, Myrtle summons the constabulary. After the revelation of Miss Wodehouse's death and the arrival of the elderly woman's heretofore unknown relatives, Myrtle suspects she was murdered and enlists Miss Judson to solve the mystery. A generous, well-wrought relationship between governess and charge complements tightly plotted twists. As "the precocious daughter who lurked about everywhere being impertinent and morbid," Myrtle is as clever as she is determined, and her expertise; seen in evidence collection and courtroom antics; is certain to delight genre stalwarts and mystery novices alike. Publishing simultaneously: How to Get Away with Myrtle (A Myrtle Hardcastle Mystery #2). Ages 10: up. Agent: Erin Murphy, Erin Murphy Literary. (Oct.)

Reviews by: School Library Journal Gr 5–8—Twelve-year-old criminologist Myrtle Hardcastle deeply resents being "banished" by her father to an English seaside town instead of being allowed to attend a forensics conference with him in Paris. The year is 1893 and young girls may be expected to become "Young Ladies of Quality," but Myrtle plans to pursue investigating. She is beyond delighted when a female investigator befriends her on the train, just in time for a priceless tiara to be stolen! When someone turns up dead and Myrtle's aunt is charged with the murder, Myrtle has no choice but to solve the case. Who stole the tiara and murdered Mrs. Bloom? Can Myrtle find out before Aunt Helena is shipped off to trial? Readers who enjoyed Premeditated Myrtle will rejoice in this second installment featuring the plucky protagonist, her beautiful and multitalented governess Miss Judson, Peony the cat, and a whole new cast of strong female characters. References to Scotland Yard and investigative techniques will delight young Sherlock Holmes aficionados. The advanced vocabulary will send even the most sesquipedalian readers scurrying to the dictionary. The descriptions of murder may be a touch heavy for some. VERDICT This deeply plotted sequel is an additional purchase for collections serving the most precocious readers who long for a fast-paced mystery where women shine.—Emily Beasley, Omaha Public Sch., NE

Reviews by: Horn Book ur young Victorian sleuth. All the members of Myrtle’s household are suffering from malaise at the lack of crimes t investigate. Myrtle; her father, the Prosecuting Solicitor; and her brilliant governess, Miss Judson have no villainies to uncover, and it’s so dull. I’s exciting when Father gets pulled into the case of a long-ago shipwreck—is Sally, a White girl about Myrtle’s age, an heiress or a fraud? But the case of Sally-the-possible-heiress will have to wait; Father needs his tonsils removed (a dangerous surgery in 1894, even in a “marvelous specimen of modernity” like the Royal Swinburne Hospital). When Father witnesses a murder in the hospital, is it real or a delusion? Only Myrtle and Miss Judson, ably assisted by Sally and Peony, Myrtle’s talkative cat, can expose the truth. Myriad secrets all come back to the central mystery, and though some tertiary subplots are lightly developed, the mystery as a whole is charming. How can it be otherwise when solved by “a cat, a dog, two doctors, a journalist on crutches, an unemployed law clerk, a solicitor in pyjamas, a nurse with a cricket bat, a governess, an off-duty housekeeper, and one small frantic Investigator”? Myrtle’s family is White; multiple characters of color are present, including biracial French Guianese Miss Judson. Enthusiastically, chaotically delightful. (Historical mystery. 9-12)

#2350145 (Vol. 05) Myrtle, Means, and Opportunity (Hardcover (Trade))
written by Elizabeth C. Bunce

When her governess inherits an estate on a Scottish island, amateur detective Myrtle Hardcastle couldn't be more excited. Unfortunately, the ancestral castle is both run-down and haunted. Ghostly moans echo in the walls, and there are rumors of a cursed treasure lost on the island-an ancient silver brooch that may have cost the former lord his life. But who had the motive, means, and opportunity to kill him? And could this Scottish trip mean the end of Myrtle's plans to get her father and governess together?

#1979926 (Vol. 02) Gears of Revolution (Hardcover (Trade))

written by J. Scott Savage

It has been a week since Trenton and Kallista left their mountain city of Cove--now renamed "Discovery"--aboard their homemade mechanical dragon to search for Kallista's father, Leo Babbage. They find a compass and clues that point them towards a second underground city. Hoping to find Kallista's father there-and perhaps more information about the living dragons that ravaged the world-they head west, thinking they will find a thriving city like Discovery. Instead, they find only large swaths of blackened forest and the ruins of destroyed buildings, and a small civilization.

Reviews by: Children's Literature Nine-year-old Nicholas Benedict is sent to yet another orphanage, Rothschild's End. He is an extraordinarily intelligent lad, with a photographic memory, mechanical skills, and logical thinking. He is also slightly small for his age, sports a larger-than-usual lumpy nose, and suffers from narcolepsy. Not surprisingly, he becomes a target for the trio of bullies called the Spiders, who rule, undeterred by unsuspecting staff, over all the children at the orphanage. In fact, the small staff is rather inept and unaware, with the director's attention and efforts directed toward recovering from the near financial ruin caused by his predecessor. Nicholas is housed away from the other children, locked in a storeroom upstairs so his screams and night terrors do not disturb the others. During his first night there, he exhibits his uncanny ability to think on

his feet, outwit others, and cleverly gains the freedom to come and go around the orphanage as he pleases. During one of his nocturnal roamings he learns of a missing treasure connected to the benefactors of the orphanage and sets his mind to solving the mystery and acquiring the treasure before Mr. Collum, the director. He is helped by John, the only orphan who befriends him, and a deaf girl who lives on a nearby farm. They encounter one conundrum after another, but Nicholas perseveres, discovering much about himself and the life he wants to live, as he fashions solution after solution. Like the "Mysterious Benedict Society" books, the story progresses slowly and thoughtfully with a great amount of detail. Tension builds as Nicholas schemes to evade the Spiders and Mr. Collum and to unravel the clues about the treasure. Nicholas is a fascinating character, likable and sympathetic, and readers who know the previous books will enjoy this opportunity to meet Mr. Benedict as a child. The length and detail might deter those who do not know the series, but they will be well rewarded if they stick with it. Reviewer: Peg Glisson

Reviews by: School Library Journal Gr 4–8—The childhood of the brilliant and kindhearted leader of The Mysterious Benedict Society is fleshed out in this prequel to the popular series. Nine-year-old Nicholas Benedict is shuffled to yet another orphanage where he's sure to be teased for his intellect, disruptive nightmares, and struggle with narcolepsy. Sure enough, the resident gang makes him their latest target. Mr. Collum, the orphanage director, singles Nicholas out because of his night terrors and locks him in the attic each evening. After creating his own skeleton key in metal-working class, he begins sneaking out after dark to take solace in the library. He cannot resist entering Mr. Collum's locked office, where he finds the former director's diary, which describes a secret treasure room. This is the opportunity that Nicholas has been waiting for: a chance for the kind of financial freedom that will protect him from tyrannical adults and dim-witted bullies forever. While children new to the series, might get mired down by the amount of detail, fans will be thrilled with the rich backstory of a beloved character.—Alison O'Reilly, Suffolk Cooperative Library System, NY

Reviews by: Voice of Youth Advocates (VOYA) After three books in The Mysterious Benedict Society, a prequel is in order. Nicholas is a precocious nine-year-old with an infinite memory, quick wit, and instinct for survival. After leaving another orphanage, Nicholas must navigate the perils of bullying with militaristic precision to avoid a trio of fists while searching for the Rothschild's mysterious treasure with his two new friends. He deals with narcolepsy that at times seems unimportant, only providing a quirk for quirk's sake when Nicholas is already brilliantly providing enough fodder to keep readers interested. There are the humorous aspects—a mule named Rabbit and a nurse whose cure-all potion is nothing but an icky placebo—and sentimental aspects—a deaf girl Nicholas meets in his search for the treasure and Nicholas's own need for love having never known his parents. The puzzles are lackluster, but for those who have continued with the series, there is no doubt that they will read this hefty book since all are as protracted. The mystery drags out as Stewart meanders through Nicholas's every encounter at the orphanage and every thought leading to solving the puzzle. With brief glimpses of hardship, the story never quite delves deep enough into misfortune to convincingly portray Nicholas's hard-knock life, which uncovering a treasure will alleviate. To the contrary, Nicholas realizes that his friendships and intelligence are the treasures with the aptly titled final chapter, "An End at the Beginning." Lengthy and unproblematic, this book only caters to the niche reader already invested in the series. Reviewer: Alicia Abdul

Mystwick School (Trade)

	Quantity	Unit Price
 <p>#2280891 (Vol. 02) Midnight Orchestra (Hardcover (Trade)) <i>written by Jessica Khoury</i> Things are finally looking up for Amelia Jones: she's officially a Mystwick student, and she even has a teacher to help her learn how to use her rare Composing magic. The only problem is that she still doesn't understand how her powers work. But then she hears about a super exclusive Midnight Orchestra-half performance, half magical black market-and Amelia is sure that's where she'll find the answer to her Composing problem. But the Midnight Orchestra is far more sinister than it initially appears and if Amelia can't unlock her Composing powers, not only will Mystwick lose the musicraft competition, she won't be able to rescue her friends from the danger unleashed in this thrilling adventure. 978-0-358-61291-9 ©2022 5-1/2 x 8-1/4 400 pgs. Grades 4 - 7 Dewey# Fic AR Lvl 5.1 AR Pts 12.0</p>	1	\$16.99

Reviews by: Kirkus Reviews Amelia Jones isn't a typical seventh grader. She attends a boarding school dedicated to the mastery of Musicraft, a type of magic conjured by playing musical instruments. On top of that, she's the only student with the ability to Compose, that is, create new spells, an unusual skill she has recently discovered. This sequel to 2020's The Mystwick School of Musicraft picks up just a week after the harrowing events of the previous novel. Now, the interscholastic Orphean Trials are fast approaching, and default White Amelia joins the team along with her best friend, Jai Kapoor, who is cued as South Asian, and new pal Darby Bradshaw, who has some Japanese heritage. Amelia must use her fledgling Composer abilities to write an original spell and lead the Mystwick team to victory. The pressure to compose a masterpiece for the competition mounts, and Amelia doubts that she has what it takes to write a winning spell. Meanwhile, strange invitations to something called the Midnight Orchestra begin to appear in unexpected places, which soon leads Amelia and her friends into the shadowy web of a mysterious composer who is seeking black spells. Amelia will need to draw on all her strength to save her classmates from this malevolence. Vividly descriptive language and characters readers will root for make this a strong second installment. A well-orchestrated fantasy that will have readers asking for an encore.

Myth of Monsters (Trade)

#2365591 (Vol. 01) Medusa (Hardcover (Trade))

written by Katherine Marsh

A fantastical adventure about Ava, who attends a boarding school for the descendants of Greek monsters and uncovers a terrible secret that could change the world forever.

Quantity	Unit Price
1	\$19.99

Reviews by: Booklist After a mortifying incident in front of her old classmates, Ava is relieved to get a fresh start at a new school. Only after arriving does she learn that the Accademia is actually a “monster rehab” facility for the descendants of monsters from Greek myths—and she herself is a descendant of Medusa (petrification powers included). The school’s teachers demand unquestioning deference to the gods, and when outspoken classmate Fia’s voice is stolen as a punishment, Ava and her new friends embark on a whirlwind tour of goddesses from the underworld to Olympus to get it back. Along the way, they gather the lost pieces of Medusa’s “real” story. This rapid-fire tour of Greek myths and monsters may be a little light on context for readers new to the pantheon, but existing fans of the mythology will enjoy character reveals and reinterpretations. Ava’s righteous indignation about the gods’ history of silencing women drives her. Award-winning Marsh’s contribution to the magical-boarding-school genre focuses on the importance of questioning authority and owning your own story.

Reviews by: Kirkus Reviews Ava and her new friends, descendants of mythological monsters, journey across ancient and modern worlds to change their fates. Seventh grader Ava Baldwin is about to choose her favorite goddess as the topic for her report when she's interrupted. Owen King, an arrogant white boy, talks over her to claim Athena, and after they're assigned to share the topic, he tries to snatch her library book. "Chill out," he tells Ava; "It's not a big deal." Overcome with rage, Ava's anger explodes--and Owen freezes, remaining still as stone even as he's taken away in an ambulance. Ava soon discovers that through her mother, she's a descendant of the monster Medusa; like Medusa, Ava can freeze men. She's sent to the Accademia del Forte, a boarding school in Venice, where she'll learn to control her powers along with other kids from around the world who are descendants of mythological monsters. There, Ava shares a room with an Empusa, befriends a Chimera, and schemes with a Harpy. When her friend Fia is cruelly punished for attempting to expose injustice within the school, Ava leads her companions on a journey to restore power to those who deserve it, traveling from Tartarus, "the deepest pit of the underworld," to Olympus, the home of the gods. Readers familiar with this genre will still find plenty of new twists to thrill and delight. Curly-haired Ava has West African and European heritage. A fast-paced adventure offering a fresh, feminist take on popular themes. (Fantasy. 8-12) COPYRIGHT(2024) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Using the Medusa mythos as a framework, Marsh (The Lost Year) crafts a unique and distinctly feminist fantasy series launch set in a contemporary world. When confronting a bully, seventh grader Ava Baldwin somehow freezes him in place. Within days, she's whisked away to Accademia del Forte in Venice, Italy, a boarding school her mother also attended. Things take a turn for the bizarre when headmaster Mr. O'Ryan reveals himself to be the mythic hunter Orion and announces that Greek gods are real--and that all the students at the academy are descended from monsters of myth. Though Ava seems to flourish at the academy, she's haunted by her mother's distraught silence upon Ava's departure. As Ava's new best friend, Irish-born Fia, defiantly questions the school's male-focused dogma, Ava considers both what it means to be a monster and the school's true intentions. By exploring the patriarchal origins often present in Greek mythology, Marsh evokes powerful analogies about how girls and women can be taught to fear the world and themselves via a take-charge, intelligent heroine and her compassionate first-person voice. Ava is described as having golden-brown skin. Ages 8-12. Agent: Alex Glass, Glass Literary. (Feb.) Copyright 2023 Publishers Weekly, LLC Used with permission.

Reviews by: School Library Journal Gr 3-6--Ava Baldwin, 12, is tired of being bullied by Owen and loses her cool; her dark hair pops out like snakes and suddenly he's literally frozen. The next morning, her mother sends Ava and her brother Jax to the exclusive school she attended in Venice. The school is run by the Olympians, and incoming students must be tested to know which mythological Greek monster they are descended from. When Ava finds out she is related to Medusa (who is still alive), she embarks on an adventure with her friends--a Harpy, a Chimera, and an Empusa--to uncover the true story of Medusa, give voice to the goddesses who have been silenced by male gods, and perhaps find her own purpose. While this story fits into the increasingly popular modernized mythology trope, it puts a different spin on it from the perspective of the "villains" and will appeal to a younger audience. However, the theme of women being oppressed by the male gods is presented in such a didactic manner that it detracts from the powerful message. Medusa is described as black-haired with her skin glowing golden brown; Ava is depicted as having the same skin color in the cover illustration. Many other characters are described as pale-skinned when appearance is mentioned. Missing is additional information about Greek mythology, the monsters, and Medusa. VERDICT A story flipping traditional mythology and the voices telling them on their head starring a resourceful, brave Gorgon. Suggested where mythology stories are popular.--Clare A. Dombrowski Copyright 2024 School Library Journal, LLC Used with permission.

#2321188 **I Am the Walrus (Hardcover (Trade))**

written by Neal Shusterman

When fourteen-year-old Noah falls from the trees on his classmate Sahara, he doesn't understand how, or why, he would have been up there. It's just one more in a string of strange things happening to Noah lately.

978-0-7595-5524-2 ©2023 5-1/4 x 7-1/2 400 pgs.

Grades 6 - 8 Dewey# Fic AR Lvl 6.1 AR Pts 13.0

Reviews by: Booklist The coauthors of the Accelerati Trilogy kick off an equally head-spinning sf series starring seemingly ordinary middle-schooler Noah Prime. Noah finds himself caught between rival groups of space aliens wearing creepy, ill-fitting human skins after discovering his useful but hard-to-control ability to take on the characteristics of any animal. As he works to stay alive and uncaptured, he finds allies in smart-mouthed little sister Andi, autistic best friend Ogden, and take-no-prisoners classmate Sahara—all of whom prove to have unusual abilities of their own. Unfortunately, it turns out that the fate of all life on Earth is at stake, and Noah might just have to give up his own life to save everyone else. In this first volume alone, the authors tuck in really big stakes, time travel, fiery explosions, sudden deaths, a monster-alien jailbreak, black ops (human and otherwise), flights to locales from Iowa to Tibet, high tech, and low humor. And that's not to mention the throwaway pop-culture references ("Klaatu barada nikto," one escapee declaims) and an involuntary penguin mating dance. Events tie off (fairly) neatly, but readers who fasten their tusks on this opener won't want to let go until the next one swims by.

Reviews by: Bulletin of the Center for Children's Books Noah has no clue why he is suddenly behaving so . . . weird, and while he knows his fourteen-year-old peers may be struggling with their bodies, he's pretty certain they're not exhibiting animal traits (camouflage, growing spikes, mating rituals) when under stress. Things are getting increasingly weird-dangerously so—in the rest of his life after his parents, sister, a teacher, and a whole bunch of strangers all turn out to have secret missions or agendas; some of them are not even human and most of them do not have Noah's best interests at heart. Fortunately, he's got his quirky bestie Ogden and reluctant new friend (and crush) Sahara as support as he tries to figure out his life and, more importantly, evade the relentless agents who would rather he not have a life at all. It is a good thing that this novel is only volume one, as there is a lot to unpack here, with Noah's remarkable abilities at the center of inter-alien battles for control of the Earth. A subplot involving a disgraced scientist is an unnecessary diversion, but most of the core characters and events are essential in highlighting how small Noah's circle of trustworthy folks are and how quickly everything goes from perfectly normal to baffling and life threatening. The sharp humor is effective and terrific, but it is likely Noah himself, a protagonist so worth rooting for as a loyal, earnest, and innocent victim of an interplanetary war, that will likely have readers eagerly anticipating the sequel. AS COPYRIGHT(2023) Bulletin of the Center for Children's Books, ALL RIGHTS RESERVED.

Reviews by: Horn Book Magazine Fourteen-year-old Noah Prime is late for school and collides with classmate Sahara on his way in, although he can't remember how it happened. But that's not the only strange thing that happens that week. He suddenly freezes up and topples over when confronted by bullies, embarrasses himself on the dance floor with Sahara, and performs a difficult gymnastics routine with ease on the first try. Noah's best friend, Ogden, gradually works out that when Noah is stressed, he exhibits the defense mechanisms of various animals: bird, possum, penguin, chimpanzee, and -- when he is accidentally trapped with Sahara in a refrigerated meat locker -- walrus. Early in the novel, the reader is given teasing glimpses into further mysteries. A boy named Noah Tercero is captured and killed in Argentina, as is Noah Secundus in England. Do they have similar abilities? And does the same fate await Noah Prime -- or can he figure things out with the help of Ogden and Sahara? With brisk pacing, offbeat humor, and endearingly quirky characters, the plot grows more outlandish with each chapter, which is perhaps fitting for a book whose title alludes to a famously nonsensical Beatles song. Shusterman and Elfman (co-authors of the Accelerati trilogy) deliver the goods in this entertaining science fiction romp, leaving readers eager for the next installment. Jonathan Hunt(Copyright 2023 by The Horn Book, Incorporated, Boston. All rights reserved.)

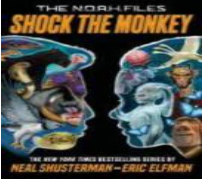

Reviews by: Kirkus Reviews cadre of strange individuals while puzzling out the truth of what he is in this science-fiction offering. Fourteen-year-old Noah Prime longs to live somewhere bigger than his small town of Arbuckle, Oregon, though he is happily involved in motocross--at least until he learns that the course is being torn down to make way for a condo development. This bad news coincides with some particularly strange happenings in Noah's life, such as a literal (and very confusing) collision he has with Sahara, a girl that he comes to find very interesting. This is followed by his experiencing a brief and total paralysis while arguing with some bullies, which his friend Ogden, who is on the autism spectrum, insists is due to a psychological phenomenon called conversion disorder. The truth turns out to be much more complex, and it sends Noah, his younger sister Andi, Ogden, and Sahara on a madcap quest involving aliens, time travel, an erupting volcano, and much more. The adventure is laced throughout with goofy, sarcastic humor, balancing the fantastical and somewhat confusing turns of events. While there is resolution at the story's end, it also clearly sets the stage for a follow-up. The main characters read White by default. A fun, if messy, thriller that's not afraid to go straight over the top. (Science fiction. 10-14) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly The creators of the Accelerati Trilogy reteam for this dynamic, Oregon-set series kickoff, whose wide-ranging adventure arc encompasses aliens, animalian hijinks, designer coffins, and Stonehenge. Fourteen-year-old Noah Prime has always had an uncanny knack for sports, but after his beloved motocross course is razed for development; closing just like the ice-skating rink he loved before it; he's surprised to find that he has an affinity for not only motocross and hockey, but basketball, soccer, and wrestling, too. A strange collision with gymnast schoolmate Sahara raises questions about his background, as does a surprising physical reaction to an incident of bullying. With the help

of Sahara, his autistic best friend Ogden, and his younger sister Andi, Noah seeks to find out more about himself and his apparent enemies. The group's exploits, detailed in quick-moving chapters that alternate with additional perspectives from protagonists and antagonists alike, develop a world of depth and moral complexity. Though instances of the cast separating occasionally bog down the plot, often-ludicrous scenarios and pop culture punch lines deliver surprises and laughs throughout, ramping up to a smash-bang ending that leaves plenty unresolved for future volumes. Characters are not physically described. Ages 10: 14. Agent (for Shusterman): Andrea Brown, Andrea Brown Literary. (Apr.)

Reviews by: School Library Journal Gr 6 Up--The first book in this new series is too scattered to make its mark as a sci-fi adventure tale. Fourteen-year-old protagonist Noah Prime is outrageously athletic, but since his favorite sports keep getting canceled out of the blue, he rarely gets a chance to show off his talents. After a monkey-like display at a gymnastics tournament and spontaneously developing walrus blubber while trapped in a freezer, Noah discovers that his athletic aptitude is, in fact, superhuman: he can morph into any animal in the world to use its traits to his advantage. The book starts out quirky and witty as Noah and his friends test these abilities. Things start to go off the rails when Noah's house is attacked by aliens, who kidnap his parents and make him the target of an intergalactic manhunt. The plot begins to lose focus, splitting off into multiple, uninteresting perspectives that distract from what seems to be the book's main quest--Noah finding his parents and discovering the reason for his supernatural abilities. When the plots finally intersect, the conclusion is unsatisfying. A potential red flag for school collections--it's implied that a teacher is drinking alcohol while chaperoning a dance. VERDICT From time travel to aliens to shapeshifting to an apocalypse, this work proves there may be such a thing as too much science fiction in one book.--Maria Bohan Copyright 2023 School Library Journal, LLC Used with permission.

Reviews by: School Library Journal Gr 5-8-A top-secret spacecraft, the Newt, has been stolen. With the help of the nerdy dozen, Neil "Astronaut" Andertol, are recruited from NASA to bring it safely back home to planet Earth. Before using their video gaming skills to smoothly navigate the Fossil, a spacecraft, they must pass a few basic training obstacles, including boarding the Vomit Comet. Andertol is chosen to lead the NASA nerdy dozen crew, along with a chimpanzee in a jumpsuit named Boris. While flying into space with little training in a spaceship full of space bananas, Andertol and his crew face several stumbling blocks, such as running away from a monstrous Polar Bear on a Yeti Bobsled inflatable raft and meeting a scientist's kid trapped in a space-bubble-community. Time speeds up as they learn Q-94, the world's most dangerous asteroid, is headed toward Earth. Neil is a born space explorer, and astronomy fans will surely enjoy the story. The short time span of the novel does stretch plausibility. However, there is a great assortment of characters with varying degrees of weirdness, gaming abilities, astronomical jargon, silliness, and, most importantly, a clear mission. The characters are quite interesting and well developed. Middle school students who enjoyed Michael Buckley's "NERDS" series (Amulet) and Dan Gutman's "Genius Files" (Harper) will most likely get a kick out of these books. Reluctant readers who are into online gaming and astronomy will find this an easy action/adventure read.-Krista Welz, North Bergen High School, NJ (c) Copyright 2014. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

Newbery Honor

#500661 Feathers (Hardcover (Trade))

written by Jacqueline Woodson

When a new, white student nicknamed 'The Jesus Boy' joins her sixth grade class in the winter of 1971, Frannie's growing friendship with him makes her start to see some things in a new light. Newbery Honor 2008

Reviews by: Children's Literature Newsletter for Adults Frannie is still trying to figure out exactly what Emily Dickinson meant in the poem her sixth grade teacher read to the class, Hope is the thing with feathers, that perches in the soul? Even though she didn't understand it, she wrote it down because she liked the way it sounded, and then she talked to her mama about it and her older brother, Sean, who is deaf and talks in sign language. Her best friend, Samantha, reads the Bible daily and comes to believe that the new boy in class, whom everyone calls Jesus Boy because of his long hair, really is Jesus come back to earth. Frannie doesn't think so, but she is still puzzled about why this white boy would come to a school on this side of the highway, and how he came to know sign language. Once again Jacqueline Woodson brings the reader convincingly into the worldview of a young person who often has to deal with very grown-up issues like death and prejudice and violence and finding your place. Fortunately, as in other Woodson stories, the protagonist has the support of loving family members as she negotiates the shoals of growing up and dealing with an often harsh world. Although Frannie is in many ways a very ordinary girl, with whom girl readers will easily connect, her life circumstances propel her to greater introspection and growth. She is a wonderful role model for coming of age in a thoughtful way, and the book offers to teach us all about holding on to hope.

Reviews by: From the Publisher ?Hope is the thing with feathers? starts the poem Frannie is reading inschool. Frannie hasn't thought much about hope. There are so many other things to think about. Each day, her friend Samantha seems a bit more ?holy.? There is a new boy in class everyone is calling the Jesus Boy. And although the new boy looks like a white kid, he says he?s not white. Who is he? During a winter full of surprises, good and bad, Frannie starts seeing a lot of things in a new light?her brother Sean?s deafness, her mother?s fear, the class bully?s anger, her best friend?s faith and her own desire for ?the thing with feathers.? Jacqueline Woodson once again takes readers on a journey into a young girl?s heart and reveals the pain and the joy of learning to look beneath the surface. About the Author: Jacqueline Woodson, winner of the Margaret A. Edwards Award for lifetime achievement in writing for young adults, is the author of Newbery Honor winner Show Way, Miracle?s Boys (recipient of a Coretta Scott King Award and a Los Angeles Times Book Prize), Locomotion and Hush (both National Book Award Finalists), among many others. She lives in Brooklyn, New York.

Reviews by: Publishers Weekly The narrator of Woodson's 2008 Newbery Honor title is fascinated with Emily Dickinson's famous couplet Hope is the thing with feathers/ that perches in the soul. Frannie grapples with its meaning, especially after a white student joins her all-black sixth-grade classroom. Trevor, the classroom bully, nicknames him Jesus Boy, because he is pale and his hair [is] long. Frannie's best friend, a preacher's daughter, suggests that the new boy truly could be Jesus (If there was a world for Jesus to need to walk back into, wouldn't this one be it?). Set in 1971, the book raises important questions about religion and racial segregation, as well as issues surrounding the hearing-impaired (Frannie's brother is deaf). Johnson, who also voiced Woodson's Hush, sensitively renders Frannie's narration, and her slow delivery affords listeners the opportunity to fully experience Frannie's keen perceptions. Subtle changes in inflections distinguish the many characters' voices in a skillful performance that enlarges the book's already wide appeal. Ages 9-up. A Putnam hardcover. (June)Copyright © Reed Business Information, a division of Reed Elsevier Inc. All rights reserved.

Reviews by: School Library Journal Gr 4-7-"Stepped through that door white and softly as the snow," notes sixth-grader Frannie, on the arrival of a pale, long-haired boy to her predominantly black middle school on a winter day in 1971. He is dubbed the Jesus Boy by the class rowdy, and the name seems to suit the newcomer's appearance and calm demeanor. Frannie is confused, not only by declarations that he's NOT white, but that her friend Samantha, daughter of a conservative Baptist minister, also seems to believe that he is Jesus. In light of this and other surprises in her life, Frannie questions her own faith and, most of all, the meaning of the Emily Dickinson poem that she is studying in class, "Hope is a thing with feathers/that perches in the soul/-." How does she maintain hope when her newly pregnant mother has lost three babies already? She also worries about her deaf older brother, Sean, who longs to be accepted in the hearing world. She sees the anger in the bully intensify as he targets Jesus Boy. With her usual talent for creating characters who confront, reflect, and grow into their own persons, Woodson creates in Frannie a strong protagonist who thinks for herself and recognizes the value and meaning of family. The story ends with hope and thoughtfulness while speaking to those adolescents who struggle with race, faith, and prejudice. They will appreciate its wisdom and positive connections.-D. Maria LaRocco, Cuyahoga Public Library, Strongsville, OH (c) Copyright 2010. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

Reviews by: The Barnes & Noble Review Hope is the thing with feathers / that perches in the soul. Frannie, this novel's 16-year-old narrator, lives with a sweet sense of expectation, a feeling nurtured in her loving home. But even the purest hope does not always materialize. When a white boy nicknamed Jesus Boy joins her previously all-black class, Frannie and one of her friends start to believe that he might indeed be special. An unexpected occurrence snaps them back to reality. Carefully nuanced portrayals and a sensitive look racial segregation, prejudice, and religious faith by a Coretta Scott King Award-winning author.

Reviews by: Voice of Youth Advocates (VOYA) Frannie is discovering that change does not always come with a bang. Sometimes it can be as simple as a new student showing up at school. The Jesus Boy, as the class calls him, is faced with being the lone white youth in a black school. He

hails from across the highway that unofficially segregates the black and white neighborhoods. The students start grappling with what it means to be different. Should they give the Jesus Boy a chance to settle into the class? Or will they continue relentlessly teasing him? When speculation begins that he really is Jesus, things quietly begin to shift. Hope seems to spread through the cracks of the students' lives. They become a bit gentler with one another. Maybe the Jesus Boy is capable of the type of miracle they need to make it through their urban existence. Frannie sees the humanity in the seams of her family—from her deaf brother's struggle to fit in to her mother's preparation for a new baby. The Jesus Boy also forces the youth to examine the wavering lines defining race. Is he really white, and if he is, why did he not simply stay across the highway? Maybe there is something magical about the Jesus Boy or perhaps the magic lies within the young people whom he encounters. Either way, this book is dynamic as it speaks to real issues that teens face. It is a wonderful and necessary purchase for public and school libraries alike.

#1772622 **Because of Winn-Dixie (20th Anniversary Edition) (Prebound)**
written by Kate DiCamillo

Ten-year-old India Opal Buloni describes her first summer in the town of Naomi, Florida, and all the good things that happen to her because of her big ugly dog Winn-Dixie.

Reviews by: Bookbag Magazine This complicated and wonderful story is not so much about a dog as it is about friendship and loving what you got while you got it.

Reviews by: Childrens Book Watch When ten-year-old Opeal Buloni and her preacher father moved to Naomi, Florida, she adopts a dog and names him Winn-Dixie (after the supermarket where they met). Opal was 3 when her mother left the family. Her father won't speak of her mother. The young girl is lonely, but with the help of her friendly dog, she makes new friends and discovers that life still has a great deal to offer both she and her father. Superb narration by Cherry Jones.

Reviews by: Children's Literature Imagine naming a dog "Winn-Dixie" after the grocery store. Your own name causes kids to mock you "Lunch Meat!" That partly describes India Opal Buloni, a preacher's daughter, who tells us about her first summer in Naomi, Florida. Opal adopts the lovable, mangy dog whose personality changes her life and the lives of the quirky characters in this rural community. The kids think Gloria Dump is a witch but Opal discovers a kind, wrinkled old lady with bad eyesight who wins her friendship when she says, "Since I don't see so well, why don't you tell me everything about yourself so I can see you with my heart." Opal couldn't be happier. "I'd been waiting for a long time to tell some person everything about me, I did." A splendid story with heart, humor and hope. This is Newbery quality. Reviewer: Jan Lieberman

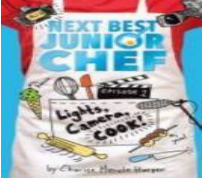

Reviews by: Kirkus Reviews A 10-year old girl learns to adjust to a strange town, makes some fascinating friends, and fills the empty space in her heart thanks to a big old stray dog in this lyrical, moving, and enchanting book by a fresh new voice. India Opal's mama left when she was only three, and her father, "the preacher," is absorbed in his own loss and in the work of his new ministry at the Open-Arms Baptist Church of Naomi [Florida]. Enter Winn-Dixie, a dog who "looked like a big piece of old brown carpet that had been left out in the rain." But, this dog had a grin "so big that it made him sneeze." And, as Opal says, "It's hard not to immediately fall in love with a dog who has a good sense of humor." Because of Winn-Dixie, Opal meets Miss Franny Block, an elderly lady whose papa built her a library of her own when she was just a little girl and she's been the librarian ever since. Then, there's nearly blind Gloria Dump, who hangs the empty bottle wreckage of her past from the mistake tree in her back yard. And, Otis, oh yes, Otis, whose music charms the gerbils, rabbits, snakes and lizards he's let out of their cages in the pet store. Brush strokes of magical realism elevate this beyond a simple story of friendship to a well-crafted tale of community and fellowship, of sweetness, sorrow and hope. And, it's funny, too. A real gem. (Fiction. 9-12)

Reviews by: Publishers Weekly DiCamillo's debut novel, a 2001 Newbery Honor Book, percolates with heartfelt emotion and eccentric Southern color as superbly performed by Tony Award-winning actress Jones. Ten-year-old Opal, lonely in the Florida town where she has just moved with her preacher father, instantly takes a shine to a scraggly stray dog she encounters in the local Winn-Dixie supermarket. The pooch, named for their meeting place, becomes a trusted companion with whom Opal can share her thoughts and fears, and her hurt, confused feelings about the mother who left the family when Opal was three. Winn-Dixie is soon helping Opal in other ways, too. The dog's "smile" and sweet temperament act as ice breakers that allow Opal to meet a whole new group of friends who grow to be an unusual extended family. Jones imbues her depiction of Opal with a tone of youthful, hopeful wonder and skillfully transforms her voice to distinguish the other older, life-weathered characters. A Tennessee native, she never sounds hokey as she adopts a Southern accent, and she effortlessly slips into a compelling storytelling rhythm. This is a top-notch treatment of an award-winning tale. Ages 8-up. Copyright 2001 Cahners Business Information.

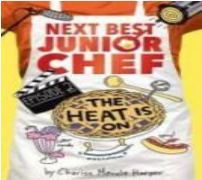

Reviews by: The Five Owls The quick beginning, an essential feature of well-written children's books, carries *Because of Winn-Dixie* forward quite effectively. The stage is set in the first sentence: "My name is India Opal Buloni, and last summer my daddy, the preacher, sent me to the store for a box of macaroni-and-cheese, some white rice, and two tomatoes, and I came back with a dog." Ten-year-old Opal then proceeds to tell the funny story of a stray dog found in the produce department of the Winn-Dixie grocery store, where she calls him as if he were her own in order

to save him from the pound. Because of Winn-Dixie is indeed a dog story, but it is also the story of a child, lonely yet resourceful, who has just recently moved to Naomi, Florida, with her father. It is the story of a motherless child, who longs for the love and comfort that a mother could provide. It is the story of a character finding her way in the world, a character seemingly tentative, yet as starkly defined as her red hair and the big, ugly, smiling stray dog she takes home, washes, and makes her own. And it is the story of Opal's developing friendships with distinctive, well-drawn characters--old Gloria Dump, who is almost blind; the librarian, Miss Franny Block; shy Otis at the pet store--encounters made possible, one way or another, because of the dog, Winn-Dixie. In twenty-six short chapters, DiCamillo has crafted a fine, economical story told in the authentic voice of a child, using regional language and vivid description in a clear, straightforward way. There is immediacy of feeling in this book, perfectly expressing the secret inner life that every child knows. Because of her resourcefulness, demonstrated in the opening chapter and throughout the book at every turn, Opal develops and grows as a character, in both her inner and her outer life. All of this is accomplished through a story worth telling. Children will enjoy Opal's abiding humor and Winn-Dixie's disarming and endearing ways, and the funny and important things that happen when the two of them get together. 2000, Candlewick, Ages 9 to 12. Nic Blake and the Remarkables (Trade)

	Quantity	Unit Price
 <p>#2319894 (Vol. 01) Manifestor Prophecy (Hardcover (Trade)) <i>written by Angie Thomas</i> It's not easy being a Remarkable in the Unremarkable world. Some things are cool--like getting a pet hellhound for your twelfth birthday. Others, not so much--like not being trusted to learn magic because you might use it to take revenge on an annoying neighbor. All Nic Blake wants is to be a powerful Manifestor like her dad. But before she has a chance to convince him to teach her, a series of shocking revelations and terrifying events launch Nic and two friends on a hunt for a powerful magic tool she's never heard of to save her father from imprisonment for a crime she can't believe he committed. 978-0-06-322513-8 ©2023 5-1/2 x 8-1/4 368 pgs. Grades 4 - 7 Dewey# Fic AR Lvl 4.1 AR Pts 11.0</p>	1	\$19.99

Reviews by: Book Page Nichole "Nic" Blake and her father, Calvin, have moved 10 times in as many years. In Jackson, Mississippi, Nic has finally managed to make a friend, JP, by bonding over their shared love of the bestselling Stevie James fantasy book series, but there's one thing Nic must hide from her friend. She and her father are Remarkables, born with a Gift that's "more powerful than magic," and this is the year that Nic's father has promised to teach her how to use it, so long as she keeps it a secret from Unremarkables like JP. But when Nic's 12th birthday arrives, Calvin instead gives her a hellhound puppy and the same old promise: "Next year."

Reviews by: Booklist Grades 4-6 *Starred Review* In a set of gleefully ingenious riffs on African and African American folklore, from "The People Could Fly" to Wakanda, Thomas pitches 12-year-old Nic into a whirl of stunning discoveries about her background as she struggles to understand her own magical gifts while rescuing her secretive dad from the ruthless cops of a hidden, high-tech Black civilization (constructors of an actual underground railroad that inspired the metaphorical one). Along the way, she meets family--including an annoyingly stuffy twin brother--that she never knew she had, and with him and other allies she faces not only a band of dangerous, if comically inept, amateur wizards but a host of supernatural foes, including everything from the Devil's daughter (still smitten with her ghostly beau, High John the Conqueror) to vampires and rougarous. There's even a bona fide dragon lurking near the volcano beneath Jackson, Mississippi, and, adding a generous measure of cuteness to the cast, a tagalong hellhound pup named Cocoa. Sober references to lynching, Emmett Till, and safe behavior while Black in the rural South give further historical and emotional depth to this rousing quest tale's already richly articulated cultural context. While leading up to a melodramatic climax, the author folds in both an ominous prophecy and at least two surprise villains to juice up interest in sequels. COPYRIGHT(2023) Booklist, ALL RIGHTS RESERVED.

Reviews by: Bulletin of the Center for Children's Books Nic has been eagerly awaiting turning twelve, when her dad will teach her how to tap into the Gift that lives naturally within her and to become as incredible a Manifestor as he is. Unfortunately, he is ripped away from her, accused of a crime she is certain he didn't commit even. Soon, however, shocking secrets emerge about family dynamics, and Nic learns the family stories that were her core truths almost all turn out to be false, or at least way more complex than she believed. She can sort it all out eventually, but for now, Nic, her best friend, and a surprise twin brother need to find a stolen artifact and fix things. The concept of Remarkables hiding among the Unremarkables is certainly a familiar one, but the richly drawn Mississippi setting and creative blending of Black experiences (both historical and contemporary) and African and African American folklore upend most expected tropes. Thomas brings her considerable talents to this first volume of an anticipated trilogy--her characters are well-developed, the world's framework is creative and satisfying, and powerful undercurrents of struggles against injustice add a memorable additional layer lacking in other similar series. Nic is a fantastic narrator, tossing out expositional details and witty insights that inform the reader of key aspects of this world and ensure their commitment to seeing how this will all play out in the final two volumes. AS COPYRIGHT(2023) Bulletin of the Center for Children's Books, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews A girl discovers the truth behind her favorite book series--and her destiny. On her 12th birthday, Nichole Blake's disappointed that her father still won't teach her how to use the Gift. They are Manifestors, the most powerful of the supernatural Remarkables, and they keep their powers secret from the Unremarkables they live among in Jackson, Mississippi. But TJ Retro, Nic's favorite fantasy author, is in town for a book signing--where she learns that not only is he a Manifestor, too, but that he knows her father. Mr. Retro reveals that his books are a fictionalized version of their childhood war against an evil villain. Before Nic can get answers, her father's secrets catch up to him. To prove his innocence, Nic--with the help of a long-lost twin brother and her Unremarkable best friend--must navigate the fantastical secret world of the Remarkables to find a powerful stolen artifact. The first act relies on the narrator's humor and charm to carry the heavy amounts of exposition and to set up familiar fantasy tropes so that stock concepts (like the chosen one) can later be subverted and interrogated in entertaining, thoughtful ways. The Manifestor mythology combines African and African American folklore and Biblical stories, and the book explores Black Americans' historical and present-day traumas alongside a fast-paced adventure and inventive worldbuilding. The ending teases more threats to come. All major characters are Black. Readers will eagerly await the unearthing of more secrets in the next installment. (Fantasy. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly In Jackson, Miss., homeschooled Nichole Blake is hoping that her single father will finally train her in her Gift as a Manifestor; the most powerful tier of the supernaturally gifted Remarkables, whose innate abilities originate with Africa's Wallinzi tribe. After another Remarkable summons a vision for Nic's 12th birthday; one that turns quickly terrifying; Nic's deeply wary dad forbids her from attending a high-profile book signing. But when Nic goes against his wishes, she discovers something extraordinary: world-famous children's book author TJ Retro is not only also a Manifestor, he's her godfather, and the books she's obsessed with are based in truth. As Nic's developing Gift begins to wreak havoc, and the family secrets her father has kept catch up with them, Nic encounters a prophecy that promises the destruction of the Remarkable world unless a Chosen One can intervene. Thomas (Concrete Rose) brings her trademark voice to an action-packed series kickoff rooted in a mixture of African diasporic myth, biblical references, and U.S. history. Imbuing characters both brave and sweetly vulnerable with unflappable senses of humor amid harrowing circumstances, Thomas creates an elaborate supernatural mythology that boldly confronts fantasy tropes and questions of forgiveness. B&W art by Fiadzigbey (Bunheads) appears throughout. Protagonists are Black. Ages 8: 12. Agent: Molly Ker Hawn, Bent Agency. (Apr.)

Reviews by: School Library Journal Gr 5 Up--Nic Blake is a Remarkable, but she and her dad Calvin live in the Unremarkable world, never staying in one place long. Calvin is stalling on teaching Nic to use her powers--apparently she's not mature enough for the immense responsibility. Then, a surprise encounter with someone from Calvin's past reveals that her entire life is much more complicated than she knew; her dad has been accused of kidnapping her and stealing a powerful magical object. Nic sets off on a quest with her Unremarkable best friend, her new brother, and a

pet hellhound. Their goal: to clear Calvin's name, to find the Msaidizi, the magical object, and to keep it out of the hands of the Manowari, the person destined to destroy the Remarkable world. Thomas has been a force on the young adult scene, and her first middle grade novel proves her range extends across genre and age groups; she weaves complex fantasy stories as deftly as realistic ones. This novel in some ways feels like an homage to some of the best works in the genre, both modern and mythical, but the freshness of the story and characters, along with Thomas's control of a multilayered, nuanced plot, makes everything feel brand new. VERDICT A book that will delight young readers and adults alike. Nic Blake is entering the Black fantasy scene with all the confidence and energy of its main character, and we're so glad it's here.--Kristin Brynsvoold

#2363160 Amil and the After (Hardcover (Trade))

written by Veera Hiranandani

At the turn of the new year in 1948, Amil and his family are trying to make a home in India, now independent of British rule. Both Muslim and Hindu, twelve-year-old Amil is not sure what home means anymore. The memory of the long and difficult journey from their hometown in what is now Pakistan lives with him. And despite having an apartment in Bombay to live in and a school to attend, life in India feels uncertain.

Nisha, his twin sister, suggests that Amil begin to tell his story through drawings meant for their mother, who died when they were just babies. (Companion Novel)

Reviews by: Book Page What happens to a family after a dangerous, life-changing and historic journey? That's the focus of Veera Hiranandani's wonderful *Amil and the After*, which follows 12-year-old Amil and his family, who, during the Partition of India in 1948, have just migrated to Bombay from what would become Pakistan. It's a worthy companion novel to Hiranandani's Newbery Honoree *The Night Diary*, which tells the story of that journey through the perspective of Amil's twin sister, Nisha.

Reviews by: Booklist Grades 4-6 *Starred Review* Life is quite complicated for 12-year-old twins, Amil and Nisha. Their mother died when they were babies, leaving them in the care of their emotionally distant father and ailing grandmother. Then, the partition of India and Pakistan meant they had to leave their home in Pakistan and move to an apartment in Bombay. Both children exhibit signs of PTSD as a result of the arduous journey through the desert. Making friends in a new place is hard enough, but it is even harder in their context, when Hindu-Muslim tensions crackle in the air and neighbors eye one another suspiciously. Amil struggles in school, and readers might recognize his perception of letters and numbers as akin to dyslexia. He is, however, a talented artist and documents his days by drawing, hoping that somehow his mother can see his sketches and know how his life is unfolding. *Amil and the After* is a searingly emotional middle-grade novel that effectively captures the turmoil and joys of being a kid adjusting to all manner of life changes, all while providing the reader a tangible experience, replete with the tastes, sounds, and atmosphere of bustling post-Partition Bombay. Pencil sketches, supposedly from Amil's journal, add a charming visual dimension. The fast-paced, multifaceted plot will keep readers engaged while bringing them to a satisfying resolution. COPYRIGHT(2023) Booklist, ALL RIGHTS RESERVED.

Reviews by: Horn Book Magazine In this companion to Newbery Honor Book *The Night Diary* (rev. 7/18), Nisha's twin brother, Amil, resumes the story. Everything was supposed to get better after their family survived the terrifying journey from Mirpur Khas to Bombay following the partition of India in 1947. Now they have a new flat, their father has a job at the hospital, and the twins are attending school. But Amil keeps flashing back to the terrible things he saw and experienced. He tries to quell his anxieties by drawing in his sketchbook (exuberantly depicted by illustrator Miranda), but what he really wants are "a friend and a bicycle." Part of those wishes comes true when he meets Vishal, a mysterious boy from a local refugee camp. When Vishal suddenly disappears, Amil discovers that the point of his own survival may be to help ensure the same for someone else. Fans of the previous title will appreciate this compassionate and thoughtful continuation of the family's story, while new readers can experience Amil's account of hope and survivor guilt as a standalone volume. A glossary and author's note are appended. Jennifer Hubert Swan(Copyright 2024 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews In this stand-alone companion volume to Hiranandani's Newbery Honor title, *The Night Diary* (2018), a boy in post-partition Bombay grapples with the bitter realities of surviving trauma. After leaving their beloved home in Mirpur Khas, which is now part of the newly created Pakistan, 12-year-old twins Amil and Nisha are living in Bombay with their doctor father, paternal grandmother, and beloved family cook. While Amil (whose late mother was Muslim and father is Hindu) is grateful for their newfound safety, he's haunted by memories of their flight. Nisha kept a diary during their journey, and when she suggests Amil should draw to express his feelings, he begins sketching the family's new life. In addition to harboring complicated, painful feelings around his mother's death in childbirth, a result of complications from his breech

positioning, Amil realizes while engaging in his art that his emotions are more intense and complicated than ever. These feelings come to a head when a classmate who was orphaned during the religious violence desperately needs his help, and Amil must decide what to do. This book is a masterpiece of nuance, vulnerability, and emotional complexity. Readers with ancestral connections to the Partition will especially appreciate its layered exploration of the lives of survivors, but Hiranandani provides enough context, skillfully woven throughout, that readers of all backgrounds will find it accessible and absorbing. Final art not seen. A quietly brilliant, deeply insightful story of living in uncertain times. (glossary, author's note) (Historical fiction. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 4-6--Hiranandani's Newbery Honor-winning *The Night Diary* is a family's story of survival. This companion novel is about their struggle to recover after life-changing trauma. Amil, twin sister Nisha, their father, grandmother, and family cook Kazi endured a harrowing flight from their home after the 1947 partition of India and Pakistan. Now living in Bombay, the family struggles to build a new life amid social and political unrest. While Nisha finds solace through writing, Amil expresses himself through drawing. Miranda's spot art effectively conveys Amil's longing for all that he has lost. But at 12, he'd also love to have a bicycle and a friend. How he gains both embodies the novel's themes of hope amid chaos and how kindness can save a life. Kazi advises Amil and Nisha: "Imagine if every person who wasn't suffering helped one person who was." A glossary of South Asian terms, words, and names is included but hardly needed as Hiranandani effortlessly incorporates the tastes, sights, sounds, and history of India in engaging prose. Flashbacks to the first novel round out the narrative and allow this sequel to stand on its own. VERDICT Accessible and engrossing, readers unfamiliar with the historic partition of India and Pakistan will nevertheless readily relate to a boy's yearning for stability in tumultuous times. A first purchase for all middle grade collections.--Marybeth Kozikowski Copyright 2024 School Library Journal, LLC Used with permission.

Reviews by: Shelf Awareness In Veera Hiranandani's *Amil and the After*, a tender companion to her 2019 Newbery Honor-winning *The Night Diary*, Amil, the fraternal twin of the first book's narrator, Nisha, takes center stage.

written by J. A. White

Alex thought he was done with witches. But when Natacha, the witch who held him captive for scary stories, appears again one night, Alex realizes he's trapped in a nightmare-literally. She's found a way to enter his dreams with a new, terrifying familiar named Simeon. And they once again want Alex to write. Transported to a story graveyard with best friend, Yasmin, Alex will have to complete an original scary story each night. But what does Natacha plan to do with his finished stories? And what makes a story good enough? While Natacha might have control of the beginnings, only Alex has the power to write the ending.

Reviews by: Kirkus Reviews witch in his dreams, and the only way out is by completing his unfinished scary stories. This follow-up to *Whit's Nightbooks* (2018) takes place one year later, when Alex and Yasmin think they've seen the last of Natacha, the evil witch who held them captive in her New York City apartment. But when Alex finds himself in a strange graveyard during a nightmare, he's faced with Natacha once again. he's come to demand more scary stories from him, this time from the remains of his unfinished tales, each of which is buried beneath a different tombstone. After completing a story, a plant emerges from the earth; the more original the writing, the more unusual the flower it produces. Eventually, Alex realizes that there is a more sinister creature lurking in his dreams, one eager to possess the flowers and even more dangerous than Natacha. The book opens with a recap of the previous volume, but readers new to the series will be missing a few pieces, as White includes few returning character descriptions and little background context for Alex and Yasmin's friendship. Nevertheless, they will appreciate the incredible concept behind this nightmarish setting. Alex's embedded short stories are interesting and inventive; the novel is chilling but not outright terrifying or gory. The courage, trust, and creativity of the book's lead duo add depth and heighten reader investment. A refreshing, imaginative take on supernatural evildoers. (Horror. 9-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Grades 4 - 7 Dewey# Fic AR Lvl 5.6 AR Pts 8.0 Lexile 830

Reviews by: Publishers Weekly Employing sensory details and potent imagery, Lesperance (*The Wide Starlight*) constructs a fanciful world in which dreams and nightmares are a commodity, created, bought, and sold. Desperate to help her older sister, Hallie, who's in a coma following an accident, 12-year-old Maren Partridge breaks her dream-making family's number one rule; no giving dreams without the receiver's consent; by sneaking Hallie a pleasant one on her birthday. Maren is blackmailed for the act by sinister Ms. Malo, an insect-wielding enigma with a "hearty appetite" for nightmares: in exchange for an escalating supply of horrifying dreams and forbidden ingredients, she'll keep Maren's secret to herself. As the inhabitants of whimsically magic-infused Rockpool Bay begin suffering odd mishaps, Maren struggles to escape her tormentor's demands. But when her grandmother is kidnapped, it's up to Maren and her former best friend, Amos, to rescue Gran-Gran and thwart Malo's scheme. Lesperance crafts a resourceful heroine whose loyalty forces her to confront a difficult situation and come out stronger. She also folds a satisfying sense of wonder into the quaint town, balanced with a chilling element of darkness. Ages 8: 14. Agent: Kathleen Rushall, Andrea Brown Literary. (Jan.)

Reviews by: School Library Journal Gr 3–8—Disaster strikes the magical New England town of Rockpool Bay. Maren Partridge, described as having pink and green braids, shares her family's talent for dreammaking but lives a nightmare. Her older sister Hallie, blond with freckles, is in a coma, and Maren's parents can't pay the medical bills. Maren promises her Gran-Gran Lishta she will follow the family's dream contract and not give a dream without consent, but petrified over her sister's prognosis, Maren sneaks Hallie healing dreams. Observed by the malicious, dark-haired Ms. Malo, Maren is blackmailed into making nightmares. Matters worsen when Malo traps Maren, her curly haired friend Amos, and her Gran-Gran in an abandoned theater. Malo tortures them with nightmares in an elaborate revenge plot on Rockpool Bay. Maren's ingenuity and a French-speaking parrot save the day. What begins as a sweet fantasy conceit grows into an intense adventure with vivid horror elements. Lesperance fully develops Maren's gut-wrenching emotions, from her fear for her sister and her family's finances, to violating her Gran-Gran's trust, to the dread of exposure, to the absolute terror of being held captive under constant threat of anaphylactic shock (Maren is allergic to bees, and Malo surrounds her with magical ones). The detailed descriptions of Rockpool Bay's safe, nurturing magic contrast with Malo's creeping dream-induced evil. The happy ending may be pat, but readers will appreciate some joy after going through the wringer. None of the characters have race or skin tone described. VERDICT A hair-raising, nontraditional horror novel with fantastical elements. Will have universal appeal for children who don't mind a scare.—Caitlin Augusta, Stratford Lib. Assoc., CT

#2265385 (Vol. 02) **Dream Spies (Hardcover (Trade))**

written by Nicole Lesperance

Maren's life has finally gone back to normal. Her sister, Hallie, is recovering from her coma, she's still allowed to work in her family's dream shop, and there's been no sign of Obscura, the evil nightmare thief. But when Lishta, Maren's grandmother, finds an ad for a sleepaway camp designed for dreamers, alarm bells start to ring. Lishta's never heard of these camp directors, which worries her, and prompts Maren to begin an investigation.

Reviews by: Booklist Grades 4-7 After saving her magical seaside town, Maren is grateful to return to normalcy. Her sister, Hallie, has recovered from her accident and subsequent coma, and the girls are thrilled to be back in their grandmother's enchanted shop, carefully crafting dreams for curious customers. All seems right in the world until they notice an odd ad for a mysterious sleepaway camp for child dreamers. Dream-making is a small, tightly regulated industry, but these proprietors are unfamiliar, and their approach unorthodox. The girls and their grandmother go undercover at the questionable camp to sleuth out its secrets, and though all initially appears rosy, an escalating series of eerie events leads the trio to fear that something sinister lurks behind the dreamy facade. It's a delight to drop back into Maren's marvelous world, and though the sequel takes a more lighthearted tone, there are still some chilling moments and a compelling mystery to unravel. Big reveals, new magic, and a bananas ending will keep readers hooked in this summer-camp mystery with plenty of magic to go around. COPYRIGHT(2021) Booklist, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews Maren is excited to go undercover at summer camp to spy on camp directors who are promising participants lessons in dream-taking and dream-making. Maren's Gran-Gran owns a dream shop, and she knows almost everyone who makes dreams. But she's never heard of camp directors Calvin and Malvin Peppernot and is suspicious. Is it possible that they, like the evil Obscura Gray, whom Maren defeated in *The Nightmare Thief* (2021), want to use powerful magical dreams for nefarious purposes? Maren, her sister, and Gran-Gran get to work investigating. Alarmingly, the camp staff hand out dreams willy-nilly and seem unconcerned when campers don't wake up from them. Maren is especially surprised that fellow camper Ivy's grandmother, who works in the dream shack where campers can buy more dreams, is not worried. That some of the dreams are comically familiar and slightly dangerous makes them all the more creepy, for example, when a few girls dream that they're hungry caterpillars. As before, Maren is an endearing, plucky sleuth. The pace quickens and things turn more sinister when it becomes clear that there's a mastermind with nefarious goals. Family and loyalty lie at the center of the story, with Maren's close-knit community serving to ground and support her. The cast is default White. A colorful, entertaining romp. (Fantasy. 8-12) COPYRIGHT(2021) Kirkus Reviews, ALL RIGHTS RESERVED.

Octagon Valley (Trade)

#2333066 (Vol. 01) (Super Secret) Octagon Valley Society (Hardcover (Trade))

written by Melissa De la Cruz

Edwin Edgefield has high hopes for the weekend-hopes he'll meet other kids like him—kids who will accept him even though he's got a photographic memory, genius level math skills and some very specific personality quirks. But when he meets the other kids, he starts to wonder if they're all in the right place. Turns out the Octagon Valley is all about using teamwork to make the dream work, and these normally isolated kids might not all survive. But those who do will be treated to the greatest prize—and the biggest surprise—of their lives—a chance to be truly EXTRAordinary.

1	\$17.99

Reviews by: Booklist In a tale that owes much to *The Mysterious Benedict Society* (and certain other classics), de la Cruz sends eight particularly talented middle-schoolers selected in a nationwide contest to a science center built in the remote Montana mountains by “the incredibly mysterious and blindingly brilliant” inventor Onasander Octagon. There they are pitched into bonding adventures related by an unnamed narrator, who trots in to lead the visitors on a grand tour while genially deflecting questions and posing a series of challenges on the way to enlisting their help to hide a batch of a powerful, reality-destroying element called *Impossibilium*. Diverse in race, culture, and family situation, the young folk, behind reluctant brainiac leader Edwin, throw off years of being variously ostracized, bullied, and coddled to survive fire, flood, piranhas, ninjas, a siren (of the singing sort), and other trials by learning how to be friends and teammates—and, not to be sneezed at, discovering that besides being smart or at least athletic, they all have actual superpowers.— John Peters

Reviews by: Kirkus Reviews Eight singular middle schoolers from across America find belonging in a series of escape room–type challenges. Each sixth grader assumes that winning a coveted spot to spend three days at the Octagon Valley Institute led by Willy Wonka–esque Onasander Octagon, an ethnically ambiguous multiracial tech genius, means winning a “golden ticket to the rest of your life.” However, they soon realize that instead of an academic conference, they will each have to utilize their particular skills to find eight puzzle pieces in a high-stakes scavenger hunt. They face a pool of piranhas! A magical maze! Navigating the multiverse! But how can they work together when they each have powerful psychological defense mechanisms to combat fear, even if it’s just the fear of being wrong? Only when they accept their emotions, take chances, and face their vulnerabilities do they overcome obstacles, discover hidden talents, and learn how to be teammates—and even friends. The eight kids’ diverse personalities offer a wide range of connection opportunities for readers. The omniscient third-person narrator ingeniously blends snarky humor, lessons in emotion regulation, and nuggets of wisdom throughout, though readers may miss some references that read adult. The kids are ethnically diverse; some are white, and others have families who are Jamaican, Filipino, Korean, or Indian. They also represent neurodiversity and struggles with anxiety. A series opener that successfully combines emotional intelligence and page-turning adventure. (Adventure. 9-12)

Reviews by: Publishers Weekly De la Cruz (the *Chronicles of Never After* series) marries a Charlie and the Chocolate Factory plot with a Nickelodeon adventure vibe in this entertaining series opener. Following a nationwide assessment of American sixth graders, eight are invited to Montana's prestigious Octagon Valley Institute for a three-day summit of lectures and workshops; "It's like winning a golden ticket to the rest of your life." From across the country, the eight students of intersectionally diverse backgrounds gather, ready to discover the top-secret, cutting-edge projects in development. Upon their arrival, though, the Institute's enigmatic multiracial founder, Onasander Octagon, informs them that they must participate in one more assessment. It's a scavenger hunt through the compound's most top-secret areas, and it will require both teamwork and individual aptitude. While solving puzzles and defeating increasingly dangerous challenges, such as a room with slowly closing walls and a piranha-filled river, several of the children discover new angles to their strengths and weaknesses. But when they perceive the true secret behind the weekend's activities, it reframes their perceptions of themselves and the Institute. An energetic omniscient narrator utilizes self-aware humor to keep things moving, while rotating perspectives allow insight into the cast members' personalities and motivations. With its fast pace and

imaginative scenarios, this novel has plenty of appeal. Ages 8: 12. Agent: Richard Abate, 3Arts Entertainment. (Sept.)

Omega City (Trade)

#1993450 (Vol. 02) Forbidden Fortress (Hardcover (Trade))

written by Diana Peterfreund

Gillian Seagret is not having a great summer. Her mother's come back with plans to move Gillian and her brother across the country, and her father is away promoting his new book on Omega City--without her! Though Gillian and her friends were the ones to find the lost doomsday bunker, no one seems to care about their thoughts on the whereabouts of its creator, Dr. Underberg, or learning the truth about the Shepherds, a mysterious group that will stop at nothing to keep Underberg--and Omega City--a secret.

Omega Morales (Prebound)

#2346766 (Vol. 01) Omega Morales and the Legend of La Lechuza (Prebound)

written by Laekan Zea Kemp

Omega Morales's family has been practicing magic for centuries in Noche Buena. But Omega's powers don't quite work, and it leaves her feeling like an outsider in her own family. When a witch with the power to transform herself into an owl-known in Mexican folklore as La Lechuza-shows up unannounced, Omega, her best friend Clau (who happens to be a ghost), and her cousin Carlitos must conduct a seance under a full moon in order to unravel the mystery of the legend.

Reviews by: Booklist Omega Morales comes from a family of empaths that spans generations, but in the town of Noche Buena, there are those without powers that shun her and her family, causing them to be more reclusive. Omega has powers that she is still developing at what seems like a much slower pace than her cousin Carlitos. When La Lechuza, a witch in Mexican folklore who could transform into an owl, shows up in Noche Buena and begins to cause trouble, Omega notices that her powers begin amplifying. Omega, Carlitos, and Clau, their ghost friend, set about to solve the mystery of La Lechuza and her connection to Omega. With a fun mixture of the supernatural, Mexican folklore, and generational magic, Kemp creates an entertaining story that touches upon family, friendships, and loss. The illustrations and Spanish text sprinkled throughout help to enhance the story and reel in the reader. This title would be a perfect choice for those who enjoyed Lotería (2021), by Karla Arenas Valenti.

Reviews by: Horn Book y of empaths, enchanters who can read and influence the emotions of people and objects around them. Omega struggles to control her power, causing her to feel like an outcast within her family. Her inability to manage her magic also means that she cannot control how much the feelings of others affect her, forcing her to isolate herself from her emotion-filled classmates. When the trees talk of a scary being haunting the city, Omega goes in search of answers and discovers the legend of La Lechuza, a terrifying witch with the power to transform herself into an owl. Could La Lechuza be responsible for the violent occurrences happening throughout the city? Omega, cousin Carlitos, and best

friend Clau (a young ghost who has refused to pass on to the afterlife) work to unravel the mystery before it's too late. Kemp's middle-grade debut is an entertaining, sometimes frightening, and thought-provoking story that comments on generational trauma, bullying, friendship, and family. Readers will relate to Omega's struggles to trust herself in difficult situations.

Reviews by: Horn Book Magazine Omega Morales comes from a family of empaths, enchanters who can read and influence the emotions of people and objects around them. Omega struggles to control her power, which causes her to feel like an outcast within her family. Her inability to manage her magic also means that she cannot control how much the feelings of others affect her, forcing her to isolate herself from her emotion-filled classmates. When the trees talk of a scary being haunting the city, Omega goes in search of answers and discovers the legend of La Lechuza, a terrifying witch with the power to transform herself into an owl. Could La Lechuza be responsible for the violent occurrences happening throughout the city? Omega, cousin Carlitos, and best friend Clau (a young ghost who has refused to pass on to the afterlife) work to unravel the mystery before it's too late. Kemp's middle-grade debut, with Morales's black-and-white art interspersed, is an entertaining, sometimes frightening, and thought-provoking story that comments on generational trauma, bullying, friendship, and family. Readers will relate to Omega's struggles to trust herself in difficult situations. S. R. Toliver(Copyright 2022 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews Deep empathy is a special power but a double-edged sword for a Mexican American girl in this middle-grade debut from Kemp. The town of Noche Buena is precariously divided between families with magic and those without. Omega Morales, whose best friend is a ghost from Venezuela, is a descendant of a long line of magic practitioners who use their abilities to empathize in a variety of ways to assist others, but Omega feels out of place as she struggles with her burgeoning power while it appears to come so easily to others. Amid this internal and external turmoil, an ominous creature of myth has been spotted in the community: La Lechuza. Hoping to mend rifts, Omega sets out to discover the truth of La Lechuza's identity and the meaning behind her appearance. At each turn adults seek to stymie her efforts, yet Omega feels drawn to La Lechuza in an inexplicable way. As her ties to the town's tormentor are revealed, so too are generations of secrecy and trauma alongside the true power--and dangers--of Omega's empathic abilities. Kemp weaves a page-turning plot while executing a satisfyingly slow reveal of the story's core secret and the characters surrounding it. Readers will be eager to discover what Omega does next and to unveil more of the magical world of Noche Buena. A satisfying mystery with depths to plumb. (Paranormal. 9-13) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Mexican 12-year-old Omega Morales feels like the odd one out in the small town of Noche Buena, and in her tight-knit magical family of empaths. While her cousin Carlitos is a natural at controlling his powers, Omega, who's half human as opposed to fully magical; can barely keep her abilities from giving her a stomachache. When an ex-friend accuses Omega of being behind the recent disappearances of neighborhood cats, she wonders what could be stirring up trouble. Accompanied by Carlitos and their best friend Clau, a ghost from Venezuela, Omega digs deeper into the terrifying mystery behind folkloric witch La Lechuza, uncovering long-buried secrets about her own family, and her powers, along the way. Kemp (Heartbreak Symphony) skillfully follows even the most antagonistic characters' interiority throughout, cultivating empathy and understanding around experiences contributing to their behavior. Silver linings balance emotionally fraught moments involving bullying, death and grief, and hate in this well-crafted tale that manages to both deliver scares and elicit laughs. Ages 8: 12. Agent: Andrea Morrison, Writers House. (Sept.)

Reviews by: School Library Journal Gr 4-7--In the small, south Texas town of Noche Buena, magic folk live alongside non-magic. The Moraleses are empaths, able to feel the emotions of others around them. Unlike her family, Omega has not yet obtained the ability to successfully manipulate those feelings, something that has overwhelmed her and caused her to become ill more than once. After her best friend Abby broke off their friendship, Omega finds comfort and company with her cousin Carlitos and Clau, a ghost who suddenly appeared one day and has been living with them. When cats in the neighborhood start disappearing, Omega, Carlitos, and Clau try to dig deeper into the mystery--one that leads them to suspect that a legendary creature known as La Lechuza has arrived in their town. Omega unearths truths about her family, her abilities, how La Lechuza is connected to her, and who truly is behind the dark happenings. This fast-paced and fantastical middle grade novel will envelop readers in its magical but also familiar world as Omega deals with the complexities of friendship, bullying, and first love--all while trying to control her magical abilities. Along with Omega, tweens will discover the power of memories and love, as well as the reality that not all monsters are supernatural. Full of dark mystery and unique and memorable characters, Kemp's middle grade debut will enchant readers. VERDICT Heartfelt and suspenseful, this title is an excellent choice for middle grade collections.--Selenia Paz Copyright 2022 School Library Journal, LLC Used with permission.

Reviews by: Booklist Grades 9-12 Teenage Evangeline, who's lost both her parents in a year and been subject to the whims of her stepfamily, is in love. The problem is that she's in love with Luc, who is preparing to marry her stepsister. Evangeline seeks out one of the 16 Fates, the Prince of Broken Hearts, and strikes a bargain: he will stop the wedding if she gives him three kisses. But Evangeline's relief is short-lived once she discovers how the Prince has stopped the wedding and the aftermath of his actions: the immortal Fates return to the world and wreak havoc. Evangeline herself seems to have escaped the Prince's notice--for the moment. Garber, best known for her lush and poetic *Caraval* series, will no doubt have readers flocking to this new series. The potential for the coming installments is huge, as the glimmers of a larger world introduced in this volume are sure to stoke reader curiosity. COPYRIGHT(2021) Booklist, ALL RIGHTS RESERVED.

Reviews by: Bulletin of the Center for Children's Books Evangeline is horrified to learn that her secret beau is set to marry her stepsister, so she makes a bargain with the Prince of Hearts to stop the wedding. As the tricky Fate is wont to do, however, the Prince hardly plays fair, halting the marriage but destroying any chance Evangeline has with her former lover. Even worse, he ensnares her in a dangerous plot that brings her to the Magnificent North, where she's to betray that kingdom's prince and open the Valory Arch, releasing only the Fates know what into the world. In this story set just after the events of *Finale* (BCCB 6/19), Garber expands her world, introducing a new realm but still building the mythology established in the original series. The new atmosphere is rife with intrigue and betrayal, but Evangeline herself is a bit of sop, and her constant focus on finding someone to marry eclipses the more compelling plot machinations. The Prince reprises his role as the aloof but alluring bad boy and lends some needed heat to scenes, but the pair's chemistry never totally sparks. Further details about the Valory Arch and a prophecy involving Evangeline put some steel into her spine, however, and the sequel promises a feisty heroine bent on revenge. KQG COPYRIGHT(2021) Bulletin of the Center for Children's Books, ALL RIGHTS RESERVED.

Reviews by: Horn Book Guide After her stepsister steals her beau, Evangeline seeks out supernatural intervention to stop their wedding. The Prince of Hearts (Jacks, a charismatic Fate whose kiss is deadly to all but his true love) agrees, demanding as payment that Evangeline kiss three people of his choosing. At the ball where Crown Prince Apollo will choose his bride, Jacks assigns the first kiss, and it's with the prince himself. Instantly Prince Apollo is -- magically? -- smitten. But where do all these strings Jacks is pulling ultimately lead? Garber's (*Caraval*, rev. 3/17, and sequels) take on a fairy-tale setting is fresh and vigorous, with lush atmospherics, a protagonist who believes in impossible endings, and a magnetic Prince of Hearts whose connection to Evangeline becomes more compelling the more they see of each other, even as she grows to doubt his trustworthiness. Political intrigue (both mortal and immortal) adds a swirl of exhilaration to the plot. (Copyright 2021 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Horn Book Magazine After her stepsister steals her beau, Evangeline seeks out supernatural intervention to stop their wedding. Garber's (*Caraval*, rev. 3/17, and sequels) take on a fairy-tale setting is fresh and vigorous, with lush atmospherics, a protagonist who believes in impossible endings, and a magnetic Prince of Hearts whose connection to Evangeline becomes more compelling the more they see of each other, even as she grows to doubt his trustworthiness. Political intrigue (both mortal and immortal) adds a swirl of exhilaration to the plot. Anita L. Burkam(Copyright 2021 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews After praying to a Fate for help, Evangeline discovers the dangerous world of magic. When her father passes away, Evangeline is left with her cold stepmother and kind but distant stepsister, Marisol. Despite inheriting a steady trust in magic, belief in her late mother's homeland of the mystical North (where fantastical creatures live), and philosophy of hope for the future, her dreams are dashed when Luc, her love, pledges to marry Marisol instead. Evangeline desperately prays to the Prince of Hearts, a dangerous and fickle Fate famed for his heart that is waiting to be revived by his one true love--and his potentially lethal kisses. The bargain they strike sends her on a dark and magical journey throughout the land. The writing style fluctuates from clever and original to overly verbose and often confusing in its jumble of senses. While the pervasive magic and concept of the Fates as a religious system add interest, other fantasy elements are haphazardly incorporated without enough time devoted to building a cohesive world. However, the themes of love, the power of story, family influence, and holding onto belief are well

rounded and add depth. The plot contains welcome surprises, and the large cast piques curiosity; readers will wish more time was spent getting to know them. Evangeline has rose-gold hair and, like other main characters, reads as White; there is diversity among the fantasy races in this world. A lushly written story with an intriguing heart. (map) (Fantasy. 12-16) COPYRIGHT(2021) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly First in a series spun off from her *Caraval* trilogy, Garber's dreamy fantasy follows 17-year-old Evangeline Fox, whose boyfriend, Luc Navarro, unexpectedly proposes to her stepsister, Marisol Tourmaline. Luc and Marisol are virtual strangers, and Luc won't explain, so Evangeline assumes her stepmother bewitched them both and strikes a deal with a cunning, immortal Fate known as Jacks and the Prince of Hearts, to stop the wedding; in exchange, Evangeline must later kiss three people of his choosing. Jacks halts the ceremony, but after his methods cause misery for everyone involved, Evangeline and Marisol journey from the Meridian Empire to the magical Magnificent North. Hoping for a fresh start, they'll attend festivities designed to find Prince Apollo a bride. Upon arriving, however, Evangeline encounters Jacks and realizes that their trip is somehow part of his plan. Evangeline, Marisol, and Jacks are cued white; several supporting characters have brown or olive skin. Despite some frothy plotting, Garber enchants readers with exquisitely imagined worldbuilding and her trademark heady romance. Evocative if occasionally overwrought prose adds to the tale's dreamlike feel. Ages 13: up. (Sept.)

Reviews by: School Library Journal Gr 8 Up--Evangeline thinks she has found true love with Luc, until he betrays her and abruptly proposes to her stepsister Marisol. Her anger and hurt cause her to do the unthinkable--pray to Jacks, a Fate known as the Prince of Hearts, who has a reputation for being untrustworthy. He grants her request to stop the wedding in exchange for three kisses. But the stories about Jacks were right, and while Jacks does stop the wedding, Evangeline finds herself in quite a predicament. The lush worldbuilding Garber is known for is on full display here. While there is a modern edge to the characters, they're dressed in corsets and other 19th-century garb, while dealing with magical spell books, curses, and vampires. Evangeline, with her rose-gold hair, is a feisty but sweet heroine. The pacing is dynamic--it's hard to put this one down. The cliff-hanger ending is a clear setup for a sequel, but no one will be complaining about the opportunity to revisit this intricately imagined world. Most of the main characters are cued white with the exception of Luc, who is described as having brown skin. Fans of the "Caraval" series will no doubt be happy to see Jacks in his own leading role, but this spin-off series opener can be enjoyed without knowledge of that story. VERDICT Garber already has a following, so expect this to circulate well.--Mandy Laferriere, Fowler M.S., Frisco, TX Copyright 2021 School Library Journal, LLC Used with permission.

#2290355 (Vol. 02) Ballad of Never After (Hardcover (Trade))

written by Stephanie Garber

After Jacks, the Prince of Hearts, betrays her, Evangeline Fox swears she'll never trust him again. Now that she's discovered her own magic, Evangeline believes she can use it to restore the chance at happily ever after that Jacks stole away. But when a new terrifying curse is revealed, Evangeline finds herself entering into a tenuous partnership with the Prince of Hearts again. Only this time, the rules have changed. Jacks isn't the only force Evangeline needs to be wary of. In fact, he might be the only one she can trust, despite her desire to despise him.

Quantity	Unit Price
1	\$19.99

Reviews by: Booklist Grades 9-12. "If you are tempted to trust him again, remember all that he's done." So begins a letter from lead character Evangeline—one she wrote herself. Previously used as a tool and plaything for Jacks, the Prince of Hearts, one of the capricious Fates introduced in *Once upon a Broken Heart* (2021), she knows she has a weakness for him and his magical ways. Between her cursed husband, Apollo, and her first love, Luc—now a bloodthirsty vampire—Eva can hardly keep track of the odds stacked against her. She's been determined never to trust Jacks again, but it's starting to seem like she has no other choice—and Jacks certainly doesn't seem willing to give her one. Garber has created a lush fairy-tale world and each book in this series expands the lands and the Fates who torment them. While Evangeline remains the main character, it's a delight to continue to see how she relates to everyone around her, from Fates like Jacks and LaLa, to her husband Apollo, and her (actually wicked) stepsister Marisol.

Reviews by: Kirkus Reviews Evangeline faces new dangers in her quest for happiness in this follow-up to 2021's *Once Upon a Broken Heart*. As Evangeline Fox seeks a cure for her poisoned husband, Prince Apollo, the enticing and infuriating Fate Jacks reappears, offering to save Apollo if she unlocks the Valory Arch. Remembering the long list of ills brought upon her by the Fate, Evangeline refuses. When the new heir arrives and Apollo wakes with a new curse and glowing red eyes, she is forced to delve into the mysteries of the Valors and find the arch's four missing magical stones whose powers are luck, truth, mirth, and youth. The inclusion of expanded Valor lore alongside the preexisting blend of fairy-tale and paranormal creatures is intriguing and fits the overarching theme of storytelling as history. The ongoing use of emotions as a scale for displaying and determining one's humanity, especially by Fates, is equally interesting. Unfortunately, the impact of Evangeline's often amusing narration and numerous surprising plot twists is diluted by the meandering pacing, convoluted sensory descriptions, and close focus on Evangeline's fluctuating attraction toward her potential love interests. Despite the positive emphasis on hope and happily-ever-afters, Evangeline's romantic relationship with Jacks borders on manipulative and toxic. Evangeline reads White; side characters are fantasy diverse. A disappointing

delivery on a potentially gripping second volume.

Reviews by: School Library Journal Gr 9 Up—This sequel to *Once Upon a Broken Heart* jumps right back into the action with Evangeline willing to go to desperate lengths to save Apollo. The only person she believes can help her is Jacks. She agrees to open the Valory Arch for him, but it's not long before a new curse slows them down and puts Evangeline's life in danger. Again, she's faced with the decision—can she trust a Fate? And can they both get what they want? Nonstop adventure and multiple twists will keep fans turning pages, and the will-they-won't-they nature of Jacks and Evangeline's relationship will leave readers breathless. Unfortunately, Evangeline hasn't grown much as a character, and her decisions are often frustrating. However, those who have yearned to return to this world won't be disappointed. Another cliffhanger ending all but ensures more to come. Most characters cue white; a few have "olive" or darker skin. VERDICT Recommended for fans of romance and fantasy, and where the first book was popular.—Mandy Laferriere

#2348581 (Vol. 03) Curse for True Love (Hardcover (Trade))

written by Stephanie Garber

Evangeline Fox ventured to the Magnificent North in search of her happy ending, and it seems as if she has it. She's married to a handsome prince and lives in a legendary castle. But Evangeline has no idea of the devastating price she's paid for this fairytale.

978-1-250-85120-8 ©2023 6 x 9-1/4 448 pgs.

Grades 7 - Y Dewey# Fic

Quantity	Unit Price
1	\$20.99

Reviews by: Kirkus Reviews Despite living her happily-ever-after, Evangeline can't help but strive to recover her lost memories in this trilogy closer. Evangeline Fox awakens in the strong arms of Prince Apollo, her apparent husband, who swears to protect her from the evil Lord Jacks, who stole her memories. Unfortunately, Evangeline remembers nothing of her long and complex journey in the Magnificent North or her past romances; only the pain in her heart lets her know something is missing. At Wolf Hall, Evangeline seeks ways to unlock her missing memories, including enlisting the help of a mysterious guard named Archer, even as Apollo's behavior becomes more and more controlling. The pacing and plot feel stagnant at first, with Evangeline remembering things in flashes and moments of brief feelings, but things finally pick up once her memories return. With the point of view rotating among Evangeline, Apollo, and Jacks, there are few narrative surprises, but it's intriguing to delve into the minds of an antagonist and a Fate. The story's inclusion of the legendary Valors and the fantastical fairy-tale setting are unfortunately overshadowed by the love triangle's dramatic tug-of-war romance. Likewise, the book's various themes--power, hope, stories, and the nature of humanity--are of interest but handled in an unfocused way. The conclusion, at least, is satisfying, and it hints at future tales set in this world. Evangeline, Jacks, and Archer read white; Apollo has dark hair and olive skin. Frustratingly slow and lacking in magical wonder. (map) (Fantasy. 14-18) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 8 Up-In this highly anticipated finale to Garber's latest trilogy in the "Caraval" universe, Evangeline (who reads white) awakens with all of her memories from the past year erased. Her husband, the handsome Prince Apollo (who is Black), promises to keep her safe and whisks her back to a seemingly fairy-tale life. Her lack of memories leaves her unsure of whether she should trust Apollo, who is determined to kill the charming but villainous Lord Jacks who Apollo claims was responsible for a long list of heinous crimes. As she slowly pieces together her past, Evangeline rediscovers her love for Jacks and realizes she must stop him from making an irreversible mistake in a foolhardy attempt to keep her safe. As always, Garber's worldbuilding is lush and captivating. The beautiful prose make for a smooth, quick read, and the characters are witty and complex. The first half of the book leaves Jacks and Evangeline separated, but the second half of the book more than makes up for the lack of witty banter and forbidden romance in the first half. Garber has successfully crafted a love story that has left readers rooting for a villain from the "Caraval" series. The ending is predictable, but will give fans what they've been waiting for. VERDICT Readers will be on the edge of their seats to get to the stunning finale of this much-loved series.-Candyce Pruitt-Goddard

Once Upon a Horse (Trade)

#2317859 (Vol. 01) Flying Horse (Hardcover (Trade))

written by Sarah Maslin Nir

Trendsetter is a horse destined to fly--in more ways than one. Sarah is a horse-loving seventh grader who has a secret and a fear of losing the one thing she loves most in the world. Separated by an ocean, a horse and a girl's parallel struggles to be their best include lots of luck and grit, some stubbornness, and a few failures. It is only when they find each other that the two kindred spirits find themselves.

Grades 3 - 6 Dewey# Fic

Quantity	Unit Price
1	\$16.99

Reviews by: Kirkus Reviews The stories of a horse named Trendsetter and a girl named Sarah unexpectedly intertwine. The first foal of the season born to his farm in Luttelgeest, Netherlands, Trendsetter is viewed as exceptional from the start, and he's expected to become a talented show jumper. But between the pressure of competition and unfeeling trainers, stubborn Trendsetter refuses to perform at two crucial events, and a new owner takes him to America to train as an Olympic horse. Meanwhile, over 3,000 miles away in New York City, Sarah, a horse-loving 10-year-old, struggles with her schoolwork because she has trouble spelling. As years go by, she decides to stop doing her homework altogether, but when her beloved grandmother falls ill, Sarah is inspired to try again in order to write Grandma Frieda's story of fleeing Austria to escape Jewish persecution. Chapters alternate between Trendsetter's and Sarah's perspectives and include life lessons within the context of the story. As their stories move closer to their linked destiny, Trendsetter and Sarah finally meet in an ending that will melt hearts and leave readers dabbing away happy tears. Readers will readily draw parallels between the two characters, both of whom struggle with doing what's expected of them and who flourish with kindness and encouragement. Physical descriptions of characters are minimal. An uplifting tale that will especially resonate with horse lovers. #2342723 (Vol. 02) Jockey & Her Horse: Inspired by the True Story of the First Black Female Jockey, Cheryl White (Hardcover (POB))

written by Sarah Maslin Nir

Cheryl loves horses. She's been studying thoroughbreds at her family's horse racing stables since she was old enough to ride on the shoulders of her father, a famous horse trainer. Cheryl wants to be a jockey. One problem-she is a girl, and there has never been a Black female jockey in history! Jetolara is a young thoroughbred finding his place in the herd. When Cheryl literally falls onto his back, and Jeto sprints off across the pasture, Cheryl discovers that she doesn't just want to be a jockey, she is a jockey-and she and Jeto were born to race.

Grades 3 - 6 Dewey# Fic

Quantity	Unit Price
1	\$16.99

Reviews by: School Library Journal Gr 3-5--History becomes more inclusive by amplifying the remarkable stories of lesser-known groundbreakers. One such story is that of the first female Black jockey Cheryl White. Horse racing rose to popularity after being brought to America by enslaved Africans, and many of the earliest career jockeys were African Americans, like Oliver Lewis, winner of the first Kentucky Derby. In the 20th century, jockeying became a sport of white male competitors--a fact that didn't faze 17-year-old Cheryl White. Growing up on a thoroughbred horse farm in the 1960s as a third-generation horse trainer meant White had horse racing in her blood. White's tenacity and talent for jockeying was met in equal measure with the rampant racism and sexism of the time. Though obstacles came in many forms from many sources (even her father was hesitant to support her competing), White built a tremendously successful jockeying career. Coauthored by White's brother Raymond White, Jr. and journalist Nir, this biographical narrative sticks closely to the events of Cheryl's life as they transpired, the only exception being a quiz-show trip to Senegal. Young readers, especially those who are girls of color, will find a spark in White's achievements. VERDICT Pulitzer Prize-nominated Nir takes the notion of a horse book and elevates it to a work of inspiration. A recommended purchase for public and school library collections.--Sarah Simpson Copyright 2023 School Library Journal, LLC Used with permission.

Once upon a Tim (Trade)

#2323234 (Vol. 03) Sea of Terror (Hardcover (Trade))

written by Stuart Gibbs

After helping Princess Grace foil the villainous Prince Ruprecht--twice!--junior knights Tim, Belinda, and Ferkle are on a new quest--this time to recover the Queen of Merryland's precious golden fleece (and more importantly, the protective amulet in its pocket) from the Kingdom of Dinkum. The safety of all Merryland depends upon them.

Grades 3 - 6 Dewey# Fic AR Lvl 5.1 AR Pts 3.0

Quantity	Unit Price
1	\$12.99

Reviews by: Kirkus Reviews Knights-in-training Tim and Belinda undertake a terrifying sea voyage to fetch a golden fleece and a few other treasures. Mostly what's terrifying is that they have Sir Fass, Sir Render, and the rest of the Kingdom of Merryland's inept, aptly named, and, as it turns out, treacherous Knight Brigade as shipmates...though surviving such nautical hazards as sirens, not to mention Scylla and Charybdis, are (not unlike a monstrous bargeboar, whose allergy to paprika leaves everyone covered in snot) nothing to sneeze at. Cribbing blithely from ancient

sources but working in some inventive twists of his own--the song of the sirens, for instance, is so awful that rather than luring sailors to their deaths, it results in them wrecking their ships to avoid hearing it--Gibbs steers his young adventurers from one near disaster to the next before doing readers the disservice of leaving the pair hurtling toward certain death on the last page. As in previous outings, Curtis adds comical line drawings of knights in armor grimacing or looking confused to nearly every spread, and the author pauses the action periodically to define relevant vocabulary building words like overcompensating, nauseous, and (irritatingly) cliffhanger. Most of the cast presents White in the interior art, though Belinda appears to be Black. More knightly shenanigans, tongue deeply in cheek. #2269882 (Vol. 01) Once upon a Tim (Hardcover (POB))

written by Stuart Gibbs

Tim is just a peasant, but he dreams big. He wants more out of life than to grow up to be a woodsman like his father. Unfortunately, the only route to success in the kingdom of Merryland is to be born a prince. Still, Tim is determined. He is brave and clever and always tries to do the right thing--even though he rarely gets the credit for it. Then news spreads that Princess Grace of the neighboring kingdom has been abducted by the evil Stinx and Prince Ruprecht needs a legion of knights to join him on his quest to rescue her. Tim finally has the lucky break he's been waiting for, the opportunity to change his station in life. And even though he doesn't know how to ride a horse or wield anything more deadly than a hoe, he's going to do whatever it takes to make sure his dream becomes a reality.

Reviews by: Booklist Grades 2-5 Tim and his friend Belinda (disguised as a boy), two peasants during the Middle Ages, seize an opportunity to become knights by accompanying a cowardly prince and his ineffectual wizard on an expedition to save a princess from the dreaded Stinx that has captured her. After an action-packed journey through the Forest of Doom, down The River of Doom, and across the Chasm of Doom, they reach the Stinx's lair. Gibbs peppers his prose with entertaining side comments as well as "IQ boosters," explaining terms such as malodorous, iconoclast, and infinitesimal, while maintaining the pace of the narrative. This giddy romp through a medieval setting, complete with menacing trolls and gigantic, bloodthirsty butterflies, is the start of a promising series from the author of Spy School (2012) and its sequels. COPYRIGHT(2022) Booklist, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews Thinking that it's better to be fake knights than real peasants, Tim and his best buddy, Belinda, sign up to rescue a captured princess. Unaware that they've been snookered into a dastardly scheme, the two youngsters hear that Princess Grace from the next kingdom over has been carried off in the claws of a fearsome and funky "stinx" and volunteer to accompany (reputedly) brave and noble Prince Ruprecht and his (reputedly) powerful magician Nerlim on a rescue mission. Accompanied by village idiot Ferkle, whose habit of shoving mud in his pants effectively lowers the level of humor even further, the two ersatz knights weather the Forest of Doom, the River of Doom, and a "troll bridge" across the Chasm of Doom despite a suspicious lack of assistance from either the prince or the magician...and arrive to discover that neither the stinx nor the princess is quite as expected either. In fact, the princess ends up being the rescuer ("That's what you call irony," she comments) when Ruprecht and Nerlim announce their intention to seize her and do away with any inconvenient witnesses. Tim and Belinda are rewarded with promotions for their efforts; readers will come away with both a cogent warning from Gibbs about the dangers of falling for fake news and better vocabularies due to his penchant for flagging significant words like gullible and malodorous in the narrative and then pausing to define and use them in sample sentences. Along with a full-spread map, Curtis supplies frequent pen-and-ink sketches of the cast in comical poses and straits. The races and ethnicities of the characters are not specified in the text, though cover art depicts characters of various skin tones. Budding heroes defeat class and gender expectations as well as the occasional monster in this wry outing. (Fantasy. 8-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Diverting from anything seen at the Round Table, Gibbs (the Spy School series) brings his lighthearted touch to medieval times in this energetic series starter. When a nefarious monster absconds with Princess Grace of a neighboring kingdom, cowardly Prince Ruprecht seeks knights to join him on his rescue. Since, according to self-described peasant Tim, "the worst part of being a peasant isn't really what we don't have. It's what we can't do," he and his best friend Belinda sign up for tryouts, hoping to change their fates. In doing so, they enter into a dastardly plan concocted by Ruprecht and court advisor Nerlim, who aren't actually seeking knights (the kingdom can't afford them following a bad investment) but "people who they could fool into thinking that they were knights." A comic quest follows, with scares and laughs abundantly on offer. Sketch-style b&w art by Curtis (Penguin and Moose Brave the Night) visualizes the paper white: skinned cast's hijinks. Tim's chatty, entertaining narration, which includes ample potty humor and the occasional vocabulary "IQ booster," also touches on lessons about stereotypes and unconscious bias throughout the chatty, madcap adventure. Ages 7: 10. (Mar.)

Reviews by: School Library Journal Gr 3–5—A quest to save a princess turns out to be nothing like the fairy tales suggest. Narrated by Tim, a peasant boy with a surprisingly rich vocabulary and complete knowledge of all the things that don't exist in his world, this romp follows Tim and his best friend Belinda, who seize the opportunity to join Prince Ruprecht and Court Magician Nerlim as they head off to rescue Princess Grace (who, it turns out, doesn't actually need to be rescued). Along for the adventure are Ferkle the Village Idiot (only pretending because it's the family business) and Rover, Tim's Fr-dog (an enormous frog who was once a dog... oh, it's a long story). The prince isn't brave, the magician can only do card tricks, and the monster isn't so very monstrous. Along with the enhanced vocabulary and extreme silliness, there is discussion of societal expectations. All characters are cued as white. VERDICT Will kids understand all of the references? Possibly not, but the humor, enhanced by Quentin Blake-esque illustrations, will definitely find an audience with kids looking for a quick, funny read.—Mara Alpert

#2300521 (Vol. 02) Labyrinth of Doom (Hardcover (Trade))

written by Stuart Gibbs

Prince Ruprecht is VERY UPSET that knights-in-training, Tim and Belinda, have thwarted his plans and ruined his chances with Princess Grace. And so, to get even, he has kidnapped the princess and trapped her in the most complicated, dangerous, complex, dastardly, biggest (okay you get the point)...and scariest maze in all the world!

978-1-5344-9928-7 ©2022 5-1/2 x 8 160 pgs.

Grades 3 - 6 Dewey# Fic AR Lvl 5.2 AR Pts 2.0 Lexile 770

Quantity	Unit Price
1	\$12.99

Reviews by: Kirkus Reviews Princess Grace of Merryland needs rescuing again, forcing two young knights-in-training to face a series of challenges, from hungry cave sharks to a minotaur named Chad. Actually, Princess Grace is perfectly capable of rescuing herself--again: see Once Upon a Tim (2022)--except that this time, kidnapers have stashed her in a room that's locked and bolted on the outside...and in the middle of a maze billed, supposedly, as "the most complex and dastardly labyrinth in the world." So it is that former peasants Tim and his more capable friend Bull--otherwise known as Belinda when she's not disguised as a boy--plunge into a mess of dark and bewildering tunnels, armed with a ball of twine provided by the surprisingly sapient village idiot Ferkle, to face a series of deadly threats...though the most legendary of all turns out to be an amiable monster with the body of a bull and the head of, well, a dude. Throughout Gibbs' lighthearted, laugh-out-loud tale, Curtis supplies proper notes of farce or stark terror as appropriate in flurries of line drawings that present most of the humans and the monsters with human features as White, though Belinda appears to present as Black. Along the way, Tim adds educational value to his narrative by flagging and then pausing to define vocabulary-building words like laborious and vexing. A lighter-than-air blend of knightly exploits and rib-tickling twists. (Fantasy. 10-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

One and Only Ivan (Trade)

#2379058 (Vol. 04) One and Only Family (Hardcover (Trade))

written by Katherine Applegate

Ivan loves being a papa, even though it can be hard sometimes. But as he navigates the joys and challenges of parenthood, he can't help but recall his life before the glass walls of the mall circus, his own childhood in the jungle-and his own twin.

Quantity	Unit Price
1	\$19.99

Reviews by: Booklist Grades 3-6 *Starred Review* In this latest from Applegate, the elephant introduced in *The One and Only Ivan* (2012) gets to tell her life story to friends at the Wildworld Zoological Park and Sanctuary. Ruby, aka Duni (her African keeper's name for her) aka Nya (her birth name), hates her new nickname, Tuskday. It signals her tusks are emerging and that she will soon have her Tuskday, which is "like a birthday party, only without the fun." There is a deeper reason, though, why everything about her tusks bothers her, and when Ruby is visited by the keeper who helped save her when her mother was killed by hunters, it stirs memories that she relates to her friends Ivan, the silverback gorilla; Bob, the dog; and the leader of her present herd, Aunt Akello. In the guise of a growing-up tale, the story leads readers to ponder the ecological devastation of the ivory trade, the difficulties of being torn from your homeland at an early age, and the horrors of many circuses and zoos. But countering that is also the joy of friendship, humans' kindness toward animals, and the joy of just being a kid, as described in Ruby's descriptions of the fun she has during "pondplay," "mudfun," and her "floppy-run." For fans of *Ivan* as well as animals in general, this is a special sequel. COPYRIGHT(2023) Booklist, ALL RIGHTS RESERVED.

Reviews by: Bulletin of the Center for Children's Books Little Ruby, the baby elephant featured in *The One and Only Ivan* (BCCB 02/12) and *The One and Only Bob* (BCCB 05/20) has come a long way since her time as a roadside attraction at The Exit 8 Big Top Mall and Video Arcade, and she's flourishing now in the care of her adopted herd at the Wildworld Zoological Park and Sanctuary. Lately, however, she's been plagued with worries about her upcoming Tuskday, when the other elephants in her herd will celebrate the arrival of her tusks. She's not interested in being the center of attention or having to give a speech-at least, those are the reasons she gives to others about her anxiety. The truth, however, comes from a place of deeper trauma, and it's only revealed when she's encouraged by Ivan and Bob to talk about her experience as a baby on the African savanna. Applegate yet again shows her ability to explore grief and its lifelong ripples with a subtle tenderness, balancing the joy of Ruby's current life and relationships with the fact that Ruby only lives in the sanctuary because she lost a mother to poachers and was forcibly relocated multiple times (eventually to the U.S., where readers of previous books will know she lost yet another maternal figure). The direct narrative tone gives depth to her personality: Ruby can be as mischievous and playful as she is stubborn and sometimes angry. Ivan, Bob, and Ruby all share terrible experiences at the hands of ignorant and even cruel humans, and while Applegate shows their current caretakers as compassionate people, she never offers redemption to those that hurt the friends and acknowledges the traumas that will stay with the trio for a long time. An elephant glossary is provided in frontmatter while an author's note discussing conservation, ecotourism, and elephant endangerment concludes the book. KQG COPYRIGHT(2023) Bulletin of the Center for Children's Books, ALL RIGHTS RESERVED.

Reviews by: Horn Book Guide After *The One and Only Ivan* (rev. 1/12) and *The One and Only Bob* (rev. 7/20), it's now young elephant Ruby's turn to tell her story. Having relocated to a new wildlife park in Florida (with Ivan, the silverback gorilla; and Bob, the wisecracking dog), Ruby has been adopted into a new elephant herd. Tuskday (the "traditional celebration after the arrival of a young elephant's tusks") is fast approaching, and she is exceptionally anxious about the rite of passage. Ruby gets an unexpected visitor one day when Jabori, who cared for her in an elephant orphanage in Africa, comes to visit. This joyful reunion provides the impetus for her to share the full story of her traumatic past, beginning with her mother being hunted and killed for her tusks. A conversation with the wise matriarch of the wildlife park's herd gives Ruby the courage to proceed with the Tuskday celebration. The book features Applegate's trademark verse-prose; appealing spot illustrations; and the hallmark themes of the series: adversity, trauma, friendship, resilience, and hope. An author's note discusses the plight of elephants in captivity and the continuing devastation of the ivory trade in the wild. (Copyright 2023 by The Horn Book, Incorporated, Boston. All rights reserved.)

All rights reserved.)

Reviews by: Kirkus Reviews In this follow-up to 2020's *The One and Only Bob*, Ruby the elephant is still living at Wildworld Zoological Park and Sanctuary. She's apprehensive about her Tuskday, a rite of passage for young elephants when she'll give a speech in front of the rest of the herd. Luckily, she can confide in her Uncle Ivan, who is next door in Gorilla World, and Uncle Bob, the dog who lives nearby with human friend Julia. Ruby was born in an unspecified part of Africa, later ending up on display in the mall, where she met Ivan, Bob, and Julia. The unexpected

arrival of someone from Ruby's past life on the savanna revives memories both warmly nostalgic and deeply traumatic. An elephant glossary and Castelao's charming, illustrated guide to elephant body language help immerse readers in Ruby's world. Goofy, playful, and mischievous Ruby is fully dimensional, as she has shown her bravery during the many hardships of her young life. Applegate deftly tempers themes of grief and loss with compassion and humor as Ruby finds her place in the herd. The author's note touches on climate change, the illegal ivory trade, and conservation efforts, but the highly emotive framing of the story through the memories of a bewildered baby elephant emphasizes the impact of lines such as " 'in Africa,' I say softly, 'there were bad people,' " without offering readers a nuanced understanding of the broader context that drives poaching. Certain to steal hearts. (Fiction. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Lovable baby elephant Ruby is the delightful narrator of this follow-up to *The One and Only Bob*, which further chronicles the animal's difficult journey to the wildlife park and sanctuary where she now lives. As the story picks up, Ruby laments that "nobody ever listens to the littlest elephant," especially concerning her dreaded upcoming Tusksday celebration, a rite of passage that she has no interest in recognizing. Doted on by her adopted elephant "aunts," and counseled by gorilla Ivan, who lives in a nearby enclosure, and dog Bob, who visits regularly, Ruby is safe and surrounded by loved ones. But an unexpected visit awakens memories both welcome and harrowing, including those making her reluctant to celebrate her tusks. Ruby's playful yet sage voice traces the events that brought her from her unspecified African savanna home to the mall where she and Ivan previously lived, and, at last, to the sanctuary. With her trademark blend of frankness and hope, Applegate details dire circumstances facing elephants in the wild, including climate change and poaching, while elucidating their fierce loyalty and highlighting, via the three protagonists' unforgettable bond, myriad interspecies relationships. A concluding author's note offers further context. Ages 8: 12. Agent: Elena Giovinazzo, Pippin Properties. (May)

One and Onlys (Trade)

 <p>#2300704 (Vol. 02) Finally, Something Dangerous (Hardcover (Trade)) <i>written by Doug Cornett</i> As the excitement from the last mystery the One and Onlys solved is starting to dwindle, Shanks, Peephole, and Paul worry that their town is back to being boring old Bellwood. But as plans for a shiny town makeover get underway, they realize that the "old Bellwood" is anything but. But the One and Onlys can't deny that something nefarious seems to be afoot--especially if the robot crow they stumbled upon is any indication. 978-0-593-43292-1 ©2022 5-1/2 x 8-1/4 240 pgs. Grades 3 - 6 Dewey# Fic Lexile 750</p>	1	\$16.99

Reviews by: Kirkus Reviews Who's ready to sniff out some crime? The One and Onlys--Gloria Longshanks "Shanks" Hill, Alexander "Peephole" Calloway, and Paul (still no nickname) Marconi--return in this sophomore outing. Although technically Peephole isn't an only child since the birth of his baby sister, Trillium, the group name is really good, so they kept it. This time Shanks serves as the narrator, guiding readers through the evolving town of Bellwood, where Mayor Frank Pilkington is aggressively pushing a platform of newness and wants the residents to start patronizing the sleek, national restaurant chains that have been popping up around the city. Along with the restaurants, the town has been experiencing a wave of scents drifting through the air, from the sweet smell of ice cream to the mouthwatering aroma of pizza. But when the denizens start queuing up at their old favorites, the foul odor of sewer pipes frequently sends them running toward the corresponding chain restaurants instead. Who could be responsible for these crimes against mom-and-pop stores? And are they connected to the recently spotted robot crows seen around town? As before, Cornett plays fair with the clues, allowing young sleuths to potentially solve the case ahead of the detectives. A subplot regarding the historically unequal treatment of Black citizens of Bellwood integrates seamlessly into the story, providing readers with some food for thought after the denouement. The central cast reads White; there is racial diversity among supporting characters. A tasty treat for any mystery lover. (Mystery. 8-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

 <p>#2158873 (Vol. 01) Finally, Something Mysterious (Library Binding (Trade)) <i>written by Doug Cornett</i> Paul Marconi has always thought that Bellwood was a strange town, but also a boring one. Not much for an eleven-year-old to do. Hundreds of rubber duckies have appeared on the lawn of poor Mr. Babbage without any explanation. Finally! There is something that Paul and his friends can actually investigate. 978-1-9848-3004-3 ©2020 5-1/2 x 8-1/4 256 pgs. Grades 4 - 6 Dewey# Fic AR Lvl 5.3 AR Pts 8.0 Lexile 790</p>	1	\$19.99

Reviews by: Bulletin of the Center for Children's Books Things get weird in the small, isolated town of Bellwood when hundreds of rubber duckies first appear on Mr. Babbage's lawn, along with a dead fish in his tree, and strangely the grass is soaked despite an ongoing drought; later those ducks are stolen from an evidence locker only to show up in the middle of nowhere. In come the One and Onlys, three fifth-grade detectives: Shanks (whose feisty personality makes up for her slight stature); Peephole (a boy with photographic memory); and mystery buff Paul Marconi, who hope to crack the case before Officer Portnoy stumbles upon the solution. At the same time, the all-important Triple B (Bellwood Bratwurst Bonanza) competition approaches and the Marconis hope for victory, Peephole's little sister is born prematurely, and a wildfire burns just outside of town. This is a diverting mystery with clever misdirection that will keep readers guessing until the end. Despite the addition of real world drama, the focus of the novel is lighthearted overall, and the story comes full circle back to the happy-go-lucky mysterious duckies. Perhaps one of the funniest aspects of this crime story is that it lacks a crime, but there's still plenty of entertainment and satisfaction: Team Marconi are the Wieners, Peephole trades anxiety for the role of protective big brother, and the young detectives wait for the next mystery, which will assuredly appear. QB

Reviews by: Publishers Weekly Paul Marconi, 11, loves to solve mysteries with his best friends, Shanks and Peephole, aka the "One and Onlys." All only children, they are the perfect team of sleuths: level-headed Paul "sniffed out the mysteries," fearless Shanks takes risks, and anxious Peephole's photographic memory documents crime scenes. Their sleepy community is preparing for its annual bratwurst cook-off, despite a wildfire burning beyond the town. When hundreds of rubber duckies mysteriously appear on the front lawn of Mr. Babbage, five-time bratwurst champion, the One and Onlys want to know who put them there. But Officer Portnoy won't let them near the evidence, Peephole is worried about the imminent birth of a sibling, and the whole town is preoccupied with the competition. Cornett caters nicely to his audience with amusing scenes; one suspect serenades the duckies with a tuba; and caricature, as with Portnoy, a classically clueless cop. The mystery slowly unspools with well-placed clues and red herrings, while subplots, such as the arrival of an ominous new megastore, lend depth to the lighthearted mystery. With the hint of more to come, the One and Onlys seem primed to become a popular trio among readers who enjoy an old-fashioned whodunit. Ages 8: 12. Agent: Penelope Burns, Gelfman Schneider/ICM Partners. (Apr.)

Operation Kinderspion (Trade)

#2366701 (Vol. 01) Max in the House of Spies (Hardcover (Trade))
written by Adam Gidwitz

Quantity **Unit Price**
1 **\$18.99**

There was once a boy who had two invisible, immortal creatures living on his shoulders. This was the fourth most interesting thing about him. The first most interesting thing about Max-that was his name-was that he was a genius. He could make a working radio from the junk at the bottom of a trash can. Sent away to London, Max Bretzfeld discovers he's been joined by two unexpected traveling companions-a dybbuk named Stein and a kobold named Berg-one on each shoulder. 978-0-593-11208-3 ©2024 5-1/2 x 8-1/4 336 pgs. Grades 4 - 7 Dewey# Fic Lexile 680

Reviews by: Booklist Grades 3-6 *Starred Review* What if the Holocaust hadn't happened? What if someone had stopped it sooner? What if that someone was . . . a child? In 1939, Max Bretzfeld, a savvy 11-year-old with a penchant for radios, begrudgingly leaves his parents in Berlin as danger escalates there for German Jewish families like his. With a mischief-making kobold that appears on one shoulder and a dybbuk on the other, Max adjusts to life in London with his affluent Jewish foster family, who, thanks to connections in the British intelligence community, reluctantly help Max train to return home to infiltrate Nazi ranks as a spy. Clever Max plays the long game with determination, and his agency is refreshing. While humorous and Holocaust story aren't descriptors typically combined (unless you're Taika Waititi), those familiar with the mordant wit of Gidwitz's Newbery Honor Book and Sydney Taylor Book Award winner *The Inquisitor's Tale* (2016) will appreciate Gidwitz's steady gift for finding moments of levity in horrendously dark situations. This first story of the Operation Kinderspion duology ends with Max in a white-knuckle situation, and the pre-WWII tale should read well alongside adventurous youth-resistance stories like Margi Preus' *Shadow on the Mountain* (2012) and Shirley Hughes' *Hero on a Bicycle* (2013). This heartfelt historical novel explores big questions of autonomy and allegiance with an admirable protagonist readers will respect and adore. COPYRIGHT(2023) Booklist, ALL RIGHTS RESERVED.

Reviews by: Horn Book Magazine From the moment eleven-year-old Max Bretzfeld arrives in England as a Jewish evacuee from WWII Germany (accompanied by two immortal, opinionated, and invisible-to-others creatures, a kobold and a dybbuk), his overriding desire is to return to Berlin. The preternaturally clever, resourceful Max has always protected his gentle parents, practiced as he is at anticipating the actions of bullies and staying ahead of their next moves. Who now will protect his parents from the Nazis? When he realizes that one of the men in his Jewish foster family works for British Naval Intelligence, he resolves to find a way to use that connection to be accepted as an undercover agent and sent back to Germany. Clearly, Gidwitz's (*The Inquisitor's Tale*, rev. 11/16) story calls for a great deal of suspension of disbelief, but the unlikely and fantastical elements are balanced by a rich and realistic depiction of WWII London, from the snobbery of life at an elite boys' school (including entrenched antisemitism) to the Blitz. Max's training as a spy is described in riveting detail, with readers rooting for the determined boy even as we know the dangers awaiting him if he passes the test. A cliffhanger ending (a sequel is promised) adds even more tension. An author's note gives more background on the historical and folkloric figures, settings, and events of the novel; an annotated bibliography is appended. Martha V. Parravano(Copyright 2024 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews A determined refugee will do whatever it takes to get back to his parents--even becoming a British spy in Nazi Germany. When 11-year-old Max Bretzfeld, a Jewish boy from Berlin, is sent to England on the Kindertransport in 1939, he's accompanied by two tiny men on his shoulders whom only he can see. The German kobold and Jewish dybbuk rarely interact with Max, but they comically comment on his circumstances. And such circumstances! After a working-class upbringing, he's fostered in England by Jewish baron Lord Montagu. Most of the white non-Jewish people Max encounters are shudderingly classist, racist, and antisemitic, but after a childhood in Nazi Germany, this is hardly new. Nonetheless, he'll do anything to get back to his parents, and thus, Max sets out to become a spy. While it may be hard to convince British intelligence to send him back to Germany, Max will do whatever it takes. Despite the compelling premise and likable characters, readers will have to wait for the sequel for a payoff. After a strong start, the kobold and dybbuk are relegated to the roles of Greek chorus, and the story's fascination with the real-life people who inspired the secondary characters is such that various questions concerning them are intriguing but remain unresolved in this volume. Nonetheless, this book--packed with sideways thinking, sociopolitical insights, and a Marmite-eating kangaroo named Kathy--delights. A duology opener with a truly likable hero and clever puzzling. (historical note, annotated bibliography) (Historical fiction. 8-11) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly After Kristallnacht, things continue getting worse for German Jews, prompting the parents of highly intelligent 11-year-old Max Bretzfeld to send him to England via the Kindertransport. Though Max doesn't want to go; especially because he often feels as if he's the only one looking out for his meek parents; they insist. Max ends up living with the Montagus, an aristocratic family of British Jews, and he did not arrive alone. He's joined by two invisible companions: a dybbuk, or Jewish evil spirit, on one shoulder and a kobold, or German folk spirit, on the other. When Max realizes that one of the Montagus is a British spy, he endeavors to become one as well, believing it to be the quickest way to return to Berlin to search for his parents. Gidwitz (the Unicorn Rescue Society series) imbues Max's first-person voice with plentiful charm and intellect, making him an irresistible and irrepressible protagonist even his otherworldly tormentors can't help but grow fond of. The compelling plot, which occasionally stretches credulity, boasts an exciting mixture of triumphs and perils, leading up to a cliffhanger ending that will have readers clamoring for the sequel. Ages 8: 12. Agent: Sarah Burnes, Gernert Company. (Feb.)

Reviews by: School Library Journal Gr 3-7--Gidwitz's latest is absolutely everything a reader could want in a World War II spy novel. Max is sent away from Berlin by his Jewish parents at the brink of WWII. Alone and scared, Max finds himself accompanied by two immortal and incorporeal creatures, a dybbuk and a kobold. Named Stein and Berg, these two offer comedic insights and observations in classic Gidwitz style, with sarcasm and wit in equal measure. Max must engage his full mental capacities to survive anti-Semitic bullies. He then must work his way into training to become the youngest spy for Britain, all in hopes of getting sent back to Berlin to be reunited with his parents. Brilliant, funny, and full of twists and turns that engage both the heart and the mind, this novel will have readers clamoring for the follow-up in the duology. Newbery Honoree Gidwitz is at the top of his form using humor, fantastical creatures, and in-depth research to bring this story zestfully to life. VERDICT Highly recommended for all collections serving middle grade and older readers who enjoy smartly written historical novels.--John Scott Copyright 2024 School Library Journal, LLC Used with permission.

Reviews by: Shelf Awareness Max in the House of Spies is a spirited and rambunctious middle-grade World War II novel that follows a Jewish boy on his quest to become a British spy.

Orphans of the Tide (Trade)

#2258455 (Vol. 01) Orphans of the Tide (Hardcover (Trade))

written by Struan Murray

Ellie has always been told that there's nothing beyond the shores of her small, salty island. That is, until a mysterious boy washes in with the tide, trapped inside the belly of a whale. The citizens of the City believe he's ruled by the Enemy. The Enemy is said to take possession of human bodies, and the ruthless Inquisition is determined to destroy it forever. Ellie knows the boy is innocent, but in order to save him, she must prove who he really is.

Grades 4 - 7 Dewey# Fic

Quantity	Unit Price
1	\$17.99

Reviews by: Booklist Grades 4-7 The City looms out of the ocean, surrounded with buildings submerged by the Enemy, a god that destroyed the other gods and regularly possesses an innocent individual to be its Vessel. When a boy emerges alive from the stomach of beached, cut-open whale, the Inquisitors of the City decide that he's a Vessel of the Enemy and must be executed. It's up to Ellie, who has taken over her late mother's inventing business, and her best friend, Anna, who lives in the orphanage, to rescue the boy they call Seth. When Seth demonstrates an ability to control the ocean, the girls know they have to help him escape the seabound City. Murray has written a complex and often dark tale about friendship, courage, love, and loyalty, filled with well-rounded characters with complex personalities and motivations. He depicts the City in carefully crafted detail while maintaining the pace of the intricate plot. Vivid characters, a breathtaking story, and the promise of a sequel all come together in this alluring middle-grade fantasy. COPYRIGHT(2021) Booklist, ALL RIGHTS RESERVED.

Reviews by: Bulletin of the Center for Children's Books world, after the god known as the Enemy drowned the other gods and the world-thirteen-year-old Ellie takes a keen interest in a boy who had to be cut out of the inside of a whale. There's immediate panic that the boy, dubbed Seth by friends Ellie and Anna, is the Vessel, the human the Enemy chooses every few decades to mooch energy off of until it can emerge from their body. Using the diary of the last Vessel, who documented his experience, Ellie tries to prove Seth's innocence despite his strange magic that controls the sea-but she has dark secrets of her own. This UK import sweeps readers right into a complicated world that revolves around religious panic and executes common fantasy tropes well and interestingly. Murray expertly parses out pieces of world building alongside foreshadowing for his multiple story-shattering plot twists, making this one hard to put down. NB COPYRIGHT(2021) Bulletin of the Center for Children's Books, ALL RIGHTS RESERVED.

Reviews by: Horn Book Magazine In the Last City, one of the final outposts of land against the rising seas, a whale becomes beached atop some of the lower-lying drowned houses. Twelve-year-old Ellie, an energetic, practical-minded girl with a knack for inventions, punctures the carcass to let out the gases of decomposition. Shockingly, a boy around her own age emerges from the hole in the whale. Despite Ellie's protestations, he's taken away by the Inquisition, as Inquisitor Hargrath believes he is the Vessel, a person the noncorporeal Enemy uses as a steppingstone to wreak havoc on the City. But Ellie knows he's just a boy who must be rescued. Chapters about Ellie's efforts to free and then hide Seth (as Ellie's sidekick and fellow orphan Anna names him) alternate with pages from the diary of Claude Hestermeyer, a scholar who became the Vessel a generation ago and was then killed. It's through these diary pages that readers begin to suspect the grand plot twist that controls the entire second half of the book, raising the stakes by several orders of magnitude. Against a deep backstory, Murray deploys levers of guilt and love to ensnare a believable protagonist in an impossible situation, then provides her with the kinds of friends to help her get out of it. The explanation of Seth's origins fits into the story's framework with a satisfying completeness, capping off a psychologically intricate, steampunk-infused horror tale that will please adventure-lovers as well. Anita L. Burkam(Copyright 2022 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews In this British import, a girl struggles to do what is right. Decades ago, the Great Drowning destroyed most of civilization; only a small island called the City remains. Periodically, the God Who Drowned the Gods, known as the Enemy, possesses a citizen of the City as its human Vessel, through which it gains power and sows destruction before the City's power-hungry Inquisitors find and execute the Vessel by burning them alive. When a boy with light-brown skin and blue eyes is discovered inside the belly of a whale beached on top of a church, everyone in the City is convinced the new Vessel has arrived--everyone except Ellie, that is. The orphaned daughter of Hannah Lancaster, the City's inventor, Ellie makes it her mission to protect the boy, figure out his secret (and why he can manipulate the ocean with his emotions), and keep her own tragic backstory and deepest secret safe. She's aided by her best friend from the orphanage and Lord Castion, a town leader who was friends with her mother. Excerpts from the diary of the last Vessel are interspersed between third-person chapters that follow Ellie. The pacing is compelling, but superfluous details detract from the narrative, and several worldbuilding questions remain unanswered, presumably leaving space for the sequel. Blond Ellie reads as White; Castion has dark-brown skin and uses a prosthetic limb. A promising series opener, although the quality ebbs and flows. (map) (Fantasy. 9-12) COPYRIGHT(2021) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly After the death of her brother and inventor mother, orphaned gadgeteer Ellie Lancaster, 12 and coded as white, is left responsible for maintaining many of the intricate mechanisms that help "catch whales, gather oysters, filter seawater, and more" for the inhabitants of the City, a last bastion of humankind that juts out of the flooded world's sea. When a dead whale washes up onto one of the island's rooftops, Ellie frees an amnesiac boy, blue-eyed and light brown: skinned, from its stomach, calling him Seth. The City's Holy Inquisition swiftly declares the newcomer a Vessel of the Enemy; a rogue god who periodically manifests and terrorizes society; and sentences the boy to death. To prove Seth's innocence, Ellie sets out to find the true Vessel with assistance from charming but capricious Finn and adventurous best friend Anna. Alternating an intriguing third-person narrative with first-person accounts from the previous Vessel, Murray weaves an ambitious tale of paranoia, religious zealotry, and adventure. A strong sense of unexplored history combined with the dynamic characters and atmosphere offers potential for further exploration, and readers will enjoy Ellie's struggle to protect her friends and home. Ages 8: 12. Agent: Stephanie Thwaites, Curtis Brown. (Dec.)

Reviews by: School Library Journal Gr 4-6—The City is the only land in existence—or really only part of it, since the majority of it sank underground in the tragic Great Drowning. Ellie, a bedraggled, pale-skinned girl rescues a boy from the belly of whale. Unfortunately, as soon as the light brown-skinned, muscular Seth emerges from the whale, the City guards believe he is the new Vessel who contains the Enemy, the evil god that destroyed The City, and decide the only way to save them all is to kill him. Ellie makes it her mission to save Seth and along with redheaded orphan Anna and her mysterious blond, pale friend Finn, she attempts to figure out who Seth is and where he's from. Ellie, however, has her own dangerous secret. The pace never slacks in this page-turning adventure, with well-crafted twists and secrets. Pages of a journal written by a former Vessel are interspersed throughout in a different format, making readers feel even more intertwined in the story. Murray's prose is descriptive and vivid; kids will think they are in Ellie's workshop, piled high with crab catchers, broken machines, books, notes, and unidentified items. The only bump in the plot is the attempted description of the gods of the world, their roles, and not-quite demise. Because this mythology is underdeveloped, it detracts from the story instead of adding to the worldbuilding. VERDICT An action-packed tale in a unique fantasy world that features a girl finding great power with the help of friends.—Clare A. Dombrowski

#2304193 (Vol. 02) Shipwreck Island (Hardcover (Trade)) <i>written by Struan Murray</i>	1	\$18.99

Ellie and Seth know more than most people do about living among gods. So when they escape the City and all of its inhabitants who want them dead, they hope to find a new island-free of gods-to call home. But the tropical island has its secrets, just as the City did, and Ellie and Seth are faced with impossible questions about who they can trust and who they can't-including each other.

978-0-06-304316-9 ©2022 5-1/2 x 8-1/4 416 pgs.

Grades 4 - 7 Dewey# Fic

Reviews by: Kirkus Reviews A hoped-for refuge becomes anything but for two tween fugitives in this muddled middle volume. Somehow surviving a three-month voyage on a makeshift raft over a flooded world, Ellie and Seth make landfall at last just in time to be swept up in a power struggle between a lonely young queen and a smooth-talking aristocrat. Worse yet, the afflictions met in the previous episode have followed them--Seth, a reborn god of the sea, remains tortured by ghostly voices and fragmentary memories, while Ellie is both saddled with a malign spirit insistently pressuring her to make evil choices and dogged by a crazed Inquisitor obsessed with literally burning that spirit out of her. With all this, it's no surprise that Murray's efforts to lighten the load with a new ally's pet kitten or comedic touches like giving Ellie a real gift for saying the wrong thing will likely fall flat for readers, as will the local queen's startlingly sudden shift at the climax from friendly but overwhelmed adolescent to brutally pragmatic monarch. Not to mention an island setting that, obligatory map notwithstanding, becomes small enough to get around in no time depending on the plot's twists and turns, continuity breaks that have characters suddenly rearranged or apparently endowed with more than two hands, and a head-scratcher of a closing scene. The island's population reads largely White. A shambolic, patchwork jumble. (Fantasy. 9-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 5 Up—Ellie and Seth have traveled to a mysterious island where they meet Kate, a girl who is really the Queen in disguise. Due to a predicted famine on the island, the Queen is expected to use her powers, passed on from royal generations before her, to solve the island's major problem. Ellie befriends Kate, only to learn a tragic secret about the Queen and her powers. Kate has no idea about Ellie and Seth's capabilities. Many enemies have come to wreak havoc on the island, causing Ellie to doubt herself and her safety. Nearly every page features danger and adventure. Will Ellie and Seth survive and come to see the truth for what it really is? VERDICT A definite page-turner that will leave readers eager for more action and an ending that promises just that.

Pack (Trade)

#2227211 (Vol. 01) Pack (Hardcover (Trade))

written by Lisi Harrison

Don't be fooled.... Charm House isn't like any other charm school. Charm stands for Center for Human-Animal Reform and Manners. Every girl who boards there has an animal light inside her that is wild and needs to be tamed.

Reviews by: Booklist From the author of the popular Clique books comes an imaginative new series set within the halls of an unusual middle school: the all-girls Center for Human-Animal Reform and Manners, aka Charm House. Though she looks like an average girl, Sadie has never felt she fits in; maybe it's her unruly hair, muscled physique, or nocturnal sleep patterns. After a few too many bizarre incidents get Sadie expelled from regular school, Miss Flora—headmistress of Charm House—takes the girl on, promising to help teach Sadie how to develop and control her animal side. Not long after her arrival, a mysterious creature begins exacting vengeance on a self-absorbed clique known as the Pack, prompting Sadie to try to find out what is going on and what secrets Charm House is hiding. An evil science institute, literal cattiness, new friendships, and explorations of identity are all woven through this fun, fast-paced read, guaranteed to fly off the shelf. Thankfully, an aggressive publishing schedule will see two more installments due out in the next year.

Reviews by: Publishers Weekly Harrison (the Clique series) dives into girls' boarding school dynamics in this playfully paranormal series starter. After animalistic impulses and anger issues get her into trouble at middle school, straw-blond Sadie Samson is transferred to Charm House, a girls' boarding school in Timor Lake, Wash. There, she discovers that Charm, the "Center for Human Animal Reform and Manners," secretly shelters and trains girls like her, who possess animal spirits known as lights. Learning that she has a rare lion light, which distinguishes her as a potential leader among species including hyenas, giraffes, and monkeys, Sadie falls in with the Pack, a clique of popular girls led by tiger light Lindsey. When a series of mysterious attacks implicate her snake light roommate, Sadie must solve the mystery at the heart of Charm House to prove her leadership mettle and save her friends. Scant world-building raises more questions than the brief, fast-paced story has room to detail, and character descriptions are often limited to backward-looking phrases ("exotically gorgeous," "narrow-waisted"); Sadie, nevertheless, makes for a sympathetic, engaging protagonist throughout. Ages 10: up. Agent: Richard Abate, 3 Arts Entertainment. (June)

#2326425 (Vol. 02) Claw and Order (Paperback (Trade))

written by Lisi Harrison

Sadie thought joining the Pack would be the wildest thing to happen to her this year but the school year is becoming even harder. On top of classes Sadie has to navigate her growing feelings for her crush, taming her powers during cheer practice and trouble making hyenas trying to take her crown. Then there is the massive secret she is keeping from her BFF Lindsey-that could destroy their friendship and The Pack as they know it. Will the shocking truth come out to bite them?

Reviews by: Booklist Since her mother's disappearance, 11-year-old Tilly Pages has been raised by her grandparents in their London bookshop, Pages & Co. She doesn't question her origins until the day she witnesses her grandma speaking to one Lizzie Bennet. Soon afterwards, she comes upon her grandad sitting with Sherlock Holmes. After Tilly herself is visited by Anne Shirley (of Green Gables) and Alice (of Wonderland fame), she learns that she comes from a family of bookwanderers, people so intensely connected to books that they can enter story worlds and interact with fictional characters. As Tilly delves deeper into the secret and increasingly dangerous world of bookwanderers, the mysteries of her parentage unravel. Well-read youngsters will thrill in joining Tilly as she visits such beloved classics as *Treasure Island* and *A Little Princess*. Steeped in magical world building, James' debut pays loving testament to the power of books, and it functions well as a stand-alone adventure while setting the stage for future installments of enormous potential.--Ronny Khuri Copyright 2019 Booklist

Reviews by: Bulletin of the Center for Children's Books When Tilly Pages catches her grandmother chatting with Lizzy Bennet and her grandfather letting Sherlock Holmes smoke indoors, she's pretty sure something weird is going on. Soon enough, Tilly's having conversations with Anne (of Green Gables) and Alice (of Wonderland) in the stacks of her grandparents' cozy bookshop. After she finds a box of her missing mother's books and she and an acquaintance are pulled into Anne of Green Gables, her grandparents explain that Tilly comes from a long line of bookwanderers: avid readers whose emotional connection to books enables them to conjure their favorite characters and physically enter the stories (making this British import an *Eyre* Affair for preteens). A slow start and long passages of exposition demand readerly persistence, and nostalgia celebrating the magic of books often devolves into sentimentality about a fairly narrow slice of canonical fiction (*Percy Jackson* and *Harry Potter* are the only notable concessions to the twenty-first century). However, a mystery involving Tilly's parents and a copy of *A Little Princess* add some emotional stakes, and her conviction that beloved book characters are better than troublesome real-life friends will resonate with shy readers. The cozy bookshop, the descriptions of decadent baked goods from its cafe, and the fun of the bookwandering world, complete with Librarians tasked with maintaining order and fictional integrity, may therefore appeal to readers looking for an indulgent, low-key treat. Black and white decorative elements and silhouettes enhance the pages, and intentional gaps in the mechanics of bookwandering leave plenty of scope for sequels. FHK

Reviews by: Kirkus Reviews This debut is the first in a new series about an English girl with a special ability. Matilda Pages' mother disappeared without a trace when she was a baby, and her father died before she was born. The 11-year-old bibliophile has been raised by her maternal grandparents, proprietors of Pages & Co., a cozy north London bookshop. The school holidays stretch out before her, and Tilly wants some excitement, but, as she laments, "No one has proper adventures in real life." Tilly gets the adventure of a lifetime when Anne Shirley and Alice, her favorite book characters, appear in the shop. Visits to Avonlea and the famously wacky Wonderland tea party lead Tilly to the truth: She comes from a family of bookwanderers, people who use the "natural magic of books" to travel inside works of literature and bring characters into the real world. Inquisitive and intelligent, Tilly is exceptional among bookwanderers: Some of the rules don't apply to her, but why? Tilly's literary adventures thrill, and Anne's characterization in particular is pleasingly congruent with the original character. Escobar's literary-themed silhouettes, reminiscent of Arthur Rackham's, add whimsical flourishes, although the few full-page illustrations do little. Its premise makes it an obvious, wonderful choice for book-loving readers who aren't quite ready for Inkheart's heft. Characters default to white. A loving testament to the powerful magic of books and imagination. (Fantasy. 8-12) COPYRIGHT(2019) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Tilly, 11, has lived with her grandparents in their London bookstore, Pages and Co., since her mother's mysterious disappearance shortly after Tilly's birth. Tilly struggles to make friends but finally begins to connect with her neighbor Oskar. After she discovers her mother's box of favorite books, two of Tilly's favorite characters, L.M. Montgomery's Anne and Lewis Carroll's Alice, show up at the shop, and Tilly realizes that she is a bookwanderer: someone who "reads a bit harder than most people" and can be transported inside the story. Together, Tilly and Oskar learn the complicated rules of bookwandering from Tilly's grandparents and the staff of the Underlibrary, which exists beneath the British Museum. One employee, Enoch Chalk, follows Tilly through various books, and his creepy ways raise her suspicions. As she and Oskar investigate the truth about Chalk, they uncover more about Tilly's mother, as well as the dangers and magic of bookwandering. Tilly's friendship struggles and love of reading ground James's imaginative debut and, together with satisfying twists and a well-constructed bookwanderer's mythology, create an affectionate ode to books and book lovers. Ages 8: 12. (Sept.)

Reviews by: School Library Journal Gr 5-7-Tilly is an 11-year-old orphan who lives with her grandparents, owners of the magical bookstore Pages & Co. Her adventure begins during winter break when she explores the bookstore and notices unusual characters among the stacks. Her grandparents are alarmed at these sightings because they know these characters materialize out of books--they are fiction made real. They soon suspect that Tilly is able to bookwander, which means she can travel back and forth between the real world and the world of fiction. She especially likes to bookwander with Anne Shirley, of "Anne of Greene Gables," because she feels kinship with her as an orphan. But can Tilly bookwander to find her long-lost family? Readers will want to become familiar with the literary characters Tilly meets. Tilly's grandfather succinctly puts the importance of books into perspective. He says, "The books we love when we're growing up shape us in a special way...The characters in the books

we read help us decide who we want to be." VERDICT James's debut will speak to the heart of bibliophiles and is highly recommended for readers young and old. An important reminder of the centrality of stories in shaping our lives.—Lisa Gieskes, Richland County Public Library, Columbia, SC Copyright 2019 School Library Journal, LLC Used with permission.

#2215966 (Vol. 02) Lost Fairy Tales (Paperback (Trade))

written by Anna James

Tilly and her best friend Oskar are bookwanderers: a remarkable group of people who, using the magical power of books, can travel inside any story they choose. But on a wintry visit to Paris, the friends wander inside a book of fairy tales to find that peculiar things are happening: characters are getting lost, stories are all mixed up, and mysterious plot holes are opening without warning...

Reviews by: Kirkus Reviews Why is the new head of the Underlibrary cracking down on bookwandering? After Enoch Chalk escaped into fiction in series opener *The Bookwanderers* (2018), the old Head Librarian was disgraced. Her replacement, the smarmy demagogue Melville, begins his tenure with a bang: He forbids Oskar and Tilly from bookwandering, bans Tilly's whole family from the British Underlibrary, and implements tracking measures to locate every bookwanderer. Oskar and Tilly are ready to battle the new regime, and they don't understand the wariness of Tilly's grandparents, who warn them to obey the new rules. When they disobey the adults' dire warnings and enter a book of fairy tales, they discover horrible dangers. Fairy-tale characters are dissolving into black ooze or vanishing altogether. Oskar's kidnapped into Rapunzel's story, and even Tilly, who's half-fictional on her father's side, is hard-pressed to rescue him. The fairy-tale boundaries are so corrupted that Rapunzel is besieged by countless worthless Prince Charmings--Tilly and Oskar had best find out what's wrong posthaste. Droll illustrations spice up the text, though frequent changes of typeface add distraction rather than flair. An author's note on fairy tales is insufficiently clear on the distinction between the oral tradition and original tales. The story itself is clearer on this point, which is lucky, as fairy tales' having no original source edition is key to the adventure. Oskar has brown skin; Tilly (and most other human characters) seems to be white. Winsomely harking back to the oldest children's classics, this has special appeal for romantic bibliophiles. (Fantasy. 9-11) COPYRIGHT(2020) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 5–7—In this series sequel, Tilly and her friend Oskar try to rescue lost fairy tales, a particular challenge because they are changeable stories based on oral traditions. Luckily, Tilly and Oskar both come from families of bookwanderers, meaning they can travel back and forth between the real world and the world of fiction. Tilly's grandmother has even bookwandered into fairy tales and knows about mapping stories given her past work in a map room of the Underlibrary, a hidden magical library. Bookwandering becomes fraught with difficulties as Enoch Chalk, a renegade Source (fictional) character, is still missing and Amelia, the Head Librarian of the Underlibrary, is losing her job. Her replacement, Melville Underwood, immediately begins to limit bookwandering. Underwood's shadowy past and hints of danger intrigue Tilly and Oskar, who bookwander in secret. As they morph inside stories, book magic happens and the text transmogrifies too. As gateways between books appear, plot holes open and book magic leaks. VERDICT This series is made for book-lovers and attests to the power and importance of stories.—Lisa Gieskes, Richland County Public Library, Columbia, SC

#2227693 (Vol. 03) Map of Stories (Paperback (Trade))

written by Anna James

The bookwandering community is at risk when an extreme group of Librarians take over the British Underlibrary. Tilly and Oskar believe that an elusive group of bookwanderers called the Archivists may be the key to restoring balance and Tilly thinks she's discovered their whereabouts: the Library of Congress in Washington D.C.

written by Roshani Chokshi

The Pandavas only have until the next full moon to stop the Sleeper from gaining access to the nectar of immortality, which will grant him infinite power. But how can Aru, Mini, and Brynne hope to defeat him without their celestial weapons?

978-1-368-05544-4 ©2022 5-1/2 x 8-1/4 320 pgs.
Grades 3 - 6 Dewey# Fic AR Lvl 5.4 AR Pts 14.0

Reviews by: Kirkus Reviews The Pandava series finale finds heroes Aru, Mini, and Brynne weaponless and thus unable to enter the labyrinth to protect the nectar of immortality from the villainous Sleeper. Although Aru has proven her strength and courage many times over, without Vajra, her celestial lightning bolt, she feels powerless. The recent betrayal of Aru’s half sister, Kara, adds to the complexity of Aru’s familial relationships and the self-doubt that has plagued her throughout this quest. Seemingly out of options, Aru remembers the IO(F)U coin from god of fire Agni. He gives them one piece of the Sun Jewel, which, when reunited with its two other parts, will light their way through the labyrinth. During the journey to find the remaining jewel pieces, the Pandavas encounter more Otherworld characters from Hindu cosmology who test the heart and soul of each sister in their own ways. Several of these characters possess legacies that have been twisted or forgotten. This thread from earlier books reaches a head during the climax, when Aru must make a fateful decision about immortality and who is deserving of having their story live on. This thrilling closing adventure shines with the strength of sisterhood, South Asian representation and Chokshi’s trademark humor and wit. A deeply satisfying conclusion to a superb, groundbreaking series. (glossary) (Fantasy. 9-13)

Reviews by: School Library Journal Gr 3-7--Aru Shah and the Pandavas (aka the Potatoes) are faced with saving the world from ultimate destruction but they feel completely helpless without their celestial weapons that give them any chance of winning a battle against the Sleeper and his army. Is all hope lost? They certainly are doubting themselves and their relationships as they attempt to get into the labyrinth and get the Nectar of Immortality before Aru's traitorous sister uses her power to release it. They must travel to the parts of the Other World without being noticed, partly with the help of the very conspicuous Ruby, and find themselves stars on the concert stage, reuniting Aiden with family, risking eternal naps, and challenging immense bears. Through their trials, each of them begins to acquire the strength and self-awareness that will gain them back what was lost. This last installment of the series concludes the battle without winners, but all is resolved in ways to satisfy the gods and readers alike. While readers might want to see these characters again, the ending feels like just that. Those who are new to Aru's world will need to begin with the first installment to meet each of the five Pandavas in order of appearance. The extensive glossary is helpful for those wanting to delve more deeply into the Hindu mythology and religion. VERDICT A fitting end to a high stakes mythological adventure; this series is recommended for purchase in collections seeking adventure and strong female characters and where mythology is popular.--Clare A. Dombrowski Copyright 2022 School Library Journal, LLC Used with permission.

Reviews by: Kirkus Reviews Paola battles the supernatural to save her friend in this follow-up to 2021’s Paola Santiago and the Forest of Nightmares. Dante, one of Pao’s best friends, has been missing for 8 months: He’s trapped in the void, a place full of terrible creatures and dread, and she’s desperate to rescue him. But Mexican American Pao may be suffering from PTSD, and the adults in her life want her to stay home and play it safe. Frustrated, Pao and Emma, her other best friend, take matters into their own hands, brewing up a tea intended to restore Pao’s magical dreams of the void. It works—and Pao realizes she must travel to San Antonio, Texas, as soon as possible if she hopes to save Dante. To get there, she tags along with Emma’s new friends from the Rainbow Rogues, who are going on an environmental conservation volunteer trip to New Orleans. The bus journey from Arizona soon takes a dark turn, triggering a thrilling, fast-paced series of events that force Pao to confront El Cucuy, the lord of nightmares, and his apocalyptic plot as well as to learn to ask for help. While love is often depicted as the means to individually defeat evil, this story conveys a resonant message about the power of broader community support. As she battles monsters, Pao also privately explores her sexual identity and romantic feelings for Emma, who is queer. A brave adventure with meaningful depth. (Fantasy. 8-13)

Penny Draws (Trade)

#2324120 (Vol. 01) Penny Draws a Best Friend (Hardcover (POB))

Reviews by: Booklist Penny is a for-real, big-time worrier. When she starts fifth grade, she gears up for another year of comfortable friendship with her pal Violet, but suddenly Violet thinks Penny is too babyish and starts hanging out with a new crowd. While Penny tries to get back into Violet's good graces, she unexpectedly makes some new friends, and this time, they're the good kind who don't exclude her or put her down. This book is set up like Dork Diaries, with all of Penny's private thoughts and retellings of her day peppered with simple cartoon drawings showing what is going on, but they're charmingly addressed to her dog, Cosmo, instead of "Dear Diary." Readers will likely relate to her concerns, such as worrying whether people are laughing about her behind her back, feeling nervous about talking in front of people, or meeting new friends. Penny also learns that looks can be deceiving, and that rumors can be harmful as she gets to know her new misfit pals. This new series comes straight from the heart.

Reviews by: Bulletin of the Center for Children's Books Fifth-grader Penny Lowry is a worrier. She worries about her beloved dog, Cosmo, eating the remote control; about the bacteria lurking in the dirt under her fingernails; about the secret that has her parents acting so squirrely. One thing she never thought she'd have to worry about, however, was losing her best friend, Violet Vance, to their catty classmate, Riley Miller. Unmoored in the face of Violet's desertion, Penny turns to her diary for comfort and to Mrs. Hines, the school's "Feelings Teacher." Just as Penny is starting to grow comfortable with herself and make new friends, Violet and Riley return to her life, and Penny finds herself struggling between who she was, who she is, and who she wants to be. Shepard's illustrated middle-grade novel, relayed through Penny's doodles and diary entries, is imbued with humor, colorful characters, and the perilous dilemmas of childhood—from randomly assigned partners to the mortifying ordeal of eating alone in the cafeteria. Informal line drawings host a cast of wide-eyed characters with gangly, nervous limbs that complement the confessional nature of the narrative and the drive-by observational humor of its protagonist. Shepard carefully and successfully walks a tightrope in her treatment of Penny's worries by validating her feelings while suggesting that they should not be the only thing that guide her actions and choices. The epistolary format and the quirky, lovable main character will appeal to fans of Rachel Renée Russell's Dork Diaries and Svetlana Chmakova's Brave. AB COPYRIGHT(2023) Bulletin of the Center for Children's Books, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews Penny learns important lessons about friendship and worry in a series opener inspired by the author's own early struggles with anxiety. As Penny prepares to start fifth grade, she can't wait for her best friend to return from camp, but when Violet gets back, things are awkward. Violet's no longer interested in drawing, and she's spending all her time with popular but mean Riley. Penny tries to accept this, but intrusive, spiraling thoughts continue to interrupt her life; between Violet's distance, her parents' big secret, and her little brother's croup that requires frequent ER visits, she has plenty of real reasons to worry. Thankfully, Penny's visits to Mrs. Hines, the Feelings Teacher, give her a safe place to talk about what is going on in her head, and familiar faces open the door to new, unexpected friendships whose value becomes clear when something bad really does happen. Illustrated throughout with black-and-white sketches that highlight some of the more comical moments in the story, the book features just the right amount of humor to balance out more serious explorations of changing friendships and the ways uncertainty and lack of control can contribute to an increase in feelings of panic for young anxiety sufferers. Many readers will see their own concerns and feelings reflected here. Penny and her family read White. A bright and emotionally accessible story full of wit and warmth. (Fiction. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly As outlined in an author's note, Shepard (the Pretty Little Liars series) draws from her own childhood experience with anxiety for this diary-style illustrated novel. Rising fifth grader Penny is looking forward to her best friend Violet's return from summer gymnastics camp. But the start of school promptly reveals that Violet has moved on: she's no longer into Art Club; an activity the girls previously shared; and camp has bonded her with popular mean girl Riley. But Mrs. Hines, the "feelings teacher" Penny speaks with regularly about her worries, proves a catalyst for personal change, giving Penny a journal to work through things. As Penny encounters, and slowly befriends, other students who talk to Mrs. Hines, she directs her diary entries to her "loyal and nice" dog, Cosmo, who shares many of Penny's fears ("Storms. Fireworks. Balloons. Clowns"). In chatty, quick-moving installments, Penny tells entertaining anecdotes and details her brother's recurring croup, her concerns about social scenarios, and a secret her parents seem to be keeping. Shepard's light touch and sketchbook-style b&w doodles make for an engaging read that candidly portrays the effect of destabilizing changes on one child experiencing anxiety. Character portrayals reflect the white of the page. Ages 8: 12. Agent: Richard Abate, 3 Arts. (May)

written by Sara Shepard

Halfway through the fifth grade, Penny Lowry is discovering that things are actually going . . . okay! With her friends Maria, Kristian, and Rocco on her side, and her lovable dog Cosmo, she can make it through anything. And when her anxiety comes back, there's always her doodling, or talking to Mrs. Hines, the Feelings Teacher. But big change is around the corner: Penny's family is moving to a new house, her mom is about to give birth to twins, and most stressful of all, she's been tapped for a role in her class play!

978-0-593-61680-2 ©2023 5 x 7-3/4 240 pgs.

Grades 3 - 6 Dewey# Fic AR Lvl 4.0 AR Pts 3.0 Lexile 620

Reviews by: Kirkus Reviews Journal entries addressed to her dog, Cosmo, continue to help Penny navigate life's more difficult situations. Though things have been going OK for a while, Penny knows she needs to start writing letters to her dog again when her classmate Luke's folded-paper fortuneteller predicts "unexpected surprises" are coming her way. The first surprise turns out to be that everyone will be required to participate in the fifth grade class play. As if that isn't enough, next her parents suddenly announce they're moving to a new house. This second series entry further explores Penny's changing friendship with ex-bestie Violet. She also attempts to forge a friendship between two people she likes very much who unfortunately dislike each other. Navigating these uncomfortable changes and social situations requires Penny to step outside her comfort zone and lean on her coping mechanisms to deal with her anxiety. Discussions with her Feelings Teacher offer more useful strategies for young people with anxiety. Although Penny's new friend group is supportive, readers will squirm with vicarious embarrassment from some of the situations she finds herself in. Parts of the narrative would have benefited from tightening, but many readers will feel seen and validated. The interspersed comics are a highlight, carrying surprising emotional weight and humor given their simplicity. Penny and her family read white. A helpful story about a young anxiety sufferer navigating the unexpected. (Fiction. 8-12)

#2368318 (Vol. 03) Penny Draws a Secret Adventure (Hardcover (Trade))

written by Sara Shepard

Little by little, Penny Lowry is making it through the fifth grade-with a bit of help from her friends Maria, Kristian, and Rocco, as well as her lovable dog Cosmo. And there's a lot of change to deal with this year! And on top of everything, Penny and her friends discover a very old map in her attic that sends them on a wild scavenger hunt all over town in search of treasure!

978-0-593-61683-3 ©2024 5 x 7-3/4 240 pgs.

Grades 3 - 6 Dewey# Fic AR Lvl 4.0 AR Pts 3.0 Lexile GN 580

Reviews by: Kirkus Reviews newborn siblings, she tries to figure out a complicated treasure map and even more complicated friendships and feelings. Now that the twins are home from the hospital, Penny and little brother Juice Box are struggling to adjust; it's tough with all the crying, plus a new babysitter. And Penny and Juice Box have to help choose names for the babies, and they can't agree. Penny's also trying to be OK with the fact that bestie Maria is studying for the spelling bee with mutual friend Chloe, though it makes her feel inadequate. The discovery of a bunch of unidentified keys helps Penny and her friends open the locked box they'd found in the attic, and the treasure map inside leads them to the most terrifying house in the neighborhood, where a witch supposedly lives. Amid all this, a school project forces Penny to consider what her own good qualities are. Though ex-friend Riley is still around to (mostly) antagonize Penny, Mrs. Hines, the Feelings Teacher, keeps helping her navigate all the upheaval. This third series entry offers yet more humor and genuine positivity along with an honest portrayal of how anxiety can affect young people. The third volume moves more quickly than the previous two, yet it maintains the wit and warmth (greatly supported by the charming black-and-white cartoon illustrations) that readers have come to expect from Penny's escapades. A sympathetic and amusing account of a young anxiety sufferer navigating life changes. (Fiction. 8-12)

Percy Jackson and The Olympians (Trade)

#2333327 (Vol. 06) Chalice of the Gods (Hardcover (Trade))

written by Rick Riordan

After saving the world multiple times, Percy Jackson is hoping to have a normal senior year. Unfortunately, the gods aren't quite done with him. Percy will have to fulfill three quests in order to get the necessary three letters of recommendation from

Mount Olympus for college. The first quest is to help Zeus's cup-bearer retrieve his goblet before it falls into the wrong hands. Can Percy, Grover, and Annabeth find it in time?

978-1-368-09817-5 ©2023 5-1/2 x 8-1/4 256 pgs.

Grades 4 - 7 Dewey# Fic AR Lvl 5.1 AR Pts 9.0 Lexile 710

Reviews by: Kirkus Reviews Following years of eager anticipation, Percy Jackson returns in this follow-up to 2009's *The Last Olympian* that is well worth the wait. Now a high school senior, Percy wants nothing more than to leave his old life behind and attend New Rome University in California with his love, Annabeth. In order to fulfill his dream, however, Percy requires three godly letters of recommendation—and the price is completing one heroic quest for each. Reading this latest installment feels like the literary equivalent of coming home after a first year of college: Everything and everyone feels similar yet changed in ways that are poignant. The action is as gripping and well paced as ever, keeping readers guessing about the identities of the villains and culprits as Percy and his friends save the day for various gods. Happily in a committed relationship, the titular hero is more introspective and less impetuous. As graduation nears, Percy grapples with the inevitability that life as he knows it is changing, and the emotion he demonstrates as he savors moments with loved ones and mourns the missed opportunities that come with growing up imbue the novel with heart and heft. Best of all, readers will be inspired to grab the first volume and relive this modern Olympian epic all over again. An entry that renews and deepens fans' love for the series: There is no higher praise for a sequel than this. (Fantasy. 9-14)

Reviews by: School Library Journal Gr 5 Up--Percy Jackson has made it to senior year in high school, a feat for a demigod. Things are looking pretty good with his mom happy with Paul, he and Annabeth together, and going to go off to college at New Rome University next year. Well, perhaps it's not so easy because of course, the gods cannot leave him alone, and after a very uncomfortable meeting with his school counselor/Poseidon's lackey Eudora, Percy is told he cannot go to college without three recommendations from gods. How does one get said recommendations? By going on quests, of course! Without a break to breathe, Percy runs into Ganyamede on the Subway and suddenly has the quest of finding the chalice used to serve the gods in Olympus. With the trio of Annabeth, Grover, and Percy back together, they travel through the ages into Brooklyn and run into a few problems. With the expected sarcastic narration and high adventure, Riordan continues this series while still making it relatable (who doesn't dread asking people for recommendation letters?). While anyone who knows the premise of the "Percy Jackson" series can follow this book, it is much better to read the first five in order to fully understand the characters. The one drawback of this story is that while its appeal spans ages, the writing style didn't mature with Percy. Some teens might find it simplistic if they want to continue the series they loved at younger ages; but it does make it accessible to current middle grade readers. VERDICT Recommended highly for all collections; readers will want to get their hands on the newest installment in this eternally popular series.--Clare A. Dombrowski Copyright 2023 School Library Journal, LLC Used with permission.

Quantity	Unit Price
1	\$12.99

Reviews by: From the Publisher How do you handle an encounter with Medusa on the New Jersey interstate? What's the best way to take down a minotaur? Become an expert on everything in Percy's world with this must-have guide to the Percy Jackson and the Olympians series. Complete with interviews, puzzles, games, and original short stories by Rick Riordan.

Reviews by: Publishers Weekly Billed as a manual for newbies entering Camp Half-Blood, this miscellany of all things Percy Jackson may satisfy readers eagerly awaiting the final installment in the Percy Jackson and the Olympians series, due in May. Three previously unpublished stories in which the son of Poseidon narrowly escapes death while cracking jokes read like scenes cut from previous novels—which is a compliment. Spliced between stories two and three are brief, comic "interviews" with Grover, Clarissa and other campers. Bland illustrations depicting the contents of Annabeth's trunk, a map of Camp Half-Blood and a short "sneak peek" at *The Last Olympian* pad the contents (barely) to book length; the inclusion of a crossword puzzle and a word search makes the book difficult to share. Not a must-read-but try telling that to rabid fans. Ages 10-up. (Feb.) Copyright © Reed Business Information, a division of Reed Elsevier Inc. All rights reserved.

Reviews by: School Library Journal Gr 5-9 This slim volume is clearly intended as a stop-gap product to tide eager readers over until the final volume of the series is released. In addition to three previously unreleased short stories about Percy and his companions, it also includes such filler as interviews with the same, along with word games, portraits of some of the Gods and their half-blood offspring, and the inevitable sneak preview of Book 5. The short stories are the meat of this book, and are filled with Riordan's trademark anachronistic humor. The first one puts Percy and his enemy Clarisse, the daughter of Ares, on the same team as she tries to retrieve her father's chariot, which has been hijacked as a prank by her two

immortal brothers. The second story relates an incident that occurred during one of Camp Half-Blood's infamous Capture the Flag games, when Charlie Beckendorf, the camp counselor for Hephaestus, is captured by a horde of giant, poisonous ants, and has to be rescued with the help of a mechanical dragon. The final story brings Percy, Thalia, and Nico, the son of Hades, together at the request of Persephone to help retrieve Hades's stolen sword, the loss of which could be deadly to the Gods, and the resolution of which forms a lead-up to the probable events of Book 5. Despite the fact that this is more of a marketing package than anything else, the quality of and interest in the three stories likely justifies its purchase.—Tim Wadham, St. Louis County Library, MO

Peter Pan and Wendy (Trade)

#2309123 Tiger Lily and the Secret Treasure of Neverland (Hardcover (Trade))
written by Cherie Dimaline

Quantity 1
Unit Price \$16.99

Tiger Lily uncovers a plot by two of Captain Hook's pirates, who are searching for a mysterious, powerful treasure. Determined to protect Neverland, Tiger Lily sets out on a very grown-up mission: find the treasure first, and keep it out of the pirates' reckless hands. As her journey takes her from Mermaid Lagoon to the Lost Boys' secret fort and beyond, Tiger Lily will need to become the brave leader she has always wanted to be.
 978-1-368-08046-0 ©2023 5-1/2 x 8-1/4 288 pgs.
 Grades 4 - 7 Dewey# Fic

Reviews by: Kirkus Reviews Told from the perspective of Tiger Lily, this story reframes Disney's retelling of J.M. Barrie's classic. A foreword by Dimaline (Métis) sets the stage: At the book's heart lies 13-year-old Tiger Lily, whose tribe are the original people of Neverland; their fictional culture reflects "pieces of collective Indigenous philosophy and worldview"—without conflating those diverse cultures. Tiger Lily has a brave and adventurous spirit that has led her to develop true, loyal friendships with Peter Pan and the Lost Boys, who are English in origin, as well as with the fairy Sashi. But when a monstrous bear attacks, Tiger Lily realizes that she is not as brave as she thought. Ashamed that Peter took the lead in saving the day, she begins to contemplate growing up in order to better protect her people. Tiger Lily has conflicted feelings about growing up, however: Peter makes it sound terrible, but her grandma offers a more positive vision. An opportunity for bravery presents itself when she discovers two White men she realizes are pirates, a shock after years of peace on Neverland. These thick-skulled pirates seem to be searching for a treasure of unmeasurable value. Can Tiger Lily find it first, save her community, and keep her friends out of trouble? Respect for animals, plants, land, and family are all central themes of Tiger Lily's heritage. Her conflicted feelings about leaving childhood behind will resonate. A lighthearted tale with substance beautifully extending the world of Neverland. (Adventure. 8-11) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 3–5—Dimaline (The Marrow Thieves) provides vibrancy and substance to a chronically badly represented character in children's literature—Tiger Lily. Her latest novel spotlights the titular tween as she utilizes her sharp wit and acuity to outsmart the devilish pirates who have captured her best friend, Sashi, in their hunt for everlasting youth. While Tiger Lily rushes to save her fairy friend, she grapples with her own fears around growing up, which is something that only members of her community can choose to do in Neverland. Dimaline successfully gives Tiger Lily, her Indigenous community, and the Lost Boys robust identities outside of the perennially famous Peter Pan. The book, slated for release one month prior to the live-action Peter Pan & Wendy on Disney+, offers readers more time with the crossover characters. In a short introduction, Dimaline specifically states that Tiger Lily is native to Neverland and is not based on any one Indigenous community. Some facets of Tiger Lily's culture, including housing (e.g., teepees) and customs (e.g., collecting sweetgrass), are recognizable nods to myriad North American Indigenous peoples. Ultimately, this is an enjoyable adventure that should appeal to Disney fans and could be a good choice for a family read-aloud. VERDICT Recommended for larger collections and where longer Disney books fly off the shelves.—Taylor Worley

Phantom Stallion (Trade)

#2315324 (Vol. 01) Wild One (Hardcover (Trade))
written by Terri Farley

Quantity 1
Unit Price \$18.99

When thirteen-year-old Samantha returns home to her family's cattle ranch in Nevada, she's nervous. She moved away two years ago to recover from a bad fall off her beloved mustang, Blackie, and she's still not sure she can get back in the saddle. She's having trouble bonding with her new horse, Ace, the other ranchers treat her like the boss's spoiled daughter, and Blackie has been missing since the day of Sam's fateful accident.

Reviews by: School Library Journal Gr 4-7-Sam, 13, returns to Nevada after a two-year absence in San Francisco where she was recovering from a head injury caused when she was thrown from her horse. She wonders what happened to Blackie, who ran away after the accident. After several encounters with the wild mustangs, she realizes that the beautiful stallion that she has seen is her horse but she doesn't think anyone will believe her. Unfortunately, one of her neighbors is determined to capture the stallion, now called the Phantom, and Sam knows that she has to save Blackie from this ambitious and uncaring rancher. In the end, she rescues him but sets him free because she realizes that he would never be happy in captivity. Sam is a likable and believable character whose determination and sensitivity will be appreciated by horse lovers. There is a fair amount of suspense and adventure as she tracks Blackie and his mares. Sam's relationship with her father is well drawn, and there is an interesting mixture of characters. This story has enough action to make it an entertaining read for fans of this genre.-Carol Schene, Taunton Public Schools, MA (c) Copyright 2010. When Sam rescues an abused mare from a group of outlaw horse rustlers, she knows she's done the right thing. But the ranch already has a full corral, a long drought means the cattle are running out of grass, and her dad has told her she can't adopt another mustang. Even worse, the mare is skittish and unruly after being hurt by her former owners. Can Sam get the frightened horse to trust her and find a way to give her a home?

For as long as Toby can remember, he and his father have sailed on the Phoenix, salvaging from the junk-filled seas to stay afloat, while keeping under the radar of the authorities. His father is, after all, a wanted man. And now the Phoenix is on the trail of the ultimate prize, a salvage of solar panels that could mean they'll never need to hunt for fuel again.

978-1-5107-0734-4 ©2017 368 pgs.

Grades 6 - 8 Dewey# Fic AR Lvl 4.9 AR Pts 12.0

Reviews by: School Library Journal Gr 6 Up-In a dystopian world, natural resources are scarce, a supervolcano has blocked the sun for decades, and martial law rules. Toby serves as the chief engineer of his father's pirate ship, the Phoenix. Toby's father, Captain Barnaby Ford, is a brilliant inventor who has created the Phoenix as a way to escape the military, which wants to use his genius to develop weapons. Along with a crew of outlaws, Captain Ford and Toby search for salvage that can be used to keep the ship afloat, including solar panels that will provide power without the need for oil. When a dangerous storm brings about a confrontation with a rival ship, the Banshee, with its captain, Nell, and second-in-command, Ayla, Toby must use all of his skills to keep the Phoenix and her crew safe. Toby narrates this adventure on seas filled with junk, with ships made of salvaged materials. Fans of dystopian tales will appreciate Pearce's world-building and attention to detail in the mechanics of the new world. The opening fake newspaper clippings feel pulled from today's headlines, adding to the sense of realism and the possibility that the book's events could happen in the future. Questions about some of the characters' backstories and a mysterious island are left unanswered but may be addressed in future volumes. **VERDICT** An additional purchase where steampunk adventure titles are popular.-Ashley Leffel, Griffin Middle School, Frisco, TX Copyright 2017. #2152994 (Vol. 01) Pippa Park Raises Her Game (Hardcover (Trade))

written by Erin Yun

Life is full of great expectations for Korean American Pippa Park. It seems like everyone, from her family to the other kids at school, has a plan for how her life should look. So when Pippa gets a mysterious basketball scholarship to Lakeview Private, she jumps at the chance to reinvent herself by following the "Rules of Cool."

978-1-944020-26-2 ©2020 6 x 8-1/2 288 pgs.

Grades 4 - 7 Dewey# Fic AR Lvl 5.0 AR Pts 8.0 Lexile 710

Reviews by: Booklist Grades 4-7 Pippa loves basketball, but with her academic struggles, along with her family's relative poverty, she's surprised to receive a scholarship from Lakeview, an elite private school. Soon, she finds herself eating lunch with the Royals, Lakeview's most popular girls, and in an effort to belong, hides the truth about her unglamorous home life. It's not long before she gets tangled up in her own lies, flagging math grades, and drama with her new teammates, and to make matters worse, someone begins anonymously threatening to expose her. Yun's debut is a lively, contemporary retelling of Great Expectations?with a side of Mean Girls?following a Korean American seventh-grader as she navigates an unrequited crush, the pressures of family responsibilities, and differences in social class. Pippa is a magnetic heroine, funny and good-hearted, and young readers will relate as she makes one honest mistake after another in an effort to fit in. A nice balancing act between sports action, middle-school drama, and the struggles of an underprivileged immigrant family that will appeal to a wide audience.(Reprinted with permission of Booklist, copyright 2019, American Library Association.)

Reviews by: ForeWord Magazine In Erin Yun's enchanting Pippa Park Raises Her Game, a girl starts a new school and tries to reinvent her

image.

Reviews by: Publishers Weekly An empowering celebration of identity, friendship, and embracing one's roots, Yun's loose reimagining of *Great Expectations* follows a first-generation Korean-American girl learning to navigate her new life at an elite private school. When Pippa Park's older sister, her caretaker, forces her to quit her Massachusetts public school's basketball team to concentrate on her grades, her basketball dreams seem all but dead. Yet an unexpected lifeline appears when the elite Lakeview School suddenly offers her a basketball scholarship; with the condition that she maintain a 3.0 GPA. Spinning a web of half-truths about her background to fit in with wealthy new friends, Pippa loses sight of her grades, working-class family roots, and true friendships. #OwnVoices author Yun writes of Korean-American family life with heartwarming, authentic detail. The predictability of certain plot points, such as Pippa's mysterious acceptance into Lakeview and the eventual exposure of her lies, is balanced by her cheerful charm. Tall, athletic, and brash, she is an unforced subversion of female Asian-American stereotypes even as she confronts challenges unique to Asian-American teens. A subplot involving her aloof math tutor and his musical older brother adds another layer to the story, revealing Pippa's capacity for empathy and the value of family in her world. Ages 10: 12. (Feb.)

Reviews by: School Library Journal Pippa Park is a basketball star at her middle school in Victoria, MA, but she struggles with math and the demands of her older sister and guardian Mina. When she unexpectedly receives a scholarship to a prestigious private school, she is faced with new challenges: reinventing herself to fit in with her wealthy classmates, maintaining her grades to keep her scholarship, performing on the court to help secure a long-overdue win for the school, and working at Mina's laundromat. Complicating things is her crush on the headmaster's son and math tutor Elliot, whose strange behavior and mysterious household fascinate and unnerve her. Pippa also feels guilt for avoiding her best friend Buddy, fear over anonymous blog posts targeting her, and worry over her mother who has been in an auto accident in Korea. Ultimately, after some big mistakes, Pippa must find her own solutions and make things right. In this reimagining of Charles Dickens's *Great Expectations*, familiar themes and predictability are offset by the depiction of Korean culture and language, which add texture and depth to the narrative. Readers will sympathize with this likable heroine as she struggles to succeed. VERDICT An enjoyable read with a buoyant contemporary twist on an old classic. Recommended for young fans of modern retellings.--Marie Orlando, formerly at Suffolk Cooperative Library System, Bellport, NY Copyright 2019 School Library Journal, LLC Used with permission.

#2290684 (Vol. 02) **Crush at First Sight (Hardcover (Trade))**

written by *Erin Yun*

Pippa Park picks up right where she left off . . . trying to balance basketball, school, friends, working at the struggling family laundromat, and fitting in. So when Pippa is faced with hosting the annual Christmas Eve party that could make or break her social life, how can she say no? Will Pippa make enough money to cover the costs while juggling crushes and everything else? With courage and determination, Pippa sets out to host the party, find the perfect dress, pick the right boy, and stay true to her real self.

Reviews by: Booklist Grades 4-7 Pippa gets way in over her head when she agrees to host a Christmas Eve party at her small apartment for the most popular kids in school. Her Korean American family is a bit strapped for cash, and what's worse, her upstairs neighbor takes a tumble and ends up moving into their living room because she needs care. Add to that her neighbor's terrifying cat and getting caught between two crushes, and Pippa's middle-school experience just became her worst nightmare. This is a heartfelt story about a kid who wants to make everyone happy, including herself, and do things the ""right"" way but who struggles with asking for help. Young and older readers alike will find this relatable, because who--least of all a middle-schooler--wants to admit to their pals that they have to let them down? This lovely Christmastime read has broad appeal and fleshed-out characters who all share in the limelight. This is also a great story for folks who like to read about triumphant underdogs. COPYRIGHT(2023) Booklist, ALL RIGHTS RESERVED.

Reviews by: Kirkus Reviews Pippa is in over her head and head over heels in the second installment of the Pippa Park series. Pippa, a working-class Korean American 12-year-old, lives with her adult sister, Mina, and Mina's husband in Massachusetts; her mother returned to Korea due to visa issues. Pippa has settled into the private middle school she attends on a basketball scholarship. She is friendly with the Royals, the group of popular girls, most of whom are wealthy and White, but she isn't quite one of them--yet. When the venue for the Royals' Christmas party falls through, Pippa impulsively volunteers to host it. What the other girls don't know is just how tiny Pippa's apartment is and that her family can't afford glitzy decorations or catering--even Christmas presents are outside their budget. Obstacles abound, one of the Royals seems to have it in for her, her best friends are drifting away from her, and she develops feelings for two different boys, one White and one Korean American. It's too much, and Pippa makes one disastrous decision after another until it all comes to a head a few days before the party. Luckily Pippa learns some valuable lessons in friendship and teamwork just in time to make it a very merry Christmas after all. This is solid, classic middle-school drama fare that benefits from the interesting ways Pippa's family background is developed. An engaging variation on a familiar theme. (Fiction. 9-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 4-7--Pippa explores the highs and lows of friendships and first crushes in this well-crafted sequel to Pippa Park Raises her Game. As Christmas approaches, Pippa is busier than ever juggling basketball, homework, hanging out with her friends, and working at her sister's laundromat. When she accidentally agrees to host her new friends' annual Christmas party and her sister volunteers her to help out with the church pageant, Pippa's responsibilities increase. Throw in money troubles, a grumpy cat, and confusing feelings for both her math tutor Eliot and an old friend from church, and Pippa finds herself in over her head. VERDICT This warm-hearted, feel-good series continues to realistically explore one Korean American girl's middle school experience in a relatable way. Reviews by: Booklist Grades 3-5 *Starred Review* In their #OwnVoices debut, Mian and Mafaridik create a relatable and hilarious story for the elementary-school set. Omar is the middle child of a British Muslim family, and he's feeling anxious about his first day at a new school. Thankfully, he gets seated beside a nice kid named Charlie (instafriend!), but Daniel, the class bully, has his mean eyes on Omar. Outside of school, Omar's family is observing Ramadan, and Omar takes his first crack at fasting, mostly to score bonus points with Allah, which hopefully will get him a prize like a Ferrari! Exploding with personality and imagination, Omar is an easy character to love. His explanations of Muslim faith and culture, such as when and how to pray, his favorite foods to eat (even when they're smelly to cook), and how it's hilarious that non-Muslim people sometimes think his mom never takes off her head scarf, flow naturally through the story. What emerges is the picture of a somewhat harried family that is smart (Omar's parents are scientists) and kind. Doodle illustrations adorn every page, in perfect sync with the story's humorous and dramatic moments. Racist assumptions held by an elderly neighbor and Daniel are excellently handled and evaporate once these characters actually get to know Omar and his family, reinforcing the idea that difference can be a lovely thing.(Reprinted with permission of

Reviews by: Bulletin of the Center for Children's Books Omar's nervous about going to a new school after his family moves, but despite some pressing concerns-Will he make new friends? What if his teacher is an alien?-he's off to a great start. The only problem: he isn't sure what to make of the class bully's claim that Omar's Muslim family will soon be kicked out of the country. In this slice-of-life British import, Omar recounts the daily struggles of his family of five, from waking up early for morning prayers and breakfast, to chaotic packing for car trips, to dealing the prejudiced neighbor next door. Mian integrates details about Islamic worship and Pakistani culture without becoming didactic, as Omar's voice and understanding of the world are authentically young. Not to be shown up by his older sister, for example, he's determined to fast during Ramadan, and he and his new friend Charlie excitedly speculate that Allah's secret reward for fasting might be a Ferrari. Mafaridik's cartoony artwork and illustrative lettering visualize Omar's imagination, but they don't quite match the writing's charm or humor. The book also holds back at its conclusion, adding an implausibly neat wrapup that writes off the prejudice as a product of misinformation after both the neighbor and the bully receive help from Omar and his family. Still, elementary school readers will find both a funny, relatable new companion and a primer on Muslim family life with the start of this series. AMM

Reviews by: Kirkus Reviews Omar, a British Pakistani boy, and his family have just moved to a new home in London, where he will be starting at a new school. Omar worries about a lot of things, especially "walking into a brand-new classroom with everyone watching and a teacher who might or might not be an alien zombie." He has a little brother and an older sister, and his mom and dad are both scientists. (Published in the U.K. in 2019, the text has been Americanized for the U.S. edition.) Omar has a huge imagination that helps him get through difficult situations, envisioning, for instance, "a better way to get to school...on a SUPER-Awesome, Magnificent DRAGON." Mafaridik creatively embellishes the text with sketches and a variety of display types. At his new school, Omar makes friends with Charlie but also meets Daniel, a bully. (Both boys present white.) Omar does not tell his mom because he does not want her to worry, instead using humor and creativity to escape Daniel's cruelty. Mian seamlessly weaves Islamic values and teachings through Omar's chatty narration. At prayer in the mosque, "we went into Rukhu. That's when your hands are on your knees....Then we went into Sujood." These descriptions and definitions are consistent and brief throughout, moving with the flow of the story. While the story's tone is light, anti-Muslim sentiment is acknowledged and integrated into the narrative. Readers will be excited to see where Omar's imagination will take him next. (Fiction. 8-12) COPYRIGHT(2020) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Originally released in the U.K. as *The Muslims*, Mian's middle grade debut features some stock elements: after his family moves, Omar fears he won't make friends at his new school and that his teacher will be a space alien, is vexed that he's targeted by bully Daniel, and gets frustrated that his teenage sister has become a "snitch." In Omar's daily life and close-knit Muslim family, religion plays a focal role. His narrative incidentally relays; with readers and with his new friend, Charlie; the prayers his family says daily; fasting, feasting, and other rituals of Ramadan; and his scientist mother's commitment to wearing hijab. Mian also credibly integrates Omar's hurtful experiences with prejudice, as when Daniel tells the boy that "the worst thing about you" is "You're Muslim.... You better go back to your country before we kick you all out" (Daniel adjusts his attitude and Omar learns the genesis of Daniel's bitterness). Yet the dominant tone of wildly imaginative Omar's free-association narrative, laced with expressive hand lettering and Mafaridik's playfully exaggerated line art, remains chipper and uplifting. Ages 8: 12. (Feb.)

Reviews by: School Library Journal Gr 3-6—When Omar's family moves to a new house, that means the 10-year-old must start the year at a new school. Omar is nervous because he thinks he will stand out as the new kid and because he is Muslim. Luckily for Omar, he has a great teacher and makes a new friend, Charlie, right away. But Omar and Charlie become the target of a bully, Daniel, who seems to dislike Omar for no other reason than he is Muslim. Daniel even goes as far as saying that all Muslims will be kicked out of the country. When Omar and Daniel are thrown together into a scary situation, the boys learn more about each other and realize that maybe they don't have to be enemies. Told from Omar's point of view, the playful text is bolstered with illustrations throughout that show off his creativity and imagination. VERDICT A great #OwnVoices story for children to learn more about connection and empathy.—Jayna Ramsey, Douglas County Libraries in Parker, CO

Reviews by: Kirkus Reviews Can 10-year-old Poppy convince her parents she wants to be a baker and not a witch in yet another fantasy that blends magic and baking? Poppy Pendle has inherited her magic from her Great-Granny Mabel, but her passion is baking. Her Dursley-like parents send her to the Ruthersfield Academy for young ladies with magic. She excels there, but she hates flying on her broomstick, using her wand and the teasing of the other girls. She runs away to the only place where she is happy, Patisserie Marie Claire, where she can create her own cookies and cakes. When this solution does not pan out, Poppy turns to the dark side of being a witch, hiding in a forsaken cottage and turning animals, her parents, police, birds and squirrels to stone. Her friend Charlie (a girl) and Marie Claire try various "sweet-tempting" plans to bring her back and finally succeed. Poppy and Marie Claire rehab the cottage and open a bakery. Numerous unexplained gaps in the fantasy logic crinkle the storyline, beginning with the "magic" of Poppy's being born in the Patisserie (thus her passion) and ending with her turned-to-stone parents taking two years to thaw. The belabored parental conflict, sugarcoated emotions and convenient plot details are cloying. The 12 recipes at the end are the best part; the rest is just half-baked. (Fantasy. 8-11)

Reviews by: Publishers Weekly Lowe's energetic first novel is led by 10-year-old Poppy, who was born in the Patisserie Marie Claire bakery in the town of Potts Bottom. While Poppy has inherited the gift of magic from her highly respected Great-Granny Mabel, she wants nothing to do with it. Baking makes Poppy happy, and after three years at Ruthersfield, a magic school her parents force her to attend, she is fed up. Poppy runs away to the Patisserie, where sympathetic Marie Claire takes her in, but when Poppy's parents drag her home, she snaps and turns them to stone with the "Stop It Now Spell." It's up to Marie Claire and Poppy's friend Charlie to bring Poppy back from the "dark side." Lowe makes the story's arc (and message) clear early on: the Ruthersfield motto translates to "Follow your passion," and Poppy's interest in another witch who crossed to the dark side presages her own transformation. Readers will easily empathize with Poppy and recognize the loneliness and anger that accompany being misunderstood. Several recipes for Poppy's desserts are included. Ages 8–12. Agent: Ann Tobias, A Literary Agency for Children's Books. (Sept.)

Reviews by: School Library Journal Gr 4-6-To her parents' great mortification, Poppy is unexpectedly born in a French bakery; she couldn't

possibly have had a less auspicious birth. As she grows, though, it becomes obvious that she has the rare gift of magic, and her parents couldn't be more pleased. They purchase a state-of-the-art wand and broom and enter her in the Ruthersfield Academy for Witches. While Poppy is an excellent witch, all she really wants to do is bake. When she announces to her parents that she hates magic and just wants to make treats, her parents go to the extreme to stop her, pushing her into the blackest of magic. In this sweet story about true friendship, Poppy is a likable main character. While the accompanying cast is a little flat and an evil-witch story line seems to be dropped altogether, children will like dark-side Poppy and the satisfying ending. Several recipes are included. Recommended this one to fans of Jill Murphy's *The Worst Witch* (Viking, 1989).-Terry Ann Lawler, Phoenix Public Library, AZ (c) Copyright 2012. Reviews by: School Library Journal y great-great-grandmother of Cat (The Courage of Cat Campbell), stars in her own book about resourcefulness and feminism. It's 1881, and Nora Ratcliff, a widow, finds baby Mabel in a flowerpot by her door. Nora falls in love with Mabel, only later discovering that Mabel is a witch. Nora enrolls Mabel in Ruthersfield Academy, a magical school where her innovative spells challenge her teachers' unshakable adherence to rules and traditions. Mabel argues that girls should ride broomsticks astride for safety and brainstorms magical solutions to everyday problems like her housemaid's brittle hair. When the Society of Forward Thinking Witches sponsors a competition for a useful household spell, Mabel's clever idea and the machinations of her archenemy Winnifred make for a disastrous magical muddle that Mabel must unravel. Lowe taps into relevant themes for today's youth with her characterization of Mabel as an inventor and an agent of social change. Through Mabel's trials and errors, Lowe subtly impresses upon readers the ideas that trying and failing can lead to genius and that one should never abandon one's convictions because of others' opinions. Through the lens of the suffrage movement, Lowe also examines the so-called proper roles of women. The subplot involving the restrictive Nanny Grimshaw seems extraneous to the story, further delineating Mabel as a figure of pity and oppression. The historical setting may narrow the audience slightly, but Mabel's high jinks will appeal to readers of Roald Dahl's *Matilda* and Diana Wynne Jones's *Howl's Moving Castle*. VERDICT Mabel will inspire readers with her confident creativity; a solid secondary purchase, especially where Lowe's previous title is popular.-Caitlin Augusta, Stratford Library Association, CT Copyright 2016. Grades 6 - 8 Dewey# Fic AR Lvl 5.0 AR Pts 9.0 RC Lvl 4.3 Lexile 690

Reviews by: School Library Journal Gr 5-7-Gordy Stitser is an accomplished potion maker despite his young age. His mother is an incredibly gifted Elixirist and keeps a lab in their home, which no one is supposed to talk about (especially not the mummy in the zip top bag). Shortly after a trip to the headquarters of B.R.E.W., the Board of Ruling Elixirists Worldwide, where Gordy learns a life-changing secret, and a strange phone call to his mother, a mysterious package arrives addressed to Gordy's mom from Aunt Priss. Despite his best judgment and at the urging of his friends Max and Adeline, Gordy opens the package and examines the contents. Shortly after, the world's most powerful potion, the Eternity Elixir, vanishes, and Gordy, Max, and Adeline must work together to keep the potion from falling into the possession of those who might use it to destroy B.R.E.W.-and the world along with it. This first installment in a new trilogy has all the hallmarks of a grand adventure: an unknown treasure, an all-powerful enemy, and a host of secrets revealed. Adeline and Wanda both present strong supporting cast members, and Gordy's adventure is a memorable one. VERDICT Fans of the archetypal hero's journey will keep turning pages. A solid addition to large collections where fantasy circulates well.-Wayne R. Cherry Jr., St. Pius X High School, Houston Copyright 2017. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

Reviews by: School Library Journal Gr 5-8-Nine months have gone by since Gordy, Max, and Adilene stopped B.R.E.W.'s (Board of Ruling Elixirists Worldwide) destructions at the hands of Esmerelda. Gordy is continuing his education with B.R.E.W. and at school he meets Sasha who is also a dram (an elixirist-in-training). Sasha's mother is the new head of B.R.E.W. and has been making some very strange decisions. To make matters worse, Mezzarix, Gordy's grandfather and one of the most powerful elixirists of all time, has escaped from his exile in Greenland. The mysterious Ms. Bimini asks Mezzarix to brew a special elixir called Silt, which he agrees to do on the condition that she use the power of Silt to destroy B.R.E.W. once and for all. Though Gordy may have the skills to match his grandfather's, but his blackouts may well give Mezzarix the edge that he needs to emerge victorious. This is a wonderful story with an ending that will likely lead readers to beg for more. VERDICT This latest addition to the series picks up where the previous book left off and is filled to the brim with adventure and excitement.-Wayne R. Cherry Jr., St. Pius X High School, Houston Copyright 2019. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

Powers (Amulet / Trade)

#2256430 (Vol. 01) Haven's Secret (Hardcover (Trade))

written by Melissa Benoist

Ellie McFadden has intuitive gifts. She can sense what other living things are feeling. She can even talk to animals! Too bad she can't connect with her twin sister, Parker. Parker McFadden has kinetic gifts. She can cause shocks to the earth and produce heat energy that explodes from her body like fire, especially when she is angry.

Quantity
1 **Unit Price**
\$18.99

Reviews by: Booklist In this series opener, Californian twin sisters Ellie and Parker discover that they have inherited magical powers along with a mission, if they choose to accept it, to save the planet from ecological disaster. Abruptly taken to Haven, a rambling mansion constructed entirely of recycled bric-a-brac, by a pair of older relatives, the two slowly come to understand that their mother, who mysteriously disappeared five years ago, left them with special, potentially dangerous abilities. Calm Ellie soon finds herself feeling the pain of injured animals, while the more mercurial Parker inadvertently touches off earthquakes and blasts of lightning when she gets upset. Worse yet, there is a corrupting, ill-defined menace in the surrounding woods (dubbed "The Danger" in some passages, "The Darkness" in others) that is fueling Parker's rage and despair. Though the tale is largely a patchwork of contrivances and cliches, the protagonists' relationship is richly nuanced, and unresolved questions leave the door open to sequels. The lead author, Glee and Supergirl star Benoist, may have enough name recognition to swell readership.

Reviews by: Publishers Weekly Just after their 12th birthday, nonidentical twin sisters Parker and Ellie McFadden are abruptly sent to live with their maternal great-aunt Mabel and great-uncle George, whom they've never known, while their father travels overseas for work. Their new home is Haven, an animal sanctuary in Northern California constructed from salvaged goods and riddled with secrets. While struggling to adjust, the twins manifest strange powers; nature-loving, empathic Ellie discovers she can communicate with animals, while athletic realist Parker can generate lightning. The mystery deepens as they learn about their cued-white family's long-standing role in protecting the environment and battling the Danger, an elemental force created by human greed and planet abuse, which led to their mother's death five years ago. However, the longer they stay at Haven, the more the duo suspects something is wrong. The combination of ambitious worldbuilding, multiple plot threads, and leisurely pacing leads to a somewhat uneven reading experience; still, the Benoist sisters and Tamaki (I Am Not Starfire) establish an engaging fantasy series starter with a strong ecological message, a setting full of character, and tantalizing hints of a bigger, worldwide scale. Ages 8: 12. (Oct.)

#2314044 (Vol. 02) Haven's Legacy (Hardcover (Trade))

written by Melissa Benoist

Mountain Harbor is not what it seems. Though Sadie promised the girls protection, the Danger--a smoky, tentacled being born of greed and chaos--has broken free of the forests surrounding Haven to follow Parker and Ellie to Mountain Harbor. The twins must rely on their new friends and teachers to help them defeat the fearsome threat and uncover the truth behind Sadie's mysterious assignment. But most of all, they will have to rely on each other.

Reviews by: School Library Journal Gr 4-6-Fans of the author's "Mother-Daughter Book Club" books (S. & S.) will rejoice for a new series with a similarly cozy New England setting, great characters, and literary references to beloved classics. Shortly after winter break, Truly Lovejoy finds

herself at yet another school, in another state. The middle child of five, things haven't been the same in her family since "Black Monday" when her usually good-humored father was injured during his last tour in Afghanistan, losing an arm. Having to adjust to what this means for her father's career, the family finds themselves in his hometown-Pumpkin Falls, New Hampshire-so that he and Truly's aunt can take over the family bookstore. The mystery begins when Truly finds a note tucked inside a signed, first edition copy of Charlotte's Web, which sends the protagonist and her new friends on a treasure hunt through town. Though this story really pushes the "middle school private eye" trope, the mystery is not the driving force; other plot lines carry the story. Readers will relish meeting the town's diverse community of characters, exploring Truly's now tenuous relationship with her father who is struggling with PTSD, and the plight to save the bookstore from imminent ruin. The book is laden with bookish references, such as Jane Yolen's Owl Moon, that will delight young bibliophiles as they curl up and enjoy the quaint town of Pumpkin Falls.- Danielle Jones, Multnomah County Library, OR (c) Copyright 2014. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

#1991426 (Vol. 02) Yours Truly (Hardcover (Trade))
written by Heather Vogel Frederick

Even Truly Lovejoy has to admit that teeny-tiny Pumpkin Falls, New Hampshire, has its charms--like the annual maple festival, where tourists flock from all over to sample the local maple syrup, maple candy, maple coffee, and even maple soap! But when someone tries to sabotage the maple trees on her friend Franklin's family farm, Truly has to rally the Pumpkin Falls Private Eyes to investigate.

Reviews by: Booklist Truly Lovejoy and her pals are back on the case in the second offering in the Pumpkin Falls Mystery series. The 13-year-old Texas transplant is still adjusting to life in picturesque Pumpkin Falls, New Hampshire, when her cousin Mackenzie comes to visit during school vacation and the town's Maple Madness. As local families begin feuding over a case of broken maple line taps, Truly and her friends are out to find the culprit. Meanwhile, Truly and Mackenzie happen upon an old family diary hidden beneath the floorboards; could the Lovejoys have played a role in the Underground Railroad? Frederick will easily maintain the reader's interest with the novel's two main mysteries. Complemented by the congenial setting, the cast of delightful townsfolk, young and old, could almost pass for the denizens of Stars Hollow. Truly's jealousy over her cousin's more carefree connections with the boys in town will strike a chord with emerging adolescent readers only now feeling out crushes. Fans of cozy mysteries, get your blankets and hot cocoa ready!--Barnes, Jennifer Copyright 2017 Booklist

#2329674 (Vol. 04) Truly, Madly, Sheeplly (Hardcover (Trade))
written by Heather Vogel Frederick

It's autumn in New England and Truly and her fellow Pumpkin Falls Private Eyes are gearing up for the annual Halloween Festival. Aunt True and her new husband, Rusty, have bought Ethel and Elmer Farnsworth's dilapidated old farm on the edge of town, where they're going to raise sheep and where Truly and her grandparents have volunteered to farm- and sheep-sit while the newlyweds are on their honeymoon.

Reviews by: School Library Journal Gr 4-7-A mix of "Indiana Jones," National Treasure, and The Da Vinci Code. Sam Force lands in Cairo for his annual summer visit with his Uncle Jason, ready for the usual three months of ancient Egypt tutorial. This year is different, however, because Jason is not there to meet him. Instead, a young taxi driver named Hadi saves Sam from some unsavory police officers, and Sam is off on a search for his lost uncle. In this story that's complete with clues, codes, and puzzles, Sam navigates labyrinthine souks, flies across desert sand dunes on ATVs, outruns hordes of ravenous rats in the sewers of Cairo, and survives being buried inside a World War II ship left stranded in the sand when the Nile shifted course during a storm. Hadi and Mary, a girl Sam met on the plane, are sometimes friends and sometimes foes, making it difficult for Sam to know whom to trust. The pace of the story makes it hard to find a place to bookmark it for the night, but it also means that puzzles are solved a bit too quickly. It never takes Sam more than a page or three to find a clue and solve it, leading him on to the next. Accidents are fortuitous and frequent, leaving readers little opportunity to see Sam solve problems or to get to know him in any depth. VERDICT This will appeal to readers who enjoy plot-driven mysteries.-Katherine Koenig, The Ellis School, Pittsburgh Copyright 2016. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

#2008181 (Vol. 02) Bones of the Sun God (Hardcover (Trade))

written by Peter Vegas

Sam heads to Belize to continue his investigation into his parents' mysterious disappearance and to learn more about secret of the pyramids. But after being kidnapped by crocodile cultists, will he ever be able to find the answers he's looking for?

Quantity	Unit Price
1	\$17.99

Reviews by: School Library Journal Gr 4-6-Sam Force barely escaped from Egypt after a failed search for his missing archaeologist parents in the first installment of the series. After a few months of boring safety at a Boston boarding school, he is ready to continue the search among the Mayan pyramids of Central America. With a little manipulation (and a lot of deception) from his partner in adventure, Mary Verulam, Sam makes it to Belize. Nonstop action ensues as Sam and Mary follow clues from Mayan mythology and the Knights Templar, hoping the secrets of the ancients will lead to his parents. Bad guys abound (a few good ones show up, too), as do crocodiles, bombs, diabolical technological devices, chases of all kinds, and enough blood to satisfy even the thirstiest of youthful adventurers. This works admirably as a sequel, though it could be read alone in a pinch. As with the first volume, flamboyant action trumps character development, but the plot does thicken nicely here as Sam uncovers the surprising purpose of the pyramid network, and faces potential betrayal from his best friend. The writing is crisp and descriptive, with the added bonus of engaging readers in first Egyptian and then Mayan mythology, as well as the legends of the Ark of the Covenant and the Knights Templar. VERDICT Series fans, especially in the middle grades, will welcome this installment and look forward to what follows.-Katherine Koenig, Carnegie Library of Pittsburgh Copyright 2017. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

#2291407 (Vol. 01) Quest Kids and the Dragon Pants of Gold (Hardcover (Trade))

1

\$14.99

written by Mark Leiknes

The Quest Kids are ready for their first real quest. This time, they won't oversleep, they won't be put off by a little rain, and they won't accidentally burn down the village that hired them. All they have to do is find the Golden-Fleeced Rage Beast, shave it, and make a really nice golden tracksuit to appease a furious dragon. Simple, right?

978-1-4549-4625-0 ©2022 5-1/2 x 8 336 pgs.

Grades 3 - 6 Dewey# Fic Lexile 720

Reviews by: Booklist In a long-lost "memoir" recovered by authorial alter-ego J. B. LncastoothT and presented here in a hybrid mix of block letters and squiggly line drawings, an ill-conceived effort to "pants" a fire-breathing dragon in the wake of a series of likewise failed quests pitches glib, young ex-peasant Ned and his game, if overly trusting, buddies—a laid-back rock troll, an apprentice wizard, and a 700-year-old preteen elf—into a series of narrow squeaks. In a desperate effort to keep himself, as well as a local village, from being toasted, the would-be hero offers to make the vengeful dragon a golden track jacket to match its glittering sweatpants. Unfortunately, that requires fibbing to his friends to persuade them to help and then questing for, and shearing the golden fleece from, a huge and really scary Rage Beast. To Ned's credit, he does wrestle with his conscience as they careen through hazards. Chalk up one successful quest for the Quest Kids and, LncastoothT promises, look for more to come.

Reviews by: Kirkus Reviews A gaggle of youngsters set off on their first quest. The Quest Kids crew are a varied lot: There's Gil, a wizard-in-training; Terra, a 700-year-old elf child; and Boulder, a friendly rock troll who is better at preparing meals than vanquishing enemies. There's also Ash, a pig/dog/lizard sort of thing that brings a lot of flatulence to the table. And finally, there's Ned, the boldly (and somewhat overly) optimistic leader with his own personal quest to find his missing parents. The adventurers are tasked with discovering the golden-fleeced rage beast. Once the beast is quelled or slain, they must shave it and create a golden tracksuit jacket as an offering to a disgruntled dragon. The party bounces from scene to scene, flashing gags at a breakneck pace, with characters spouting funny one-liners. Young readers dipping their toes into fantasy realms will find plenty to enjoy here. The characterization is sharp, the jokes land, and the inner workings of the magical kingdom make just enough sense that things don't completely fall apart. The novel is presented in a familiar half-prose, half-comics style. The illustrations bounce along as quickly as the text, making this a bubbly read, one that quickly grabs attention and doesn't require much hand-holding. Ned reads White; Gil and Terra have slightly darker skin. A rip-roaring good time. (Fantasy. 8-12) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

#1996432 Vampires on the Run (Hardcover (Trade))

written by C. M. Surrisi

In the months after Quinnie Boyd cracked the mystery of her missing teacher, she expected life in her small Maine town to snap back to normal. But two writers from New York City have arrived in Maiden Rock, and there's something not quite right about them. Sure, Ceil and Edgar are pale. And they dress in all black. And they don't go near the sunlight. But could they really be vampires? To find out, Quinnie turns to Dominic--a new kid in town who's an expert on everything geeky. Together, they'll

risk their necks to find an answer . . .
978-1-5124-1150-8 ©2017 5-1/4 x 7-1/2 296 pgs.
Grades 5 - 8 Dewey# Fic AR Lvl 4.4 AR Pts 8.0 GR Lvl V Lexile 690

Reviews by: Booklist The prospect of a dull off-season in the “boy-bleak” Maine resort town of Maiden Rock brightens considerably for amateur sleuth Quinnie Boyd with the simultaneous arrival of Dominic, teenage son of visiting marine biologists, and the Watermans—eerily pale family friends of her buddy Mariella (“They’re a little strange.” “They’re just from Brooklyn”), who write best-selling vampire fiction. Glimpses of a shadowy doglike shape and a sudden spate of dead pets later, Quinnie is more than half convinced that the Watermans are themselves undead. As in Quinnie’s previous caper, *The Maypop Kidnapping* (2016), Surrisi concocts a juicy small-town mystery out of tantalizing incidents and clues, red herrings, wild imaginings, thrillingly risky management (and mismanagement) of parental expectations, and plot twists that here range from literary legerdemain to a real bank robbery. Quinnie’s present-tense account flies along to a scary (but tragedy-free) climax that delivers just deserts to all, while leaving her, inexplicably, not grounded for life. A comfy romp. — John Peters

Reviews by: School Library Journal Gr 4-8—Eighth grader Quinnie Boyd looks forward to the last few days of school before summer vacation arrives in Maiden Rock, ME. Summer also brings her friend Ella’s houseguests—horror writers Edgar and Ceil Waterman. Quinnie wonders if they really talk to vampires and why they walk the beach after dark. She starts surveilling them with the help of her new friend Dominic. Quinnie hopes to present evidence of vampire activity to her mother, a real estate agent cum sheriff cum mayor, even though she promised she wouldn’t investigate anymore after her adventures in Surrisi’s first “Quinnie Boyd” mystery. During their work, Quinnie and friends notice a predatory coyote and a couple of tourists who seem far too friendly. Quinnie may not have all the answers, but a dramatic boating escape in rough waters brings the story to a satisfying resolution. This second outing doesn’t suffer from the awkward stumbles that plague many follow-up novels. Surrisi creates characters with memorable personalities that come together in the detailed Maine setting. Unlike some fictional detectives, Quinnie doesn’t solve the mystery so much as discover interesting clues, but that seems realistic given her age. Readers will enjoy the reveals as much as Quinnie does, though there are consequences for all of her midnight high jinks. The vampire plot adds to the book’s appeal. **VERDICT** A lively Maine mystery with spooky elements that kids will relish. The characters are a little older than the intended audience, but the story is suitable for a wide age range.—Caitlin Augusta, Stratford Library Association, CT.

1	\$16.95

Reviews by: Publishers Weekly A time-traveling golden retriever named Ranger stars in this magic-tinged first book in the *Ranger in Time* series. Trained as a search-and-rescue dog, Ranger is magically transported away from his young owner, Luke, to the year 1850 after finding a first-aid kit buried in the garden. It turns out that Ranger is just what a boy named Sam Abbott, his family, and the other families they are traveling with need to survive the treacherous 2,000-mile journey from Independence, Mo., to the Oregon Territory. Ranger finds Sam's lost three-year-old sister, Amelia,

and alerts Sam to dangers ranging from rattlesnakes to stampedes. Perhaps most importantly, Ranger provides comfort to Sam, who couldn't bring his own dog on the journey. McMorris's richly rendered illustrations heighten the plot's many moments of danger and drama, and Messner (Manhunt) incorporates a wealth of historical details into her rousing adventure story. An author's note offers additional context and detail about the challenges pioneers faced and the real-life research that went into this story. Ages 7--10. Author's agent: Jennifer Laughran, Andrea Brown Literary Agency. Illustrator's agent: Justin Rucker, Shannon Associates. (Jan.)

Reviews by: School Library Journal Gr 3-5-Ranger is a golden retriever who trained as a search-and-rescue dog. Unfortunately, he never passes the final test due to those pesky squirrels he can't help chasing. One afternoon, while playing outside with his owner, Luke, he comes across a buried first-aid kit that transports him back to the year 1850. Finding himself in Independence, Missouri, Ranger meets the Abbott family, who is making the treacherous journey on the Oregon Trail. Confused by the strange sights and smells, the dog decides that this must be some sort of new tracking test. Convinced that if he passes he will be reunited with his beloved Luke, Ranger takes on the challenge with gusto. He quickly becomes an invaluable family member by babysitting the Abbotts's ever-wandering toddler, making fast friends with young Sam, and warning them of dangers along the trail. This excellent story contains historical details, full-age illustrations, and enough action to keep even reluctant readers engaged. A wonderful author's note at the end is full of quotes from authentic journals, factual information on search-and-rescue dogs, and suggestions for further reading. This is a stellar choice for readers just starting full-length chapter books and would be a hit with young history buffs and dog lovers as well.-Amy Nolan, St. Joseph Public Library, St. Joseph, MI (c) Copyright 2014. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

#1960695 (Vol. 03) Long Road to Freedom (Prebound)

written by Kate Messner

In this adventure, Ranger goes to a Maryland plantation during the days of American slavery, where he meets a young girl named Sarah. When she learns that the owner has plans to sell her little brother, Jesse, to a plantation in the Deep South, it means they could be separated forever.

Reviews by: Booklist Fresh from expediting a Rescue on the Oregon Trail (2015), Ranger a golden retriever and trained rescue dog again plunges into the past for a dog's-eye view of another era. Carried back by a magical first-aid kit, he lands in Rome's Colosseum, where he hooks up with young slave Marcus Cassius and Quintus Flavius, a new gladiator who is having second thoughts about his chosen profession. As it turns out, there's plenty of work for a rescue dog. Not only is Marcus attacked by a captive lion but Quintus goes temporarily AWOL from gladiator school and has to be tracked down. Along with posing handsomely in the scattered illustrations, Ranger (not anthropomorphized, though an occasional POV character) helps both of his new friends earn their freedom before returning home. Limiting violence to a few slashes and oblique references to wild animal fights and executions, Messner tucks light doses of information about ancient Roman society and gladiatorial combat into both the plot and also a closing note kitted out with photographs and a bibliography. History, happy endings, and a heroic, time-traveling dog. What's not to like?--Peters, John Copyright 2015 Booklist

#2006972 (Vol. 06) Escape from the Great Earthquake (Prebound)

Reviews by: Children's Literature Newsletter for Adults The six page prologue reintroduces the main characters-Halt, the senior ranger, and Will, the apprentice ranger-as they continue their search for the Wargals that fight for Morgarath. This long-awaited sequel to The Ruins of Gorlan will not disappoint the reader. Halt and Will engage in battle with the small-brained Wargals who are more beast than man and are completely controlled by Morgarath. As a secret plot is revealed to them, they strike out to deliver news of the threat to the king. In the process, Will and Halt receive orders to pursue separate journeys and Will's new company is an old enemy now considered a friend-the young warrior Horace. The senior member of this new party is Gilan, a young Ranger with an enormous talent for strategy and battle. In the ensuing adventure, Gilan and his charges will rescue a young damsel in distress, continue to train for battle, and discover some alarming changes in the original battle plan that was delivered to the king. Gilan's decision to leave the three young charges on their own and continue quickly to the king, brings disastrous results. Young Will determines to remain loyal to the king and to his mentor Halt, the Ranger. Will and Horace will develop a deep and abiding friendship and both Will and Horace will be called on to demonstrate their courage. The story ends leaving the reader begging for the next book. This is an enticing new series that will capture the imagination of both boys and girls in the middle school range who are looking for fantasy selections. From the "Ranger's Apprentice" series.

Reviews by: Kirkus Reviews More absorbing, straight-arrow adventures set in the medieval, alternate world kingdom of Araluen and featuring the three apprentices introduced in The Ruins of Gorlan (2005). As the brutish wargals of Morgorath, Lord of Rain and Night, gather for an invasion, deft young Will and his strapping friend Horace discover that Morgorath has planned a complex feint that, unless scotched, will spell doom for the armies of Araluen. The third apprentice, diplomat-in-training Alyss, is relegated to a subplot in this outing, but is sure to play larger roles in future episodes. Flanagan explains more than he needs to but propels the plot forward at a heady clip, stirring in live-wire characters who are still learning the finer points of their assigned professions but prove equal to each challenge they face. He also adds to the company a young fugitive who is far more than the lady's maid she claims to be, and closes with the requisite battle, a breathtaking single combat-and a dismaying lead-in to the next episode. It all adds up to a winning formula that should prove out to a long, steady run for this above average series. (Fantasy. 11-13)

Reviews by: School Library Journal Gr 5-9-In the second volume in this series, apprentice Ranger Will becomes involved once again in the war against the evil Morgarath. When he joins what should be a simple envoy mission, he and his companions realize that they are the only ones who know the extent of Morgarath's duplicity, and it's up to them to save the kingdom. Will and his friend Horace, along with noblewoman-in-disguise Evanlyn, make a dangerous journey and discover that Wargals, Morgarath's mindless warriors, are infiltrating their kingdom, and their brave actions at the "burning bridge" of the title lead to Will's and Evanlyn's capture and much room for sequels. Will's initial doubts and learning process add reality to his character, but his exploits never achieve true immediacy. Background characters are generally flat, though touches of humor add spice to the narrative. Flanagan creates a well-realized picture of life on the trail and its hardships, but his battles and their resolution seem almost too easy. Fans of the first volume will enjoy this adventure, but readers new to the series may not share their excitement.-Beth L. Meister, Pleasant View Elementary School, Franklin, WI Copyright 2006 Reed Business Information.

Reviews by: Voice of Youth Advocates (VOYA) Much like its predecessor's jumpstart prologue, this sequel leaps into action as if there is no time to waste, picking right up where Ruins of Gorlan (Philomel, 2002/VOYA December 2005) left off. Halt and Will are tracking Wargals, war is pending, and Morgarath is gathering followers. Fans will recall that Wargals are bad, Morgarath is worse, and Halt and Will are sort of reconnaissance/messenger/foresters in a medieval-styled fantasy world on the brink of civil war. Will, having earned a silver oak leaf, is now entrusted with traveling as emissary to Celtica and gets mixed up in the middle of solving the mystery of why miners have gone missing. Is it part of Morgarath's evil plan? New characters are introduced, each as delightfully complex as the last. Will, Horace, and Alyss mature, and Evanlyn, a rescued refugee is an interesting addition. Halt remains gruff and unintentionally humorous. Honing new skills such as knife combat and near misses with arrows make for exciting scenes. Details are carefully placed, and clues to the denouement are mentioned early. Politics and geography play noticeably larger roles in this book, resulting in a deeper and richer story: Military success hinges on the control of a specific narrow mountain pass. The book's title and fiery cover give away the climatic ending, and occasionally the plot's direction is too obvious, but a surprise twist will keep readers on pins and needles waiting for the next book. Purchase this one where book one was popular. VOYA CODES: 4Q 3P M J (Better than most, marred only by occasional lapses; Will appeal with pushing; Middle School, defined as grades 6 to 8; Junior High, defined as grades 7 to 9). 2006, Philomel, 259p.,Ages 11 to 15.

#496415 (Vol. 03) Icebound Land (Hardcover (Trade))

written by John Flanagan

Chasing the Skandian slave-traders who kidnapped Will and Evanlyn, Ranger Halt and warrior student Horace battle a ruthless knight as they try to rescue their friends.

978-0-399-24456-8 ©2007 5-1/8 x 7-7/8 260 pgs.

1	\$18.99

Reviews by: Kirkus Reviews s afflicts the third episode in this increasingly popular fantasy series, as Flanagan alternates short chapters to weave a double-stranded tale that advances the main story only an inch or two while filling out the page count with incidental adventures and repetitive explanations. In the odd-numbered chapters, Will and Evanlyn, enslaved by Skandian (Viking) captors in the previous volume, manage to escape into the snowy northern mountains, but only after Will acquires an addiction to warmweed, a brain-numbing narcotic. In the even-numbered ones, Will's Ranger mentor Halt and talented knight-in-training Horace set out through Gallica (France) on a rescue mission, and are themselves temporarily imprisoned by a cruel robber baron. The author hasn't expended much effort to develop original cultures or characters, but--repeated side comments and references to past events aside--his fluent writing, engaging protagonists and credibly choreographed fight scenes will keep readers involved. (Fantasy. 11-13)

Reviews by: School Library Journal Gr 5-9-This third installment in the series picks up where The Burning Bridge (Philomel, 2006) left off. Apprentice Ranger Will and Evanlyn (Princess Cassandra incognito) are being taken by ship to the snowy northern country of the Skandians, a Viking-like group of raiders who plan to sell them as slaves. Will's mentor Halt, frustrated at not being allowed to follow them, stages an incident to get himself thrown out of the Ranger corps so that he can mount a rescue mission. He is joined by Will's friend Horace, and the chapters alternate neatly between Will and Evanlyn's plight in Skandia and Halt and Horace's obstacle-ridden journey to find them. As in the previous titles, the action is well paced and the writing style is engaging. The main characters continue to be believable and to inspire readers' interest and sympathy. A particular strength of this series is that Will has never been the effortless hero. Though talented and intelligent, he makes mistakes and he often needs help from those around him-making him a very realistic and appealing protagonist. Fans of the series will not be disappointed in this latest installment and will be left eagerly anticipating the next one.-Amanda Raklovits, Champaign Public Library, IL (c) Copyright 2010. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

 Grades 6 - 8 Dewey# Fic AR Lvl 6.7 AR Pts 14.0 RC Lvl 6.4 Lexile 920

Reviews by: From the Publisher Still far from their homeland after escaping slavery in the icebound land of Skandia, Will and Evanlyn's plans to return to Araluen are spoiled when Evanlyn is taken captive by a Temujai warrior. Though still weakened by the warmweed's toxic effects, Will employs his Ranger training to locate his friend, but an enemy scouting party has him fatally outnumbered. Will is certain death is close at hand, until Halt and Horace make a daring, last-minute rescue. The reunion is cut short, however, when Halt makes a horrifying discovery: Skandia's borders have been breached by the entire Temujai army. And Araluen is next in their sights. If two kingdoms are to be saved, an unlikely union must be made. Will it hold long enough to vanquish a ruthless new enemy? Or will past tensions spell doom for all? The battles and drama are nonstop in Book Four of this hugely popular epic.

Reviews by: School Library Journal Gr 5-8- Will and Evanlyn have escaped imprisonment in Skandia and are hiding out in a remote cabin, waiting for Will to gain enough strength to begin their journey home. Their peace, however, does not last long, as Evanlyn is kidnapped by a Temujai warrior. Halt, the Ranger to whom Will is apprenticed; Horace, a knight in training; and Will rescue her, but are intercepted by Skandians before they can continue home. The Temujai are advancing behind them, leaving Will and his friends to form an uneasy alliance with the Skandians. The tension builds to the final battle between the Temujai warriors and the Skandians. Fans of the series will eagerly devour this one and wait impatiently for the next. Readers who aren't familiar with the previous books would do best to start with the first one, but those who choose to start here won't be lost. A sure bet for fantasy fans, as well as those who enjoy action and adventure.-Ginny Collier, Dekalb County Public Library, Decatur, GA

Reviews by: The Barnes & Noble Review Will and Evanlyn have escaped from Skandian enslavement, but their problems are far from over in this riveting Ranger's Apprentice episode. Still far from their Araluen homeland, the pair were stopped in their tracks by an attack by Temujai warriors. After Evalyn is taken captive, Will struggles single-handedly to free her. Dangerous outmatched, he is snatched from death's door by the timely intervention of Halt and Horace. But more dangers await him and indeed, the entire Araluen people: The Temujai invaders are on the march and no army seems capable of stopping them. First-class battle fantasy.

Reviews by: Voice of Youth Advocates (VOYA) Fans of The Ranger's Apprentice series will again dive right into this fourth adventure. Will and Evanlyn have eluded their Skandian captors and are waiting out the winter in an abandoned hunting cabin. Halt and Horace have managed to bluff their way across the Skandian border. Apprentice and master are finally reunited as each set out to rescue Evanlyn, again captured by invading Temujai warriors. Halt, Will, and Horace need to convince the Skandians that the Temujai are a greater threat than they are, and the enemies need to work together to defeat the invaders or risk seeing all of their lands fall to these fearsome fighters. This installment clips along at a much faster pace than the preceding book. Newcomers to the series would be able to jump in easily, as very little relies on previous volumes. Will and Halt are reunited quickly, and the multiple story lines merge into one action-packed sequence of strategy and battle as the war with the Temujai unfolds. Characters have a bit more depth, and the humorous banter between Halt and Erak adds personality to both, keeping the book from becoming overly grim. Will and Evanlyn seem to grow up enough to realize that their prospective stations in life are a barrier to deepening the relationship they developed during the course of their servitude in Skandia. The resolution ties up many loose ends satisfactorily, although there is room for more books in this series. Reviewer: Arlene Garcia

Reviews by: Booklist Book 8 in the Ranger's Apprentice series takes Will, his mentor, Halt, and their friend Horace to the kingdom of Clonmel. There Halt confronts painful memories from his past, while the three friends work to subvert a devious plot by a cult religion that seeks to gain control by sending in bands of marauding invaders, then offering a god that can protect the people from them. Although the many references to previous adventures slow the pace at times, there's wit as well as action here, and the revelation of Halt's backstory adds a new dimension to the saga.--Phelan, Carolyn Copyright 2010 Booklist

Reviews by: Voice of Youth Advocates (VOYA) The book 7 and book 8 installments in the popular Ranger's Apprentice series will not disappoint fans. Erak's Ransom, book 7, takes place before the start of book 5, when Will is still an apprentice to Halt. The Skandian leader Erak, an ally of the Araluen's, has been captured and ransomed by a tribe of warriors from the desert. Will's courage and Ranger abilities are tested throughout the difficult quest to find and free Erak. Evanlyn has the chance to prove she is just as brave as the warriors around her as she negotiates Erak's freedom. At the conclusion of book 7, Will graduates as a Ranger and is placed in charge of his own fief. The Will that readers meet again in The Kings of Clonmel, book 8, is now confident and cunning. When a religious cult called the Outsiders conquers several surrounding kingdoms, Will, Halt, and Horace set out to convince the residents of Clonmel to believe in the abilities of the Sunrise Warrior instead of lies being spread by Tennyson, the cult's leader. At the conclusion of this book, the Rangers defeat the evil forces and restore order to the kingdom. As a result of brilliant characterization, the protagonists in books 7 and 8 have the skills to persistently outwit and outfight opponents while still maintaining a sense of humor that makes them seem realistic. True to this series, books 7 and 8 are filled with twists and turns, impassioned negotiations between leaders, and vivid, bloody battles complete with the clang of weapons. Reviewer: Amy Wyckoff

\$9.99

Inspired by his millions of fans worldwide, many of whom wrote him emails and letters questioning the fate or the origin of some of the most popular characters and storylines from Ranger's Apprentice, John Flanagan decided to reward his loyal readers with a collection of stories answering these questions.

978-0-14-242195-6 ©2013 448 pgs.

Grades 6 - 8 Dewey# Fic AR Lvl 6.0 AR Pts 18.0 RC Lvl 5.3 Lexile 810

Reviews by: School Library Journal unearthed during an excavation of the ancient kingdom of Araluen, contains manuscripts authenticating the existence of the Rangers, who had merely been legend. These lost stories weave a thread through events and characters from previous titles in the series. The collection opens with Ranger Halt divulging to his apprentice, Will, how he came to be his mentor. Years before, he was saved in battle by a young sergeant named Daniel, who, in his last breath, asked Halt to look out for his wife and a son-a baby named Will. In another chapter a young Ranger, Gilan, takes on Halt's search for a coldhearted killer when Halt is exiled for insulting King Duncan. Animals are keen and well-developed characters throughout the series and this volume is no exception. In one story, Will's dog, Ebony, is stolen by Roamers training fight dogs for sport and, in another, Flanagan pulls heartstrings with the bittersweet retirement of Will's horse, Tug. More sentimentality and bits of humor are shown as Flanagan's leading men find their mates and settle down. Halt's masculine demeanor is softened by Pauline and, as Will prepares a speech for the marriage of his best friend, Horace, readers will also be rooting for his union with Alyss. Author notes at the beginning of each chapter explain how readers' questions often prompted the stories. While those unfamiliar with the earlier books will enjoy the adventurous tales on their own merit, Lost Stories will be most satisfying for diehard fans reluctant to say goodbye to the series.-Vicki Reutter, Cazenovia High School, NY (c) Copyright 2012. Reviews by: Booklist Will is just settling into his first post as a brand-new, just-commissioned Ranger when he is dispatched to deal with problems on the kingdom's northern border. Though his keen senses and uncanny expertise with his knives and his bow are vital, Will's success often hinges on his ability to assess the skills and intentions of those around him. The scenes involving Will, his mentor, Halt, and Halt's mentor, Crowley, work beautifully to fill in background information, dramatize Will's growing maturity, and entertain readers with clever dialogue. The Sorcerer of the North is a must-have volume for fans of the popular Ranger's Apprentice series.--Phelan, Carolyn Copyright 2008 Booklist

Reviews by: Voice of Youth Advocates (VOYA) Years have passed since Will's adventures in Skandia—he is now a full-fledged Ranger on his first assignment. Thinking he is stuck in the isolated Fief of Seacliffe, Will is surprised to be called away by his old mentor, Halt, for a secret mission. Rumors of genuine sorcery, not simple mind control or mass hysteria, are plaguing Castle Macindaw and upsetting the succession of the barony in the north. The Rangers need Will's special skills to investigate. Disguised as a traveling musician, Will embarks on another quest that not only might cost him his life but also the lives of those about whom he cares. As always, Flanagan is to be complimented for creating a fantasy world that relies on character and action rather than magic, but fans may have difficulty getting into this fifth Ranger's Apprentice novel. The first chapters' exposition tells rather than shows what Will has done during the years between the Battle for Skandia and the present. Familiar characters are sadly absent for the first part of the book, although Halt makes his appearance midway through. The Princess Cassandra is mentioned only in passing, and Alyss, a diplomat, is introduced as Will's new romantic interest. Readers have to assume the relationship between them, as so much happened "off stage" that it is difficult to warm to her character. As the novel progresses and the action picks up, however, it becomes a satisfying, albeit not the best, addition to this popular series. Reviewer: Arlene Garcia-Allen

#1733555 (Vol. 07) Erak's Ransom (Paperback (Trade))

written by John Flanagan

The battles and drama are nonstop in this latest installment of Flanagan's epic fantasy. Skandia's borders have been breached, and Araluen is next. If the two kingdoms are to be saved, an unlikely union must be made.

Reviews by: Booklist Book 7, the latest adventure in the Ranger's Apprentice series, chronologically takes place after Book 4. Soon to conclude his apprenticeship and become a ranger, young Will joins Halt, Gilan, Horace, Evanlyn, and Svengal on a perilous mission to free their friend Erak, who has been captured by the Arridians and held for ransom. The vaguely Middle Eastern desert setting provides new challenges, new allies, and new foes for the Araluens and their Skandian friends. Bringing together many favorite characters for a grand adventure, this book delivers both excitement and quiet good times.--Phelan, Carolyn Copyright 2010 Booklist

#1676656 (Vol. 09) Halt's Peril (Paperback (Trade))

written by John Flanagan

The renegade outlaw group known as the Outsiders may have been chased from Clonmel, but not before killing Halt's only brother. Now Rangers Halt and Will, along with the young warrior Horace, are in pursuit and it will take every bit of skill and cunning for the Rangers to survive.

Reviews by: Booklist Continuing the story line begun in The Kings of Clonmel (2010), book 9 of the Ranger's Apprentice series sends Halt, Will, and Horace back on the trail of the same vicious, thieving outlaws. When a poisoned arrow takes Halt out of his senses and soon threatens his life, his younger comrades must take the lead to save him and continue their mission. A fine addition to a popular series, this volume sends the three main characters into adventures that they can survive only by relying on one other. Series fans will enjoy the dialogue and camaraderie as much as the action.--Phelan, Carolyn Copyright 2010 Booklist

Reviews by: Children's Literature Tennyson and his cult of Outsiders are on the run, but rangers Halt and Will, along with warrior Horace, have picked up their trail. Their mission is to bring the criminals to justice for their evil deeds, including the murder of Halt's twin brother, King Ferris. The three heroes use their excellent tracking skills to follow the villains, beginning to close the distance between the two groups. Alerted to their presence, Tennyson sends his two paid assassins to put an end to the trouble. Halt and Will are able to take out one of the assassins, but in the process, a crossbow bolt strikes Halt, a minor injury made lethal by the poison on the tip. Now Will chooses to put the chase on hold, valuing his best friend and former mentor's life above the pursuit of Tennyson's gang. He rides day and night as he seeks out the famous healer Malcolm, hoping to bring him back to camp before the poison can claim Halt's life. The ninth book in the "Ranger's Apprentice" series, this tale provides great visualization and description as the characters navigate their way through the forest landscape. Its action is slow to develop, but the pace quickens as readers await the outcome of Halt's battle for his life. The story also provides a great springboard for ethical discussions, specifically in how far one would go to save a friend's life. With few female characters and a fictional setting reminiscent of medieval Europe, this book is likely to draw in male readers—both old fans of the series and newcomers alike. Reviews by: Booklist When the prince in a neighboring country is abducted, the king of Araluen reluctantly agrees to help, but the situation calls for “guile and subterfuge.” Soon two of the King’s Rangers, Will and his apprentice, Maddie, disguised as a minstrel and his daughter, are making their way through unfamiliar territory toward the castle where the hostage is held captive. Along the way, they entertain villagers with singing, juggling, and knife throwing; capture a band of brigands preying on common folk; and finally gain admittance to Baron Lassigny’s formidable castle. Flanagan builds suspense with well-practiced skill and a flair for the dramatic. Tension increases right up to the last page, where readers will find the dreaded words: “to be continued.” The writing offers adventure, wit, and sufficient background information for those new to the Ranger’s Apprentice series to follow the story, but it will be enjoyed most by those who have read one or more of the three previous books in the Royal Ranger subseries, featuring the first girl apprenticed to a ranger.

#2256849 (Vol. 05) Escape from Falaise (Hardcover (Trade))

written by John F. Flanagan

After their plan to rescue the prince of Gallica has gone horribly wrong, Will Treaty and his apprentice, Maddie, are being held captive at the Chateau des Falaises in Gallica. The dangerous baron Lassigny is intent on keeping them--and the prince--no matter what. But Will and Maddie are determined to escape.

Reviews by: Booklist This story begins where The Missing Prince (2020) left off. Will and Maddie, two Araluen rangers sent to Gallica to free Prince Giles, are captured and imprisoned in the castle of the same conniving baron who is holding the prince. But two rangers of their caliber can't be held for long, and when they escape, they intend to complete their mission by freeing the prince and escorting him safely home. Meanwhile, two dependable allies, Halt and Horace, travel to a nearby Gallican village to provide support as needed. Equally adept at writing action-adventure scenes and amusing his fans with well-loved characters and their banter, Flanagan shows his range in this well-paced story. From the Ranger's Apprentice series' Royal Ranger subset, one of the few featuring a young woman as part of a highly skilled espionage-adventure corps in a preindustrial setting, the narrative underscores the Araluens' courage, confidence, and trust in each other. While reading the previous novel isn't a prerequisite for enjoying this one, some familiarity with the series and its characters is highly recommended.

#2332352 (Vol. 06) Arazan's Wolves (Hardcover (Trade))

written by John Flanagan

When Maddie and Will get a message that dire wolves--huge misshapen changelings, much larger than regular wolves--have been marauding and attacking through the hills and valleys of Celtica, the Rangers are sent on a mission to unravel just who or what is behind these dangerous creatures. Will isn't anxious to return to Celtica, especially approaching the Rift. And as they travel, Maddie must grapple with their growing dealings with the spiritual and supernatural.

Reviews by: Booklist This sequel to The Raven Heir (2021) has barely begun when 12-year-old queen Cordelia collapses, slipping into a magically induced sleep that brings her fellow triplets, Rosalind and Giles, and their older brother rushing to protect her from an unidentified assailant. Her vital connection with the land appears to be in jeopardy, as her cousins threaten to seize the throne and other members of the nobility appear to plot against her. Giles and Rosalind leave the castle in a desperate attempt to restore the magical connection that is vital to saving their sister as well as the land itself. But is their magic strong enough? And can they outwit the relatives who pretend to help while thwarting their quest? From shape-shifting heroes to venomous villains to a transcendent connection between human society and the natural world, the second volume in the series offers fantasy lovers well-drawn characters in a setting suffused with magic. The main characters are at their best when working toward a common goal in this satisfying finale to the Raven Crown series.

Reviews by: Kirkus Reviews Cordelia, Giles, and Rosalind, magical triplets raised in exile and now restored to the monarchy, discover the royal court is more dangerous than any wild creature in this sequel to The Raven Heir (2021). A great battle has restored Cordelia to the Raven Throne, so the 12-year-old triplets feel like everything ought to be easy now. Instead, it's all worse than ever. Cordelia, now the Raven Queen, is surrounded by terrible advisers and kept away from her siblings. Rosalind, the young warrior, is tormented by cruel ladies-in-waiting and humiliated for her athleticism. Giles dreamed of becoming a bard, but now he's convinced that indulging in either music or magic will tarnish Cordelia and make her seem unfit for the crown. One night, Cordelia falls into an enchanted slumber, and it's up to Rosalind and Giles to go on a quest to save both their sister and the magical land itself—but they venture forth without their greatest strengths. An escalating series of arguments and misunderstandings means that neither the triplets nor their family members ever compare notes, so it is not until the climax that they realize how badly they've been manipulated by vicious nobles. Instead, they spent much of the adventure angry, shouting, and mutually distrustful. Despite the eventual rewarding character growth for Rosalind and Giles, the unnecessarily overlong communication failure is exhausting. Most characters read White. A thrilling quest, but it would've been unnecessary if the protagonists had had even one calm conversation. (Fantasy. 9-12) COPYRIGHT(2023) Kirkus

#2245927 (Vol. 01) Raven Heir (Hardcover (Trade))

written by Stephanie Burgis

Twelve-year-old Cordelia can shift into the form of any animal, and yearns to explore the world outside her castle deep in an enchanted forest. But her sorceress mother has kept her and her triplet siblings hidden from the war for the Raven Throne that rages in their kingdom, where heir after heir has been killed.

978-1-5476-0637-5 ©2021 5-1/2 x 8-1/4 224 pgs.

Grades 4 - 7 Dewey# Fic AR Lvl 5.6 AR Pts 8.0

Quantity	Unit Price
1	\$16.99

Reviews by: Booklist Cordelia knows the story well: twelve years ago, her mother (a sorceress) fled to the forest castle where she gave birth to triplets. Ever since, she has kept them safely hidden away. While their older stepbrother, Conall, is diligently learning magic to help protect his siblings, Giles sings ballads, Rosalind practices knightly combat, and Cordelia uses her shapeshifting abilities for pleasure and for eavesdropping. Their mother has renounced her children's claim to the Raven Throne, yet soon after the king's death, warring factions, intent on using the heir in their game of power, track the triplets through the forest and into the mountains. Mysteriously compelled to mend the Raven crown, Cordelia leads her siblings on a perilous quest. In this, the first volume of the Raven Heir series, Burgis introduces the characters and their foibles, identifies the power struggle motivating the triplets' adversaries, and entertains readers with scenes featuring magical powers, adventures, and conflicts. But at the heart of this eventful, enjoyable adventure story, Cordelia is exploring her personal identity and her place in the family.

Reviews by: Kirkus Reviews Isn't it supposed to be a good thing to learn you're the lost heir? Cordelia adores her family--her fellow triplets, Giles and Rosalind; their older half brother, Connall; her mother; and her mother's friend who looks after the goats--but their secret castle in the woods is claustrophobic. She longs to turn into an animal and explore, but she's promised her overprotective mother that she won't wander off without supervision. Rosalind has her mock sword fighting, and Giles has his music, but Cordelia has only the desperate urge to fly free with her animal shape-shifting powers. Her dream of freedom twists into a nightmare when angry people bearing arms arrive at the castle demanding the war-torn kingdom's heir. The triplets escape into the woods when the others are taken captive, shocked by uncovered family secrets. Cordelia, learning more of her past, now has her own secrets. It's one thing to squabble with Giles and Rosalind, but will they forgive her for being as parsimonious with the truth as their mother has been? Ultimately, saving the world requires an unbearable sacrifice and reveals that even loving family members make dreadful mistakes. Though Cordelia and her siblings are primarily sketched in lightly around their traits and hobbies, their emotional journeys are rich, believable, and fulfilling. The triplets are light-skinned, Connall is brown, and the world is racially diverse and has a mixed-gender military. Chaotic, heartwarming, and emotionally satisfying with high stakes that keep readers invested. (Fantasy. 9-12) COPYRIGHT(2021) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly Twelve-year-old triplets Cordelia, Giles, and Rosalind have spent their lives in a castle hidden deep in an enchanted forest, with only their sorceress mother, older half brother, and a family friend for company. Shapeshifter Cordelia yearns to roam the woods freely, while Rosalind trains as a warrior and Giles embraces his love of music. When armored troops break through the castle's magical defenses, claiming that one of the triplets is rightful heir to the Raven Throne of Corvenne, the triad; unaware of who was born first; are forced to flee rather than become pawns in a brutal struggle for succession, while the remaining family is taken prisoner. As the three potential royals cross a war-torn land to uncover long-held secrets and save their loved ones, Cordelia is guided by mysterious voices and impulses that may help her heal the broken kingdom. This simultaneously brief and leisurely paced duology opener may leave readers hoping for more out of the next volume, but Burgis's (the Tales from the Chocolate Heart series) focus on how the land influences the closely knit family of cued-white characters; each bearing complementary and unique gifts; results in a vividly described setting and a strong, shifting sibling dynamic. Ages 8: 11. Agent: Molly Ker Hawn, the Bent Agency. (Sept.)

Reviews by: School Library Journal ade combines magic, family, and heart in a quest to heal the magical land of Corvenne. Cordelia, with a gift or shifting into different animals, is the sibling always called to the forest. Giles composes songs with an obsessive fervor, while Rosalind wants to e a great warrior. One day, the people of the kingdom surround their mother's castle in the enchanted forest, demanding the heir to the throne and thrusting the triplets into the unknown. Similar to other coming-of-age adventures, each sibling learns to harness their talents throughout their journey to increase the success of their magical quest. The bonds of family are tested by secrets and intensified through defining moments of spirit, heart, and protectiveness. Although some of the backstory and characterization of the antagonists falls flat, the good-versus-evil dynamic is necessary for younger readers and has great potential as the series continues. Burgis weaves a tale that inspires readers to harness the magic within themselves, even during challenging times. This title would appeal to fans of Chris Colfer's "Land of Stories" series and Kelly Barnhill's The Girl Who Drank the Moon. VERDICT A fantastical journey for elementary and middle school readers who love magic and adventure.--Hilary Tufo Copyright 2021 School Library Journal, LLC Used with permission.

Ravenfall (Trade)

#2286833 (Vol. 01) Ravenfall (Hardcover (Trade))

written by Kalyn Josephson

Thirteen-year-old Annabella Ballinkay has never been normal, even by her psychic family's standards. Every generation uses their abilities to help run the Ravenfall Inn, a sprawling, magical B&B at the crossroads of the human world and the Otherworld. But it's hard to contribute when your only power is foreseeing death. So when fourteen-year-old Colin Pierce arrives at Ravenfall searching for his missing older brother and the supernatural creature who killed their parents, Anna jumps at the chance to help. But the mysteries tied to Colin go much deeper than either of them expects...

Reviews by: Kirkus Reviews Two lonely young people team up to fight an ancient evil. Anna, 13 and the youngest child in a Jewish and Irish family that is psychically endowed, is dismayed about her own gift of psychometry. For Anna, touching someone who has experienced another's death gives her a vision of that death; it's hard for her to understand how that could be useful. Her family runs Ravenfall, an inn in the magical town of Wick, Oregon, "where magic is never far from your fingertips" and the veil between the Otherworld and our own is somewhat permeable. As the family anticipates their annual celebration of Samhain, 14-year-old Colin arrives, seeking refuge after his parents' murders. Colin has known little about his own magical powers but discovers that his Irish ancestor Fin Varra, one of the faerie folk also known as the King of the Dead, plans to use him to reclaim a place among the living. The first-person narrative switches between Anna's and Colin's perspectives. Both kids are home-schooled and isolated, Colin as his family fled mysterious pursuers and Anna as she struggles with being quirky and different. The house Ravenfall is enchanted, taking care of itself and its occupants and sparring with Max, the resident Jabberwocky, a shape-changing guardian posing as a cat. Magical traditions, creatures, and objects abound in this intriguing setting, offering possibilities for sequels. A pitched climactic battle provides the young heroes with a swift if somewhat predictable victory over the dark forces. Largely spellbinding. (Fantasy. 9-14) COPYRIGHT(2022) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly With her psychometric power to envision deaths seen through other people's eyes, 13-year-old Annabella Ballinkay, who is Irish, Jewish, and aromantic, feels out of step with the rest of her family. Her relations' psychic abilities; including empathy and mind-reading; all prove more useful for running the sentient Ravenfall Inn in magic-steeped Wick, Ore., positioned "at a weak spot in the veil to the Otherworld, where spirits dwell." Leading up to the celebration of Samhain, when the border grows even thinner, 14-year-old Colin Pierce arrives from Montana following his parents' murder and his older brother's disappearance. Anna recognizes him from a recent vision, and the two soon find that Colin's family were Ravenguards, protectors of the Shield separating the realms. As Colin learns about his magic and connection to an ancient Irish being with a sinister agenda, the two must locate the killer. Alternating between Anna and Colin's voices, Josephson (The Storm Crow) presents memorable characters in an engaging and eerie magical mystery. As emotionally rich characterizations follow olive-skinned Anna seeking to define her place among her sprawling family, and pale Colin navigating grief as the result of losing his, the novel's quirkiest aspects manifest in the house's ever-changing layout and via Max, a powerful Jabberwocky taking the form of a mischievous black cat. Ages 10: up. Agent: Carrie Pestrutto, Laura Dail Literary. (Aug.)

Reviews by: Publishers Weekly Six months after losing his father during a monster attack on Washington, D.C., 12-year-old Fort Fitzgerald is recruited into a secret government program and school that teaches children like him to wield the spells contained within a set of recently discovered magical books. Oddly enough, some at the Oppenheimer Academy are eager to see Fort fail. But, desperate to avenge his father, Fort will do whatever it takes to prove he belongs, even if it means mastering the necessary spells in an unprecedented short period. To his dismay, his strength is for healing magic, rather than destruction spells. With the aid of his new friends, including British precognitive Cyrus, healer Jia, and the acerbic Rachel, Fort throws himself into his training, only to discover his new school has numerous dark secrets, and that they may be the last line in Earth's defense when the books' original owners threaten to return from their long exile. In this ambitious middle grade series opener, Riley (the Story Thieves series) refreshes the familiar "magic school" trope by mixing in conspiracy theories and Lovecraftian monstrosities, as well as an intriguing spell-casting system. A strong introduction to the memorable characters and imaginative concept, this leaves plenty of potential for future installments. Ages 8: 12. Agent: Michael Bourret, Dystel, Goderich & Bourret. (Mar.)

Reviews by: School Library Journal Gr 4-7-Monsters rising up from under Washington, DC, herald the return of magic in this series starter. Twelve-year-old Fort Fitzgerald thought having his father embarrass him at the Lincoln Memorial was bad, but watching his dad disappear underground in a monster's claw was infinitely worse. It turns out that magic reappeared approximately 13 years earlier, and only kids born after that time have the ability to wield it. Months later, Fort is invited to apply to a special school for magical training-a school where the adults all seem afraid of the students. Fort dreams of revenge, but his abilities seem to be leading him to healing-or are they? Fellow students Cyrus, Rachel, Jia, and Sebastian, along with former students Sierra and Damien, help and hinder in Fort's quest to figure out why he can suddenly read minds and steal magic from other students. Readers never really get to know any of the characters well (the adults are particularly opaque), but the brisk pace,

Grades 4 - 6 Dewey# Fic AR Lvl 5.9 AR Pts 11.0 Lexile 900

Reviews by: School Library Journal Gr 3-6-In this first book of a new fantasy series from Sage, three stories tie together seamlessly. Joss and Allie are indentured servants until they find a silver dragon egg. The evil Lennix clan trains dragons to raid for dragon eggs and eat humans. Sirin is brought into a foster home after her mother is hospitalized with a serious illness. This latest adventure is reminiscent in style and tone to Sage's best-selling "Magyk" series. Young readers will enjoy many of the plot twists that may be comfortably predictable for older readers. The character development is a little flat, but readers will still sympathize with the protagonists. VERDICT Recommended for middle grade fantasy fans of Sage's previous works, Brandon Mull's "Fablehaven," Jonathan Stroud's "Bartimaeus Trilogy," or Maile Meloy's The Apothecary.-Rachel Reinwald, Lake Villa District Library, IL Copyright 2019. Sirin, Allie, and Joss have joined forces with the legendary silver dragon Lysander, the only creature capable of opening portals between the two worlds. But the powerful Lennix clan is following the children's every move and will stop at nothing to capture Lysander. Now, it's up to Allie, Joss, and Sirin to protect Lysander while searching for a secret source of lost dragon magic. But when their search takes them to one of the largest cities on Earth, the new friends must decide what's more important: finding the missing treasure or guarding the most important secret in the world that dragons have returned to Earth. Grades 4 - 7 Dewey# Fic AR Lvl 5.6 AR Pts 11.0

Reviews by: Kirkus Reviews In this sequel to a prequel, a third candidate for School Master brings simmering tensions between twins Rhian and Rafal to a boil. In events following close on those in Rise of the School for Good and Evil (2022), the arrival of James Hook in Neverland, along with fellow ex-students Aladdin and Princess Kyma, spurs ruthless tyrant Peter Pan to mount his own bid to take over the twin-towered school where fairy-tale characters are trained. Meanwhile Rafal and Rhian, amid their growing rivalry, are both searching for an ally they can trust, and they kidnap a Reader—young Midas—from the outside world. What follows is a seminar on telling Good from Evil as the line between the two becomes even more muddled, numerous members of the sprawling cast exhibit qualities of both, and Rafal, in particular, suffers an extended identity crisis. Chainani explores feminist themes as a group of punk Neverland fairies and a man-hunting troll join Kyma, asserting their independence and questioning what might happen “if boys don’t have the last word in our stories.” He also presents a credible rationale for Good’s invariable victory over Evil in fairy tales. Characters’ skin tones vary from pale to bronze, and the two trolls are colorful showstoppers. Final art not seen. Fans will be pleased to see answers, background, and a clear path to Volume 1. (Fantasy. 11-14)

Reviews by: Booklist Grades 3-5 Lily's secret wish of having a turtle shell to hide in is stronger than ever after she christens her first day of fourth grade by puking on the playground. Mortified, she's positive no one at her new school will want to be her friend now. But she didn't count on meeting Darby, a weird but funny girl in her class. Undeterred by the playground incident, Darby breaks through Lily's shy defenses with her goofy personality and enviable disregard for what others think. Together, they form the Rizzlerunk Club, named for the sea captain who, according to Darby, died on (and haunts!) the lake separating the girls' houses. Patricelli nails the anxiety that comes with moving and shyness, particularly the constant worry Lily feels over other people's opinions. Being friends with Darby positively challenges these fears, but when Darby's former best friend moves back to town, Lily worries this bossy, popular girl will steal Darby from her. Embellished with Lily's cartoon drawings, this tween novel about finding your own path is relatable, funny, and sincere. (Reprinted with permission of Booklist, copyright 2018, American Library Association.)

Reviews by: Horn Book Guide "Fourth grade, first day, brand-new school, and I'm barfing in front of everyone," says Lily, protagonist of Patricelli's (known for her preschooler and board books) first intermediate novel. Copious black-and-white illustrations enhance this tale of a shy girl befriended by a quirky outcast, whose own (jealous) best friend has just moved back to town. The three-way friendship dynamic is realistic, and humorous details abound. (Copyright 2018 by The Horn Book, Incorporated, Boston. All rights reserved.)

Reviews by: Kirkus Reviews Supershy fourth-grader Lily Lattuga (Italian for "lettuce") just wants to blend in at her new school, but on the first day, she throws up on a popular girl's shoes! Then it gets worse: her new classmates start quacking at her after her repeated attempts to pronounce "Kwakiutl" in a list of Northwest Native American tribes--she never gets past the first syllable (an unfortunate joke)--and she gets on the wrong bus. Lucky for Lily, unselfconscious Darby Dorski extends the hand of friendship. The girls bond over their love of frogs, and the Rizzlerunk Club is born. The book's title comes from the club's pledge, which concludes "best buds, under frogs, with loyalty and honesty for all." When Darby's best friend, Jill, returns from London, loyalty and honesty are put to the test. Lily worries she'll lose the only friend she has, and Jill is a lying troublemaker who gets Lily and Darby into one scrape after another, throwing the girls under the bus while weaseling her way out of punishment. Lily attempts to shave her unibrow after Jill makes fun of it, only to end up with a finger superglued to her forehead. Everyone appears to be white except for one classmate with a Spanish name. Lily loves to draw, and her first-person narration is livened up with her humorous line drawings reflecting her thoughts and feelings. This first full-length narrative, a series opener, from board-book creator Patricelli (Hair, 2017, etc.) is a no-frills, funny story about friendship. (Fiction. 7-11) COPYRIGHT(2017) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: Publishers Weekly There isn't a dull moment in this uproarious first novel from Patricelli, best known for her series of board books starring a springy-haired toddler. After a disastrous first day at her new school (much barfing is involved), "supershy" fourth-grader Lily wishes more than ever that she could "blend in, like the handful of spinach Mom adds to our smoothies." Uninhibited Darby, a passionate believer in ghosts and a collector of frogs, takes Lily under her wing, but then Darby's manipulative former best friend, Jill, reappears after a stint in London, and sets out to reclaim Darby. Flaunting her English school uniform and a rapidly acquired British accent, Jill masterminds pranks (such as sneaking out of class to paint the monkey bars) that she cajoles Lily and Darby into carrying out. With the exception of a running joke revolving around the name of a Native American tribe, Patricelli's humor is on the mark, and her scribbly b&w cartoons add to the fun. Lily's self-effacing narration carries this rollicking look at the challenges and rewards of friendship. Ages 7--10. Agent: Rebecca Sherman, Writers House. (Feb.)

Reviews by: School Library Journal Gr 3-5-Popular board book author and illustrator Patricelli offers up an amusing first novel on friendship, peer pressure, and being the new kid. Mono-browed Lily has a terrible first day of fourth grade; although both she and her sister feel ill, they get sent to their new school whereupon Lily throws up on potential new friends' shoes and all over the recess yard. Then a very unusual girl named Darby takes Lily under her wing and they form a two-member group called the Rizzlerunk Club. They have common interests in science, frogs, and trying to stay away from Lily's mom's health food. Things take a bad turn when Darby's previous best friend suddenly returns from a move to England, busting up the duo. Jill has a talent for getting Darby and Lily to do awful things that get them into big trouble with their teachers, the principal, and their friends. Jill always comes out of these incidents smelling like a rose. Lily must decide if she'll keep on being a follower and succumbing to peer pressure in order to stay in the Club or take her parents' advice and make good decisions to be her own person. Patricelli writes with warmth and humor, shining a light on the sometimes painful parts of establishing your own sense of self while wanting to be part of the "in" bunch. Lily's difficulties in deciding what to do are realistic and the solution has no whiff of adult didacticism. A generous helping of hilarious black-and-white illustrations enhances the text with humor and encourages pathos when Darby has difficulty finding her true self. VERDICT This engaging, funny, and heartfelt read will ring true to a young audience; Patricelli shows a real gift for capturing the dramas and goofiness of the age range. Recommended for most collections.-B. Allison Gray, Goleta Public Library, CA Copyright 2018. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

#2259793 (Vol. 02) Big Bad Lies (Hardcover (Trade))

written by Leslie Patricelli

Lily Lattuga finally feels settled after moving to a new town and starting the fourth grade at a new school. She gets to live right across the lake from her best friend, Darby, who loves frogs and drawing just as much as Lily does. They even have their own club: the Rizzlerunks. But then things start going wrong: the new boy in class is a liar and a bully, and Darby begins acting strangely--she even breaks the Rizzlerunk pledge of honesty and gets Lily into trouble!

Reviews by: Kirkus Reviews Rounds of truth or dare turn into real tests for fourth grade best friends trapped by their lies to one other. Having sworn themselves Best Buds Under Frogs in the 2018 series opener, Lily and Darby, founders and only members of the Rizzlerunk Club, both learn that it's easier to tell a "Big Bad Black Hole Lie" than to bear the weight of one on their consciences. First, when Darby's hilariously "inappropriate" drawing of Michelangelo's David comes to light, Lily is amazed and confused when her friend not only tells their teacher that Lily drew it, but refuses to admit otherwise, even in private. Then Lily inadvertently steps on a class rat that Darby brought home for the weekend and finds herself insisting that it died of natural causes--even after the whole class comes down on Darby as a "Rat Killer." The addition of a charismatic new student who bullies younger ones while compulsively boasting that he lives in the biggest house in town and telling other provable fibs turns Lily's narrative into a kind of seminar on different sorts of lies and their costs. But Patricelli keeps the tone light by adding cartoon line drawings to nearly every page and piling on subplots and incidents of a (mostly) comical tenor. And truth does win out over dare by the end, as does friendship. Most characters read as White. Will make readers both laugh and think...and what could be better than that? (Fiction. 7-10) COPYRIGHT(2021) Kirkus Reviews, ALL RIGHTS RESERVED.

Roll With It (Prebound)

#2376947 (Vol. 02) Time to Roll (Prebound)

written by Jamie Sumner

Ellie is so not the pageant type. They're Coralee's thing, and Ellie is happy to let her talented friend shine in the spotlight. But what's she supposed to do when Coralee asks her to enter a beauty pageant, and their other best friend, Bert, volunteers to be their manager? Then again, how else is she going to get through this summer with her dad, who barely knows her, while her mom is off on her honeymoon with Ellie's amazing gym teacher? Ellie decides she has nothing to lose.

Reviews by: Kirkus Reviews A girl with cerebral palsy finds herself in the spotlight. A year after the events of Roll With It (2019), aspiring baker Ellie Cowan's adventures resume just as her mom is marrying Hutch, her gym teacher. Unfortunately, while Mom and Hutch are honeymooning, Ellie will be stuck with her father, rowdy younger stepbrothers, and stepmother for a month. Her father feels like a stranger; he never knows how to act around her or her wheelchair. So when her outspoken best friend Coralee recruits Ellie and her other best friend, über-organized Bert, to help her compete in the Oklahoma Little Miss Boots and Bows pageant, Ellie welcomes the distraction. When Coralee begs Ellie to enter as well, Ellie acquiesces despite her distaste for pageants...and to spite her father, who thinks she can't handle it. But when the pageant's coordinator patronizingly fawns over Ellie, Coralee grows jealous. How can Ellie salvage their friendship? Despite some poignant moments and a realistically messy portrayal of family and friendship, this outing feels somewhat rushed. Readers scarcely have time to process some plot threads--including painful revelations--before Sumner wraps them up, and secondary characters, like fellow competitor Maya, feel somewhat underdeveloped. However, Bert remains endearing, and it's heartening to see Ellie establishing boundaries with the occasionally overbearing Coralee. Ellie, her family, and most of her friends read White; Maya is Black. Sweet but uneven. (Fiction. 8-12) COPYRIGHT(2023) Kirkus Reviews, ALL RIGHTS RESERVED.

Grades 4 - 7 Dewey# Fic AR Lvl 4.6 AR Pts 6.0 RC Lvl 4.5 Lexile 740

Reviews by: Publishers Weekly Headstrong 12-year-old Lily "Ellie" Cowan loves to bake. Diagnosed with cerebral palsy at birth, Ellie heads to the kitchen when she gets frustrated with her overprotective mom, her hovering full-time aide, and her absent father. After Ellie's grandfather, who has dementia, drives his car into the local supermarket, Ellie and her mom pack up their Nashville home and move into her grandparents' tiny trailer in Eufaula, Okla. Soon, Ellie meets free-spirited neighbor Coralee and eccentric schoolmate Bert; their acceptance helps her to cope with her new school, which is far from wheelchair-friendly. Drawing on her own experiences with her son, who has cerebral palsy, debut author Sumner doesn't sugarcoat Ellie's daily challenges; social, emotional, and physical; including navigating showers and crowded classrooms. Sumner also makes it clear that Ellie is a regular kid who dreams of becoming a chef, which is conveyed partly through letters that Ellie writes to various culinary experts throughout the book. In addition, Sumner deftly explores universal difficulties of fitting in and following one's passions. Ellie is easy to champion, and her story reminds readers that life's burdens are always lighter with friends and family; and a good piece of pie; at the ready. Ages 10: up. Agent: Keely Boeving, WordServe Literary. (Oct.)

Reviews by: School Library Journal Gr 5-7—In Sumner's middle grade debut, 12-year-old Ellie dreams of being a famous baker/chef, instead of being known as the "kid with cerebral palsy in a wheelchair." Ellie is obsessed with learning baking techniques with her overworked mother and writes letters to her favorite celebrity chefs about the recipes she has tried. Ellie's world is turned upside down when she and her mother move to her grandmother's trailer park residence in Oklahoma to assist with the care of her ailing grandfather, who suffers from the early stages of dementia and Alzheimer's disease. Ellie rises to the challenge of being the new girl in school and makes new friends through her kindness, as well as her baking prowess. Ellie finds a way to conquer her doubts and prove to her mother that the move to Oklahoma was a good thing for both of them. Young readers will delve into Ellie's relationships with her distant father and her mother, grandparents, friends, neighbors, teachers, and classmates. Sumner offers a heartfelt and humorous glimpse into the life of a girl with cerebral palsy who is determined to make her mark on a world that often perceives her as limited because of her disability. However, adults may want to discuss the ableist terms and sentiments Ellie expresses when describing herself, including the word "crippled" and feeling "stuck" in a wheelchair. VERDICT Recommended for fans of tender realistic fiction including Kimberly Brubaker Bradley's *The War That Saved My Life* and Elana K. Arnold's *A Boy Called Bat*. The challenges faced by youth like Ellie are underrepresented in children's literature; highly recommended for middle grade collections.—Angelina Bair, Willoughby-Eastlake Public Library, OH

Rosetta Academy (Trade)

#2333199 (Vol. 03) Of Dreams and Destiny (Hardcover (Trade))

written by Sandhya Menon

It's senior year, and Daphne Elizabeth "DE" McKinley, the heiress to the McKinley hotel dynasty, is still licking her wounds after a painful breakup. She's determined to keep her head down and her heart shuttered—even from new student Xander, no matter how dreamy he is.

Reviews by: Kirkus Reviews A heartbroken girl must learn to trust again--before a mysterious illness claims her entire school. After being cruelly betrayed by a boy, Rosetta Academy senior Daphne Elizabeth "DE" McKinley is done with dating. Encouraged by her best friend, Jaya, to consult town psychic Madame Olivera, DE receives an ominous warning about an impending storm--and a death. Madame Olivera also gives her a note stating that, with an open heart, DE can vanquish the storm. Unconvinced, she dismisses it as a hoax. She also eschews love, even resisting handsome new boy Xander Murthy. But DE and Xander find a strange doll from 1873 in the woods, and after DE pricks her finger on something sharp in its body, the academy is enveloped in a severe snowstorm, and students start succumbing to a comalike sleeping sickness. When Xander reveals that his great-great-great-uncle, a Rosetta student, mysteriously died in his sleep during the great storm of 1873, the two work together to uncover long-kept secrets and save their friends. Told from the alternating perspectives of DE and Xander, this retelling of "Sleeping Beauty" includes some appearances by characters from previous entries and is a fun addition to the series. DE experiences many relatable post-breakup feelings before finding herself again, and Xander's family history touches on generational cycles of addiction. DE is white; Xander is Indian, Irish,

Rosie Frost (Trade)

#2348650 (Vol. 01) Rosie Frost and the Falcon Queen (Hardcover (Trade))

written by Geri Halliwell-Horner

Suddenly orphaned and alone, Rosie Frost is sent to the mysterious Bloodstone Island—home not only to a school for extraordinary teens, but also a sanctuary for endangered species. There, Rosie confronts a menacing deputy headmaster, a group of mean girls intent on destroying her, and shocking family secrets. She also discovers that history can come to life in ways she never could have imagined.

978-0-593-62334-3 ©2023 5-1/2 x 8-1/4 464 pgs.

Grades 4 - 7 Dewey# Fic Lexile 730

Quantity	Unit Price
1	\$18.99

Reviews by: Kirkus Reviews A 13-year-old is sent to a school with ties to the Tudors on a mysterious English island populated by endangered species in this U.S. debut by former Spice Girl Halliwell-Horner. Rosie Frost's world is upended when her mum dies, leaving her an orphan. Per her mother's last wishes, the pale, ginger-haired girl is whisked away to Bloodstone Island, a "conservation hotspot" and the site of Heverbridge, a school founded by Queen Elizabeth I, which now has an ethnically diverse population of pupils and teachers. New scholarship student Rosie immediately seems to get on the bad side of the deputy head, Mr. Hemlock. She soon comes to believe he has plans that will harm the island's flora and fauna. Hoping to make her voice heard and discover more about who she is, Rosie enters the Falcon Queen Games, a competition aligned with the school's values of courage, power, and freedom. She faces danger and bullying, but along the way she makes friends and allies who help her. This contemporary, girl-power story has light paranormal and fantastical elements and is fueled by a captivating mystery and adventure. The good-versus-evil narrative is clear cut and straightforward. Many of the character types and plot elements present here are popular staples of the genre, adding to the lively story's wide appeal. It also features quick pacing, fun and engaging worldbuilding, and a lead character who is easy to root for. Exuberant, action-packed, and warmhearted. (map, glossary, family tree) (Fantasy. 10-14)

Reviews by: Publishers Weekly In an effervescent fantasy series launch with a conservation bent from musician Halliwell-Horner, also known as Ginger Spice, orphaned 13-year-old Rosie Frost is enrolled in a secret boarding school. Founded by Queen Elizabeth I to honor her mother, Anne Boleyn, Heverbridge School is an academy for exceptional students and Tudor descendants. It's also located off England's coast on Bloodstone Island, a hidden haven for some of the world's "rarest and most impressive" plants and animals. Rosie arrives at Heverbridge seeking comfort and answers; instead, rich kids bully her, and imperious deputy administrator Mr. Hemlock belittles and gaslights her. To survive, Rosie keeps her head down, until she discovers that Mr. Hemlock is planning something harmful to the island's endangered species. Hoping that the prestige of a win could provide her with the platform to incite change, she enters Heverbridge's highly competitive Falcon Queen games, a tournament meant to test students' courage. Though the plot follows a familiar path, smart twists rooted in real-life history add excitement, and Anne Boleyn's indomitable spirit literally and figuratively haunts this lively debut, inspiring Rosie and propelling the tale's feminist, eco-preservationist message. Rosie cues as white; the boldly drawn supporting cast is racially diverse. Ages 10: up. Agent: Anthony Mattero, CAA. (Oct.)

Reviews by: School Library Journal Gr 4-7—Rosie Frost has always been an outcast. When she gets the shocking news of her mother's death, she is sent to the elite Heverbridge School on Bloodstone Island with little explanation—how did she get there, and what connection does it have to her mother? In addition to dealing with the typical mean girls, Rosie must now contend with a sinister headmaster, an island that defies the laws of nature, and the ghost of Queen Elizabeth I. Determined to prove herself, she signs up for the Falcon Queen games. Winning, though, is trickier than she thinks, and the games are just a piece of a much more complicated plot. Rosie will need to rely on her friends and trust her instincts not only to win but to save the whole island, too. This book mixes elements of fantasy with history, mystery, and adventure, but it is, at its core, a coming-of-age story. Rosie blossoms when she starts to let her walls down, and the supporting characters who eventually become her friends round out the story. The school and the island are fantastic settings: readers will be bursting to visit Bloodstone Island, with its rare creatures and old secrets. The main plot is slow to start; the book at times feels long, but readers will be engaged enough that most won't mind. VERDICT If an English boarding school on an island full of wild, rare animals isn't enough to grab readers, Rosie Frost, an empowering new heroine, certainly will.—Kristin Brynsvold

Royal Guide to Monster Slaying (Trade)

#2108065 (Vol. 01) Royal Guide to Monster Slaying (Hardcover (Trade))

written by Kelley Armstrong

Twelve-year-old Rowan is next in line to be Queen; her twin brother, Rhydd, to be Royal Monster Hunter. Rowan would give anything to switch places, but the rule is,

Quantity	Unit Price

Reviews by: Publishers Weekly As the oldest child, Rowan, 12, has always known she'd be Queen, but she envies her twin brother, Rhydd, who is in line to become Royal Monster Hunter (but would make a better consort). Nevertheless, she spends her time learning about myriad creatures. However, after their Aunt Jannah is slain in a gryphon attack, just as their father was, and Rhydd is badly injured, Rowan must step into the role she's always dreamed of fulfilling. Accompanied by a jackalope and an enormous wolf, Rowan sets out to find the person who can help train her for the monumental task ahead: to fight and slay the gryphon. As she forges unlikely friendships and alliances, she develops a growing understanding of her weighty responsibility to her people while seeking to understand and respect the monsters she hunts, doing as little harm as possible. Weaving in themes of family, duty, and conservation, YA author Armstrong (the Darkness Rising trilogy) offers a gripping middle grade debut in an imaginative fantasy world populated by fascinating creatures. Readers will hope that there is more planned for Rowan and her growing entourage of monsters and misfits. A monster field guide concludes. Ages 10: 14. (Aug.)

#2162819 (Vol. 02) Gryphon's Lair (Hardcover (Trade))

written by Kelley Armstrong

In order to save face after an accident involving the troublesome gryphon, Rowan, with the help of her friends Dain and Alianor, along with an entourage of monstrous companions, must make a journey to the mountains to release the gryphon back into the wild. What starts off as a simple enough task soon becomes a dangerous quest, as the group encounters numerous rare and deadly monsters along the way, including wyverns and ceffyl-dwrs. Nothing is easy when you're a "monster magnet" like Rowan.

Reviews by: School Library Journal Gr 4–6—Rowan returns in this follow-up to Armstrong's *A Royal Guide to Monster Slaying*. Readers do not have to wait long for the Royal Monster Hunter to land in another sticky situation. When the gryphon captured in her last adventure is killed while giving birth, Rowan convinces her mother, the Queen, to allow the baby named Tiera to stay in the castle so it can be studied before it's returned to the wild. When her mother's family attempts to claim the throne through scheming, Rowan is once again thrust into a highly dangerous yet necessary mission to bring Tiera home to her kin living high in the mountains. Following in the footsteps of the first installment, this entry offers nonstop action and adventure. Rowan and her friends not only encounter mythological beasts, they also deal with the everyday problems of the average middle schooler. Rowan must field rumors of her mother becoming involved with someone new after her father's death and navigate the misunderstandings and awkward feelings that come with friends becoming potential crushes. **VERDICT** An enjoyable follow-up to its rollicking predecessor. Recommended for fans of Rick Riordan and Tamora Pierce.—Sara Brunkhorst, Glenview P.L., IL

Quantity	Unit Price
1	\$16.99

Reviews by: School Library Journal Gr 4–6—Rowan and her fearless friends return in this newest series installment. We meet our ragtag group on the way to clear out an infestation of dropbears in the Dunnian Woods. After nearly getting swept away by a stampede of colocolos, small lizard and ratlike creatures, and being attacked by fleeing harpies, it is clear that something else is terrorizing the denizens of the woods. As the troupe continues on to find the source of the unrest, we learn a lot more about Tamarel outside of the royal palace. The group encounters a "witch," monster poachers, and an exiled sort-of-prince. In their search, Rowan stumbles on a hidden cave with her ceffyl-dwr—the creatures she finds have not been seen in her world for centuries and are almost certainly the cause of this latest unrest among monsters. In the beginning, the author gives a natural overview of the events in the series so far, which serves as a helpful reminder to series veterans or new readers alike. Armstrong skillfully blends different mythologies; fans of Rick Riordan and mythology will appreciate the lesser-known monsters that are featured. Readers will find Rowan's monster sketchbook, included after the final chapter, helpful in picturing some of the more obscure creatures. VERDICT This latest entry does the action-packed series justice.—Sara Brunkhorst, Glenview P.L., IL

#2281467 (Vol. 04) Final Trial (Hardcover (Trade))

written by Kelley Armstrong

After discovering the true reason for the monster migration, Rowan is on an expedition to ultimately prove that she is worthy of the ebony monster-slaying sword on her back. She and her twin brother, Rhydd, their friends Dain and Alianor, as well as some other trusted advisors - and the ever-growing group of monstrous companions - are on a mission to help protect the dragon living in their homeland and are travelling to kingdoms beyond to make their case.

Reviews by: Kirkus Reviews Tensions between monsters and humans remain high as Princess Rowan sets out to defuse (or ignite) a dragon-sized situation in this series closer. Our young royal monster hunter-elect finally has her future in sight. One remaining trial has sent Rowan, her twin brother, and their hunting party on a journey from Tamarel to neighboring Roiva. If she can settle the ongoing dragon dilemma, Rowan can officially take her place as her aunt's successor. The expedition combines dangerous monsters with volatile politics, and it's difficult to say which is more treacherous as their monster-hunting mission of mercy turns mercenary when Rowan and her friends are captured. Engineering an escape from abductors in the thick of a giant serpent's hunting ground would be enough. Dealing with troublesome monsters while thwarting a coup would be more than enough. But there is still a dangerously agitated dragon in their midst. Rowan draws on every ounce of skill, courage, and knowledge she possesses, but it may not be enough as she faces the terrifying question: What kind of monster can frighten a dragon? Armstrong delivers a wild ride as rapid-fire monster fight (and sometimes flight) scenes are paced by Rowan's intense introspection. New monsters (faithfully rendered with wonderful detail in Rowan's accompanying guide) give way to satisfying answers to some series-long questions, though the hasty conclusion may feel discordantly tidy. Some new Roivan characters are described as light-skinned, but the majority of the Tamarelian cast remains brown-skinned. Good luck putting it down. Rube Goldberg (Trade)

#2257543 (Vol. 01) Rube Goldberg and His Amazing Machines (Hardcover (POB))

written by Brandon T. Snider

On the first day of middle school, Principal Kim announces that the school is going to throw a Contraption Convention--the perfect opportunity for young inventor Rube Goldberg to show off his inventions and get out of his summer-long funk! But after a fight with his friends Pearl and Boob about where his priorities really lie, Rube's Con Con entry gets off to a rocky start--and then strange incidents begin to throw the town into disarray.

Reviews by: Kirkus Reviews Middle schooler Rube Goldberg's obsession with building machines lands him in the midst of a best friend crisis, a school haunting, and a town mystery. Though Rube shares the name of the famous American inventor, in this fictional story he is a regular 21st-century sixth grader. When Beechwood Middle School's Principal Kim announces the Contraption Convention, Rube sees his shot at earning real recognition for his passion. His best friends, Boob and Pearl, get pushed to the side as Rube becomes focused both on his creation and his new

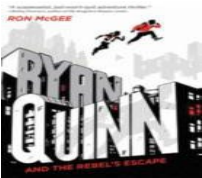

friend, Zach. Ultimately, Rube has to come to terms with tensions arising from his affectionate but frequently absent father, his tattered friendships, and the lingering impact of the death of his mother. Snider accurately conveys feelings of change and growth at a time when tweens are truly still children. Though the story includes a spooky doll, ghost slime, and a neighborhood house that is rumored to be haunted, those elements feel like afterthoughts with weak connections to the central plotline and little thrill factor. Steckley's black-and-white illustrations evoke the cluttered, mad-scientist feel of Rube's workspace, even if some don't always match the text's descriptions. Illustrations cue Pearl as Black and most other main characters as White. Moving parts and missing pieces don't make for a successful machine. (Mystery. 8-12) COPYRIGHT(2021) Kirkus Reviews, ALL RIGHTS RESERVED.

Reviews by: School Library Journal Gr 4–6—In a new series based on a fictionalized version of the infamous inventor, Rube Goldberg loves to create contraptions. With his dad working out of town all the time, his mom deceased, and his grandmother dropping off the occasional casserole, Rube is able to spend his days and nights working on projects. After a summer of isolated machine building, Rube starts sixth grade at Beechwood Middle School. When the principal of Beechwood announces the school's Con-Con, or Contraption Convention, Rube withdraws even more from his old friends Boob (yes, Boob McNutt) and Pearl Williams. Rube's new and unlikely friend, Zach, drives a wedge further between Rube, Boob, and Pearl, as Rube elects to spend time working on inventions with Zach to prepare for Con-Con. Suspicions mount, strange things happen, and friends say all the wrong things as the competition draws nearer. With the exception of the curse of a haunted doll found in the woods, a few supernatural disturbances at the school, and an international criminal disguised as the new science teacher, Rube's induction into the middle school experience will be highly relatable to kids making this transition. Lively cartoon illustrations convey the spirit of the characters, while italicized passages convey Rube's thoughts. Rube and Boob are cued as white, and Pearl is Black. VERDICT With middle school humor and entertaining images, Rube learns to navigate strange and difficult situations in this first installment of the "Rube Goldberg" series.—Lindsay Persohn, Univ. of South Florida Sarasota-Manatee

Reviews by: School Library Journal Gr 5-8-McGee's debut novel offers readers a plot-driven and action-packed whirlwind tour around the world. Ryan Quinn and his family finally settle down in New York, when someone shady starts following him. Then his mother gets kidnapped and his dad goes missing (he was supposed to be in Thailand on business). Ryan soon finds out that his parents both work for the Emergency Rescue Committee, an organization that saves rebels around the world from certain death. And they have been training Ryan for this dangerous work his whole life. Ryan wants nothing to do with it, but he feels compelled to take action to find his dad and save his mom. Readers will root for Ryan and feel sympathy for him because of his situation. Secondary characters are mostly formulaic. The writing seems more like a screenplay, with many play-by-play action scenes. Despite the beautiful settings in which Ryan finds himself, there isn't much in the way of description, making this best suited for kids looking for a fast read with an emphasis on plot over character development. VERDICT Ideal for fans of Alex Rider and libraries with a large action fanbase.-Rachel Reinwald, Lake Villa District Library, IL Copyright 2016. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

#2024643 (Vol. 02) Ryan Quinn and the Lion's Claw (Hardcover (Trade))

written by Ron McGee

Ryan Quinn has never been a normal kid, and after everything that happened in Andakar, he's about as far away from normal as could be. His parents want him to forget all about his death-defying escape, his role in the Emergency Rescue Committee, and the fact that they've been keeping secrets from him his whole life. But forgetting just isn't an option for Ryan--not when there's a traitor in the ERC who's looking to ruin Ryan's parents and expose the whole organization.

Reviews by: School Library Journal Gr 4-6-In this second installment, the intrepid Ryan Quinn knows something is going on with the Emergency Rescue Committee (ERC), the organization that his parents work for. He also knows that his parents are hiding something from him. When a stranger, Lawrence, shows up one night in his house, claiming that his friend and music partner, Nadia, was kidnapped, Ryan gets down to business. His parents are away on other ERC business in Chicago, so Ryan and his friend Danny decide to make themselves honorary members of the ERC by sneaking onto the plane that is taking Nadia to Africa. While trying to save the two musicians, Ryan courageously treks through dangerous but scenic routes in Lovanda and sees firsthand the political unrest there. He also discovers the big secret about his past that his parents have concealed. Meanwhile, his other friend Kasey helps hunt down the traitor who is selling the identities of the ERC rescues. The characters are flat, and there is more telling than showing, but this is a quick, plot-oriented read. VERDICT An action-packed adventure that reads almost like a screenplay and should find a place in most collections. This will keep -reluctant readers in suspense, especially those who enjoyed the first title.-Rachel -Reinwald, Lake Villa District Library, IL Copyright 2017. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

#2342736 (Vol. 01) Shape of Time (Hardcover (Trade))

written by Ryan Calejo

Antares De La Vega is an adventurer at heart. He dreams of journeying across burning deserts, trekking through wild and uncharted jungles, sailing the furthest reaches of the seas-and yet, he's never stepped foot outside of South Florida. Until strange creatures come leaping out of lightning bolts to kidnap him. Locked away in a secret prison in the middle of the Bermuda Triangle, Antares meets Magdavellia, a mysterious and iron-willed girl who opens his eyes to a shocking truth: this world is a far different-and weirder-place than he's been led to believe. Every strange rumor, every wild theory, is based on truth.

Reviews by: Publishers Weekly Fourteen-year-old Antares de la Vega, who experiences panic attacks and whose cartographer parents vanished when he was very young, chafes at life's mundanity and has a burning desire to explore the unknown. The arrival of intergalactic strangers named Mr. Now, Mr. Minutes, and Mr. Hoursback kicks off a series of events in which Antares is chased by crocodile men and imprisoned in a secret Bermuda Triangle facility. There he meets fellow detainee Magdavellia, a prickly teenage girl who "could've been from anywhere in the world"; her robot companion; and Zamangar, an idiosyncratic elderly man with an escape plan. As the group work toward their freedom, Antares learns that the world is flat and far weirder than he ever dreamed, and that he's a pawn in an age-old quest to uncover a legendary artifact that promises immense power. In this freewheeling series opener, Calejo (the Charlie Hernandez series) presents a frenetic adventure that combines classic conspiracy theories with metaphysics and a touch of mayhem. Playful linguistic looseness ("This is wondificent!") and memorably rendered characters round out this exciting offbeat tale. Antares is multiethnic ("My dad was born in Mexico City and had Cuban heritage. My mom was part Indian, part Irish, and was born in Switzerland"). Ages 8: 12. Agent: Rena Rossner, Deborah Harris Agency. (Sept.)

Sam Abernathy (Trade)

#2095266 (Vol. 01) Size of the Truth (Hardcover (Trade))

written by Andrew Smith

When he was four years old, Sam Abernathy was trapped at the bottom of a well for three days, where he was teased by a smart-aleck armadillo named Bartleby. Since then, his parents plan every move he makes. But Sam doesn't like their plans.

Grades 4 - 6 Dewey# Fic AR Lvl 6.0 AR Pts 8.0 Lexile 1000

Quantity	Unit Price
1	\$17.99

Reviews by: Publishers Weekly Sam Abernathy's parents have just skipped him from sixth to eighth grade, the first step, they say, in getting him into MIT. This puts him in the same grade as James Jenkins, the boy he blames for the three days he spent trapped in a well when he was four years old, an event that has defined his life in Blue Creek, Tex. Sam is not interested in MIT, and dislikes survival camping with his enthusiastic father; what he wants most is to leave his small town and become a chef, a goal he pursues secretly to avoid disappointing his parents. Smith (Winger) makes his middle grade debut in this aggressively quirky story that feels overstuffed with cleverly written plot details (mini golf, armadillos, bank robbers, gospel music, aliens) that compete with as often as complement each other. Passages detailing Sam's time in the well offer uncertain connection to the rest of the story and raise more questions than they answer. The well-developed elements shine; as in Smith's YA novels, repeating jokes become funnier over time; but the book fails to coalesce even as it succeeds in over-the-top entertainment. Ages 8: 12. (Mar.)

Reviews by: School Library Journal Gr 5-8-In his imaginative, though at times flimsy, middle grade debut, Smith explores the backstory of Sam Abernathy, who first appeared in the 2015 YA novel Stand-Off. Seven years after falling into an abandoned well, 11-year-old Sam Abernathy can't shake his reputation around town as "Well Boy," especially now that he is in the same class as James Jenkins, who was partially to blame for the well incident. On top of that, Sam is stuck living the life his parents have planned for him, and Sam's desire to become a chef is nowhere in their blueprints. As Sam seizes an opportunity to make his cooking dreams come true, he begins to piece together recollections of the past that change the way he sees his own life and the people in it. Though Sam is a likeable character, readers may struggle to find the depiction of him as a four-year-old believable. Sam's inner thoughts as well as his dialogue with Bartleby, the sassy armadillo whose role throughout Sam's life remains unclear, are more typical of a young teenager than a small child. Still, Smith manages to deliver a unique story with moments that are both endearing and humorous. Readers may appreciate seeing two young male characters who defy the expectations for masculinity set by the people around them in favor of pursuing their true passions. VERDICT Though it fails to reach its full potential, this is a feel-good story with a quirky edge that will leave readers with a smile.-Lauren Hathaway, University of British Columbia Copyright 2019. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc.

#2181231 (Vol. 02) Bye-Bye, Blue Creek (Hardcover (Trade))

written by Andrew Smith

All twelve-year-old Sam Abernathy wanted to do was make the most of his last few weeks in Blue Creek before he has to say goodbye. Goodbye to the well he fell in eight years ago; goodbye to cooking at Lily Putt's snack bar; goodbye to his overdramatic best friend, Karim; goodbye to unsweetened iced tea at Colonel Jenkins's Diner every Saturday with Bahar (who he does not have a crush on); goodbye to his old life.

Sasquatch Hunters (Trade)

#2328787 (Vol. 02) Sasquatch of Harriman Lake (Hardcover (Trade))

written by K. B. Jackson

Everything Jake Nelson has wished for is coming true. He's finally getting to know his long-lost father, school is a lot less scary with best friends Jasmine and Lanny, and their company, Sasquatch Hunters of Washington, Inc., is taking off. When Jasmine's father invites everyone to a long weekend at their cabin on Harriman Lake, the kids jump at the chance. Legend has it that there is a treasure buried somewhere in the woods nearby, and the "hairy man" the lake is named after might be a Sasquatch. But the deeper they dive into their investigation, tricky puzzles, mysterious locals, and new friendships threaten to break the group apart. Jake may be able to follow the treasure's clues, but will he lose something even more valuable along the way?

Reviews by: Booklist Cauldron's Cove has embraced its history as a seventeenth-century haven for witches escaping persecution, by becoming a kitschy, Salemque tourist town. Unfortunately, that history includes a curse that's just been unleashed after 300 years. Its immediate—but unknowing—victims are four fifth-graders (Regan, Sofia, Bennett, and Darius), who have been unjustly sentenced to detention by their usually cool science teacher, Ms. Stein. Things get really weird when Ms. Stein pockets three of the kids' used tissues and yanks some hair out of Regan's head. The unnamed narrator conversationally follows the action as the kids try to figure out what the heck is
